only when I have evidence enough to show that the killing of Elwell was premeditated.

Elwell was slain because of a confederate map he had previously wrapped and later mailed to a Detroit woman.

The man was identified by his mother as being the same man who had been seen in Detroit in the days following Elwell's murder.

Elwell had the confederate map, said to be a map of the South, in his pocket when he was killed.

The Good MAXWELL

The Maxwell Motor Sales Corporation wishes to bear witness to the wonderful work of reconstruction accomplished by the new and powerful organization now manufacturing the Good Maxwell Motor Car.

The six great Maxwell plants in four cities have been brought to a high state of proficiency. Inventories have been reduced to normal, costs lowered, efficiency increased and manufacturing practices greatly bettered.

The Good Maxwell, through sheer increased merit, has been entrenched more strongly than ever in public approval.

One of the final steps in this process of rehabilitation was reached in Detroit on Friday, April 6. For months, the banks and interest concerned in the up-building of these properties have held ready for this new management, new cash in the amount of \$15,000,000.

To establish clear title to the properties (which has the effect of rendering these funds immediately available upon the discharge of the receivership and the consummation of the reorganization) and to insure the continuance of the present policies, a temporary receivership was consented to in the United States District Court on Friday by all of the interests involved.

The friendly and constructive character of the action is indicated by the appointment as receiver of W. Ledyard Mitchell, who with Arthur E. Barker has been in active charge of the management of the properties since the reconstruction process began.

In adopting the somewhat unusual policy of giving these facts in detail, this Company is gratified by the conviction that the high standing of the Maxwell Properties can best be served by sharing with the public the good news of every step of their progress.
