News of the Sport World

Hansen Beats Kimberly 2-0 in Magnificent Exhibition

(By Oll Henry.)

Frank Fuller and Jimmie Thompson were both in rare form yesterday but the former's form was the more rare and he capped the game, defeating the Kimberly outfit 2-0 in one of the finest exhibitions of baseball ever witnessed in southern Idaho. Carl Henke, who has played with a number of Idaho clubs this year, performed in the outfield for Hansen and while his hitting didn't amount to a Russian rule, his work in the garden was great, as he neatly picked several wallops out of the air to the delight of the fans.

Only two errors were made during the game, both by Pitcher Fuller, of Hanover. Play was exceedingly high class throughout. The game may be played:

Hansen—Chambers—strike out; Dugan; Loney's grounder and stopped at first; Hughes walked; no runs, no hits, no errors.

Kimberly—Curtis lifted to Zienke; Ritter dropped to left; Chambers made a nice catch of Henke's fly, holder; Riley at first; Loney—three out; no runs, no hits, no errors.

Second Inning
Hansen—Zienke was hit by a pitched ball; Zienke went on to second on wild pitch and stole third; E. Fuller fanned, and Curtis, the pitcher, fanned; thought it was the third out. He tossed the ball maddeningly over the pitcher's head; Curtis made a nice catch of the ball; Riley nabbed the ball and threw to Curtis who tagged Zienke on the base; umpire ruled that Zienke was out; no runs, no hits, no errors.

Kimberly—Schmidt slipped to center but was out stretching; Zienke to center; Emerson struck out; P. Fuller missed his grounder and shortly thereafter continued to second; Henke hit the pitcher; Curtis made a fine run to first; catch ball in center; Chambers and Loney—two out; no runs, no hits, no errors.

Third Inning
Hansen—Wagner popped to Emerson; Hammond struck to Zienke; P. Fuller dropped to left; Chambers singled to left, scoring Fuller; Chambers stole second; Loney fanned; no runs, no hits, no errors.

Kimberly—Thompson popped to P. Fuller; Curtis out for hunting ball on the third strike; E. Fuller tossed out Riley; no runs, no hits, no errors.

Fourth Inning
Hansen—Ritter lined to Emerson; Zienke struck out; P. Fuller singled through Ritter and took second; Wagner fanned; no runs, no hits, no errors.

Kimberly—Ritter struck out and took third on Brown's single to center; Henke was caught out third; Loney fanned to Miller; Hutch and Emerson fanned; no runs, no hits, no errors.

Fifth Inning
Hansen—Hamard singled to right; P. Fuller singled through Brown; Ritter fanned; no runs, no hits, no errors.

Curtis made the third catch; Emerson and Loney fanned; who with Emerson's assistance, Emerson threw second base and P. Fuller was out for the second time; no runs, no hits, no errors.

Kimberly—Earl Fuller threw out Chambers; Loney and Thompson; no runs, no hits, no errors.

Ritch Inning
Hansen—Schmidt threw out Hughes; Zienke walked and stole second; E. Fuller did the honors; Patton batted to right scoring Zienke; Emerson of the Jerome team, batted for Wagner struck out; no runs, no hits, no errors.

Kimberly—Patton missed Curtis' third strike and threw out Earl Fuller; Riley out; Chambers to Bernard; Mitch walked and went to first; Brown's single to right; Schmidt fanned; no runs, no hits, no errors.

Sixth Inning
Hansen—Riley got in front of Bernard's grounder and tossed him out; P. Fuller popped to Emerson; Chambers walked; no runs, no hits, no errors.

Kimberly—Zienke made a wonderful catch of Emerson's line drive; Chambers fanned; no runs, no hits, no errors.

Seventh Inning
Hansen—Riley fanned; Loney's grounder hit to right scoring Zienke; no runs, no hits, no errors.

Kimberly—Thompson struck out; E. Fuller threw out both Curtis and Riley; no runs, no hits, no errors.

Eighth Inning
Hansen—P. Fuller walked to left; Patton fied to Chambers; Brooks fanned; Ritter threw out Bernard; no runs, no hits, no errors.

Kimberly—Mitch struck out; Brown walked to right, went to second on a wild pitch and stole third; Zienke fanned and stole second; Brown threw to Emerson; Loney's grounder to Loney was put out on by Patton on the first throw; no runs, no hits, no errors.

Ninth Inning
Hansen—Patton fanned; no runs, no hits, no errors.

Kimberly—Patton fanned; no runs, no hits, no errors.

Yanks Fined for Stalling to Get Game Called Off

CHICAGO, Aug. 28.—Major League manager of the New York Yankees was fined \$100 and several other players were fined \$25 for a "deliberate exhibition of stalling" during the game with the Chicago Cubs on August 27, it was announced today by Sam Johnson, president of the American League.

The game was called by New York's half of the fifth inning because of a heavy downpour of rain with the score 4 to 1 in favor of the White Sox.

Manager Gleason of the Sox alleged that New York stalling in an effort to prolong the game until the rain forced the umpire to end the contest.

Others fined were: Bob Meusel, Everett Scott, Walter Hoy, Vally Schanz, Fred Koenig and Ray Schalk. Hoy, Paul and Urban Paker of the Sox.

Johnson said he announced that "in respect to the occurrence would carry an automatic suspension of 10 days."

DECIDING GAME TO BE FOUGHT IN T. F.

Hansen-Twin Falls Baseball Game Called Off on Account of Lack of Players.

The Twin Falls-Hansen game set for Labor day has been called off by Manager Atwater on the basis of an account of the scarcity of players.

Arrangements are in the preliminary stage, as announced in Saturday's Times, for the starting of a five-game series between Hansen and Jerome for the district championship. One game will be played at Jerome, another at Hansen, and the third, if necessary, will take place on Lincoln field, Twin Falls.

It has not been intimated in this issue what attitude Jerome has taken toward the prospecting series, but it is thought, this will be favorable.

Two or three players from Twin Falls are expected to be signed up by Hansen for the series. Oliver and Zienke will probably be two of them.

The third game of the series should draw a good crowd here on Labor day if it can be played there, for the people here are baseball fans and are ready to see a snappy exhibition.

Some had been hoping for the game and again themselves in the light of various distances in the air. These flights are made possible through the development of the peacock or lesser duck and though the flying fish never help their fish in their flights they are able to cover a distance of 100 or more feet.

AMERICAN FALLS PROJECT GREAT THING.

The report of the commissioner of reclamation endorsing the American Falls reservoir proposition in an unqualified manner should have due weight with the people of this project whose lands are included, and of all people interested. That it will mean a vast development, the largest in the world, that it will mean lines of transportation in directions not dreamed of now, that it will mean wealth untold to the people, are things that will go without saying. The hearing on the question of calling and election is up before the commissioners today. It is their duty to see that everything is regular, that the rights of all are protected and that no oversight will leave it possible to make a legitimate argument against the district by those whose lands remain on the inside when the election is called. Those who draw out, with the free consent of the commissioners, are within their rights and should not be censured. The Times believes it is a good and great thing for the schools of southern Idaho, and when any lands included by mistake, if any still remain, and any lands which owners have withdrawn are eliminated, it hopes that it will carry unanimously at the time when the election is set.

ROAD TO EASE

A black-skinned Algonquin Indian comes down to the Hudson Bay port at Bear Island, Ontario. He brings a story about an Eskimo in the far north who has tamed polar bears and trained them to do his heavy tending.

Big game hunters will doubt it, for the polar bear has a body about as large as a pinnac box and is one of the most ferocious and cunning of all animals.

The incident, however, sets you thinking about the tremendous amount of work that man has passed off on domesticated animals. He has made slaves of horses, cattle, chickens, Eskimoes, camels, elephants and a host of others.

Of all of these, horses are the most intelligent. Elephants come second. In India they are trained to work all day on such tasks as moving and piling logs.

Any old man can recall when farmers used dogs, running on a treadmill, to churn butter. Horses were similarly used to operate threshing machines.

Man is a parasite. Until the invention of the steam engine, his existence depended almost entirely on the parasite use of animal and vegetable life.

The steam engine ushered in a new era of power. Previously, there were few instances of man using power not generated by animals—such as wind moving sailing ships and water power turning the prayer wheels of India.

Gradually we are shifting from our position as a parasite on animal and vegetable life. The auto is relieving the horse. So are railroads and flying machines. There is talk of food being produced synthetically in laboratories instead of by growing and killing plant life. Where we once preyed exclusively on trees, a form of plant life, for our dwellings, we now turn to brick, concrete and metals like iron.

In school you studied about the three kingdoms of nature—animal, vegetable and mineral.

Man rose to his present state by being a parasite on the animal and vegetable kingdoms. Slowly but surely he is relaxing his grip on these fastening himself as a parasite on the mineral kingdom. A good illustration is taking oil out of the ground instead of getting it by killing whales and dogs.

It is a peculiar change, taking place without much attention. But it is vastly important in the history of mankind, a definite and separate step higher in the cycle of man's existence.

There Was an Old Soldier, And—

he had a wooden leg. This stick lost a leg in a battle with another stick at the Paris Zoo. The keeper fitted him with a wooden leg and now he walks about very nicely, thank you.

ASLEEP TWO YEARS, WOMAN Baffles Science

MRS. SARAH SAMPLE

CORNH, Pa., Aug. 25.—A dual existence is being led by Mrs. Sarah Sample.

Mrs. Sample is physically alive, though mentally dead.

She has been so since August, 1929, when she was hit by a street car and knocked unconscious. Since that time she has been in a coma.

In a small white bed at the home of a relative here, she exists from day to day—her ability to continue baffles physicians and specialists who have examined her. They are surprised at the strength almost unvarying endurance possessed by the aging woman.

For months Mrs. Sample was fed through the nose. Lately she has been able to swallow. This is the only outward sign of life she has shown since she was injured.

An x-ray failed to show any condition which would warrant her long state of unconsciousness.

Specialists at first believed a blood clot might have formed on the brain. Further x-rays were taken but none of these supported the theory.

Dr. W. O. Bennett, the family physician declares the case a complete mystery to him.

"Cases like Mrs. Sample's are not frequent," Dr. Bennett said, "but generally there is some pathological reason for the continued sleep."

How long Mrs. Sample can continue her mental sleep, physicians hesitate to predict; she already has outlived their guess.

she Objected to Skunks. A school superintendent received the following note from the mother of one of his pupils: "In regard to Elliot's writing, so much school the first time he was hit & the Dr. told me not to send him till he got stronger & his eyes did not hurt him so much then he was tramping & going to school & the Teacher sent him home because he hit me with a stick of wood. He said he would have my school or quit Teaching."—Everybody's Magazine.

"The Way My Wife's Health Has Been Restored by

TANLAC

proves to me that it has no equal" declares W. F. Hogan, well-to-do farmer, R. F. D. 7, Dallas, Texas. Stomach Trouble and its many allied diseases

seldom fail to respond to the Tanlac treatment. It aids digestion, restores your strength and builds up your reserve power. At all grocers and druggists.

Daily Fashion Hint

SMART IN ITS SIMPLICITY

The most attractive way to reproduce this dress is in figured crepe de Chine and plain Georgette crepe. It is shirred at the neck, the bodice being effected at the left underarm seam. The kimono sleeves are adjusted to a back-closing underarm which, in this instance, is made of Georgette. A pilot edge finishes the neck, sleeves, sleeves and hem. Medium size requires 3 yards 36-inch figured and 3 1/2 yards 36-inch plain material.

NO GORGEOUS GOWNS IN NEW CLAYTON FILM "HER OWN MONEY"

Edith Clayton, popular Paramount star, who recently has been seen in several society dramas in which she wore some of the most gorgeous creations of the feminine wearing apparel ever designed, plays the neatly tailored office girl and later the economical housewife, in her latest starring vehicle, "Her Own Money," which opens at the Idaho Theatre today.

Miss Clayton is seen as a stenographer who marries an extravagant real estate agent, and as she makes personal sacrifices and practices the strictest economy in order to balance his extravagance, she spends. By the most skillful saving she manages to save two thousand dollars from her husband's allowance, intending to buy a little home. Just as the love comes when her husband must have some money and, knowing he will not consider it an obligation if she gives her savings to him, she arranges to let him, in time this arrangement is revealed by the jealous wife of the friend and the husband quarrels with his wife and in a rage leaves her. After some dramatic complications all ends happily.
