Age Doesn't Count When Champion Horseshoe Pitchers Hold National Meet

Horseshoe tournament at Gowanda, N.Y., regulars make 10 to 20 throws at 40 feet and many more at 20 feet. Frank Jackson, 18, of Gowanda, N.Y., champion George May, Akron, O., 37, and champion Harry's fellow-Louisianian, 18-year-old Eddie Siegman, of Shreveport, La., were the stars. It was that 76 boys competing in industrial championships, however, showed that age is but a number. The night is Fred Gruel, of Akron, an ex-national champ.

Frank Jackson of Kellerton, Ill., 14, and his 18-year-old brother, the national champion, were the stars. The brothers will have been competition from such national stars as George May, of Akron, 37; Tom Columbus, 20, winner of the Florida industrial tournament; Tom Medley, 18, of Toledo, Ohio; and Charlie Johnson, 18, of St. Louis, who was the local tournament champion.

But today, the new stars, though popular, gamely.

—Joseph Story.

The vote was very small yesterday at the primary election and as a matter of fact the primary as it is now being conducted is little better than a farce. The real merits of the direct primary seem to have been lost in the minds of the people at least. It appears me that many of the better men refuse to take part in our political system.

We heard a great deal about certain individuals grafting off the city before the present administration took office from the Observer, but we are wondering by what name they will speak of \$500 award of Walton's in the shape of damage and costs for little or no real damage to property. We think that the city would well need more than an audit when this bunch gets through with things. If "Boss" Walton is to rake down the cash in this fashion we are rapidly headed toward bankruptcy.

One of the best evidences that prohibition is showing symptoms of really doing some prohibiting is the fact that \$25 was announced today from sources apparently familiar with the situation that the liquor which sold at Christmases for \$4.75 a case, is now being held for \$10 for a case of half a dozen quarts, and gin, which sold for 40¢ a quart retail, has risen to \$12. Thrifty ones are claiming it on the enforcement officers' activity.

People of all Christian faiths will be interested in the agreement by the joint communion of bishops, clergy and laymen of the Episcopal church upon recommendations for changing the wording of the marriage service to make the vows of husband and wife alike, eliminating "obey" and "serve" from the wife's pledge and "with all my worldly goods I thee, my love, respect, honor, keep." The commission explains that its position accords with the new position of woman as the equal of man, and it is also pointed out that the new form of service is like that of the Roman Catholic church in respect to the proposed omission. The report will come before the general convention, which will open in Portland in September.

It begins now to look as if the strike might not be settled as quickly as was hoped a few days ago. The railroad executives seem to have their minds pretty well made up on this theory of seniority and claim that many of their shops are now working as high as 70 per cent of a full force and therefore do not feel like turning these men out to take in strikers. However, as other places the strike has almost completely paralyzed traffic and we presume rail heads in such places are glad to agree on most any sort of basis to get traffic restored. Some better system must be discovered or worked out to settle these disputes between labor and capital before this nation can surge to the front as she should among the great world powers.

DID YOU EVER STOP TO THINK—

(By E. H. WAITE)

That you should be either for or against your city? If you are for it, you should shout it! If you are against it, you should leave it!

That you should clean up your city and keep it clean!

That you should seize every opportunity to help to exploit in your community a spirit of better and bigger business.

That your cities are big and generous enough to realize in order to go ahead, they must destroy and do away with much of the littleness, narrowness and stolidness of some of their backward citizens.

That the one big thing behind all big achievements is opportunity.

That many firms are waiting for business to pick up; others are realizing the opportunities of today and are forcing business by newspaper advertising.

That your city should set the pace as the convention city of your section.

That public opinion influences everything.

That what you do for your city is of vital importance as what your city can do for you.

That good advertising lights the pathway to better business.

That "slick man needs the services of a doctor." A "slick" business needs immediate attention. The right kind of advertising is good medicine.

LAST CHANCE TO SEE "A VIRGIN PARADISE" TONIGHT

Just in time for the opening of "A Virgin Paradise," the sensational William Fox special which has scored a decided triumph at the Orpheum, Burton has been compelled to postpone his return to end the film's run. The Iraian Perry Maalin story in pictures probably has more excitement than any other photoplay ever shown here. The scenes depict the spectacular splendor of hunting in the Andes, the beauty achieved by the all-star cast headed by Fred White, make the picture a memorable one.

A DEATH KNELL PART

Just in time for the opening of "A Virgin Paradise" Burton has postponed his return to end the film's run. You're doing me such a favor, but think last season," said the Paramount star, picture editor of "Jackie's" car.

In explanation, Burton held up the rag in which he was riding the car. "It was when the wind blew it."

Just getting a little local color on this shirt to make it look more realistic.

The new picture in which Burton plays the part of "Wilson," a villainous pearl thief in the blood-red sea, "The Man Unconquerable," will be shown at the Idaho theatre tonight, with Mr. Holt in the star role.

According to Manager Johnson of the Idaho theatre, John Holt is the Paramount's "Man Unconquerable." The "Man Unconquerable" which comes to the Idaho theatre today is an excellent picture. Sylvia Drane is leading woman and besides a capable supporting cast.

Hudson Continues Closed Car, Lead

Shipments of Hudson closed cars from the factory during the second quarter of 1922 were 34 per cent above those of the first quarter, and 10 per cent above those shipped during the quarter, according to word just received from the Hudson Motor Company by Ed E. Johnson, the Johnson representative in the Hudson-Essen dealer. It is believed that this figure continues Hudson's record of leadership in production of closed car output to total production.

Each closed car shipment for the second quarter was 41 per cent above the previous production. This volume is remarkable when the price class is considered.

Production of Hudson and Essex for the second quarter made it the highest record grade it has ever had. Two of the three months during this quarter—May and June—set new high output and sales records.

Hudson officials feel certain that the market for closed cars is increasing in the country in the promotion of closed car production this year. They also believe that production of Essex closed models for the entire year will be in excess of half the total Essex output.

Old Old Clothes To An Emperor

PARIS Aug. 2.—Although the Emperor of Austria is the envy of Parisians, he is not the only man who commands the attention on the West Front, according to the papers. The indications surrounding this property are such that it may be a good investment.

As soon as he had a moment to spare from the round of official visits and audiences he Emperor sent orders to a Paris tailor for an outfit of European style clothes. And there came a reply:

"It was arranged that the Emperor had bought several complete outfitts before embarking on his first trip to America. When he got back to Berlin it was discovered that some unscrupulous hand had torn down clothing, destroyed hats, and even cut off a lot of the styles. Last Derby hat of the vintage of 1910. It would never do to have the Emperor appear in such a shabby outfit." So the outfitts were hidden away and a new set of 1922 model ordered.

It pays to study the want ad col. 1.
