

WORKERS TO REFUSE NEW WAGE CUT

Building Trades Workers of Chicago Claim Judge Landis Made Too Large a Cut; 50,000 Men Affected.

CHICAGO, Sept. 8.—Acceptance by the building trade workers of Chicago of the cut in wages decreed by Judge M. L. Landis, after in the dispute with their employers, is forecast today. Representatives of the workers will meet at 10 o'clock on the new wage schedule.

The workers were plainly displeased with the new wage schedule which they had agreed to last week. They expected them to more liberally and firmness. Harney, president of the Building Trades' Council, told him and his associates that we will abide by his decision. There is nothing else to do.

Wages on Chicago were cut from 10 to 15 cents an hour in building trades, according to Judge M. L. Landis' arbiters' decision.

An immediate revival of business is expected to be the result of the settlement of the dispute between the workers and employers. Elimination of restrictions whereby contracts outside of Chicago were not allowed to bid on construction jobs in the city, will reduce building costs another 10 per cent, Landis said.

IRELAND HOPES TO AVOID A CLEASH

Preparations for Conference With British Government on Irish Delegates.

LONDON, Sept. 8.—Preparations for the conference with British delegates were under way at Liverpool today.

A British committee of ten was ready to accept the Sinn Fein delegation. It accepted the British proposal for the Irish conference, contained in the note of yesterday.

It was believed here and by military authorities at Liverpool that the British would accept.

The cabinet's reply sent a date for the conference on the Irish situation asked for by the Sinn Fein delegation September 30, and Landis proposed to the Sinn Fein delegation within the empire, "to the Sinn Fein delegation, that the proposed conference, if it should accept, may lead to peace.

DUBLIN, Sept. 8.—A wave of relief has swept over Ireland, following reports that the British cabinet's proposals now take the form of an ultimatum.

"I was felt today that the proposed conference, if it should accept, may lead to peace.

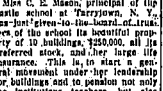

LONDON, Sept. 8.—A wave of relief has swept over Ireland, following reports that the British cabinet's proposals now take the form of an ultimatum.

TEMPERATURE AT CENTER OF THE CAR IMPROVED IN CANNING

In canning work one of the most important considerations is the time required for the food to be subjected to the temperature of the water bath in which it is being processed. The temperature of the water bath is the most important factor in the canning process. The temperature of the water bath is the most important factor in the canning process. The temperature of the water bath is the most important factor in the canning process.

Principal Gives a Fortune to School

Miss C. E. Mason, principal of the Catholic school at Farrington, N. Y., has just given to the board of trustees of the school its beautiful property of 10 buildings, 125,000 ft. of graded stock and other large insurance. This is in start a general measure under her leadership for buildings and to pension not only the institutions teachers, but also for every domestic servant.

EMPLOYMENT REMEDY IS OFFERED

Senator Borah Would Put Unemployed on Government Projects

BOISE, Sept. 8.—Immediate development of many government projects in the west which will give employment to thousands of men who are unemployed in various parts of the country, is the proposal made by Senator Borah in his speech at Boise today.

Senator Borah's plan is to put the unemployed on government projects. He proposes to use the money from the sale of the public lands to build roads, bridges, and other public works. He also proposes to use the money to build schools, hospitals, and other public buildings.

SIDLIGHTS ON TWIN FALLS BOISE GAME

Blanchette Advises Sports to Be Careful of Their Goal for the Return Series, With Capital City Team.

(By BLANCHETTE) — The Twin Falls team Saturday evening for a two-game tilt with the Boise team, so it won't be out of place to say a few things about the two teams.

There is no longer any Sunday football in the state, but the Boise team has been shut out this year. Why were they shut out? Because of superior pitching. Some of the Boise men said that it was the best game that Boise has had, ever pitched, but he that is said may be pitched it and got away with it.

Then Sunday evening the games at Boise said that if Jack Wymann pitched well, Boise might have a chance. Well, he pitched, and Twin Falls didn't have a chance. In fact he pitched a better game than he did in his hold the hard-biting Stars to two hits, one a single by Rife in the first inning, and the other was a home run by "Marty" Stover in the fourth inning. Not so good for a pitcher that is supposed to have been all in.

The fans from Twin Falls sometimes like to go in Boise and now Boise fans are coming down here in use if they should ever be back here they should take more away. Well, our tin is not your money to the bank Saturday morning, and took it out Tuesday morning, and then you can't get it back.

These teams are the most exciting that I have seen in the state. I merely a question as to which team gets the breaks that come in every game of ball.

True, the Stars were at a disadvantage in the first inning, and they have a very well pitched, and these boys are not a hard one to beat. But the Boise team did not give anything to do with the scoring.

But the Boise team did not give anything to do with the scoring. The Boise team did not give anything to do with the scoring.

Mr. and Mrs. T. D. Bates accompanied Mr. Bates parents to Boise Monday. They will be gone a week.

James H. Mox is attending business college in Twin Falls.

School will begin in Hollister on September 13th.

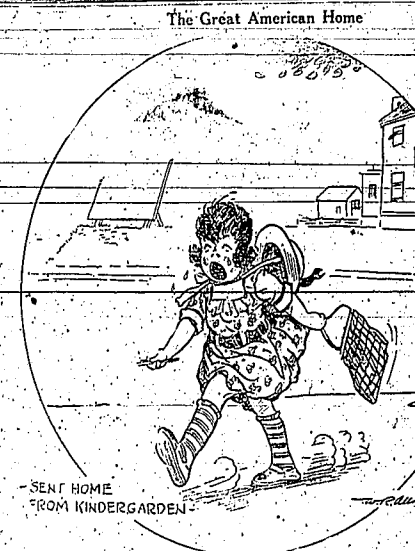

IDAHO WILL HAVE FEDERAL AID TO MARKET SPUDS

Department of Agriculture Will Open Bureau at Idaho

To add in the marketing of the Idaho white potato crop this season, the temporary field office of the Bureau of Markets and Crop Estimates, United States Department of Agriculture will be located at Idaho Falls, September 20, and will run until the end of the season.

Henry A. Harris will be in charge of the station and will give all possible assistance to producers, shippers and others interested in marketing Idaho crops. Daily reports showing market conditions and prices at shipping points and consuming markets will be issued during the heavy fall movement. The reports may therefore be of only little value to work until the end of the season.

Last season, 1,245 carloads of Idaho potatoes were shipped from all sections of Idaho in 470 towns and cities in 23 states. The Idaho Falls market opened in the autumn of 1920 at \$3.25 to \$3.40 a 100 pounds for Idaho Russets and toward the end of September declined to \$1. Russia brought \$1.25. During November the demand improved and the Idaho Idaho Russets sold for \$1.25 and November 25th, 1920, then fell under heavy supplies and the month closed at 90 cents for Russets and \$1.10 for Idahos. The decline continued until January 25, when the lowest price of the season, 70 cents a 100 pounds for Idaho Russets and 60 cents for Idahos was reached. During the latter part of January the California demand for Idahos became a big factor and continued to

SENT HOME FROM KINDERGARDEN

duplicate the market throughout the remainder of the season. Idaho Russets had to be sold in the East in competition with heavy supplies from Wisconsin, Minnesota, and Michigan as well as Colorado, and the small quantities of Idahos shipped to California sold usually at 20 cent discount from the price of Idahos. On the other hand, the only condition that Idahos encountered in California markets was from the Shasta district and from Fresno and Washington. The Shasta district Idahos shipped nearly all the best of the crop in February while the bulk of Idahos from Oregon and Washington went to British Columbia where there was sold at a crop price. This made a very active Idaho market toward the end of the season. Idahos closed April 15 at \$1.25 to \$1.35, with carlots cash at \$1.25 to \$1.40. Idaho Russets closed 90 cents for Idahos and 80 cent for Idahos. As a general rule, growers who sold their Idahos early last season and held their Idahos until the crop price, realized the highest returns.

The preliminary estimate of the Bureau of Markets and Crop Estimates on potato production for 1921 based on conditions August 1 indicates a total production for the United States of 1,000,000 bushels, an increase over a total estimate for 1920 of 825,000 bushels and an average for the 5 years 1,016,100 or 231,000,000 bushels. The preliminary estimate is decidedly better than the average of 270,000,000 bushels. When a crop is below the 10-year average it always means a higher price as an average market at the end of the storage period, while a crop that is above the 10-year average usually means a low price at harvest time, with usually a declining market toward the end of the storage season. Preliminary reports from Idaho indicate a substantial increase in acreage over a 10-year average.

YOUNGER PUPILS WILL BE ACCEPTED FOR FIRST GRADE
Superintendent M. C. Mitchell announces that first grade pupils will be accepted on a monthly basis, beginning with the month of September. Because of the fact that the enrollment of "first" pupils in the Hickel, Lincoln and Washington schools was not as large as he had anticipated, the school officials announced that beginning pupils may enter schools in the first grade in six years of age or before December 31, 1921.

Word of Father's Death—Mrs. D. K. Young just received word of her father's death at Springfield, Ohio, the age of 86. The many friends of Mrs. Young will remember Mr. Young as a quiet, reserved gentleman. Mrs. Young's father spent two months with her about five years ago.

Duan Flanders by Court Order—Intersected with the alternative of either serving 30 days in the county jail or going to work. Samuel Duan, the man with the gun, was released on parole last evening, promising that he would become a professor and not a mere rascal, as he had been charged with before Police Judge Taylor last evening.

Talks on Spud Disease—George H. Godfrey of the bureau of plant industry was here this week from Washington looking after the potato blight and making an especial study of prevention of potato disease. He says that there is no cure in this country and it is not certain in the northwest but he prescribes such localy herbs

FAIR PARKING RULES GIVEN BY SECRETARY

Other Rules Set Forth and Facts Stated for Information of Populace

Many details regarding the fair management are contained in a statement given out by Secretary W. B. Marshall today. Among other things he says:

Conditions of Parking
A line for parking will be on the back of the main drive—1000 to 1500 feet long. The remainder of the distance around the track may be used for parking. The driver will be held in the car until the driver is called.

The Quarter Sections
Space in front of the grandstand and in front of the track fence will be designated as the quarter stretch and a fee of 25 cents will be charged for those who choose to use it during the races. They will be sold at the discretion of the quarter stretch by officers in attendance. They are not to be sold with the following that are to talk about the points. This accommodation has been made to accommodate the large number of men that desire to see the races who can not be accommodated in the grandstand.

The Dining Hall
The dining hall has been remodelled, rearranged and screened. It will now accommodate 30 more people than formerly. The kitchen has been partitioned off from the dining room, seats and tables have been rebuilt and the plumbing thoroughly improved.

Times of Morning Program
Those who "beat the signal" will start in charge and will be held in quick service at moderate prices.

A five-year wait, less than half on each day, will carry 100 messages rather than a seven-foot poster in a billboard.

All have equal chance to the wind—the early bird takes as the early bird does, however.

Give This One Minute of Your Attention

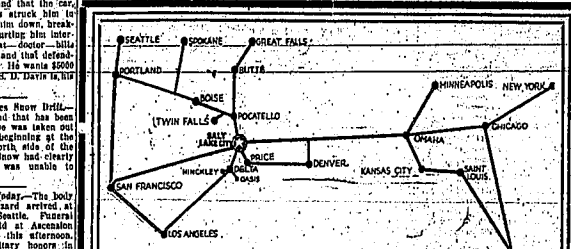

Teacher, Mother of School Children or Persons Suffering With Defective Vision

I want to call to your attention the dire necessity of having your eyes examined. It may be true that though you may not yet suffer with defective vision, the defect may be there dormant if it is not examined. If you have any doubt as to your eyesight, come in and have them examined.

My twelve years in Twin Falls and the fact that I make eye troubles a specialty helps to assure you of a perfect diagnosis.

THOUSANDS OF DOLLARS SAVED ANNUALLY IN THE INTEREST OF SEED GROWERS

Exactly the same department which now has charge of the traffic problems of the Western Seed Growers Marketing Company, has in the past two years succeeded—through co-operation with the traffic departments of railroads serving Utah and Idaho—in making such freight rate adjustments as the following:

- A saving of 45¢ per 100 lbs. on through carload rates of Alfalfa, seed from points on Aberdeen and Maud branches of O. B. L. to points east of Chicago.
- A saving of from 61¢ to 10¢ per 100 lbs. by transit privileges on Alfalfa seed shipments from Ocala and Delta to Chicago, Minneapolis, Denver and Kansas City territories.
- A saving of 10¢ per 100 lbs. through rates on Clover seed from points in Utah and Idaho to points east of Chicago.
- A saving of 6¢ per 100 lbs. on through rates of Sweet Clover seed from points on D. & N. O. Railroad.
- A saving of from 61¢ to 10¢ per 100 lbs. by transit privileges on Alfalfa seed shipments from Ocala and Delta to Chicago, Minneapolis, Denver and Kansas City territories.
- A saving of 10¢ per 100 lbs. through rates on Clover seed from points in Utah and Idaho to points east of Chicago.

Other recommendations are now under favorable consideration and will undoubtedly result in additional shipping savings.

The co-operative system of the Western Seed Growers Marketing Company insures maximum returns to individual growers by the most efficient method.

Write for FREE Booklet describing the plan in detail.
