SUNDAY SCHOOL CONVENTION IS FINE SUCCESS

Hundreds Attend Tri-County Meetings and Listen to Splendid Addresses.

The Tri-county Sunday school convention held in the Christian church in this city during Sunday and Monday was a splendid success. It was opened by the pastor and the interest maintained. On Sunday afternoon Mrs. J. G. Hook, state superintendent of the Children's division, gave a splendid address on children's work after which Dr. A. M. Locker, international superintendent of Field Organization, gave the first part of an address on Religious Education and in the evening he gave the remainder of the address, which was a masterly one, and convinced the hearers that parents are teachers and must be so considered whether their teaching is desirable or otherwise; that the necessity of a man or woman's work was largely decided by the environment and the intelligence.

On Monday morning after the devotion, which were led by Rev. E. L. White and a beautiful solo by Mrs. J. B. White, Miss Ivy Wilson of Holes presented the cause of the Near East Relief in a very interesting and the attractive manner.

Dr. Locker then conducted the conference on church schools which were very instructive. Many questions pertaining to the vacation Bible schools were asked and were all answered in a very satisfactory manner. Dr. Locker having had much experience along that line, while it has not yet been tried in Twin Falls county.

In the afternoon the motion work of the convention was carried out; then Mr. Keeler, the general secretary for Idaho, explained the state and county work, and Mrs. Hook conducted a conference on children's work. The committee on resolutions expressed the thanks of the convention to all those who had contributed to the success of the convention, and especially to Dr. Locker and to the two hosts from Murfreesboro and to Mrs. White for their beautiful songs. There were delegates present from Giddion, Staley, Murfreesboro, Burley, Kimberly, Hahn and Knoll.

The thanks of the convention and all those attending are due Rev. C. L. Itonk, county president, who prepared the program.

OBSERVE APPLE DAY
SALT LAKE CITY, Oct. 28.—Governor Hamilton has set apart Saturday, October 30, as national apple day and the period from October 30 to November 6 as national apple week. W. M. Roylance of Provo has been appointed state chairman for the observance of the day.

Expects Booze to Comp From Canada

SEATTLE, Oct. 28.—Millions of American dollars will be garnered by booze runners bringing liquor into Washington state under the new regime in Canada, which will follow a wet vote in British Columbia, according to Donald, federal prohibition director for this state said: "I believe," the director went on, "that the high price placed on liquor in Washington state strongly influenced the British Columbia vote. Liquor will flow into Washington in an endless stream, unless some drastic action is taken to forestall it."

That good automobile equipment is in Washington from British Columbia, Director McDonald pointed out, and that more than 100,000 corporate agents to attend the sale.

McDonald pointed out decisions of the federal court, that state and federal laws on liquor enforcement are held to be concurrent in jurisdiction. Questions of validity of the state law, he said, are not acted before federal prohibition because of the fact that it was enacted before federal prohibition became effective and without any provision that it should carry out the provisions of the federal amendment.

The state law, he said, does not provide penalties for transportation and sale of the highest penalties to be met. A new state law, he said, could be framed to carry out the provisions of the national act, with more severe penalties.

HALLWAY IN A HURRY
 Political discussions are in vogue this week but in spite of them, and in the middle of them, there comes suddenly the average grown-up man's memory of burnt candies and hot fingers and the glowing grin of forgotten Jack-o'-lanterns. Halloween is near.

Jack Frost has touched the fodder in the shock and has painted the leaves with lively yellow and brown as a stage outfit for all the good times. In keeping with the spirit of merry-making, there have been some lively hours at the Blisau studio and considerable juvenile assistance in placing the elaborate Halloween decorations. Silhouettes of witches with their time-honored brooms are as numerous as shadow cats which are black as midnight and ferocious as to disposition; outlines of frolicsome bewitches and elegant old owls form the background for the thin faced pumpkins that are so cheerily wink and blink at the little tots.

One would suspect there is some special secret about it all and the boys and girls have been inclined to think it means popping corn over the two open fires in the attractive studio; or perhaps it is about apples on a string that are elusive enough to be bewitching.

Anyway it is lots of fun—and Halloween.

ROBBERY OF \$25,000
EL PASO, Texas, Oct. 28.—A \$25,000 robbery of the Mexican army was reported to have taken place yesterday evening. A service car were reported to have taken the watch containing the money and fled.

BREAKS WINDOWN POCATELLO, Oct. 28—A unique sort of burglary was committed about 5 o'clock this morning in the Fargo-Wilson-Wells store when an unknown individual, after standing across the street from West Lewis street, threw several big rocks through the large plate glass windows and appropriated several valuable suitcases and a number of pairs of blankets. A quantity of the loot was found by a police officer parked beneath the window but at a late hour this afternoon no arrests had been made.

To "Youthify" Gray, Streaked Hair

Ask anybody to guess how old you are and notice how their first approximation is directed at your hair.

To be answered "I can't be younger than thirty; I can tell by your hair" must give to any woman who is really forty or more a sense of pride and satisfaction.

But to become prematurely gray at 20 or 40, to look ten years older than you actually are—that is indeed a little experience. However, any woman can, with a bottle of Ironatone, restore to gray, faded and streaked hair all its original beauty and the identical color it had in girlhood, whether light golden, medium, dark brown or black. Ironatone is instant in results and absolutely harmless.

At all drug stores: 50c to \$1.50; two entire: "Light to Medium Brown" and "Dark Brown to Black."

Special Free Trial Offer
 For a free trial package of Ironatone, sent to The Kronton Pharmaceutical Co., 527 Campbell Hill, Covington, Ky., enclosing 11 cents for post-charge, packing and war tax. Tear this out—Adv.

Storage Supply Still Growing

The supply of storage water in Jackson Lake continues to increase, according to a report issued this week from the U. S. reclamation office at Burley. Following is the report:

Jackson Lake Storage Area Feet	
On October 15, 1920	162,240
On same date a year ago	86,000
For week ending October 15, 1920	8,433
For week ending October 15, 1919	5,509
Evaporation	1,000

From October 1 in October 1920 1,200
 For same period a year ago 34

JOY RIDES TABOO DENVER, Colo., Oct. 28.—After school joy rides will be a thing of the past for high school girls and boys here, according to a proposed plan of the mothers' congress. Means of eliminating the use of the automobile by high school students will be discussed by the board of directors of the congress November 1, it was announced.

Members of the organization declare that permitting high school students to have their own private motor cars has a demoralizing influence on the morale of the school. One of the aims of the congress is to urge parents to know what their children are doing after school, it was said.

The Times Job Printing Department is thoroughly equipped to do first-class work at reasonable prices.

LOAN IS APPROVED, \$600,000 to the Northern Pacific

WASHINGTON, Oct. 28. The inter-state commerce commission today approved a government loan of \$600,000 to the Northern Pacific for additional stock and improvements.

40 ACRES

HALF MILE SOUTH OF FILER

New bungalow, fenced, bearing family orchard. Price \$400. per acre; \$3000 cash, \$500 annually, 7 per cent, of \$5000 cash, balance 10 years, optional yearly payments 7 per cent.

RIPLEY & TIMM, Filer

What secret scandal made the wealthiest old family in New York adopt a pretty bookstore clerk?

On Monday a poor salesgirl in a bookstore. On Tuesday she was living in a Fifth Avenue mansion surrounded by every luxury, with jewels, autos, costly clothes, and a maid of her own.

Read the brilliant mystery story of New York Society by Kathleen Norris.

Pictorial Review

 OUT TO-DAY

THE BIG WHITE STORE

She'll never tell him but this is the truth—

Every woman is a bit of an actress. She goes on with her part in life, keeping everything smooth and pleasant, and well—just forgetting to mention a lot of things that don't go exactly right.

So you needn't expect her to tell you precisely what is on her mind, when you get so wrapped up in other matters for a considerable length of time, that you overlook some of the niceties—a remembrance now and then—which women so keenly appreciate.

All you can be sure of is that she DOES think about it—that she misses your thought and courtesy and that there is a shade of disappointment until you remember again.

Come to think about it— isn't there some such remembrance due from you NOW? Of course, there is and—just the thing!—a package of—

Roof Garden Chocolates

The dainty way they are boxed, the variety of flavors they offer and the rare enjoyment they provide, fit perfectly with the idea you have in giving them.

Take home a box of Roof Garden Chocolates TODAY—any one of ten assortments.

"The Chocolates Differ"

Preparing for one hundred and twenty million meals with Karo Maple for 1921

Last year American housewives bought over five million cases of Karo Maple. Delicious flavor, moderate price and wise buying.

Do you know that the makers of Karo Maple are the world's largest users of the purest and best flavored maple sugar?

That over a thousand tons of maple sugar from the finest maple groves in Vermont and Canada are used each year to make Karo Maple?

Karo Maple is pure and wholesome—its flavor is not an imitation.

Yet the price is so moderate that you can afford to serve it at every meal.

Try it just once, on some nice hot waffles, or brown pancakes. Or as a spread for bread or crisp toast.

If Karo Maple isn't the most satisfying syrup you ever tasted, at the most satisfying price you ever paid for a similar syrup, return the balance of the can, and the grocer will refund your money.

It is not only our duty to make the right known but to make it prevalent.—EDMUND BURKE.

THE SPRINGFIELD "DEMOCRAT"

THE Springfield (Mass.) Republican, in the past a staunch supporter of independent republican principles, should apply to the contents to have its name changed. Muddled under the policy of "independence," the Springfield newspaper has become one of the most pertinent advocates of the league of nations, unquestionably subscribing its former course of standing upon party lines. We find an criticism against the Massachusetts paper for presenting both sides of the question impartially and independently, but we most certainly do rise in protest against an independent policy which is not independent. In other words, we find serious criticism with the Republican's partisanship inasmuch as it stands for the Wilson league without qualification.

The Times in its editorial comment has tried to point out the danger of the league of nations as framed with the treaty at Versailles. The Times believes, with Mr. Harding and others, that the arrangement for preserving the peace of the world can be drawn up and put into action. Most particularly does the Times point to article two as a dangerous obligation, and no amount of sidestepping by Mr. Cox can change the obvious meaning of the words in this article. Is the Springfield Republican blind to these dangers? It does not seem within the possibilities of reason that a newspaper of the standing of the Republican fails to understand the vital importance of the United States will surely fall if it goes into the Wilson League. Only blind partiality can be said to be responsible for the attitude of the Republican.

It has been the contention of some few that the Wilson League is better than no league, and presumably the Republican feels the same way, on the theory that half a loaf is better than no bread at all. Upon the same theory, we wonder if the advocates of the Wilson League would feel it better to be half a criminal than none at all, or half a liar than none, half a sinner than none? Will the United States as a nation believe it the best course of action to become a party to obligations, signed and sealed, which it may repudiate? This point was recently brought out forcibly by Mr. Lodge and was printed in this column. Is the nation going to become a member of the Wilson League against which the senate and a majority of the people have many times registered their disapproval? These questions are pertinent. The appeal to sentiment without reason has been a stronghold of argument with the democratic candidate, and, as of 1916, the cry "He kept us out of war" won for Mr. Wilson. Mr. Cox undoubtedly hopes to repeat the victory upon emotional appeals rather than upon sane and dispassionate presentation.

The test will come next month. The campaign is dropping its veil and nearly all has been said that may be said, both for and against the league of nations, made the paramount issue by the democratic convention. We wonder, just because we are curious, what excuse will be offered when the votes show the immutable verdict of the people. And we wonder what the Springfield Republican will say to justify itself for its miserable lack of foresight? It may be well here to call attention to the words of Oliver Wendell Holmes: "To brag little, to show will; to errow gently, to brag; to pay up, to own up and to shut up, if broken."

FALSE ARGUMENT

WE quote from the Chronicle: "The power lies in his hands to either return the covenant or to keep it in the executive mansion where it now rests."

The "power" appropriated by Mr. Wilson to do as he pleases, we do believe will be restored to proper agents when Mr. Harding is elected. We do believe that the congress of the United States will have something to say, and that the Versailles treaty will be handled with all due consideration to our foreign obligations. We do believe we shall be a nation among nations, with a right to our own, and a right to determine if we wish to be made a conquest of European diplomacy. The danger in take argument in favor of the Wilson League is that someone somewhere may feel to believe it. Even if Mr. Cox is elected, he cannot have his final word in the matter of ratification because the senate will have a voice and a vote, and unless Mr. Cox has a majority stands helpless. So it is foolish to argue that Mr. Cox will put the league over. And it is likewise foolish to argue that Mr. Harding will abrogate the congress, and hide the covenant under his pillow.

STATE HIGHWAY BOND ISSUE

BY H. W. L. NIEMEYER,
Secretary Idaho State Automobile Association.

The needs for road-roads in our world opportunities, but rather being a debatable subject, their purchase, within our capacity, emphasize more thoroughly understood. Their then.

The fundamental fact to be kept in mind is that from the center of the town, the "commuter" and "trailer" to the village, trips of the country, as the case may be, that time is, and dollars are not of by. The limits of your community sense; that the widest and largest farms the points of each road where possible market must be found and people going to market turn and fostered for the products of the drive away from your particular corner, forest, mine and factories (usually or town instead of turning).

The high cost of living is not and driving toward it. These limits, north, neither is the "road road," will be extended or shortened as you wish. The prime reason for high cost is the community serves or fails to serve it to deliver maximum production at the lowest cost to the farmer and a saving to the consumer in the affairs of your community.

Waste, due to unimproved roads, is already estimated by the (two million dollar) lays the foundations developed in a congressional bill for an adequate highway program, to reach the appalling figure. Our present road roads cry for more than two hundred thousand dollars a year.

It is our American habit to haul of contact with man. In building the road, the cooperative cost of 250 million of these roads will be approximately \$250 million. The Lewis-Clark expedition fighting its way to \$50 per acre on the selling history say to conquer the northwest for its twenty-two million acres of the infant republic, is one of the productive farm lands. I believe it other countries have knocked the bottom out of prices. This is but the idle chatter of politicians for the records of the United States congress.

Let us not stop at praise, no invention, an creation of these things that have opened human genius, offers such possibility.

tion to mankind on a one that facilitates transportation. When Robert Fulton launched the Clermont on the Hudson river he little dreamed he had discovered these new worlds for which Alexander was vain, that he might conquer them. When Stephenson gave to mankind the locomotive, he foresaw that he had founded an arrow of conquest to smite the empire of Napoleon's men.

The Commonwealth of Massachusetts, when it was confronted with the problem of the abandoned farm, organized the farm bureau to get settlers on those idle lands, it soon found out the real reason why the farmer deserted those fertile lands. The answer was, "roads," which were in such condition that it was impossible to market the crops at a profit. An investigation carried on by the United States department of agriculture showed that the cost of hauling in wagons per ton mile of road highways, as compared with motor truck haulage, to be as follows:

Wagon	Truck
200	100
250	125
300	150
350	175
400	200

These figures merely demonstrate that with the advent of good roads that with the advent of good roads transportation facilities can keep pace with the highway, consequently reduce the cost of moving the products to the markets, thereby insuring a better profit for the producer.

We read much these days about how the imports from Europe and other countries have knocked the bottom out of prices. This is but the idle chatter of politicians for the records of the United States congress.

Under the provisions of the proposed bond issue, the several counties, highway districts, the federal government or any other interested persons, by private donations, or otherwise, may apply for portions of this fund by making a dollar for dollar, as provided by law, in different settlements of the state, counties and road districts have voted bonds for their particular locality and this bond issue will allow the state to get its share of the improvement.

Highways must be built, irrespective of political parties and the question be now up to the voters of Idaho. Remember! Your failure to vote "Yes" on the bond issue is equivalent to a vote against it. Let everybody vote "Yes" and be a honor for Idaho, the "Gem of the Mountains."

Is there any reason why the tourist traffic of the east should not be diverted to the scenic wonders of Idaho, the "Gem of the mountains," which are rich in variety? As the means of transportation are improved, highways in proportion to the improvements made, cease to be local and become semi-national.

Is there any reason why the tourist traffic of the east should not be diverted to the scenic wonders of Idaho, the "Gem of the mountains," which are rich in variety? As the means of transportation are improved, highways in proportion to the improvements made, cease to be local and become semi-national.

CITIZENS OF IDAHO ON November 2nd VOTE YES ON THE State Highway Bond Issue

The funds made available by this bond issue are made contingent upon the availability of co-operative funds to be supplied by Counties, Highway Districts, the Federal Government, Private Donation or any other source.

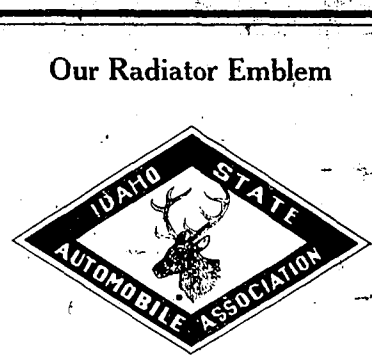

Organization:

The Idaho State Automobile Association was INCORPORATED as a Non-Profit Making body under the laws of the State of Idaho, on February 18, 1920.

Objects:

- The following are the principal objects of the Association:
- To thoroughly mark all the highways of the State.
- To compile and distribute to members without cost accurate road maps and touring information.
- To provide legal advice to members in matters relative to the operation of motor vehicles.
- To foster just legislation and rational financial legislation affecting motor car owners.

BEAR IN MIND: "THE ASSOCIATION IS DOING FOR YOU those things which cannot be done alone."

Are You a Member?

- To carry on our campaign of road improvement until practically every county has laterals connecting with the State Highway that are equally as good. The motorist can appreciate the value of this work in itself.
 - To secure a needed amendment to the State motor vehicle law.
 - To advertise Idaho Scenic Attractions and motoring facilities, and to attract to the State motorist from all parts of the world.
 - To be constantly on the alert to promote and to protect the interests of the motoring public.
 - Touring bureaus will be established in all principal cities of the State under rules prescribed by the Board of Directors.
- For further information, address:
H. W. L. NIEMEYER, Secretary,
Idaho State Automobile Association,
Nampa, Idaho.

OPERATOR IS DEAD NEW HAIR AROUND BALDNESS

This bungalow, strictly modern, six rooms, for sale, rent or trade for smaller house. Call 412 Fifth Avenue North.

Since the Days of the Goldsmiths

The goldsmiths of olden times, with whom banking had its beginning, undertook only to safeguard money and valuables entrusted to their care. Banks have increased their activities since that time until they have become an indispensable factor in the finance and commerce of all civilized nations. The modern business man who makes full use of his bank looks upon it as an institution dealing in business intelligence as well as money and credit. We invite business men to make use of all our facilities for service.
