## COX IS READY TO PLUNGE IN AND GET BUSY

Democratic Nominees for Presi-  
dent Anxious to Start Vigor-  
ous Campaign at Once

### Conference Due Soon

Next Week Will Likely See Heads  
Gathered for Mapping Out  
Campaign Offensive

By Herbert W. Walker,  
United Press Staff Correspondent.

DAYTON, Ohio, July 8.—The pres-  
idential campaign has been started by  
M. Cox who outlined early next  
week at a conference of Franklin D.  
Roosevelt, vice presidential nominee;  
Homer S. Curtis, chairman of the  
democratic national committee; and  
John M. Moore, Cox manager at San Francisco,  
and other prominent democrats.

#### BEST VICTORIOUS CAMPAIGN.

Cox outlined his plan to plunge  
into an active and vigorous campaign  
at the earliest possible date. Only the  
protests of many prominent demo-  
crats who have been making their  
views known is known.

The date depends upon the Cox-Roosevelt meeting after  
the naval officer reaches Dayton. Cox

plans to visit his home state, Jackson-  
ville, about July 15, and return to  
Dayton today to greet boyhood friends.

The democratic nomination is anxious  
to make the midwest its first base  
in the campaign. It got a good start  
into the campaign when it was an-  
nounced when he spoke to the Ohio  
golf association at the Dayton  
country club last night. Several times  
he was over to take up golfing  
questions but switched in golf. He  
told the golfers he will keep his part  
of the campaign free from bitter par-  
sonalities.

#### Will Remain Friends.

"Regardless of consequences, Sena-  
tor Harding and I will be the same  
political friends which we have been  
for many years."

Cox told how Harding and he had  
predicted their nomination af-  
ter the meeting of the Associated Op-  
position in the month ago when the  
association entered the two to head  
the party tickets.

Cox urged the golf association to  
concentrate on building up the game  
as the surest means of stimulating real  
means of stimulating real participation.

## TO ALLOW COX FULL CONTROL

Party Leadership to Rest Entire-  
ly With Democratic Nominees,  
Is Indication

WASHINGTON, July 8. (UPI)—Gov-  
ernor James E. Cox of Ohio, whose  
nominee will be allowed to take  
over party leadership without  
resistance by the Wilson administration,  
thus according to all indications here  
today.

#### Cox to Be Supreme.

High democratic officials from the  
president down have made it plain  
that when they take the controls of the  
party, Cox will be the spokesman of Cox  
and his campaign managers. Had there any disposition to  
make the campaign center at Wash-  
ington, Cox would have announced his  
plans for taking part in the presiden-  
tial battle and Cox would have had to  
accept his wishes, it was pointed out.

Another significant circumstance  
is no word of criticism of Cox or any  
of his acts has been made by dem-  
ocratic critics.

#### Wilson Fears In It.

As explained here today the atti-  
tude of the administration is that Wil-  
son will remain in the picture and  
leave his legacy of policies intact  
through the convention. Cox has in-  
dicated a willingness to stand on that  
plank and on a broad endorsement of the  
people.

There is a growing belief here that  
President Wilson's part in the cam-  
paign will be through written word  
rather than speeches and that Cox  
himself will assume the burden of  
carrying the democratic cause to the  
people.

## Immigration Problem on Coast Coming Up

SAN FRANCISCO, July 8.—All mem-  
bers of the congressional committee  
of immigration and naturalization had  
arrived here yesterday to prepare to start  
their inquiry into the Japanese  
and Chinese problems on the Pacific  
coast, particularly California.

Oral hearings were to have taken  
place today and tomorrow the com-  
mittee will journey to Sacramento to  
pay a visit to Governor Stephens.

Hearings will commence on the  
immigration laws and will also be held in Sacramento and, Fre-  
mier later.

## PROMINENT MISSOURIANS MUST TELL WHAT THEY KNOW OF CAMPAIGN FUND

Investigation Will Be Opened Tomorrow at St.  
Louis to Get at Bottom of Expenditures Made  
by Democratic Candidates; Activities of  
Palmer Also to Be Looked Into

#### LYNCHED REPUBLICANS, SAYS WITNESS

CHICAGO, July 8. (UPI)—That 80 per cent of the negro vote in Georgia is "outrageously suppressed by brutal forces" was the testimony here today before the Senate committee investigating campaign expenditures of Henry L. Johnson, the most celebrated national committeeman from Georgia. Johnson called for a complete dissolution of \$2500 offered to him by black men by Louis, a southern negro, declared that it was a "strange" offer to a republican in state in Georgia.

"In the last three or four years," said Johnson, "there has been a great exodus of negroes from Georgia.

"Every time the whites burn a cabin, many colored people leave the state for more kindly shores," he said.

In response to a question by Keayton as to whether men were lynched for helping republicans, Johnson answered in the affirmative.

"In 1888 a man voted for Benjamin Harrison and he hasn't been seen since," Johnson said.

Johnson testified that the London expenditures Georgia amounted to \$200,000, \$7000 of which, he said, he contributed from his own pocket. It was all spent, he said, in sending out circulars, postage stamps and traveling.

Johnson denied Attorney General Palmer's pamphlet in Georgia was blacked out by federal jobholders.

Johnson's testimony concluded today's hearing and the committee will  
travel tonight for St. Louis where an investigation into Democratic expendi-  
tures will be opened.

MARION, O., July 8.—Senator  
and Mrs. Harding are quietly  
observing their twenty-ninth  
wedding anniversary today.

The couple, who are in the  
midst of a strenuous campaign, had  
no time to celebrate yesterday.

AIRPLANES Searching  
for Fires in Forest

SAN FRANCISCO, July 8. (UPI)—  
From the United States Army  
aviation station here, planes were  
sent out as a special reconnaissance to  
report on the forest fire raging in the  
Lassen national forest district near  
Sheep camp, forty miles west of  
Redding, California.

The fire, which began on July 4 was reported  
fairly well under control. Seventy-  
five men are fighting the blazes,

which are reported to be in a pre-  
pared condition.

MOBILIZATION of All  
Turks Ordered Today

CONSTANTINOPLE, July 8.

nationalist leader, has ordered mobilization of all avail-  
able troops and rearming of all  
military units in Anatolia. It was  
reported fairly late today.

HOBSON MOVE BY BOLSHEVIK  
FORCES CRUMBLE POLISH LINE

LONDON, July 8. (UPI)—Smashing of Polish resistance along  
the entire front from the German to the Austrian borders was indi-  
cated in dispatches reaching here from many sources today.

Bolshevik forces carried out a well planned military maneuver  
by moving in pliers formation from Minsk to Rovno and have now  
concentrated their forces for a straight drive toward Warsaw.

Latest advice here showed that after having captured Mohilev,  
the red troops at Baranovitch and at Lutsk had closed in, allowing  
the rear guard to come up with advance forces. War office officials  
expressed belief that the Bolsheviks, having accomplished comple-  
te defeat of the Poles would not move onto Warsaw.

\*\*\*\*\*

Polish was admitted in a Warsaw message, which de-  
clared Polish volunteers were pouring into army headquarters for  
service against the Bolsheviks.

The Polish dist issued an appeal for postponement of all Ple-  
biscites "in view of the peril threatening not only Poland, but the en-  
tire civilized world." Premier Grabski of Poland has left Warsaw for  
Spa to ask allied aid for Polish arms.

\*\*\*\*\*

Southern Flank Collapses.

The Polish southern flank collapsed under strong Bolshevik at-  
tacks, resulting in capture by the reds of Stare-Kontantinov, Lut-  
skov and Podolsk on the Dnieper.

Romanian forces were reported being hurried to the assistance  
of the Poles. Romania has massed troops along the Besarabian  
frontier, but these are purely for defensive purposes.

## GERMANY MUST MEET PACT IN THREE MONTHS

Terms of Treaty in Matter of Dis-  
armament Will Have to Be  
Obeyed to Letter

### NO MORD TIME GRANTED

Government Has 1,000,000 Equip-  
ped at Present Which Causes  
Allies Misgiving

SPAIN, Belgium, July 8.—German  
and allied officials who attended  
the prospective German delegation  
today reported to the conference  
that they had been unable to  
reach a final agreement.

French Lloyd George, partly  
ordered them to resume discussions.

It was rumored that the Ger-  
man minister of defense  
had offered his resignation to  
Chancellor Eichendorff, but that  
he had reconsidered upon re-  
ceiving a report from the French  
that Germany would be allowed six  
months in which to demobilize  
their military forces.

Carl D. Gould,  
United Press Staff Correspondent.

SPAIN, BELGIUM, July 8.—Germany  
and France, with the other  
members of the peace treaty, have  
agreed to meet in Paris in three  
months. It was decided by the  
allies that Germany would be  
allowed to keep intact while the  
conference recessed.

The German request for 15 months  
time in which to demobilize was not  
met by a flat refusal. The disturbed German  
intended to have given res-  
ponsibility for the demobilization  
to 1,000,000 men armed.

Where Prester Lloyd George's deal  
had been based on why one  
should not be allowed to demobilize  
army and navy and others if  
army were still unaccounted for.  
After Sir Edward Grey's report, the British  
had decided that armament was  
not to be allowed to the Brit-  
ish government that they obtain.

General Von Seckendorff, chief of the  
German general staff, argued that  
if Germany was to be allowed to  
keep intact armament, it would be  
impossible to collect the titles in the hands of  
soldiers and former soldiers in outlying  
districts. He then said Germany  
would not be allowed to do so.

HOBBON SEEKS  
COX STATEMENT

Effort Made to Obtain Noncice's  
Stand on Prohibition Issue in  
Country

DAYTON, O., July 8. (UPI)—Governor  
James E. Cox today advised the  
American Legion and other  
leaders and representatives of the Anti-  
Saloon League, to make a clear  
definition of his position on the prohi-  
bition issue.

In a telegram from San Francisco,  
Hoobon declared that a statement  
from Cox to the effect that he was  
open to the interpretation that the  
noncice stand on prohibition should be  
clarified to the public.

Polish forces have begun a re-  
grouping in Volhynia preliminary  
to an offensive against the  
Ukrainian forces. Warsaw has  
denied that a great battle  
was developing along the  
line of the Polish front.

Nonpartisans Hold  
Lead in Dakota Race

FARIS, N. D., July 8.—Governor  
J. E. R. Johnson continued to increase  
his lead over W. L. Ganger for the  
Republican nomination for governor.  
The nonpartisan League incumbent,  
2,000 precincts ahead, was  
elected by 6 o'clock.

Non-partisans also were suc-  
cessful in naming a candidate for  
United States senator. Dr. F. E.  
Warren, the noncice, was elected.  
Candidate of the independent voters  
association was successful in two of the three  
congressional districts by returns to date.

REVOLUTION IN BRUNSWICK IS  
FEARED; GENERAL STRIKE NEAR

LONDON, July 8. (UPI)—A new  
revolutionary movement is  
developing in Brunswick, which  
is rapidly leading to a  
general strike.

London police said they will  
not get the first draft of his  
speech well out of the way.

Warren G. Harding virtually  
denied the charge that he  
will be the standard bearer of the  
Revolutionary party.

If he is not allowed to keep the  
lead he will be forced to give up  
the lead.

## SEE ONLY ONE SIDE

ACTIVE work is being carried on in congress, and with it no small volume of propaganda is being spread throughout the country, to secure the enactment of a law providing for the compulsory introduction of the metric system of weights and measures. When the reformers get to thinking about these things they put up their sleeves and plunge into the task, never stopping to think that in making any radical change of this nature millions of people will be inconvenienced and that there would doubtless follow losses that would also run into the millions.

The metric system boomers seem to have given no thought whatever to the vast amount of money that would be involved in the change. Or have they this in view, and is the agitation being carried on by those who are looking for business through the introduction of scales, measures, gauges, instruments, books, etc.?

Transportation lines alone would be required to make an outlay tens of millions of dollars if the change is to be made. The calculations of the Interstate Commerce Commission are all based upon the present system, and an infinite amount of work would be required to change them. All the present plans, from the right of way through every department of a railroad would be disturbed and changed, and employees who have been educated and trained under present conditions would lose their usefulness through unfamiliarity with new conditions. Freight and passenger tariffs would have to be revised, a work which would involve the labor of experts for months and the outlay of a vast sum of money, while every platform or track scale would have to be remodeled to meet the requirements of the new measure.

One might go through the varied industries, and he would discover that each one would be disturbed and would find itself under a new burden of expense. The millions that would be expended in taking the necessary change on transportation lines, and in all commercial and industrial work, would in the end be paid for by the public.

The advantage to be gained is nothing in comparison to the cost that would be caused.

## GREATEST FORCE IN THE WORLD

THE other day two men were arguing as to what is the greatest force in the world. One contended that steam holds first rank, while the other held out for electricity. Both argued their sides with a great deal of skill. They were both wrong. The greatest force in the world is an idea. It is the foundation of all force. "Allah God and Mahomet is His Prophet," an idea originating in the brain of Arab more than thirteen hundred years ago, united the people of the east on one religious basis and laid the foundation of a great empire.

"The earth is round," an idea not original with him, but becoming firmly fixed in the mind of Columbus, added a new continent to the then known world and changed entirely the current of history.

"Light without flame," in the mind of Edison gave us the many wonders we know in the electrical world, most of them the result of his work of this master mind.

"This force can be harnessed," an idea in the mind of George Stephenson, when he saw the steam jolt the kettle-lid, gave us the locomotive and resulted in innumerable changes in the work of the world.

Back of any great work, the moving force is an idea in the brain of a man—and that creates still greater force.

he prohibited.

"Political recognition of any Russian authority, exercising or claiming an exercise of power, is neither granted nor implied by this action." The individuals in question, having this understanding, trade with Russia will do so entirely on their own responsibility and at their own risk. The association with the United States will not extend to its citizens trading or traveling in a recognized country—Russia.

Passports Still Withheld

The prohibition of travel from Russia to America, and vice versa, was as large as Wall Street was pleased with the majority in the last month. The general idea seemed to be that the enterprises was discounting an improved financial situation, and probably he will make a drive into the west at an early date. Cox is confident he can win this election.

He will go to Columbus next week. He said he did not know whether official notification could be there or here.
