Coming Events Cast their Shadows Before

Dollar Days Friday and Saturday April 15th and 16th

In arranging for Dollar Days, the biggest event of the commercial year, Twin Falls business men have been actuated not so much by the spirit of profit, as by a sincere desire to give purchasers the biggest dollar's worth of goods which has been possible since pre-war days. One and all have searched their stocks for offerings suitable for the event and each and every offering has been submitted to a qualified committee empowered to place upon each offering a still lower price if, in the judgment of the committee, a lower price is warranted.

There will be bargains of every kind. Opportunities for purchases at prices which should draw patronage from far and near. In some cases, prices will not be as low as the sellers themselves would like to have them, but the question of profit is the last point involved, and the result should mark the beginning of a new epoch in merchandising in the Twin Falls country.
