

YELLOWSTONE EXPLORER SIGNALS DISTRESS

Bergdoll Report Demands Heads of Conspirators

SEND AID TO MAN LOST IN HIGH RANGE

Companion of T. R. Gries for
Help-Meeting Carried
East by Pigeon

NEW YORK, Aug. 18.—"Nature" Don Singer, held captive in 2000-mile-flight from the denouement of the Roosevelt range in the bright lights of Broadway, was responsible for the starting of a relief expedition to find Dr. Edmund Heller, celebrated explorer and friend of the late "Chief" Theodore Roosevelt.

The bird, which according to the date on the message started from Heller's camp in the Yellowstone, was reported here yesterday.

Singer, who had been captured by German raiders after his escape from the American embassy at Columbus circle, a "policeman" picked it up and sent a message tied to its feet.

Singer immediately wired New York a cable at the Wagner ranch near Cody, Wyo., to the效果 of:

"Please send aid to assist us in our search for the missing. We are lost without assistance of Yellowstone Park in the Rockies mountains. Start at once. Spare no expense. Every dollar and privilege must be spared."

Heller is 62 years old and an old friend of Heller, who accompanied him to Europe in 1919, and made a trip to Africa and collaborated with him in writing books on animal life.

Organization of the Camp Fire Girls in Twin Falls is to be commenced. It would hardly be consistent to build up good sound girl citizens through the Boy Scouts without building up good girl citizens through a similar organization.

Successful completion of a local monument road by farmers, co-operating with the highway commission may be the solution of the high cost of roads. If the farmers concerned in this piece of pioneering are satisfied it is likely to mean a much more comprehensive system of highways in Twin Falls county than would otherwise be possible.

That new policy of dealing with disabled ex-service men, so long overdue, will enable the public to face its mirror with a little less shame. Cheers will probably be restrained, however, until the wisdom of the policy has actually been demonstrated.

The Caldwell Daily News answering a question asked in Idaho, explains that Caldwell, rather than Twin Falls, is entitled to the name of "Magic City" because Caldwell first, having adopted it in 1889, some sixteen years before Twin Falls was on the map. May we not suggest, in contributing an argument toward solving of this burning question, that because of that very fact, taken in connection with the present population figures of the two cities, Twin Falls is not entitled to the appellation?

LEADERSHIP

In every industry—in every branch of commerce—some man is inexorably rising to leadership in his judgment and faith in his honesty and purpose.

Leadership is not a reward but a job—a command from society to make selfish interests serve the interest of all-to-point the way for all to prosper.

The greatness of a merchant is measured by the number of people who believe in him.

To build a powerful organization, an employer must first win the loyalty of his employees by being loyal to them.

Business is pushing forward toward the solution of many problems. Men look for broader acceptance of their ideals. Truth is the cornerstone of higher standards. From the tangle of international conflict, social unrest and economic inequalities must come an era of better methods, better thinking, better business.

The leaders of business must assume responsibilities greater than men have heretofore been asked to shoulder.

Upon the character of our leaders—upon their vision, courage, determination, wisdom and honesty—depends our progress toward better times.

OUR OPPORTUNITY

The Snake River Valley from the Tetons to the Thousand Springs is certain this summer to be one of the best advertising sections of the west, according to W. C. Larson, a plant man now located in Idaho in the east. His wonderful beauties, its varied and abundant crops, and its numerous and attractive opportunities for homesteaders and investors are being exhibited in motion pictures in numerous cities and towns and are receiving much favorable notice in the press and magazines, he says.

It is gratifying to the enterprising folks in Snake River Valley who organized the Community Club, and in cooperation with the vaccination service, used nearly 3,000 feet of motion picture film to note the wide publicity which is resulting. A single exhibition of these films in the east aroused such interest on the part of a Brooklynite that he visited the Snake River Valley, and on that visit, the idea of a caravan was born. Without these patriotic promoters who would never have visualized the resources of Snake River Valley.

The benefits to Idaho which will flow from this advertising are not to be measured solely by the addition of forty families to its population. The attraction of thousands of citizens in all parts of the country is being called to that new empire in the west.

Congestion and unemployment prevailing in all our centers of population are bringing about a change of mind and creating an increasing desire to get out in the open country, where there is a prospect of acquiring independence and a home.

High rents, reduced wages, war prices for all foods and other discouraging features are causing the pendulum of population to swing sharply back to the land. The message which Idaho's beautiful pictures bring to these worried families has a powerful appeal.

It must be apparent to all thinking people that Idaho is most propitious time for Idaho's citizens to develop broad plans to live in their state its full quota of these opportunities. Opportunities for them will be in many sections. Those should be classified, catalogued and communicated to reliable citizens should be appointed to take charge of and to safeguard the interests of the newcomers.
