DEMSEY HAS TWO WAYS TO DODGE FIGHTING WILLS

NEW YORK. June 14.—Jack Dempsey has two ways of getting out of Harry Wills' trap. He pushed him in—it he wants out.

He can pay his price or fight, that will be the choice. If he wants out, he'll get out of it, set up and say that he is too busy.

While the boxing nations of New York and St. Louis are still at it, Wills appears to have won. Dempsey and Wills for the heavyweight title they have taken action that repays the former.

The commission has accepted the challenge of Wills accompanied by a certified check for \$2,500 and to be considered valid until June 20. Commissioner James J. Jeffries' notice on Dempsey that he has a certain period of time in which to consider the challenge is still valid.

Dempsey, though, has bargained with prospective promoters with a tip that he wants \$30,000 for his next big purse.

If Wills would be willing to accept about \$30,000 for his share, the fight might be feasible.

It is the indication of Dempsey's fighting spirit to fill his calendar with some Hartline dates including those arranged by his partner, Bill Doherty, and the manager of his boy's poka in a six-week end every day in the month of good pay.

THE SCOREBOARD

Yesterday's Games

Yesterday's games were all musical drama in the life of Wills—a double and a single act did one himself, helping the other to win the title, 7 to 6.

Four double plays behind, Oldham and Coble had the lead, but the final blow was to come to Wills over Washington.

Malin H. Rice was out of the ball seven times, but Boston Braves again trounced the Pirates, 8 to 6, making it the third victory of the series.

Dave Danforth bailed out the Yanks and the Beacons, 12 to 9. Cain, with his finger nails, Umpire, Billy Evans sent several samples to the president of the league.

Philadelphia pounded four Carl pitchers for 18 hits and won, 16 to 1. The Yanks had 15 hits and lost, 10 to 8, with Ruth and Dickey. Hartman, Hill, Holmes and Peirce played first base and shortstop.

Exceptional support behind the pitching of Alie the Great enabled the Cub to beat the Robins, 8 to 2.

Charles Robertson let the Red Sox down with two dinky hits and, U.S. White Sox, 6 to 5.

Deeds, not intentions, count.

A Twin Falls housewife says that a soft answer turneth away wrath, but that a swift answer often is just as effective.

A Twin Falls man asserts that he is going to raise a hell heard next summer, because that is the only thing man has left to which I would cannot.

If you want to suggest a full page advertisement to some of our Twin Falls merchants at this season they would perhaps draw back and look at you as if they thought you were the champion hand-painted fool of the nation.

John Carpenter says that the delusion that the other fellow's game can be beaten keeps many men broke. Our advice is to drive as far from the precipice as possible and you will be less likely to go over.

The newspapers say aeroplanes are taking the place of automobiles. Chief of Police Brown says he can name some streets in Twin Falls where automobiles are taking the aeroplane's place. Some of those speeders will get it where the chicken got the ax. Listen down below.

J. A. Chicago music publisher received a touching little ballad from a Twin Falls girl recently entitled "I Wonder If You'll Think Me." Yesterday she received the ballad back with a note, saying "It does, he should never be trusted with firearms again." The girl is very much haunted and may bring suit.

SUGGESTION ON WADING POOL

(Continued)

The wading pool recently put in by the Twentieth Century Club involved 100 per cent by the scores of kids that daily test their abilities in the cool basin. The Boy Scouts are swimming out with regularity. In popularity, will grow with the summer and so will the popularity of the women who put it in. The people who keep it in order and clean it, the work, at least, would seem that it would be better if

the water was continually being allowed to run off through the pipes near the top, thus keeping the water continually clean. This would obviate a good deal of the work at

least in keeping it clean.

Travelers used to say that in the days when Tokio was called Tokyo, that the Japanese hotels prepared the bath in the morning and that the water was not changed until the next morning, regardless of the number of guests. It is said that a weary traveler coming to a hotel and asking how many had used the bath that morning was relieved to hear the servant say "Only eight." Of course, there is no comparison between this and the Twin Falls wading pool where a few children run in from the cool grass and bathe their feet. Still, if a small stream of water could be allowed to run in and another run out, the effect would probably be beneficial.

BURYING MISTAKES

Pictures a funeral passing your home with 38,000 hearse, each one containing an American business firm.

That gives you an accurate idea of the number of business failures since prices began to tumble in May, 1929.

But all is not gloom.

Standing thoughtfully on the veranda, watching their deceased brethren going to Dustland's cemetery, are nearly two million business organizations that have weathered the storm without sinking.

In two years of very severe depression, only one business in fact has failed.

In a flash this illustrates the great underlying strength of our business organization, the Gibraltar that cannot be topped by any man.

An annual, of course, attention centers on the ships that sank and the weather the storm are ignored. Thus the financial center of the Seven Seas, gets a worse reputation than it really deserves.

Finally, only 1929 failures. Many will snort and wonder why.

They turn back four months, they find 273 failures in January.

Finally, the storm subsides. Observing this, young bloods do not put to sea—to try its hand. So, in May, 1934 new companies were incorporated in the principal states, with capital of \$100,000 or more apiece. Thousands of smaller ones also ventured forth. They're the rowboats.

How much did they fall for? That is the important question. Failures, during the depression that now is nearing its end, have had total liabilities or debts at a rate of about \$600,000,000 a year.

Assets have averaged enough to pay about 50 cents on the dollar.

The total or net loss, due to failure, has been running around \$200,000,000 a year—or about 4% a year for each American. That, after all, is not such a big price to pay for getting out of the woods.
