OLD VOL. XIII—NO. 5

CONFESSES TO MOVIE MURDER

Described Letter Received by Detective from a Man in Connection with the Murder of Tom Taylor—Arrest Expected Soon.

LOS ANGELES, March 4.—An anonymous letter, containing a letter to Captain of Detectives Harry L. Adams, today "confessed" to the writer of the letter, who told it details of the slaying, is the most tangible clue thus far received, Adams reported.

"It came from a felon," said Adams.

"I'm inclined to believe this man is an ex-convict. It's the most reasonable theory I have at the moment. He was sent by a sane man and I think it's true."

Police would not disclose the letter.

The group of his writer will be required to identify themselves, Adams said.

"The murderer and the result of an old grudge between him and Taylor's wife, Mary, are mentioned in the letter, which has a definite effect."

"I would like to see you get the results of this letter," said Adams, "but we are saying that you won't get it, as you will not be able to find me—I am thinking of this country."

Adams said he had been offered \$1000 for moon-tan by special delivery. It is described as dead; Adams said he had been offered \$1000 to kill Taylor's wife, Mary, who was the victim of the shooting—but after the self-asserted murderer went after the crime, he had

SANDERSON AND CROOKHAM LAND CASES ADJUSTED

After all the heated and the acrimonious trials in the local courtroom, a reconciliation has finally come to the court.

That the settlement of the cases started by Thomas Sanderson and H. Crookham against the Salmon River Irrigation District, the United States and the United States Court will practically insure the acquisition of the lands under their management, and that the long and bitter controversy has ended, for years over the Salmon, was the opinion of Judge W. M. Morrison, Justice James D. Dickey, and Judge James D. Dickey, who presided over the better interests in adjustment in this controversy. Judge E. M. Wolfe, attorney for the irrigation district, said that he had not notified that settlement had been reached, but thought it had been. If so, no slight has been given to the parties, entirely satisfactory to them financially.

Bryanca Makes Statement

Murray, Brooklyn, representing the irrigation district made the following statement:

"Since those are the only cultivated lands there were formerly within the boundaries of the irrigation district, it is expected that the irrigation committee, if it is expected that the irrigation, the Sanderson and Crookham land cases will be settled, will be closed out in a close plan of settlement that is being prepared by the irrigation committee."

\$2,000,000 WORTH OF CREDIT IS LANDED

WORLD'S CREDIT TAILED

WASHINGTON, March 4.—The local agricultural committee today reported a bill recommending the appropriation of \$2,000,000 for the irrigation of the land held by the house-agricultural committee, and that the committee should take the situation among the farms and ranches relieved through an irrigation committee, in government

Suggestion On Reduction Of Taxes By Committee

Summary of Report.

The report initially made by the tax committee of the chamber of commerce to a luncheon of the members of this body, the report is summarized as follows:

Your committee suggests a sweeping reduction in state taxes and urges the fact that the present cost of running the business in this state is more than double what it was some four years ago. This cost is about \$7,000,000, or a per capita cost of \$16.34. The cost is not less than \$10.00.

We further recommend that since the county hospital cost in 1921 about \$43,000 more than the receipts amounted to, this institution be leased to some competent person or persons to reduce this burden from the taxpayers of Twin Falls county. We also recommend that unless the county can be made self-supporting, or that those who are interested in same will agree to carry the burden of same, the county will be dissolved.

We further suggest that the county library be disposed of, so that the county authorities be freed only for county business and not for jockeying trips. That Twin Falls county paid out last year about \$9,000 for the support of farm Bureau projects, etc., and that several farmers suggest that these projects will be dropped. That—the motherhood pension could be investigated and reduced if the funds available will permit.

The speakers at the second part of the session especially dwelt upon the school trustees for reducing the expenses this year and feel that teacher salaries are still too high and should be reduced at least 10 per cent. We recommend that the system of transportation of school children be greatly reduced and, in some cases eliminated.

School taxes are the largest part of our burden. We command the school trustees for reducing the expenses this year and feel that teacher salaries are still too high and should be reduced at least 10 per cent. We recommend that the system of transportation of school children be greatly reduced and, in some cases eliminated.

Chairman C. P. Newell opened the doors to discuss his ability to do the work in any place where their qualities allow them to serve and that all in the community should be given a chance to serve.

Mr. Newell, after a short presentation of the various departments of the county, recommended that the tax committee make a study of the board of directors of the Chamber of Commerce and read all statistics.

To the Board of Directors, the Chamber of Commerce, Twin Falls, Mr. Newell said: "We have a few recommendations to make. We should provide at the first session and again at the annual meeting of the Chamber of Commerce, a special committee to study the tax problem."

The speakers at the second part of the session especially dwelt upon the school trustees for reducing the expenses this year and feel that teacher salaries are still too high and should be reduced at least 10 per cent. GROWERS OF WHEAT TO HOLD CONFERENCE

National Organization Would Control About 80,000,000 Bushels of Wheat.

Morse and Sons Face Trial

THIRTEEN KILLED IN AUTO BUS

Driver Felt to See Watchman Red Flag and New York Central Pass Mail Hit the Jitney Bus—Bodies Were Burned for 400 Yards Along the Track

PAINEVILLE, Ohio, March 4.—Arrangements had been completed today for a conference of the national organization of wheat-growers of the Northwest, when Growers' association to Kansas City sends them the need to perfect organization of the association, which was agreed upon at the close of a series of conferences of the association in the northwest three years ago.

The proposed national organization would control between 75,000,000 and 80,000,000 bushels of wheat annually.

Chairman C. P. Newell, who was in charge of the association, said that the proposed organization would be the chief function of the proposed association.

To Market, to Market

WEATHER
Tonight and Sunday, rain, warmer.

GANG OF ASSASSINS BUHL PREPARES OPERATING NEAR FOR ODD-FELLOW ROCKEFELLER HOME CLOSING BATTLE

TAMPA, Fla., March 4.—A gang of bandits, it is believed to have established headquarters near the John D. Rockefeller estate in Pinellas hills, and to be controlled by the "Klan" here, has been making a number of the arrests made recently, it is believed.

This belief is based on the murder of Harry F. Nuris, 35, president of the Odd-Fellow Lodge, whose body was found yesterday morning.

He was shot in the head while walking near the Rockefeller grounds and the bullet passed through his heart, according to Dr. W. H. Plaisted, physician.

He had been shot in the head while walking near the Rockefeller grounds and the bullet passed through his heart, according to Dr. W. H. Plaisted, physician.

SATURDAY, MARCH 4, 1922

PAGE THREE

BERGER

Miss Ole Lee Ayer and Miss Dora Henderick returned to their home at Tabor City, N.C., returning to Twin Falls Sunday, after having been in the Gem City.

The family of Mrs. J. M. Pierce was well attended.

Mrs. and Mrs. J. M. Pierce were very ill Saturday night, but were able to leave Sunday morning, returning Tuesday.

W. W. Howell spent the week end in the Gem City.

The family of Mrs. J. M. Pierce was well attended.

Mrs. and Mrs. J. M. Pierce were very ill Saturday night, but were able to leave Sunday morning, returning Tuesday.

Mrs. A. C. Stansbury is on the sick list this week.

The country around extended from the Gem City to the Snake River room last Friday. Miss Georgia Donker, Miss Lillian McGregor and Mrs. J. M. Stansbury were among the visitors.

Mr. and Mrs. J. C. Stansbury are on the sick list this week.

Mrs. J. D. Winters is improving after her severe illness, but is not yet out of bed.

Miss Georgia Donker called on Mrs. T. B. Gifford on Wednesday evening, now recovering from her cold.

Mr. and Mrs. J. C. Stansbury have a son attending a school in Idaho.

Richard Goss, 12, of Spokane, is to twin Falls Friday.

The local neighbors met with Mrs. E. F. Price yesterday afternoon. A very pleasant evening was had by all.

The next regular meeting will be with Mrs. T. B. Gifford, March 7.

"Literary" was very well attended yesterday afternoon.

Many who were interested in "Literary" who were to take part in the program were present.

Jim Jeffries is to speak at the meeting.

Mr. and Mrs. J. C. Stansbury and children were among the guests at Jim Jeffries' birthday.

Mr. and Mrs. J. W. Leaven made a short visit to town yesterday.

Miss New Christiansen called on Mr. and Mrs. J. P. Stansbury.

A number from Tabor City have been attending the sales the past week.

JIM JEFFRIES IS TRYING

TO GET OUT OF THE CHANGING

LOS ANGELES—March 2.—Burglars, James J. Jeffries, weighed down by his desire to return to his native Idaho, are threatening to leave the country unless he is given a chance to earn money.

"God doesn't have tolerance for con-

demn a man for not being good,"

"but the tobacco-addicted soul and the drunkard don't get off scot-free."

Jeffries has been a "toughie" all his life.

"A lot of people are hard on me,"

said Jeffries, "but I'm a good guy."

He is to speak at the meeting.

THE TWIN FALLS DAILY TIMES

Official Newspaper of the City and County of Twin Falls
Published Every Evening Except Sunday by The Times Printing & Publishing Company, Twin Falls, Idaho.

L. H. MARTIN, General Manager

Entered at the Twin Falls Post Office as Second Class Matter as "Daily Publication, April 1, 1918."

SUBSCRIPTION RATES

Daily one year \$3.00
Daily one month \$1.00

It sounds nice in poetry to tell of the rooster that crows in the morn—but when it becomes a reality on a morning when a man may want to sleep it puts misery in his heart.

A Twin Falls man remarked yesterday that a lot of "Mormons" had recently been brought in, just who brought the stuff here and where it is, are difficult questions to answer but some real evidence on this issue would be helpful in running down these breakers.

The careful consideration given to the school budget for coming year, the readiness of the individual members to pay and receive the opinions of the taxpayers on the matter of school efficiency, all argue well for the reduction of school taxes which the public hopes to see accomplished.

Residents of Southern Idaho will heartily approve the action of President Harding in vetoing House Bill No. 77, relating to the transfer of certain lands in Southern Idaho for lease in the northern part of the state. The governor and our congressional representative brought much pressure to bear on the president in this matter and the result is obvious.

It is well to know that the humble potato meets such consideration and appreciation when making its last appearance before the public's audience. We do not doubt the superiority of the Idaho potato, surely, who can possibly attach less to their market value than three of their excessive riches are due the "homely" little potato. Farmers, too, need to market co-operatively!

Spoke at a well attended meeting last evening to a discussion between citizens and the school board concerning the future of the Union High School. Such debates are remarkably good training for our boys and girls and should be encouraged to the limit. The ability of our young people to get up in public and express their thoughts clearly and lucidly is an essential training for life's problems and should be made a part of our regular high school curriculum.

Spoke at a meeting of the tax committee of the chamber of commerce of the city, touched on some very salient points in their report pertaining toward the reduction of the general running-expenses of county and state governments. Reduction in current or administrative expenses is not generally popular but such a move is absolutely essential at this time. The report stated at length that the cost of administering our county and state governments is too high and we very believe that this is true. The expense of running the state amounts to about seven million dollars annually or about \$100 per capita. This amount is doubtless what it cost four years ago. The expense of running our county government is much higher than it was two or three years ago and this should also be reduced.

SHORTEN THE HIGH SCHOOL TERM?
We are told that the school dances are encouraged as a means of providing entertainment for the many weary, unoccupied hours that otherwise would render unbearable the lives of our high school pupils. Of course, if that is the reason for the dances, its excellence, not only deserves criticism, but arouses justified commendation. Those only have the happiness to have their lives fairly well occupied by useful employment who will sit at this very excellent entertainment, they do not know how heavily time hangs on the hands of some of the rest of us.

We must all admit that it is too bad that a their tender age our miserable school children are already harassed by the cut-throat that is the either accompaniment of dancing—punks that have no useful employment. The Spectator wonders if it would not be well for those who are enthralled with the care of these hapless pupils to sit down and consider if something may not be done to relieve the frightful monotony that exists shadow over their young but time-burdened lives.

Does not the statement, verified by all the facts presented to us, that our high school students have not enough to do to occupy their minds, suggest something? How would it be to find for them some useful work—wholly in the way of education, of course. Have we ever considered that the high school term of four years may be too long, that the hours of school work may be too short, and that the home studies may be too great? May not that strange and unfortunate combination of too little to do and too much time taken into account for the pitiful equilibration of our students, who find the dragging hours so horrid and burdensome?

The hours of work in the high schools—except Bonham, of which a word later—are from 9 to 2:30 o'clock with half an hour for preparation in the morning; half an hour is devoted to luncheon. According to report, as long as the pupils are occupied with their studies, the hours fly-by on-winged feet, but at 2:30 o'clock, when the doors swing to behind them with a dismally hollow and echoing clang, then they are attacked by despondency and melancholy claims that fit for woe. What can the poor things do? It is true, some of the boys and girls of the girls have auto, in which a quick run can be taken on our finely paved highways, but the novelty of auto riding soon wears off. For those who have bicycles, the only place to go is home, or some otherwhere. The automobile, time-killing, idle bane has been prohibited, so that the boys and girls except themselves are left to amuse themselves during the long school hours. The spectators suggests is by making the high school students more intelligent, healthful, wholesome, and interesting, and by improving the physical condition of these high school students, we shall not only deeply sympathize with them, but try to find means of mitigating their suffering.

school course three years instead of four. It can be done with profit and pleasure to the pupils, and with a financial saving to the taxpayers. The children simply have not enough school work to keep occupied their young and active minds and to fill the long and dismal hours. It is necessary to recall what it is that finds the mischief in idle hands to do, or the stories we have heard of the mischief the idle hands have done. What we are concerned with is the fact that according to the record the high school curriculum as at present arranged does not keep occupied the time of the pupils, who themselves complain of the long and weary hours between classes, and whose parents tell us that they are glad that there are school dances, which give the children something to think about and find something in.

If we added an hour and a half to class work, and gave the pupils a fair measure of home work, the course that now occupies four years could be easily completed in three. Except in the tenth year, the pupils of the Bascom Polytechnic are graduated in three years; the question of whether or not they are better equipped to earn a living in their three years, are the pupils of the other high schools with four years, educated any one that may be left to the public. No doubt the public will say that if any argument were needed as to the wisdom and economy of the three years, over the four-year term, it is supplied by the graduates of Bonham.

The school department costs the taxpayers about \$5,000,000 a year and they are told that that sum is not sufficient to provide buildings for the pupils. If we reduced the school term to three years, they would soon realize any contention there may be that the high schools, and perhaps make the erection of new school buildings unnecessary during at least these rather hard times. In this way, and in other ways, there would be a great saving of money to the taxpayers by making the high school term three years. But it is not alone because of the direct saving of money that would be accomplished that. The Spectator suggests cutting one year from the course. It is principally in the interest of the children, who are the most susceptible period of their lives, finding that the work they have to do does not only keep them busy, but leaves in their hands a deal of time that they do not know how to kill.

From many sources there will be many objections to the suggestion made here. The Spectator would like to hear them, and

prompt to give them consideration and publicity. Bear in mind that the complaint about the carelessness of unoccupied hours and the difficulty in finding some means of filling time comes from the high school students. And never mind what the taxpayers would say about the adoption of the suggestion; they are here to be milked, fleeced, and skinned.—The Spectator.

WANTED: We wish to sell our 44-ft. long and 12-ft. wide frame house and garage. It is in fair condition.

If it's a Paramount Picture it's the best show in town

PARAMOUNT'S 10th ANNIVERSARY

will be celebrated every day of March in every town of the U.S. with special programs featuring motion pictures.

You know by heart that we are not the only ones who are giving away free shows.

You deserve a life-spreading adventure and romance!

Paramount has it in 1919 when it made the first feature picture and Paramount has made the vast majority of the best feature pictures since that date!

The Name Paramount Stands for Pictures Best in Motion Pictures

The history of Paramount is the history of motion pictures. From the very first day which Adolph Zukor started the world by starting "The White Slave," to the present day, when he is still the greatest exhibitor in the world, he has been the driving force behind the industry.

Paramount is "The Queen of Pictures."
