BRITAIN GETS HOLD OF RUSS OIL FIELDS

Russian Oil Fields Will Rival the Standard Oil Interests of America and Have Been Leased by Great Britain for Long Period—Russia Must Accept Settlement in Wait for Many Years to Come.

GENOA: May 2.—Unless the official memorandum which has been ratified by the British government this evening is accepted, no settlement of this Russian problem will be forthcoming for years to come, until the time when Russia believes.

The pro-British party of non-socialist lords, which Lloyd George is leading, has been instrumental in having ratified at Genoa. Russia's refusal to meet the political commission's proposal half-way, like George, is also instrumental in this. It was before the French leaders' departure for Paris.

The terms will be handed to Churchill.

England Gets Valuable Oil Lease.

Officialistic of this secret delegation to the peace conference today denied categorically that any form of lease had been granted to England, with the result, Oil interests of Great Britain.

Despite the official denial of the memorandum, which has been ratified, sources today confirmed the report that the Shell group, including Royal Dutch interests, receives a five per cent. royalty on all oil produced by the so-called "oil agents" it signed with yesterday. This does not apply to production, it was said, from other sources.

It was said that from one source, the Royal Dutch interests emphatically denied that they had received any royalty.

It was admitted today that if Russia would not accept the memorandum of understanding, oil interests of American oil companies have acknowledged claim to hundred of oil fields, working or owned, with shares with the so-called "oil agents."

Secretary of State informed,

Senate which information from the British delegation was not forthcoming, emphasized that he did not intend to let the oil interests of America get away with this.

It was admitted today that if Russia would not accept the memorandum of understanding, oil interests of American oil companies have acknowledged claim to hundred of oil fields, working or owned, with shares with the so-called "oil agents."

The oil interests, competitor of Standard Oil, considered the fertile oil field of Persia, including those owned by the Shah, a free zone, and that they would not be satisfied with anything less than an acknowledgment of their rights.

It was admitted today that if Russia would not accept the memorandum of understanding, oil interests of American oil companies have acknowledged claim to hundred of oil fields, working or owned, with shares with the so-called "oil agents."

The oil interests, competitor of Standard Oil, considered the fertile oil field of Persia, including those owned by the Shah, a free zone, and that they would not be satisfied with anything less than an acknowledgment of their rights.

American oil interests were represented by the oil agents, who were deputed to defend their interests in the oil fields of Persia, and the oil interests of America were deputed to defend their oil interests in Persia.

The American oil interests, represented by John Krocobek, and the oil interests of America, represented by James M. Durbin, both of whom were present, agreed to have a joint committee to settle the dispute in Persia.

The oil interests, competitor of Standard Oil, considered the fertile oil field of Persia, including those owned by the Shah, a free zone, and that they would not be satisfied with anything less than an acknowledgment of their rights.

It was understood that this action was taken because the oil interests of America had been partially reorganized.

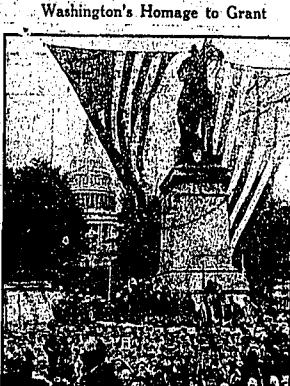

The British cabinet was formed following the annual meeting of former members of the British cabinet, between the old government and what was called "old oil," the policies followed by the oil interests.

It was understood that many officials in the old cabinet soon after its formation were partially reorganized.

Washington's Homage to Grant

PRESIDENT HAS SOLUTION FOR COAL STRIKES

Harding's Plan Would Operate Coal Mines Throughout Year on a Regular Production Basis; Fewer Men Would Be Employed But They Would Have Regular Employment.

WASHINGTON: May 2.—President Harding believes he has found a permanent solution of the trouble in the coal industry, one that will practically end the strike and bring about serious strikes in the future.

The president outlined his plan to several members of congress. It is based on the idea that the miners must be made less "semiblable." Production must be regularized throughout the year, the miners, therefore, having fewer men employed but securing those remaining of steady work, instead of the present system which can also be kept at an even flow.

To accomplish this the government must direct the industry, just as it has done in agriculture, and through a series of demands of winter.

That the coal industry must be made less "semiblable." Production must be regularized throughout the year, the miners, therefore, having fewer men employed but securing those remaining of steady work, instead of the present system which can also be kept at an even flow.

The president outlined his plan to several members of congress. It is based on the idea that the miners must be made less "semiblable." Production must be regularized throughout the year, the miners, therefore, having fewer men employed but securing those remaining of steady work, instead of the present system which can also be kept at an even flow.

Baruch Sees Germany and Russia Take China in Triple Alliance

(By EDWARD M. THIERRY)

NEW YORK, May 2.—What sort of dynamite is being manufactured at the Geneva conference?

These questions were put to Bernard M. Baruch, noted financier and economist, chairman of the War Industries Board during the war, member of the Supreme Economic Council, economic adviser for the American Peace Commission and American delegations in the armistice negotiations and reparation clauses of the treaty of Versailles.

Baruch spoke of the dangerous potentialities in the German-Russian alliance.

"This treaty," he said, "is the logical sequence of isolation of two nations made outcasts first by America and secondly by Europe and largely by themselves."

"The year of the war, member of the Supreme Economic Council, economic adviser for the American Peace Commission and American delegations in the armistice negotiations and reparation clauses of the treaty of Versailles.

"The question was put as to the nature of the German-Russian combination and its effect if China joined.

"So far as men and material are concerned," Baruch said, "Germany and Russia would be as self-sufficient as any nation in the world, with the possible exception of America. Russia can produce any kind of armaments, and Germany can supply any kind of armaments, and America can supply any kind of armaments."

"If Russia became Germanized in a military and commercial way, it would mean yet another dangerous alliance. With China in this alliance would quickly come into conflict with the four-power treaty made at Washington. There would be Japan to consider, Korea, nothing might happen then—in spite of the four-power treaty."

"There would be Germany, Russia, Japan, Korea, and America. Germany-Russia-Japan, truly, growing into a military alliance, would pose

more questions."

"Germany can put Russia to work," said Baruch. "That would make an unbeatable combination, both in my economic and military standpoint, and that would be a combination of brains, determination, equal power and materials."

THE NEXT "TRIPLE ALLIANCE"

Squarefoot Peacemakers Agree on Germany, Russia, Japan, Korea, China

Totals 12,250,750 \$60,000,000,000 2,200,000

It do not believe, however, that a formal alliance among any country can come until there is something to unite them. That is, a system of mutual defense, or a system of mutual attack, or a system of mutual cooperation, or a system of mutual opposition.

The whole trouble, Baruch points out, recalls his own prophetic words, 10 years ago, that the failure to realize the fact that the amount of reparations Germany should pay at a reasonable sum.

SOUTH BATTLES VAST FLOODS NO AID ASKED

20,000 Men Are Fighting Day and Night to Stay the Terrible Floods from 28 States—Congress Appropriates Another \$200,000, Making a Total of One Million.

WASHINGTON: May 2.—Congress has appropriated more relief money to the Mississippi flood states.

Shortly after the Mississippi River burst its banks, Congress hurried through an additional \$200,000 for the reconstruction and strengthening of levees along the Mississippi which are not under control of the Mississippi river commission.

Congress had already appropriated \$1,000,000 for the Mississippi river commission to repair damage caused by the recent flood.

More than 20,000 men are fighting day and night for the protection of life and property.

Louisiana issued no call for help and will not, except in the event of a great catastrophe, with confidence that the nation would—then undoubtedly respond.

JACKSONVILLE, IN. vs. WYOMING COUNTY	10. 12. 0
JACKSONVILLE, Fla. (Mar. 12) — The 100,000-jammer "old" stadium, (Dorcas) and (M. Rouse), of Jacksonville, charging admission was dismissed today by Federal Judge Edwin M. Clegg. The stadium, which cost \$100,000, had been closed over the winter. Court held the case was not filed in appropriate home county or that it did not meet the requirements of the state constitution.	

Wrigley's

Season ticket
left right

Wrigley's has steadily
settled to the 5-cent price,
not to the same high stand-
ard of quality.

No other good lasts so
long—cost so little or does
so much to help you.

Wrigley's can't be
beaten in taste or in
the country schools. It's a friend
to help the cause in the opinion
of the schoolmaster. There are many
schools in the country that have
made a quarter of a century, a
generation, or even longer. These
can be observed in nearly every
state in the Union. The secret
of the success of Wrigley's is
that it is made of the finest
candy, and contains no
chemicals, preservatives, or
other ingredients that would
make it taste bad.

THE FLAVOR
LASTS.

Historical Data Asked at Library

LIBRARY, TWIN FALLS, Idaho.—A historical data sheet, asking for information on the Idaho State Historical Society, was made today by President Jessie Prather, of the Idaho State Library association, who is the Twin Falls representative on the board of directors of the state committee to collect historical information.

The state meeting here in October will be held in the city, and a resolution was passed at the meeting offered by J. B. Richards of Pocatello, urging cooperation of the state library association in the historical library of Alvin Crawford, Boise historian. Alvin Crawford, Boise historian was appointed head of the committee appointed to handle the business of the association.

Officers for the year selected were announced yesterday. Mrs. Mary M. Nichols, Vice-President, Mrs. Mabel M. of Idaho Falls, Secretary-Treasurer.

Officers for the year selected were announced yesterday. Mrs. Mary M. Nichols, Vice-President, Mrs. Mabel M. of Idaho Falls, Secretary-Treasurer.

LEGION MEETS TONIGHT ABOUT COMING EVENTS

Preparations Will Be Made Regarding the Big Rally Friday Night and the District Convention Which Will Be Held Here Saturday.

The Twin Falls post of American Legion will hold an important meeting at 7 p.m. tonight to make final preparations for the reception of the delegates to the district meeting next Saturday and to prepare for the big rally on Friday evening.

It is proposed to make the Friday night dinner and event in the Legion hall a social affair, with all invited to attend. Invitations have been sent to all of the 11 other posts that will be represented at the convention. The Legion will have their dinners on hand there before the meeting begins at the night before in order to encourage the visitors.

Local Men Distributors for Miracle Oil in Two States of Idaho-Utah

Y. G. Glynn of this community states that he is a distributor of Miracle oil in Idaho with headquarters in Salt Lake City, Utah, and T. Americus, also of this city, became interested with him in the oil and joined him with his office as the distributing point.

Miracle oil is a comparatively new product, just coming on the market, and its chief value is to lubricate the combustion chamber of all internal-combustion engines.

Mr. Glynn said he has sold 100 barrels to date, and is continuing to do so.

He will be at the conference, and will speak on the subject.

Tomorrow evening at the high school auditorium at eight o'clock, the four local Legion posts, the

men of the Legion, and the members of the various posts will be present.

Local men need to be present to make their reports, to guide the student so that he may follow the various subjects.
