

NEWS OF THE SPORT WORLD

DEMPSEY MAY DRAW MILLION FOR 3 FIGHTS

O'HOURKE STATES THAT JACK DEMPSEY WILL MAKE ABOUT A MILLION OUT OF THREE FIGHTS.

NEW YORK, Jan. 27.—The arrival of the first manager from Cuba bearing offers of several plantations, and the flash of the roll from a couple more stage men, the steamer "O'Hearn" was not allowed to蒸 up to normal for a while.

Dan McFerck, Dempsey's captain, representative and the first tenant of Jack Kearns, furnished the big laugh last night when he was asked if Harry Franze's offer of \$200,000 for a Dempsey-Wilson fight.

McFerck refused to discuss the offer because he did not want bring public notice to Mr. Price, who would be unfair to him.

(Mr. Franze owns the Boston Red Sox and the New York Yankees, Brooklyn Dodgers and the Brooklyn Robins.) As was predicted, Tom O'Hearn did the dive out of the picture last night. He said all he had been offered was \$100,000 for three fights, but he thought the champion could make that much out of them. Any other offers had not made and withdrew his offer.

Meanwhile, Tex Rickard sits back and allows the storm to blow over. It is reported that he has been so brominated thought of plugging the ear of Kearns with \$100,000 notes. It amuses him also to figure that perhaps the other promoters have \$100,000 ready cash to plug up managerial ears.

ALL STAR BUTCHERS LOSE TO SHOE MEN

The All Stars started off with a terrible faze in the bowling game last night between the All Star Butchers team and the Shoe Market bunch. These two teams, which have been making some pert remarks about how to bowl, etc., and "Dug" Salmon and his bunch were anxious to test their great choppers against some of the world's best players in bowling. However, the first game made the shoe men look sick as the butchers made scores of 695 to 604 for the shoe men.

But the All Stars had not trained long enough to get into trim because they weakened in the next two games and the Shoe Market bunch won again. Harry Vogel of the Butchers took the high score of the evening, with 181 pins to his credit. Butchman of the shoe men had the highest score for the three games. His score was 477 and Salmon came second with 452. Among the men cutters Vogel came second with his score of 410, while Jameson came second with 408, while Jantzen came second with 408.

IDAHO LOSES TO WASHINGTON STATE

MOSCOW, Jan. 27.—The news reached here late last night that the Idaho State basketball team with Washington State college at Pullman last night. The final score was 20 to 17. Idaho located itself in the lead only once, and that was this shot by Edwards. Schroeder for W. S. C. was the star.

Bowling Averages For The First Two Weeks

The Following Averages Show That Many of the Local Bowlers Are Making Rapid Strides Toward the Top; Benoit Still Holds the Lead with An Average of 185 Pins; Towns Who Stands Second, Lost Slightly This Week.

"Benoit is given the average" for the Twin Falls Bowlers' pin game for the second week in a row. End of the year. The Twin Falls team still holds the lead. However, he was unable to bowl in this week's events, therefore his average remains the same and Towns' average, of 180 pins, has dropped four points. Towns leads the field with total 1,000 pins, while the new Hogan's Cafe team comes in with a third with a total of 1,050 pins.

The bowling for the second week shows improvement, however, and several new bowlers have shown a much higher score than for the first week of teaming.

BAPTIST BARACA CLASS LOSES TO HOLLISTER

Hollister Wins Both Games from Baptist Church Team; Boys Game Wins a Thriller.

Hollister led by a low rolling and a small floor and low banked the ball seven and even seven foul throws. Smelt, left forward for Hollister, laid it by. Hollister high quintet, the score showing an 18-17 count at the end. The first period ended with the ultimate winner in the lead. In the first half, Hollister shot only one field goal in the half, the other two points being chalked up on free throws.

During the first part of the game, the Hollister boys were attempting to familiarize themselves with the unfavorable conditions and most of the shots aimed basketward from the center court. This plan ruled the long distance shooting and cut an entirely unexpected aspect on the situation.

The result was rather squat, though called. The referee, however, was splendidly impartial, and ruled the game in the interest of the contestants. The crowd, which was made up of 200, was keenly interested in the wag and there were yell.

Two weeks from Friday at the Idaho gymnasium here the rubber game will be played between the rival teams. The first game on the evening of Sept. 20, 1922, resulted in a tie, the second game on the 21st, which was won by the home team.

SAN FRANCISCO—Coast yachtmen met here today to outline the rules for the first race of the San Francisco Regatta, which balance last night's glorious defeat. Much interest is being displayed locally in the coming race, in which the San Francisco Yacht Club and the San Francisco Yacht Club will compete.

The first race on the evening of Sept. 20, 1922, resulted in a tie, the second game on the 21st, which was won by the home team.

Daily, one month.....	1.00

Had you ever realized that there are nineteen million people reading daily evening newspapers and only twelve million reading morning papers. This ought to bring a suggestion to the business men who wish to have their advertisements and news stories read carefully.

Between March 1 and June 1 is the time for shipping the famous Bermuda onions from Laredo. The office reports a business of about \$60,000 a month. Why not grow these famous onions on the Twin Falls tract instead of in Bermuda and allow this great sun to flow into the coffers of our farmers.

Will Hays ought to do something for the movies if he is to draw \$150,000 a year. He is a clever politician and we predict that he will try to slip over some G. O. P. propaganda about the next general election time. The people will do well to keep their eye on Hays if they don't wish to be tricked.

One would hardly think that a representative of the Anti-Saloon league would graft. But it seems that even they forgot their righteous air and stoop to the taking of money unlawfully. At least the New York state superintendent has been charged with padding his salary to the tune of \$5,000 a year and splitting gifts through our churches.

We understand that at least one business firm is quitting Twin Falls because a certain landlord raised the rent. This is a poor time we would think to stick the rent up. "What we need in Twin Falls if we are to stay in business is something which will make it possible to reduce the overhead or increase the volume of business. The volume is limited by certain restrictions such as trading territory, competition, etc., therefore, the landlords must take these things into account and live and let live."

Few evangelists can come into a city and spend two weeks and make as many friends and as few enemies as Rev. J. H. Elliott has for the past two weeks. Some men gain friends by taking a compromising attitude on many of the great issues of the day but this has not been true with this gentleman. He has stood four-square for the things which make for a better community and for the upbuilding of righteousness. He has not stooped to the cheap sensationalism which so many evangelists and preachers who come into a community for only a short stay. In other words, Twin Falls has not been held up to the public as the most notoriously wicked city in all Idaho. Neither has he cast reflections on any of our public organizations which are not without fault but instead he came here with a definite purpose and he has hewed to the line in that mission and made a wonderful impression for God and brother citizenship. Anyone who follows him will do well to keep in mind the splendid example of this dignified Christian gentleman who has a real conception of what Christianity means by the life he is living before the world.

JUSTICE AND LAW

New Yorkers troubled by congestion in the civil courts, where minor litigation is carried on, have reverted to an ancient principle for relief. A civil tribunal, with the authority of the legislature and the sanction of the courts to support it, has been opened to hear and settle all minor differences without the delays, formalities and confusion of over-developed legal technique.

The plan is being tried under imposing auspices. In 1920 the state legislature authorized it and provided that the power of the courts will be exerted to sustain decisions rendered by the arbitrators. These arbitrators may be selected by the parties to the controversy—that is, business men may select such of their associates as they choose to hear evidence relative to contested claims. Poor people may go to the arbitration tribunal and be in no danger of injustice because they cannot engage legal talent as costly as that of their opponents. Questions will be settled not on a basis of legal forms, but according to the central principles of common justice, as they were settled thousands of years ago by wise philosopher-princes who sat under trees and judged not by technicality and technicality, but between man and man.

The Law Association of New York, Emerson McMillan, a banker with philanthropic tendencies; Samuel McCune Lindsay, of Columbia University, and hundreds of other equally prominent persons are aiding in the establishment of the arbitration tribunal of New York. It is estimated that the annual landslide of small suits in the New York courts will be reduced about 75 per cent by the work of the tribunal.

Of course, it was time for something of this sort. Anyone who ever was in a courtroom knows that courts have come to seem like places merely to the exercise of the technical resources of lawyers, where justice is often bound permanently by miles of red tape.—Philadelphia Ledger.

Preparing for a Long Siege

American soldiers on the Rhine are shown here getting their last beer before leaving Germany for the American Sahara.

HOT WEATHER GETS GOAT OF THE PEST CALLED GRASSHOPPER

Burier Bulletin Learns That Unhatched Insect Comes Out of Egg Unhatched in United States and Jack Frost Kills Them Later.

We are informed by authorities on that this summer weather will prevail here in the grasshopper, said Dr. E. C. Burier, who will bring the young hopper to form in the egg, and the cold weather later—if we have any, and let's pray that we do—will kill the poor little ones he has hatched out.

Conditions Against Them

If the eggs do not develop to a point

that the cold will not kill them, the warm weather will at least tend

to bring on a early hatch, and the

cold and storms of the spring will kill

many of the grasshoppers. Fleaing is

one way to combat them, and

the best way is to burn them.

May Become Real Menace

Just the reverse situation developed last year, when the weather was

and the late spring with little

storm and cold after the warm weather did come ideal conditions for the grasshopper, and

then multiplied as totally to destroy

many crops, especially on the dry farms, and did incalculable damage on this project. Since we have had

such a long winter, and the grasshopper has not yet hatched, and

the cold and storms of the spring will

kill the young ones, the grasshopper

will not be a pest this year.

The hatching grounds of the grasshopper usually high, dry places

should be watched by our farmers,

and preparation made to early pos-

ition, and to burn them when the

load of hatched eggs, too late to

be much demand, and it is still on

hand for use this year.

It is not unusual for other insects

to be comparatively inexpensive and

very effective when the grasshoppers

are first hatched out, and when

they are permitted to grow and develop.

Next spring irrespective of the present weather irrespective of the

present weather irrespective of what

the grasshoppers do on the project and in the country generally.

Great in Many Ways.

Thomas Jefferson, author of the Declaration of Independence and then president of the United States, was also an astronomer, physicist, engineer, naturalist, geologist, zoologist, botanist and paleontologist.

... AT THE THEATRES

BEBE DANIELS A DANCER

In letter to the editor, a correspondence from a woman who has seen "Signed Wings," Bobe Daniels is a moth, a butterfly or an angel?

Miss Daniels is neither. She is a

once proud and wealthy Spanish family.

The title of "Signed Wings" is taken from scenes in the picture

upon Miss Daniels, cast in a

modern, romantic, "Mae" Jones.

The costume is one of the most unique and respondent ever conceived

and the production is

as good as any in a

a Penrhyn Statuary production for

Paramount and will be seen at the

Idaho Theatre next Monday. Bobe Daniels and Conrad Nagel have the featured roles.

MY BABY AT ORPHERYM

A trained dog, trained to the hard

edge of the iron lamb, plays an im-

portant part in the film, "Signed Wings,"

which is to open at the

Idaho Theatre Monday evening.

Put Prohibition on Cotton.

In 1920 the importation of cotton

goods into Great Britain was

over 1,000,000 bales.

Cotton is England's chief

crop, and the market

is controlled by the British

Empire.
