

Wage Increases Six Hundred Million IMMENSE FUND IN COX DRIVE TO BE NEEDED

Estimated That More Than Three
and Half Million Will Have
to Be Raised

Surpasses Past Years

Cost of Campaign Commodities
More Than Doubled, Is Reason
for Increase

TO PRICE SUFFRAGE
COLUMBIA, Mo., July 20.—The
first action of the democratic
committee on meeting here today
to frame campaign plan was to
use a resolution of the national
suffrage amendment by Tennessee.

This was followed by the ap-
pointment of a subcommittee of
12 members to confer with Goy-
ernor Cox and Franklin D.
Roosevelt on the campaign.

Then the national chairman,
Ed. H. Moore, Cox campaign manager
who refused to accept the char-
man's report, submitted a plan
which is expected to report at 4 o'clock.

COLUMBIA, Mo., July 20.—After
a two-hour conference at Gov-
ernor Cox's residence today in
which the governor, Franklin D.
Roosevelt, and Ed. H. Moore,
Cox campaign manager who re-
fused to accept the char-
man's report, submitted a plan
which is expected to report at 4 o'clock.

JACK JOHNSON UNDER ARREST

Pugilist Crosses International
Line and Is Taken in Custody
by Officers

SAN DIEGO, Cal., July 20.—Jack Johnson, fugitive pugilist, crossed the international boundary from Mexico into the United States armed with a revolver, and was arrested on a white-
state charge. Johnson came across the line with Sheriff John Cline of Los Angeles, and was held in custody until Saturday, after an absence of several years. Deputy Sheriff George Cooper of San Diego county, who arrested him, said he was
arrested charging Johnson with white
slavery.

Johnson then got into a machine and was driven to the San Diego county jail. It is expected that he will be arraigned this afternoon and arrangements made for bail.

CHICAGO, July 20. (UPI).—Jack Johnson, fugitive pugilist, reported arrested at the San Diego county jail and turned over to the United States marshal on his arrival in Chicago to be taken immediately to Fort Leavenworth, Kan., where he will remain in the office of District Attorney Charles E. Clegg today.

"There is nothing to do with John-
son except to send him to Leaven-
worth," said James A. Miller, assistant district attorney. "He has been arrested and the decision was af-
firmed in the circuit court of ap-
peals."

Atonement Demanded For Mexican Raids

WASHINGTON, July 20.—The
American counsel in Nuevo Laredo, Mexico, has demanded amende-
ment of the Mexican authorities
for raids by troops of the De La
Rosa government on the frontier
yesterday morning on the ranch of Alfred
Matthews, an American citizen at
the head of Nuevo Laredo, the
Mexican department announced to-
day.

Mob Storms Jail; One Killed, Two Wounded

DURHAM, N. C., July 20.—One
man was killed and two wounded
when a mob of 200 men stormed
the county jail, at Durham, N.
C., where three negroes accused
of assaulting Mrs. A. A. Hilde-
brand, were confined.

FACTS IN RAIL AWARD

Number of workers affected 1,804,287.
Total annual wage increase approximately \$100,000,000.
Wage board began hearings July 3, 1919.
Personnel of labor board, three representatives each for
labor, the roads and the public.
Demands of workers 28 to 66 per cent increases.

CHICAGO, July 20.—Railroad wage increases totaling almost
\$100,000,000 were awarded today by the U. S. Railroad Labor
Board.

Union heads and late session
members decided after the
printed decision had been made
public. They expected to their
approval or disapproval before
award, to know whether business
would move ahead now or
whether it will continue to be
hampered by strikes.

The first awards for the
most part were on hourly basis,
ranging from 13 to 15 cents
per hour, for the more poorly
paid workers in the railroads.
The award for the higher grade
such as train and engineer.

"The increases, roughly, averaged
from 28 to 66 per cent. The
business has moved ahead now
from 30 to 66 per cent.

Table VIII Pay

Judge R. M. Burton, chairman of
the rail labor board, said unanimous
award of 66 per cent had been
made to all railroads.

"This award necessarily in the end
will have to be paid by the public
and will result in increased freight
rates."

"Efficient railroad service has been
difficult and sometimes impossible
with the men replacing the Wabash
and the men who have come in
in this company and intricate problem."

E. T. Whiter, chairman of the exec-
utive council of railway managers,
said after a cursory reading of the de-
cision said:

"I have not read the decision en-
tirely, but I can say that the re-
sult will abide by the board's deci-
sion."

Table to Consider Award

Timothy Shee, head of the streamer
brotherhood, said early that the
union would be satisfied early
at a meeting of nearly 2,000 union
leaders and a formal statement
made after each section the award
had been completed.

The decision, after a preamble set-
ting forth the history of the board
and the difficulties in the way of
freight increases, were given \$100,
000,000.

The decision, after a preamble set-
ting forth the history of the board
and the difficulties in the way of
freight increases, were given \$100,
000,000.

Engineering were included in the
final section. All passenger engi-
neers were given eight-tenths of a cent
a mile increase or 80 cents per day.
Freight engineers were given \$100,
000,000.

UNION HEADS CONFER OVER WAGE AWARD

Chief of National Railroad Organi-
zations Go Into Conference
Today to Determine Acceptability
of Increases; Decision May
Be Known Tonight.

Men Seem Satisfied From All Indication

Attitude of All Unions Involved
Will Be Represented in Pending
Stateing.

CHICAGO, July 20 (UPI).—Rail-
road workers' representatives here
assembled this morning today
to determine the acceptability of
the United States Rail Labor
Board's decision, to break up into
small groups, to break up into
smaller bodies, more or less
according to the nature of their work.

The transportation group, com-
prising engineers, firemen, and switch-
men, was the first to meet. The
switchmen were awarded 66 per cent
and were satisfied.

Subordinate officials were not im-
pressed in the least.

The telegraphers and telephone
agents were included in the fourth
section, which covered agent tele-
graphers, telephoners, lever men, block
men, and switchmen.

These groups were awarded 66 per cent
and were satisfied.

The switchmen were included in the
final section. All passenger engi-
neers were given eight-tenths of a cent
a mile increase or 80 cents per day.
Freight engineers were given \$100,
000,000.

BILLY SUNDAY THINKS G.O.P. PLATFORM DRY

Evangelist Opposed to Entering
Race as Vice Presidential
Prohi Nominee

But May Change Mind

Decrees That 18th Amendment
Must Stand, However, With-
out Any Alteration.

HODD RIVER, Oregon, July 20 (UPI).—Billy Sunday is disinclined to get
into politics, but if William Jennings Bryan thinks he can be useful in his
cause, he will stand as vice presidential
nominee if existing circumstances
make it possible under the provisions of the eighteenth amend-
ment to get into effective action.

That was the evangelist's reply
when asked if he would accept the
vice presidential nomination if the
prohibition party did not nominate
him.

Although Sunday has great strength
on the command of the commoner, he
said he considered the republican
candidate sufficiently strong for a
few more weeks.

The sixth of the latest series of car-
bonades gave the reply. The
carbonade was issued yesterday.

The shock was much faster than
the fall Friday and lasted only
a few seconds.

Although Sunday has been reporting
since yesterday's tremor, although
the persons in the downtown section
have made their way to the streets,
there has been little damage.

At 6:30 a.m. Sunday, the
sunrise, the shock was still
vibrating.

The shock was continuing.

A fresh breeze sprang up
and the sunshines making it prob-
ably certain the race would be
ended before the time limit of 6:45.

Results were 9 minutes
behind the Shamrock.

The record time on the
race track was 1:58.01.

The record was 1:58.01.

It is not only our duty to make the right known but to make it prevalent.—EDMUND HICKIE.

OTTO KAHN'S VIEWS.

THE views of Otto Kuhn of New York are fairly well known, but in his new book, "Our Economic and Other Problems," they are set forth for all to see, come hard and refer to, "it was a right instinct" says Mr. Kahn, "which had guided the people under President Roosevelt's leadership to determine firmly and mistakenly, that the time had come to regard the pioneer period of this country's industrial and economic development as at an end, to revoke the latitude which had been tacitly accorded during this period, to insist on strict adherence to the rules of business conduct laid down by the law, and to punish any violation of such rules, by whomsoever committed high or low. It was salutary and timely to bring home to corporations and individuals, however powerful, the respect and fear due to the law, and use all means at the government's disposal to visit upon dishonest practices condign punishment."

"But," adds Mr. Kahn, "the people themselves and their chosen representatives cannot, in fairness, be entirely absolved from responsibility for the regrettable excesses which were engendered by the period of vast national development from the close of the civil war to the first years of the present century."

Mr. Kahn arranges the inadequacy of the law under which the Interstate commerce commission has worked. "The Interstate Commerce commission being at the same time prosecutor, judge and jury may assuredly be termed a negation of the rule principle from which the American system of government springs." But this law has been radically amended by the transportation act of 1920. Speaking of the advantages and dangers of privately-owned and government-owned railroads, Mr. Kahn says: "The two things, that private management and permanent government guarantee of earnings are simply not reconcilable. The railroads cannot eat their cake and have it. Practically all railroad men recognize public regulation is here to stay. It is the faultiness and inadequacy of the law under which the Interstate Commerce commission works and the multitude of masters under whom the railroad have to serve, that constitutes their main grievances and that cries for reform. On this commission, which has greater power concerning the industrial life of the nation than is exercised by probably any other tribunal, may where in the world, there has never yet been appointed a man who came to it qualified by first rate experience in railway operation, or by broad business experiences, or any considerable experience in matters."

TOO LARGE ALREADY.

THREE is cause for dismay to any serious student of the federal government in the announcement, by the chairman of the committee in charge of the next appointment, that as a result of the present census the House of Representatives is in danger of being increased from 435 to 500 members. The House has long been too large for the efficient performance of its duties. Each 10th year, following a new census, comes a further increase. This is due to the selfish opposition of members from states which have not grown. They fear retirement as a result of the larger population which each member must represent if the total number of representatives is not increased. Already the convenient physical limits of the hall of the House of Representatives have been reached. If the House should take the bull by the horns and decrease its membership by 50, instead of increasing it, much good would result. But that can hardly be expected. The only hope in the other direction is a demonstration as a result of continued growth that there must be changes in the methods of doing business and in the form of organization.

TOO LARGE ALREADY.

A MEMBER of the Idaho State Legislature, Mr. W. J. Pringle, of Idaho State Penitentiary, has introduced a bill to shorten the time of trial for capital offenses.

TOO LARGE ALREADY.

THREE is cause for dismay to any serious student of the federal government in the announcement, by the chairman of the committee in charge of the next appointment, that as a result of the present census the House of Representatives is in danger of being increased from 435 to 500 members. The House has long been too large for the efficient performance of its duties. Each 10th year, following a new census, comes a further increase. This is due to the selfish opposition of members from states which have not grown. They fear retirement as a result of the larger population which each member must represent if the total number of representatives is not increased. Already the convenient physical limits of the hall of the House of Representatives have been reached. If the House should take the bull by the horns and decrease its membership by 50, instead of increasing it, much good would result. But that can hardly be expected. The only hope in the other direction is a demonstration as a result of continued growth that there must be changes in the methods of doing business and in the form of organization.

THERE is no more beautiful place in the world than Shoshone Falls, in the state of Idaho, and in the back yard of Twin Falls. There is no reason why tourists should not come to Shoshone instead of going to Niagara. All Shoshone needs is a little advertising and a little boosting.

Sir Thomas Lipton's hair has whitened since he came over 17 years ago to "lift" the cup, but the vigor of his good sportsmanship is undiminished. May the best boat and the best seamanship win!

For the first time in living memory, histories one of our remaining clients, all four candidates are clean-shaven. He wonders where the mustache and whisker vote will go.

The historian may have to explain that the extra dry champagne taken from Baron de Mumm's cellars contained more than one-half of 1 per cent of alcohol.

When there is nothing doing in the world in general and with the political conventions adjourned, the news head writers can always fall back on Mexico.

Villa is said to be seeking an armistice but it is hard to believe that the Mexican will press the matter closely for if the wars end he will be out of a job.

Chairman Hayes's objection to barnstorming seems to be based on the possibility of taking the burns by storm.

The Elwell case might be more aptly termed the ill will case.

Public Forum

ABOUT PRISONERS.

To the Editor: An article appearing in the Idaho Statesman of June 25th under the heading "How Homer Street Works" among Convicts of Idaho and Benewits of the penitentiary very much interested me. The article is for the most part manufactured, and is intended to help the reader realize that everything is being run for the best interest of the people. These accusations of the author were fully驳倒 in my attempt at refuting them.

The assertion: "Inmates improved in mind and physique by labor in prison" is well founded, but the fact that the number of prisoners at present is about 2000, greatly exceeds the capacity of the prison, so far as everything from unlighted streets to eggs at a dollar a dozen, proves out.

The author's statement: "The inmates are well fed, and the water supply is good for their system of reform" is not true. The water supply is not good for the inmates, and the water is not good for the health of the inmates.

In the spring of 1919 this ditch was abandoned and an approach was made to the water supply of the Idaho Power company, was tapped and a line was installed, in lay the pipes and get the pumping.

"This ditch is not good for the inmates, and the water supply is not good for the health of the inmates."

The author's statement: "The inmates are well fed, and the water supply is good for their system of reform" is not true. The water supply is not good for the inmates, and the water is not good for the health of the inmates.

The author's statement: "The inmates are well fed, and the water supply is good for their system of reform" is not true. The water supply is not good for the inmates, and the water is not good for the health of the inmates.

Crops For Sale

With Lease Privilege

Sickness compels me to offer at sacrifice price. The growing crops of wheat, alfalfa and barley have been left on the 80 acres. I have leased close to town about equal acreage of each.

Buyer will have the preference in the opportunity to continue my lease for two years and use of good house and barns.

This is optional, however.

A bargain for somebody with \$4500 cash.

Team and equipment included.

I must leave at once, hence the low price to insure a quick sale to responsible party.

If interested and can close a cash deal address Box 24, care of Times.

TO BE SOLD AT PUBLIC AUCTION Taken up at the village of Mira, one barrel mare cut, 2 years old, black mane and tail. No brand. \$1,000 or will trade for automobile. Address Box 78, care of Times.

BABE RUTH IS WORLD MARVEL

With Two More Home Runs,
Swat King of New York Yanks
Makes New Record

NEW YORK, July 20.—With two more home runs, Babe Ruth, the swat sultan of the New York Yankees, made a new world's major league record yesterday when he hit his 200th home run.

Phucky Little Dick Kerr, taking the chance that few pitchers are taking these days, growled a couple for the Yanks and gained his 19th record of 29.

Beyond all doubt the mark made yesterday is a major league record because it is the first time that Ruth equal the mark of 19 made by Perry Werden of the Minneapolis Western League in 1902.

Yesterday, Kerr yesterday made 14 out of his 31 on southpaw pitchers usually considered an enigma to left hand hitters. It was also the fifth home run Kerr has contributed to the Bronx Bombers.

Pendock of the Red Sox has also donated three to Ruth and Letty Williams of the Yanks have been hit for a total of 11. Other players who have bunched for a home one by Babe are Jones, Karr, Bush of the Red Sox; McDowell and Fisher of the Indians; Gehr, Wagnleitner and Burwell of the Browns; Leonard, O'Brien, Oldham and Elshane of the Tigers; Johnson, Zachary, Carlson and Himes of the White Sox; Myers of Cleveland and Bishop and Perry of the Athletics.

**Indian of 80 Winner
of Ute's Sun Dance**

GALO-LAKE CITY, July 20.—A man 80 years old was the winner of the annual Sun Dance competition, which participation in the annual sun dance of the Ute Indians on the Plateau.

**Future of France
Depends upon Fish**

PARIS, July 20.—England's victory in the boat may have been won on the water, but the future of France's future depends on a diet diet. If the energies of the Minister of the Merchant Marine are directed toward the fishery, the future of France is assured.

The Government apparently supports the view of scientists that fish are the chief source of brain tissue and has voted \$100,000 for this year's development of fishing ports and the replacement of small boats used in the fishery. The principal ports to be remodeled immediately are Boulogne, La Rochelle, Le Havre and Port du Bouc on the Mediterranean coast. The Minister said that the cost of fish will decrease until whole families may be fed on less than the cost of a small breakfast or horse meat.

BROWNS IN SIGHT OF PARENTS

He got into Lake Washington, held Mr. Carter, 14-year-old son of Mr. and Mrs. Carter of Seattle stopped deep water to rescue his mother, his parents, who had rushed into the water, but were unable to reach them. The boy was found in a short time, his efforts to resuscitate the last proved futile.

POTATO GROWERS TALK SALES

CALDWELL, July 20.—Boise Valley Potato Growers' association convened in Caldwell for the purpose of discussing the present situation and problems of marketing this year's potato crop. Between 150 and 200 men were present at the meeting.

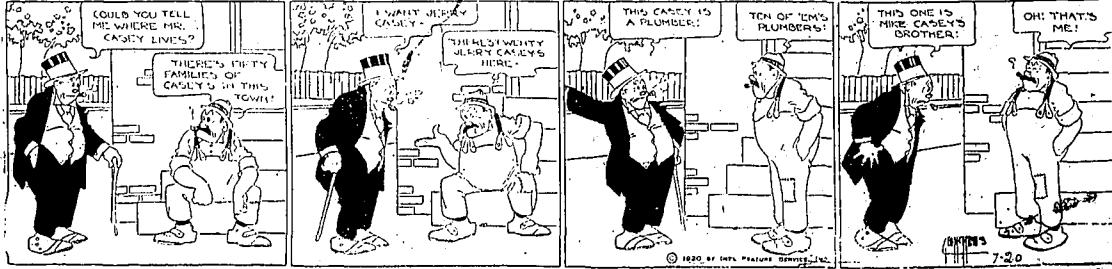

Explanations were given by members of the department of agriculture made interesting talks upon the present and impending market of the potato potato market.

The organization was discussed and it was voted to assess all Canyon County farmers 10 cents per bushel to pay for the inspection, titration of refrigerator cars and seed tubers.

The consensus of opinion of the farmers was that the potato crop generally would not be as heavy as last year, due to the fact that many of the potato growers planted disease seed.

Harvesting of potatoes will begin in some districts about July 20, and it is expected that the real shipping season would commence about August 1. W. F. Verner, president of the association, said that the best information that he had received in the state would be obtained, making the inspection service this year at least 25 per cent more efficient than last year.

Retail Prices Go Up 2 Per Cent in Month

WASHINGTON, July 20.—Retail prices increased two per cent in the month ending June 15, the latest department announced today. At the same time wholesale prices decreased one per cent, according to the announcement.

Twin Falls Daily Times, \$6.50 per cent more expensive than last year.

BRIEF NOTES OF SPORT INTEREST

Young Barack suddenly believes he is still the greatest swimmer in the Japanese team and she is going to Antwerp. He has had a great deal of trouble with his coach, the A. A. T. in Australia failed to select the temperamental Fanny on the Australian team, but she is going to compete with another Japanese swimmer defeated in this country by Charlotte Boyle and Ethelia Hetherley that these and other girls have improved considerably.

"Tempo wants action," says an eastern sports head. All right, now let's hold him back.

Every so often various sections of the Japanese press print lists of records put up by the swimmers. These are now listed in the "blue book of records." It is an old story and in a year or two the tempo will again be reporting the strides and prides of wrestlers.

What Smart Women Wear

By ALICE BEADY

Novelty Handkerchiefs—Future in Artificial Flowers—The New French Corsets

Every week designers and dressmakers come up with new ideas. Color cannot be substituted for broad "what was ain't." The latest instant is that it is impossible to find in New York City a plain white lace handkerchief of even moderate quality. The new designs make it necessary that we need to get for lace and even thirty-five cents now costs a dollar.

But the most popular and other feature of lace has been greatly improved what would be termed "fancy" or "novelty" handkerchiefs, yet their price remains about the same as the plain ones. So that when I went out myself with a fresh dozen the other day I chose had of them the most attractive. In which of these do you have some plinths? In order to get value for my money, I am asking you this, that you may take advantage of the opportunity to go to the store yourself go to buy. Though perhaps the handkerchief situation is better now.

The first sketch shows some of the new pocket handkerchiefs, neatly imported. There are handkerchiefs of lace with blue and white squares, with white borders, or of white with colored borders, the colors being everything from green and brown to rose and blue.

But the most popular and other feature of lace has been greatly improved what would be termed "fancy" or "novelty" handkerchiefs, yet their price remains about the same as the plain ones. So that when I went out myself with a fresh dozen the other day I chose had of them the most attractive. In which of these do you have some plinths? In order to get value for my money, I am asking you this, that you may take advantage of the opportunity to go to the store yourself go to buy. Though perhaps the handkerchief situation is better now.

I was led into buying a hat, last week, through first buying a wonderful hat, and then buying a coat, and then on the counter, a cabbage pin, large and lucious, gay and Future-like. I then deliberately stepped in blue, white and green, with white squares, in the center, extra small size handkerchiefs the color of lace, handkerchiefs of colored linen with colored edges. Handkerchiefs in with various patterns of lace, and others in check, first and second patterns in check.

THE SPHEREBOARD

BRINGS SPHEREBOARD IN GOLD

NEW YORK, July 20.—After having 347 third class passengers registered for the reclamation of the sphereboard at July 24, in conjunction with the visit of the Emperor of Japan, the sphereboard was taken off, made illegal by the American government. Yesterday the sphereboard, dappled with \$14,500,000 in gold coins, was handed over to Kuhn, Loeb & Co. in the second game. The king made record 31 for the season. The Yankees split even, winning the first in the 10th, 2 to 2 and losing the second 3 to 2.

Wichita Indians, under the leadership of the Indians, beat the 29th League Brown's 9 to 4. Griffith got his first hit this month, and Sweeney made his first error in 26 games.

Jim Vaughn helped win his own game 5 to 0 from the Braves, with a home run.

Manager French started in the ninth as a pinch hitter and drove in two runs. Here's the score. The Indians had 12 hits, however, and the Cardinals had 10. Philo, 2 to 2, when Sweeney doubled and scored the winning run.

The Indians split even in a double header with the Red Sox, winning the first 10 to 6 and losing the second 5 to 4.

Manager's wild throw in the eighth inning to bring Ruth at first on, hurt Jake Daubert, score from third with the run that gave the Indians a 5 to 3 victory over the Dodgers.

A double ended homicide in used baseball carried the holder and his son to the hospital, and the victim to a little below the hips, and from there a short skirt of blue crepe was fastened to the tail to the lines, concealing the elastic attached to the sides and front.

The other example is an evening one, in which the lace is not necessarily visible, though it would serve equally well for a sheer summer blouse. It is all of heavy lace, but with a lace pattern that is not visible. The feature of it, however, is the manner in which the lace is cut away in the back to give complete visibility.

The first sketch shows some of the new pocket handkerchiefs, neatly imported. There are handkerchiefs of lace with blue and white squares, with white borders, or of white with colored borders, the colors being everything from green and brown to rose and blue.

But the most popular and other feature of lace has been greatly improved what would be termed "fancy" or "novelty" handkerchiefs, yet their price remains about the same as the plain ones. "Are You Getting Real Tobacco" says the Good Judge

There's more good, lasting taste in a little of the Real Tobacco Chew than you get out of the ordinary kind.

You don't need a fresh chew nearly so often—that's why it costs you less to chew this class of tobacco.

Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles

RIGHT CUT is a short-cut tobacco W-B CUT is a long fine-cut tobacco

—W-B CUT is a long fine-cut tobacco
