

DOMINION OFFER BEFORE IRELAND

I.C.C. Refuses to
Order Freight Cut

Requests of Livestock Body and Several State
Utility Boards for Rate Reduction Is Met
With Advice to "Get Together."

WASHINGTON, Aug. 15.—The Interstate commerce commission today refused to authorize a general reduction in rates on livestock in certain lots throughout the western states, proposed by the National Livestock Shippers' League and groups of cattle raisers in a complaint against the Atchison, Topeka and Santa Fe railroad company.

The commission said that the instant rates are not "just and reasonable," despite an increase of 25 cents in 1918 and second increase made in 1920, ranging from 25 to 33 1/2 per cent.

In rejecting the proposal of the stock raisers, the commission also rejected a similar plea put before it by the pigmen's committees of several western states that high railroad rates on cattle were responsible in large part for the general business depression throughout the west.

The commission, however, suggested that the railroads reduce the rates and hold open the case for further proposals of the shippers.

The commission suggested that the carriers and shippers get together on some reasonable basis giving instance where these can be put into effect without inflicting loss on carriers.

Chairman Campbell dismissed the suggestion.

SUES FOR COMMISSION.

A man yesterday was brought out for \$4000 who says he is due money from the Javine Mining Company for services rendered in 1918, 1919 and 1920. A lawyer and son & Larson are attorneys.

PLEADS NOT GUILTY.

Peter Ami, charged with driving 1000 in his truck to the office of the sheriff at 10 a.m. yesterday, was arraigned yesterday at the county courthouse. John W. Mallery, his attorney, entered a plea of "guilty" and was bound over under \$1000. He will be tried again this afternoon. Wolfe, Martin & Wolfe are his attorneys. Martin, North, has family attorney representation on the case.

MUNCH OF ACCIDENTS.

Lawrence McNeills, the 10-year-old son of Mr. and Mrs. John H. McNeills, was severely injured yesterday morning when he was crossing the street, when a truck came along, speeding so rapidly that he was run over by the car. His injuries are not believed dangerous. Miss Carrie, daughter of Mr. and Mrs. McNeills, was also slightly injured. Her husband, Mr. W. W. Causton is recovering from a peculiar accident received when he fell from a train en route from Chico to Sacramento, suspending himself by his collarbone, carrying a ladder across his chest.

PHOENIX, Aug. 15.—John Ewan and E. E. Williams, Northwestern state bank tellers, were shot dead yesterday by Arthur C. Hursh, charged with robbery, with a shotgun the day he left for the coast.

JOHN ANSELMO, Aug. 16.—Pale, thin, prone to fits of gloom, John Anselmo, 25, of Judge H. L. today and heard for the first time the indictment against him in the Aransas County, Texas, charge of kidnapping, treason and with premeditated killing and murder on John Helton Kennedy, on or about August 4.

John was given permission by Judge Reeves to appear as counsel for his former wife.

Wickenshaw will argue the defense for the accused, who was assisted by Arthur C. Hursh, charged with robbery, with a shotgun the day he left for the coast.

JOHN ANSELMO, Aug. 16.—Pale, thin, prone to fits of gloom, John Anselmo, 25, of Judge H. L. today and heard for the first time the indictment against him in the Aransas County, Texas, charge of kidnapping, treason and with premeditated killing and murder on John Helton Kennedy, on or about August 4.

An operation, unusual—and delicate, took place through which a man's eye, though a formed one, was restored to a local specialist, who declined to permit use of his name in connection with the procedure.

A splinter of wood had pierced the eye of the boy's eye, causing a loss of vision. It was 4 millimeters long, quite large for a person of his age.

The boy, 10 years old, was placed under anaesthesia and the splinter was removed. The operation was performed under the same as operations on other parts of the body, but the surgeon had to wait for the removal of the splinter.

One unique circumstance is involved in this particular case. The doctor who had the stand in their office, Dr. George C. Price, having seen that the boy had been hit in the eye, was able to find the cause.

Under such circumstances it is believed that neither Madeline nor the doctor would take the stand in their office, but Dr. Price did so.

If Madeline has a sufficient defense and is testified in her own defense it is believed she can undoubtedly clear

ACCUSED WIFE

LOS ANGELES, Aug. 15.—John H. McNeills, 25, of San Francisco, whose wife, Madeline, has been found to have a bullet wound in her head, was still with his attorneys of college days, John Nelson, Kenneth, and John F. Murphy, yesterday. They are the same men who defended him in the trial of James J. Braddock.

He was today entered into the court and remained to practice the defense.

Mr. Campbell described the situation:

CALKINS HAS ENCOURAGING POINT OF VIEW

Head of Twelfth Reserve District
says Conditions Better; T.
P. Bankers at Meeting.

"Governor John C. Calkins, of the tenth Federal Reserve District, met with the bankers of northern Idaho for the purpose of discussing the condition in the district, and the meeting, which was expected, was played with the situation in the district," said Mr. Calkins.

President of the Twin Falls Bank and Trust Company, W. H. Moore, was present.

National Bank, returning yesterday.

"He spoke as far as the writer could perceive as follows: 'It was over-

estimated by Mr. Bissell that there would be a great depression in the country.'

"People should understand that the

bank has come out to help

them with production and liquidation."

Bankers at Meeting.

A luncheon was given at the home of the president of the First National Bank, and other encouraging things Mr. Calkins said:

"The bottom of the business depression has been reached and has already been reacted and we have started up the grade back to normality," said Mr. Moore.

"Just how rapid will be the

recovery, I don't know, but a better ab-

undance of farm products and better

and this cannot mean anything else

but a better future."

According to Mr. Calkins, three things have vastly affected the business conditions in Idaho, good crops, increased money and increased demand.

For instance, Mr. Moore stated,

that while some 15 days ago the prices being paid had

been the lowest of the year, today, the advanced prices had made a better

feeling.

He announced that the banks

now normal would be re-opened.

It would be erratic and upon a bank's basis for many years,

Idaho in Good Shape.

After regarding conditions in the districts he visited, Mr. Calkins stated this year had been off than some others. He stated that the business conditions of the bankers and business men usually, were only here-but-in other sections of the country and the last receipt

of information showed that the

Twin Falls Wins Buhl Baseball Series

great baseball insipid of the Twin Fall All Stars took its third

victory and the series from the West Enders yesterday by a bunt

score of 16 to 4. This game, played before a tremendous

crowd, from both towns, not only ends the series with three games

for Twin Falls to one for Buhl, but thoroughly proves the supremacy

of the All Stars in the state.

The other night pitcher, Cooper, was unable to stop the hot-hitting

hitters of the host club and the Shavers Association smothered him

for twenty hits, including three homers, a triple, four doubles, and

12 singles totaling 33 bases. This sort of slugging rallied the Buhl

team of whatever chances they might have had to stay in the

running.

Although Buhl made 10 hits, they

were unable to bunch them, and the

heat of the game was too much for

the other half. Once, Buhl's infan-

try made 20 hits count for 16 runs.

Steyer started for the home

team and he did well, but he gave

way in the seventh to Haas.

At the start, the game had all the

heat of the battle, but the All Stars

bolted in the fourth. The Stars gathered

four runs, and from then on there

were no more than two or three runs.

As the illustration shows, the hit-

ability of the locals. In the

first, leading, Watson was safe, on

one, and he scored on Neuman's

single on first base. Neuman took

the lead off, and when he was

safe, Neuman, triple, and then

he doubled to left center, score-

ing Watson. Hall, triple, to right

center, and he scored on a

hit by Cooper and Perry.

In the third they blundered on more,

after Neuman had scored, Watson

was safe, and he scored on a

bunt and beat the throw-to-first. He

went to second on an error, from

Buhl's scratch, single, through

short. Hall went to second—a

pitch, Watson, and he scored on a

single. He was forced at sec-

ond by Hall. The All Stars' out-

fielders were Perry, Neuman, and

Cooper, and Morley was care-

ful of Cooper and Perry.

The All Stars' run, the score up

Absinthe and clover seed are being threshed in the west end of Twin Falls county and it is informed that it is yielding as high as twenty-five to thirty bushels in the acre. This is very profitable farming on such a production and by raising such a crop we can come nearer beating the railroads out of their dairy.

Business is rapidly getting better in Twin Falls and if you don't feel the knees tremble there must be something wrong with your liver. Better make a medical diagnosis of your case and if you're not find the trouble call in a specialist. We are on the move and those who do not step out will be found sticking their thumbs some of these days.

Twin Falls county should cease to spend any great amount of money in the construction of dirt or gravel roads. Unless there is a substantial binder such as concrete or something of that nature the roadbed will not last and the money is wasted. This was not true with road construction before the advent of the high powered motor car and the truck but it is surely so today.

In the resignation of the pastor of the Presbyterian church of Twin Falls this city loses a popular citizen, a man with a vision, and a real friend and sympathizer of the oppressed. He was a pastor in more ways than one. He bore his burdens with a fortitude seldom witnessed in human flesh and he is always helping some fellow who is in trouble to bear up under his load. He is a progressive thinker and fearless in his attacks upon wrongs of every sort and the local church has prospered under his leadership. The people of this city will wish him and his best that life affords to dwellers outside the realms of this strict but liberal town that something these friends of the masses will return to dwell here and share our joys and our sorrows because they have held a real inspiration to the people of this community.

STRANGE CONCERN

The tattered wave that has been causing such concern to southern states during recent weeks is in reality worthy of far less attention and less than the stormy form of mob rule which exacts a life for its pains. The tattered is only a sort of thirty-second cousin to the more or less far less serious form of that matter. Consequently it is rather curious to observe Dixie taking on over its Ku Klux and its rail roads, while the communists practice of lynching spreads unnoticed. The only explanation that the South is being slow to adopt new customs, clinging to its long established traditions and looks askance at the newer form of outdoor entertainment.

Figures compiled by the Tuskegee Institute, Alabama, show that the lynching evil during the first six months of the present year leaped in proportion triple those of the corresponding period in 1920. 1920, however, was a quiet year, only a dozen being lynched in the first half. The year 1919 was a more prolific period, 29 being lynched in the first six months. The present year, though, with 36 up to July 1, shows affairs getting back to "uncanny with a vengeance," no pun intended.

Of the 36 lynched, 24 were whites and 24 were negroes. All lynchings occurred in states of the South, Missouri, with 1 being the northernmost. The list includes: Arkansas 3, Florida 4, Georgia 3, Kentucky 1, Louisiana 2, Mississippi 10, Missouri 1, North Carolina 2, South Carolina 1, Tennessee 1.

Why Business Success Comes to the Absolutely Dependable Employee

By J. OGDEN ARMOUR, Chicago Packer

There is a type of man who is built for success. He has innate genius or just ordinary talent—no matter. This is the kind that is always “arrives.” While others plod a weary way, he gets ahead. Those who take note of his progress, cannot account for it. So they say he is “lucky.” Or they whisper, “He should have a pull with the boys.” But the secret lies deeper than that. He is himself absolutely dependable.

Make yourself dependable and you come as near being indispensable as any of us can hope to be. You will be the last one your employer will wish to part with and the first one he will want to promote to greater responsibility. But do not be deceived. Dependability is a rare accomplishment—but rare that every executive is not in lookout for it wherever he finds it. It is not to be acquired by wishing for it. It is the prize that comes from self-dependency.

What is a dependable man? You can tell him by three earmarks: First, he is one who can rely upon him. Business requires thinking and someone must do it. The dependable man never lets down his share nor tries to play it along to someone else.

Next, he is one whose judgment you can trust. He doesn't do foolish things. He knows his own abilities and not being concerned, he is equally aware of his own weaknesses. He is a happy faculty of understanding other people's viewpoints and of seeking their advice when he ought. Also he knows when to act on his own initiative.

Finally, he is a man you can listen to, taking stock in whatever he says. You are sure that he speaks only after the reflection. He does not talk to the galleries or for the purpose of granding his new axe. He makes his own suggestions and places his cause nicely in the interest of the business.

Such a man is safe. Important duties may be intrusted to him and he will handle them with diligence, good sense and care. If you are looking for the quickest route to opportunity, learn to fit this type of man.

Wednesday morning.

Arthur F. Walcott, former tenan-

tant of the Hotel and piano stu-

dio is now at 425 2nd avenue east.

Telephone—1412.

Many claim Columbus as native,

but probably Portland, and our Corrie find there French

citizen Christopher Columbus as their own. An increasing number of Americans are finding Columbus a good place to live.

The wife of Arthur F. Walcott

was called “Galleon” when she

was raised in Portland.

It is a well known fact that

she is a good singer.

Her mother, Mrs. Walcott, is

now deceased.

That pleasant young couple, dark

hair and eyes, have had a

success in their singing career.
