**AT THE THEATRES**

**"CAPPY HICKS" AT DAHDO**

Thomas Meelan, athletic Paramount star, when, if ever, depicts his audience, here follows that when his latest picture, "Cappy Hicks," based on Peter H. Kneff's famous Saturday Evening Post story, was shown at the Idaho theatre yesterday, Mr. Meelan added another delightful moment to his long list of picture successes.

Mr. Meelan is excellent as Matt Deady, a woman's mate, who falls in love with and wins Florrie (Lillian), daughter of the Iron-Clad Cappy. He proves his merit as a man in two or three capital field encounters which take place in the development of the story. Altogether, his portrayal is one that is enjoyed by everybody. Anne Arnes is charming as the Florrie, while Charles Albe is wholly artistic in his portrayal of Cappy.

**"YEARS HAD LUCK" GREAT COMEDY FILM**

Max Linder Funnier Than Ever in Max Robertson-Cole Super-Comedy. The long felt need of a curating comedy with a top-notch comedy

The support generally is of the highest standard. "Cappy Hicks" directed by Tom Purnum, is one of the most enjoyable pictures seen here in a long while. It is an excellent story of the war and the photography by Harry Perry leaves little to be desired.

There are many of the slip-slack, pig-drawling stunts used to bring out the story running through the picture which gives one ridiculous situation after another. "Seven Years Had Luck" runs the gamut of things which go to make a comedy. There are an abundance of exterior and interior settings of a high grade which give one a picture of the way, in some respects it is a lesson to the over-ambitious picture maker. The fact that seven years of ill fortune is heralded by the breaking of a mirror, is a bit quaint, in a clever manner. As the picture progresses it will be seen that all sorts of agencies were pressed into service to make the picture pleasing to the eye as well as the funny-bone. Pantomime, country entertainers, railroad trains and even a

has been satisfied. "Seven Years Had Luck," the new Robertson-Cole super-comedy with Max Linder, which will open at the Orpheum theatre Monday for two days, is what you have wanted for many moons. Critics who have seen this picture agree that it is the finest comedy they have ever filmed. There are none of the slip-slack, pig-drawling stunts used to bring out the story running through the picture which gives one ridiculous situation after another.

"Seven Years Had Luck" runs the gamut of things which go to make a comedy. There are an abundance of exterior and interior settings of a high grade which give one a picture of the way, in some respects it is a lesson to the over-ambitious picture maker. Honor Mrs. Putnam—The Neighbor of Wandcraft dispensed with the business part of the meeting which was held at the residence of Mrs. Putnam Friday evening, in order that they might attend the society of the club. Mrs. Putnam was a farewell party, under the leadership of Mrs. Putnam, and the members and their husbands spent a most enjoyable evening. There was a social hour there, was a short program by Mrs. H. C. McGuire accompanied by Mrs. Neill which was very enjoyable. Mrs. Putnam gave a reading and a pretty ceremony took place when Mrs. Neill, the chairman, presented a beautiful bouquet as a memory gift from the society. Mrs. Putnam made a gracious speech of acceptance. There was a social hour after the program and refreshments were served.

Drama and Literature Department—There was an unusually good attendance at the meeting of the drama and literature department of the Twentieth Century club Friday afternoon. The meeting was held at the home of Mrs. H. H. Atkinson, and the study hour was devoted to the play "The Great Divide" by Mrs. Wharton's book, "The Age of Innocence." After the program there was a social hour during which the hostess served tempting refreshments. The club will meet with Mrs. Neill at 8 o'clock on Saturday evening.

Presbyterian Literary Society—Mrs. D. F. Sweet presided over the Presbyterian Literary Society, which met in the church parlors on Thursday afternoon. After the last meeting there was an interesting program. Mrs. Sweet gave a reading, Mrs. Neill a vocal solo, and Mrs. Evans, as reader of the home topic, gave a comprehensive paper.

Suggests to Suffering Women the Road to Health  
Fulton's Vegetable Compound  
In this sort of phrase of Lydia E. Pinkham's Vegetable Compound, given by word of mouth and by letter, one woman to another, that should cause you to wonder what this well-known medicine is. If you are troubled with such symptoms as painful periods, weak nervous system, miserable pains in your back, and cannot get any rest, you need this medicine. Here is a woman who is so grateful and glad to be relieved from a painful and nerve-racking physical condition that she wishes to tell all sick women.

Printed in the assassin of Mexico

Your last chance to register before the election next Tuesday will be this evening before nine o'clock. Better be safe than sorry.

Nature is not impartial in the bestowal of her favors or in the disposition of her afflictions. Somehow she seems to "play favorites." A fickle and uncertain Dame, surely.

With the resignation of the county physician Twin Falls county loses a very faithful and efficient county servant. Dr. McClintock was faithful to his high calling and did much for the ordinary officer at such a low living as usual.

The Oregon Short Line railroad has announced a cut in local freight rates which is encouraging and we hope the good work will be carried farther. Freight rates throughout the nation are entirely too high and shippers must have some relief if the wheels of industry are to be started and kept moving as they should move.

Twin Falls county might well feel proud of the report just made concerning her stock tests for tuberculosis. This report is given out by the inspector of animal husbandry and is a splendid showing for the herds in this county. This report states that thirty heads and 812 head of cattle have actually been found free from tuberculosis in this county.

In the Blue Lakes Ranch will be found one of the finest country clubs in the West within the next few years. The purchase of this big tract for a country club and also to furnish a better connection with the Northside tract is certainly a worthy move on the part of the business men of Twin Falls. The establishment of a seven-acre course from the Northside is one of the best moves which has been made for several years. In many ways it is equal to a rim-to-rim bridge which is out of the question in this day.

Unless we miss our guess a number of splendid, well-thinking citizens are going to be misled into voting for the commission form of government next Tuesday without really knowing just what they are voting for. If you vote for the commission form of city government for Twin Falls this does not mean that we are going to have a railroad or "Bell" set of officials. Intend we will probably elect good men to serve under such a form of government. This is too expensive to experiment. We have a good city government and what we need is to get lower taxes and reduce the cost of living. You cannot do this by calling special elections every few weeks. If you wish to be safe vote "No" at both these special elections.

Russians who have been driven out of their country by the revolution hope some day to return and to take with them working plans for a reconstruction of Russia in the most approved modern lines. Social hygiene and public health work of all kinds will play great parts in the plan, and Prince George Lovoff, president of the committee of Russian zemstvos and cities, has lately visited the American Social Hygiene association's library in New York to make a selection of pamphlets for translation into Russian as a part of the future campaign against venereal diseases. This committee is engaged, he says, "in saving for a future Russia her cultural forces through education of children and students and through support of specialists and trained men." The men and women of the old regime whom the French revolution excited are said to have learned nothing and to have forgotten nothing, returning to France at the restoration no wiser than when they went away. Prince Lovoff and his committee do not mean to let their fellow exiles make that mistake. They are hoping to print at Peking twenty Russian text-books covering all phases of the campaign, for distribution not only among exiles but in Russia as well. "When we go back," the prince says, but he sets no date for the return.

There are many people who live in the city of Twin Falls who will go to the polls next Tuesday with a determination to have a change in our city government. Whenever the tax burden becomes unusually high and money becomes scarce the tendency on the part of the public is to demand a change. The desire for a change is what we progress, but let us stop and analyze this situation and see what kind of a change we are going to demand by our votes. If we vote in favor of the commission form of city government what will we get? We will have a government which consists of five men, one of whom is a mayor and the other four councilmen. This will cost the city about \$3000 instead of \$1700 as at the present time. Do we want a change big enough to take a change like this of raising our taxes. In the second place, if we vote for the commission form of government we choose to make it possible for a new election to be held every few months because the commission form provides for the recall in case any given number of citizens sign a petition to recall the mayor. Do we wish to go to the expense of a special election of a mayor every few months? This paper feels that the present city officials are far from perfect but we believe that they have done the best they could under the circumstances and should be retained in office. If you feel the same way vote no next Tuesday at the polls.

It was down to Blue Lakes Saturday night when the morning on the ice was making dirt on the ice and he wanted to finish before the stars went through so he left his sled and wanted to go twenty-five miles I would take it. I took him to a man's house. I put one of the landlady's chickens in the chicken house. It had no nest but some, I also fed her chickens for one week.

I cut wood for a lady that lives across the street from us. I loaded a hay horse on the sled. I helped a man put a heavy box in an express wagon. I let a fellow use my baseball glove. I found a plane bench for my mother. I am making a little car for a little poor boy.

On two different occasions I opened the door for people with their hands full of bundles at the little store. I volunteered for monster duty in the boys' movement today. I loaded a load of coal for a poor family. I loaded a boy too. I fixed a fever at the school barn so that would save the school the expense. I gave some honey back to a clerk who made a mistake, and gave me a dollar too much. I took some grass over to a poor sick family who live out in the country. I helped a man (Mr. Simpson) get his car started after it had stopped on a hill two miles from town. We were on our "bills" when we met him on the road. We asked him if he needed help. He did. I gave him a pile of wood for a neighbor woman who had run out of coal, and her husband was in "hurry". I saw a fellow going over to a wheat field with a plow, so I will some sticks, where they feed, so I jumped straight at a horse and went cathode across the field, seeing the lights away before the fellow got there. It made him follow me, but I told him that the duck season was closed. A man got stuck in a car near our place, in a ditch, so I took a team and pulled the car out for him. He wanted to pay me, but I wouldn't let him. A South African rail mining company has plowed 228 acres in trees with a view to their future use as mine props.

\$2000.00 to lead on first class real estate rates reasonable Henry J. Wall.

## The Miner and His Family

A TYPICAL MINER AND HIS FAMILY AT THE EVENING MEAL

### GOOD TURNS BY BOY SCOUTS

It was down to Blue Lakes Saturday night when the morning on the ice was making dirt on the ice and he wanted to finish before the stars went through so he left his sled and wanted to go twenty-five miles I would take it. I took him to a man's house. I put one of the landlady's chickens in the chicken house. It had no nest but some, I also fed her chickens for one week.

I cut wood for a lady that lives across the street from us. I loaded a hay horse on the sled. I helped a man put a heavy box in an express wagon. I let a fellow use my baseball glove. I found a plane bench for my mother. I am making a little car for a little poor boy.

On two different occasions I opened the door for people with their hands full of bundles at the little store. I volunteered for monster duty in the boys' movement today. I loaded a load of coal for a poor family. I loaded a boy too. I fixed a fever at the school barn so that would save the school the expense. I gave some honey back to a clerk who made a mistake, and gave me a dollar too much. I took some grass over to a poor sick family who live out in the country. I helped a man (Mr. Simpson) get his car started after it had stopped on a hill two miles from town. We were on our "bills" when we met him on the road. We asked him if he needed help. He did. I gave him a pile of wood for a neighbor woman who had run out of coal, and her husband was in "hurry". I saw a fellow going over to a wheat field with a plow, so I will some sticks, where they feed, so I jumped straight at a horse and went cathode across the field, seeing the lights away before the fellow got there. It made him follow me, but I told him that the duck season was closed. A man got stuck in a car near our place, in a ditch, so I took a team and pulled the car out for him. He wanted to pay me, but I wouldn't let him. A South African rail mining company has plowed 228 acres in trees with a view to their future use as mine props.
