AMALGAMATED SECOND PAY DAY LARGE

October, Wax, Relatively Small and December Will Not Equal Big November Gain—Which Was \$217,000.

The second pay day of the Amalgamated Sugar Company, which took place last night, was the largest ever, so far, and approximately

\$217,000. The October pay day was comparatively small, since only fifty-four boxes were delivered in the month of September, it is thought that the sum paid out in December will be much smaller than on the former occasion. The total output for the present year is higher than last year by about 500,000 bushels.

COSTS YOU \$1

Do you want to do something at a very small cost, to provide expert medical assistance for disabled war veterans?

Of course, you do!
Then reach in your pocket for \$1, to renew your membership in the American Red Cross.
The annual Red Cross Roll Call began Nov. 11. It ends Thanksgiving day, Nov. 24.
There is no way in which you can spend a dollar more wisely.
The Red Cross gets at least 200 cents out of every dollar.
For the current fiscal year, it needs \$19,363,657. This is \$5,000,000 less than it spent last year, which demonstrates the efficient management of Red Cross funds.

Your \$1, given to the Red Cross, is essential to prevent much suffering and provide much comfort for some disabled war veteran.
It will also help in child welfare work, and for relief in great disasters such as famines, floods and plagues.

Red Cross Roll Call, starting the same day as the disarmament conference, is a conference to disarm, disarm and suffering. One dollar makes you a delegate. It is the original noble cause. And only \$1—the price of a few movie seats! Give more if you can.

BLOOD MONEY

We would not take the bits of tinne from the memory of those who gave their lives in the World War. More than never find their heroic deeds. But it may fill that they died in vain. It will so tell if there is another war, for in our opinion another war would be more appalling than was the last one.

It is true that we also thought of those who are now living and of the generations who will come after. It is time for every man and woman to raise his or her voice in such a way that those who are supposed to lead us will know what we mean when we say that it may be a few years and it is already happening. Perhaps the war did not appear to us with the force which it struck others; not all, not even a majority, lost a loved one, or had a loved one return home a wreck for life. They have not felt the full force of the awful blow. It may sound stupid in this connection, but it has been said that when you cannot apply to some people any other way hit their pocket book. And that is just where we are all getting hit today in taxes.

Few people stop to think of the money cost, to say nothing of lives of war. Today every dollar that is collected from the people, if you please, of the United States, 22 1/2 per cent goes for wars past, and in preparing for wars future. In other words for every ten dollars that the United States collects in taxes, and in all our taxes, even to the baby in the cradle, NINE DOLLARS AND TWENTY-SIX CENTS goes for war, the other 17 cents go to pay all of the rest of the expenses of the government. STOP AND THINK OF IT A MINUTE!

The World War cost the United States about \$21,000,000,000; figures inconceivable as they stand; let us see if we can put them in another way.

The money which it cost the United States for its part in the last war would have bought two good tractors and two good automobiles for every one of the six and a half million farms in this country; or, it would have paid for the paving of 45,000 miles of road; or, it would have built 1,800,000 homes costing \$500 each; or, it would have built 2,000,000 school houses and churches costing \$100,000 each; or, it would have built 600,000 good schools at a cost of \$100,000 each. And so we might go on all item.

Every dollar of that TWENTY-FOUR BILLION was blood money on the altar of Max just as every cent that is being wrung from the tax payer today for wars past and future is blood money. If the delegates to the arms conference do not listen to the voice of the people of every nation represented there, the next war will meet against rulers of nations and will end with a slaughter which will make the World War pale in insignificance.

Animal Poisoning Is Suspected In North Section of the City

Police officers are systematically checking this and have especially cuts, in the opinion expressed by a number of citizens in the north part of Twin Falls, who say circumstantial evidence points to animal poisoning in that section. However, direct evidence sufficient to warrant arrest has not yet been secured. It is even intimated that in one case a rat was recognized as a killer of animals under circumstances of unusual order.

It is also charged that many small strips are dropping and as a result there is much excitement in the vicinity.

Last Spoonful Same as the First

Calumet is made under such exacting conditions - packed in such a scientific manner that its leavening strength and purity never vary. It retains its original strength for months after leaving the factories.
When you tip the can to get the last spoonful, you know your baking will turn out all right - the last spoonful is the same as the first. This uniform quality of
CALUMET BAKING POWDER
is cause for its big demand. Housewives know they can depend upon the results obtained - that climatic conditions or temperature cannot deteriorate its positive leavening power.
When you buy baking powder remember these facts - that it uniform leavening means bakings that do not vary in quality - that Calumet is uniform.
A pound can of Calumet contains full 30 cups. Some baking powders come in 12 ounce instead of 16 ounce cans. The more you get is the more you want it!

TIPTON PROVES BAD ACTOR ON SHERIFF FORCE

On Parole on Account of Tender Years, He Seems to Have Few Soft Spots.

Chief Deputy Tom Brown of the sheriff's force is making a sore head of the result of coming in contact with the inmates in the hands of Sheriff Tipton and were some time ago when he knocked his finger out of joint on the head of the said Tipton. Tipton is said to be a bad actor and had been in jail in the past. He was arrested and held about a year ago for alleged arson and grand larceny, and convicted on one of the charges. Released from jail to 14 years in the penitentiary, he was paroled under good behavior by Probation Officer John L. Ault, because of tender years, being under 18. He has been in three other jails.

Blankenship Is Wholly Blameless

The taking of E. G. Blankenship into custody by the sheriff of the police bureau, the loss of \$100 to W. Tolbert yesterday proved to be only temporary since the former not only showed that he had no knowledge of the theft but proved that he has always borne a true reputation, the way he held himself in order that he might fill of any suspicious circumstances that he might have been on the part of others and then revealed by the police. Tolbert is said to be the Twin Falls police force, says that any information that he might have been connected with the disappearance of the money was wholly unsubstantiated.

RED CROSS IS SUBJECT OF SERMON

The Rev. Charles Olsen talked of the Episcopal church at this city, preaching a splendid sermon on the work of the Red Cross last Sunday morning. A part of this sermon appeared below. This is Red Cross week and this week the work of this organization are being presented. Today has been designated by the president as Red Cross Sunday. Could we not call it Charity Sunday when we think of this great organization—the object of which is to relieve suffering? The sermon was as follows: "The sermon was that charity is the central note of Christianity. Anyone who wishes to see the works of the religion of Jesus Christ, who wishes to see the evidence of the faith of the cross, who wishes an answer to the question, 'What is the world growing better? Will we ever measure the degree of charity that there is in the world? How is it growing? How is it acting?'—let it be the 'Red Cross'—the object of the 'Red Cross'—the object of the world, of all and of mankind, making and reconstructing the world better than it was and destroyed."

SHOW YOUR TAXES ARE DISTRIBUTED

At this season of the year when the industry of the people of this region and we might say the great intermountain country, are grinding under the burden of heavy taxes the following table showing the distribution of our taxes is worthy of consideration. This table shows where each \$100 that is collected goes in being divided over the various departments of state, county and city government. This table is taken from the county auditor's office.

Economy Insurance Plan Urged at Buht Last Night
