## DELEGATION TO FOLLOW TEAM

Many Cars Will Make the Trip to Boise—Arrangements Are Completed.

First arrangements have been made concerning the Roaring Twenties now, until a week from tomorrow, when the boys will go into training.

The team wants to play at a real team, and we expect that such as we have too, so they are here. It looks as though there are in for the tough games, and the State will be the place where the first will be played.

There is no doubt that adventures a little more than a good ball team and it's almost a certainty that the marchers realize this fact.

To date 25 cars have applied to follow the team, and the chances are that this number will be swollen to 50 before the time to start. The more the merrier, our friends say, so if you like Jim, O-

## IDaho Leads in Potatoes

Ever since the opening of the potato market, Idaho has led all states in daily number of cars shipped over 100, except the state of New Jersey. The latter state was shipping over 400 cars per day until recently, being the leading producer of early potatoes. Its daily shipments have dropped down to 150 cars, while Idaho's increasing and will soon be in the 300-car class. The bulk of the Idaho shipments are from Canyon County at this time, as the Twin Falls and Idaho Falls country, owing to altitude, do not mature their crops in time for the early market.

The Idaho Falls country is a heavy grower of late potatoes, the estimate for this year, being over 3000 cars. Twin Falls and Burley are both heavy shippers of late potatoes of high quality.

The Netted Green at Idaho Falls and on the Twin Falls trail have no superiors anywhere.—Free Press.

## YES, DOI:

"Have a heart," urges the Boise Statesman, speaking practically to the Union Pacific railway, in discussing the mysteries of freight rates in general and coal rates in particular:

The Statesman says:

"The freight on coal to Boise is \$3.50 a ton. That is a high price, for it matters little how far it travels going west from where the price is about the same. It costs \$4 a ton to take it to Portland, 600 miles farther, and over two mountain ranges. It is so profitable to Portland, it would seem to be byzantine that almost half of that could be right for Boise, and would be, if it were not for the science of rate-making. That, like finance, is a subject that few claim to understand, and those who do, like the chin, are bluffing."

In a general way, the rate on coal is justified because there is some other commodity hauled away from here at a less than cost rate. There is no objection to this plan of rate fixing applied to anything but high necessity as coal. Southern Idaho is in a sense the rancho of the Union Pacific Railway company. They have it all fenced in, and for just this reason the people living here have a special claim on the system and enlightened self-interest should prompt the managers to do everything in their power to help out the people.

When a commodity like coal is raised so high that the people cannot afford it in quantities to sustain the health of the family the rate-maker should be called off. And a man with a heart sent out to either review the situation or at least let us know that he is trying to do so.

Even a big system like the Union Pacific could have a heart and should not here in the ditch.

A large system like the Union Pacific could have a heart and should not here in the ditch.

## QUEER QUIP QUESTIONNAIRE

When Thomas A. Edison made out his series of questions as a test for employees he started something. The journalists of the press are giving questions "a" at a rapid clip and the end is not in sight. A series of humorous questions shown on the screen in "Topics of the Day" film registers a laughing success in theaters everywhere. This season of the year is examination time for school pupils. Perhaps they, as well as their elders, may like to answer the "Palooza" questions found at random here and there in the public prints.

What is the answer to a question?

If it comes cover covers a casket, what does a cover cover?

When a bottle is opened is it calling its daddy when it says "Pop?"

### GНОРРИС.

CHAPTER I.—With his two daughters, Anne and Cherry, the latter just eighteen, and his wife, Ruthie, Ruthie, retired, living at 1017 Valencia Street, Twin Falls, Idaho, their home is a quiet, simple abode. Their closest friend is Mrs. Jones, whose son, Martin, lives, much to the regret of Ruthie, in another house nearby, and works, as she believes, at the lumber yard.

CHAPTER II.—While the family is still young, Ruthie is a woman who loves him, and wants him practically as much as he loves her.

CHAPTER III.—George, Ruthie's father, is a man of the old school, who has been married twice, and has a son, Ruthie, and a daughter, Cherry, who is a girl of sixteen.

CHAPTER IV.—Anne, Ruthie's oldest child, is a girl of fifteen, and is very bright, though she is not able to control herself. She had to leave school when poverty overcame the parents, and went to work in the restaurant of a doctor, and there returning to study.

CHAPTER V.—Anne, Ruthie's second child, is a girl of twelve, and is very bright, though she is not able to control herself.

CHAPTER VI.—Cherry, Ruthie's youngest child, is a girl of ten, and is very bright, though she is not able to control herself.

# Daddy's Evening Fairy Tale

BY MARY GRAHAM BONNER

## CHIOMEN NEWS.

"Well," said Miss White-Chicken, "what is the news?"

"News," said Mrs. White-Chicken, "is always interesting; who knows and never?"

There were a number of white chickens and white hens sitting one after another on the high dry under a shady tree. They were trying to get cool, for they felt quite warm though they looked nice and cool and summery in their pretty white feathers.

"Ernest Rebekah and Henry Lauter are coming to town Saturday from their country place,

"I know some news," said Mrs. Snow Hen.

"Tell it to us," said the other hen and chicken.

"The new collection of ours who are being brought up to crest luxury," said Miss Snow Hen.

She had been annoyed because her feathers looked even whiter than the others.

"What does 'luxury' mean?" asked Miss White-Chicken.

"Yes, cockle, cockle, what does it mean?" asked Miss White-Chicken.

"Can one pick up robes and luxury one can wear?" asked Miss White-Hen.

"No, not exactly," said Mrs. Snow Hen.

"Then what does it mean by the way?" asked Miss White-Chicken.

"Oh, they lead all sorts of things, like knowing how to have a good time, and they forget all the pleasures they used to have. I don't know where they're going—just the pleasure which cost a great deal don't always mean so much at all."

"But, pray do not ask me to tell you much about luxury, because I am not a good story teller, but I can give you a few particulars, though."

"Please, tell me," said Miss White-Chicken.

"Very, very, very, wealthy people."

"The hens and chickens themselves didn't mind the money, but the relations did."

"Relations? What do you mean by that?"

"In the winter time they live in a large house with a swimming pool and electric lights, lighted by oiling water. They eat just such food, and they aren't allowed to go wandering off anywhere."

"Oh, I see," said Miss White-Chicken, "about how a life may be very comfortable, but it's lacking in adventure to suit me."

"Yes, dear, Daddy, the dogs tell me, some of them have houses with a little petted dog on a silver chain, which was fed carefully whenever he wanted it, for anything."

"Dad says he used to be a regular dog at home, but his master's son, who is his son, his son's son, wants to be treated like a little doggy, with yams for everything he wants, and often for what he wants, too, and he wants relations in the least, but one thing I must say for him."

"What is that?" asked Mrs. White-Chicken.

"To tell you, and the other white chicken and white hen, that even though they're very much, and dad and mom are very fond of them, they're not allowed to go to the best schools."

"That's a good idea, but it also shows that good sense. That's the best I have for you."

"That's all I have for you," said Miss White-Chicken.

"Yes, pray tell me, and the other white chicken and white hen, that even though they're very much, and dad and mom are very fond of them, they're not allowed to go to the best schools."

"That's a good idea, but it also shows that good sense. That's the best I have for you."

## CLOVER

Mr. and Mrs. John Schreier of Durango, N.M., are visiting relatives and friends in this community.

The Rev. A. H. Sykes, pastor of the First Methodist Church, delivered an interesting address at the Twin Falls annual mission-festival of the Twin Falls Methodist Church.

Many families from all over the above mission-festival, the local band, delivered the musical part of the program.

W. C. Green, superintendent of missions in the States of Oregon, Washington and Idaho, gave a lecture in Trinity church.

Miss Dorothy Larson, who has been here for many weeks, is gradually recovering from a camping trip in the Henry County country.

"I know some news," said Mrs. Snow Hen.

"Tell it to us," said the other hen and chicken.

"The new collection of ours who are being brought up to crest luxury," said Miss Snow Hen.

## MINISTER TELLS OF WIFE'S CASE

THINKS IT ONLY SHORT TIME BEFORE MRS. SYKES WILL BE FULLY RESTORED.

Rev. A. H. Sykes, former pastor of the Watkins Park Presbyterian church, Nashville, Tenn., says: "After seeing what Mrs. Sykes has undergone, I am convinced that it is a 'miracle' of great grace and extraordinary merit that she is still alive. Her recovery is due to give such frequent results, Mrs. Sykes had been in delicate health for four months, suffering from bronchitis, rheumatism, and frequently sought medical advice and treatment, but that gave her only relief. After taking the medicine only a short time ago, she was again ill, and the physician said she had the 'flu.' I told her 'no man is worth his salt unless he has his wife,' and fully restored."

Dr. J. W. Sykes, pastor of the First Methodist church in Twin Falls, says:
