Fugitive Mrs. Phillips Confined in Mexico, Having Been Arrested Upon Her Arrival at Chihuahua After Long Journey by Mule Train; Immigration Official to Act.

HOUSTON, Tex., Feb. 9.—(Clara Phillips) escaped "hunger murder," in the state penitentiary at Chihuahua, Mexico, according to Manning, federal immigration officer who returned Phil Alquist, public cost criminal, to America from Mexico.

"As soon as the Alquist case is off my hands, I will return to Chihuahua and arrange for her deportation as well," Manning declared today.

Mrs. Phillips fled to Chihuahua as plans were being completed to rush her across the border from Juarez, where she sought refuge after her sensational escape from a Los Angeles jail.

"The woman went into Chihuahua after an operation conducted by Manning said, Mexican officials had been warned of her coming and she was confined here for a few minutes after her arrival."

"We have assurances that she will be detained here until the immigration department acts," Manning declared.

The arrest of Alquist was believed the key to the apprehension of Clara Phillips. Catherine Urbe, a Mexican dancer, has been active to secure the deportation of Alquist to secure the release of her husband and brother-in-law held in jail in Los Angeles.

Meanwhile Alquist was being held in the Harris county jail pending the arrival of Chief of Police Oaks of Los Angeles. He is wanted on a charge of murdering a detective sergeant.

Wanda Hawley Wants To Tie Car to Hubby

LAB. KIDNAPERS, Cal., Feb. 9.—Wanda Hawley, a divorcée, today announced her intention of filing a suit for divorce against Alvin Burton Hawley, in which the film star will allege desertion and cruelty.

The husband is said to be in New York City.

Contraband Runners Have Their Own Way

ATLANTA, Ga., Feb. 9.—Heavily armed runners, traveling in gangs have wrested control of the situation from prohibition officers, Fred D. Channing, federal agent in charge for Georgia, declared today.

The liquor traffic is in the hands of the most desperate in the underworld, who said federal troops are being called to patrol the highways in an open war with bootleggers.

THIRTY-THREE KILLED

VANCOUVER, B. C., Feb. 9.—Dead in the mine disaster in the Cumberland coal mine was officially placed at 33 in a formal statement by mine officials here today.

What's Doing In Near East

Tension in the Near East increased today with the Turks and allies defying the British ultimatum.

In the Ruhr valley, on the other hand, it appeared that German resistance to the French invasion had been virtually overcome. The French forces are busy with the evacuation of the Ruhr, which will cut off Germany from all food supplies except those which the invaders permit to pass.

In Smyrna harbor the British cruiser "Cerberus" is being held beneath the guns of the Turkish land batteries.

Admiral Beatty has informed the Turkish commander that the British fleet will be in the area in any battle, and the French also have naval units in the area.

The Turks have denied the British ultimatum and the British ultimatum is also a non-acceptance of the ultimatum.

Grave Trouble Averted Temporarily In Europe

Briefs of Calamities

Coal mine explosions on the Pacific slope within the last 24 hours have taken a toll of life which may total 100.

At Dawson, N. M., an explosion in the Phelps-Dodge mine late yesterday imprisoned 122 men.

At Cumberland on Vancouver Island, B. C., 51 men were believed to be dead as a result of an explosion in a mine No. 4 of the Canadian Collieries.

Reports from Hawaii hold out little hopes of recovering alive the 122 miners caught in the mine explosion there. Rescue crews had managed to dig out surface six bodies during the night and early morning.

Officials of the Canadian collieries and rescue workers at Cumberland expressed the belief that 51 men had lost their lives. Thirty-five bodies have been recovered and five men escaped alive but injured. Several of the dead are Oriental.

In neither case was the cause of the explosion known definitely but it was believed, in each instance that coal dust or gas pockets were responsible.

TOLL LOOMS LARGE IN MINE DISASTER

VANCOUVER, B. C., Feb. 9.—Forty-five miners were believed today as a result of an explosion at 7:45 p. m. yesterday in the Cumberland mine on Vancouver Island, according to unconfirmed but seemingly authentic reports received here today.

A later report said that rescue crews using oxygen apparatus, had brought from the mine 28 bodies up to 2 p. m. and has abandoned hope of bringing out alive 10 other men believed to have been entombed.

The bodies recovered were said to have included 20 whites and eight Orientals.

The explosion was in No. 4 mine of the Canadian collieries at Cumberland, B. C. It occurred just after the night shift had begun work.

Owing to poor communications reports of the disaster and of the progress of rescue work were slow in coming in.

Nations Will Resort to Diplomacy in Hope of Alleviating European Tangle Which Threatens the Peace of the World in An Alarming Degree; America Receives Note from Turks.

PARIS, Feb. 9.—Diplomacy will be used in place of shells to determine whether allied warships have rights to enter Smyrna harbor.

The Constantinople dispatch today said the Turks and allied naval command had agreed to make no move until the question of Turkey's right to order allied vessels out of the harbor had been settled by diplomatic measures. The Turks, however, refused to withdraw their demand that the warships depart.

CONSTANTINOPLE, Feb. 9.—The Smyrna situation is critical today. The allied warships remaining in the harbor, despite the Turkish order to depart at once.

Notice has been given on the Turkish commander that the British warships are ready to commence firing if attacked.

The Turks admittedly have mined the harbor so that it would be exceedingly dangerous for the vessels to attempt to move without knowing the location of the mines.

When a demand was made on the Smyrna commander that he accept up these mines he flatly refused, adding that the allied naval officers would have to hire Turkish boats to guide them out of the harbor.

According to the latest information here, the only American war vessel in Smyrna harbor is a destroyer of less than 1000 tons.

WASHINGTON, D. C., Feb. 9.—The American and allied governments have received a warning from nationalist Turkey that the matter of Smyrna where allied warships have been ordered out of the harbor under a Turkish ultimatum are aimed against attack from the west.

This modification from the Smyrna harbor is a destroyer of less than 1000 tons. The American and allied governments have received a warning from nationalist Turkey that the matter of Smyrna where allied warships have been ordered out of the harbor under a Turkish ultimatum are aimed against attack from the west.

One American destroyer is now in Smyrna.

British and French warships have been ordered to Smyrna where the allied naval forces already in the harbor and to await the order of the Turkish ultimatum.

Paris, Feb. 9.—The night passed without word from Smyrna where allied warships are anchored under the guns of the Turkish fortifications which challenge the Moslems to make good their threat of opening fire.

Newspapers here put on optimistic interpretation on this lack of tidings, believing that the firmness of Great Britain and France in raising additional fighting ships to Smyrna in the teeth of the Turkish ultimatum had caused another "black dawn."

The foreign office, lacking any dispatches from Smyrna, official or otherwise, let it be known that danger of a conflict is considered extremely unlikely now.

BRIDING OF GUN MAY BE FAKED STORY

Detectives View Tale of Cruel Attack with Suspicion; Narrates Alleged Turling Episode in Which She Was Taken to Country and Tortured by Unknown Men.

CHICAGO, Feb. 9.—A warrant for the arrest of Mildred Price, the child who was kidnaped and washed by three men in Chicago, was issued today at the request of the girl's father. Doerflinger conducted the investigation.

The girl whose body was marked by 10 crosses, apparently made in a post office, was kidnapped when police sought her at a rooming house.

The girl, who was recently kidnapped, had gotten beyond his control and he thought by taking her action he would be able to regain direction over the girl.

Mildred, in her story to physicians, said she was threatened by a secret organization for the purpose of kidnaping her in which she was reared.

MINOR BILLS ARE PASSED AT BOISE

BOISE, Feb. 9.—House bill, appropriating \$61,000 from the insurance fund for the administration of the insurance bureau, was passed by the senate this morning and in that order the second appropriation measure necessary to receive the approval of both houses of the 17th legislature was passed.

Three other bills also were approved by the senate this morning and three new measures introduced.

Senate bill 24, by the committee on irrigation and water rights, providing that water masters shall hold office for two years from election, unless two-thirds of the water users desire a change, was passed. Approval was also given by the senate to the bill which removes from the statutes the expense fund of \$100 for district judges when they hold court in their district but outside of their home county.

The Friday morning session of the house saw final action on only four bills—a grocery inspection bill, a horticultural pest abatement bill, a county commissioner districting bill and a probation officer appointment bill.

Less than half the calendar had been completed at the noon recess.

But much of the time of the session had been taken in handling the second reading of 15 measures, and the first reading of 23 just introduced.

Witness Testifies She Was Cheated on Ranch

CHICAGO, Feb. 9.—The scope of the activities of the Hayes Land company, Inc. today was charged by a defendant in the public of nearly \$5,000,000 was witness today when Mrs. Hayes testified in the trial of the Hayes Land company, Inc. in Dallas, Tex., was called as a witness.

Mrs. Lockhart testified she traded in the tract of acres of land near Pullon, Ill., for 100 acres in the Chautauque ranch in California after the company had secured her the land was violated. She declared she visited the land and found it covered with alkali but that she was unable to get her money back.

MONEY CANNOT BUY TALENT SAYS DIVA

NEW YORK, Feb. 9.—Ganna Walska in accusation here today, pressed to win a million dollars, says "not as a rich man's wife, but by my talent, I am."

The Polish diva, wife of Harold F. McCormick, of Chicago, will tour the East shortly, singing opera in Germany, France, Italy and England, she said. The tour will take her to Washington, Baltimore, Chicago, Detroit, Philadelphia and New York.

"I want to show my talent for singing," Mrs. Walska, who arrived with her husband here last week, said in a newspaper interview given to the Associated Press.

"I don't want people to come to my shows just because they are my husband's property to be regarded as the fancy of a rich woman, it isn't."

"All the money in the world cannot purchase talent," she said. "It is only hard work that perfects talent and I work as hard as though I were working for my bread and butter. During four hours each day I practice and practice, and when I sing I sing for some time to keep my voice and sleep the past months."

"I think that I will be able to pay for my talent."

Work Advocates New Structures For Department

WASHINGTON, D. C., Feb. 9.—Congress today was urged by Postmaster General Work and Secretary of the Treasury Mellon to authorize a score of the principal cities of the country to build federal post offices.

Postmaster General Work said that the present plan of construction of post offices in government-owned buildings has forced the postmaster department to rent hundreds of structures.

HUNDRED DIE IN HORRIBLE WINE CAVEIN

Dawson, N. M., Is Latest City to Be Stricken; Heroism and Grief Are Pals at Workers Toll to Bring Bodies to Surface; Two Known Survivors; Relatives Wait Impatiently.

TRINIDAD, Colo., Feb. 9.—At least two men have survived the explosion of the United States mine No. 1 at Dawson, N. M., in which 122 miners were imprisoned, according to word received here today.

The report, which came from an authoritative source, said two miners were known to have survived the explosion. The two survivors were brought to the surface shortly after 7 p. m.

These men were in a remote part of the mine and escaped death when the terrific blast occurred.

Four other men were with them when they died, but the survivors did not know the fate of these men or that of the other 118.

The identified dead are: A. J. English, 42; J. H. English, 37; J. H. English, 37; J. H. English, 37.

The two survivors, whose names were not mentioned in the report, were the last to be rescued from the mine.

Dawson, N. M., Feb. 9.—Charles Cantini and William Mattini, the only two federal survivors of the explosion in the Dawson No. 1 mine near here yesterday afternoon were brought to the surface shortly before noon today by rescue squads.

Both men were overcome by exhaustion and could not give any information as to the fate of the other men. They said that there were six other miners in a shaft near them when they thought had escaped death.

TUCSON, Ariz., Feb. 9.—Mine rescuers today rescued two men from the mine No. 5 of the United States mine No. 1 in charge of C. C. Gregory, associate engineer, which was struck by a fire through Arizona. The mine was closed for several days and the rescue work was not completed until today.

THE AMERICAN CIGARETTE ABROAD

By G. P. ... THE NATIONAL CITY BANK OF NEW YORK

(From the WEEKLY TRADE RECORD issued by The National City Bank)

The world will have the American cigarette. It bought 12,000,000 of them in 1922 against slightly more than 2,000,000,000 in the year preceding the war, and the number of countries to which single cigarettes were sent in 1922 is 89 as against 50 in 1912.

Curiously, too this growing demand for our cigarettes comes chiefly from a section far distant from that in which the war occurred—the Orient. In China alone the exports of cigarettes in 1922 were 8,500,000,000 against 641,000,000 in 1912, and the sum sent us in payment therefor from China alone was \$17,000,000 against \$1,000,000 in 1912.

Of course, there was a large exportation of cigarettes to Europe during the war period, especially to France, Belgium and Italy, but the sales to that continent have greatly fallen off since the close of the war.

Russia, France and Germany have all in turn been accused of inspiring the Lithuanian seizure of Memel, and Moscow has now unceremoniously repudiated the claim that Poland was responsible. Whoever inspired it, the move was shrewdly timed.

A group of well known and highly prosperous moving picture stars is reported to have agreed to make pictures and have these shown independent of Mr. Hays' organization of producers. It begins to look as if Judge Landis had a chance of being in a class by himself.

The Bible, with thirty million copies distributed, was last year's "best seller." The faithful readers of it were perhaps several million fewer in numbers, but the significance of the exhibit as a showing of the activity and vitality of the church militant is too plain to be missed.

Men will outdo women in colorful clothing during the coming year, according to an official of the National Association of Merchant Tailors, now in convention at Detroit. The suggestion is rather dazzling, but perhaps he means it to be understood in an Einstein sense.

An unsettled financial market is ascribed by an expert to the fact that "no one is able even to conjecture exactly how and in what way the existing Franco-German deadlock will terminate." When the financial market is not merely ignorant, but forced to confess its ignorance, the rest of us need not feel ashamed to be no wiser; the market may often make mistakes, but it usually feels 100 per cent confidence in its inside "dope."

The Michigan legislature, it is reported, is to demand government operation of Pennsylvania anthracite mines. At least a concurrent resolution to that effect is to be introduced, with the approval of the state fuel administrator. The idea seems to be that other means of getting anthracite enough having failed, the proposed way is now in order. That is not quite reason enough. We may come to it, but let us hear first what the Hammond commission has to say.

It was not really necessary for Vice President Buckland of the New Haven to devote a part of his Boston speech to exonerating his company from Judge Anderson's charge that "the main political and moral responsibility for the shipmen's strike rests on railroad management." Judge Anderson did not make this complaint specifically against the management of the New Haven; in fact, that company was not charged with evading the wage scales fixed by the labor board. That the railroads collectively were in part morally responsible for the strike is admitted by President Willard of the Baltimore & Ohio and by independent observers like Professor Cummings. It is, in fact, a commonplace.

The championship for longest unbroken attendance at Sunday school is far from settled. The Republican a week ago told of the record of Mrs. F. E. Brown, of Brimfield, who had not missed a Sunday in 21 years, but the Salisbury (Vt.) Sunday school now goes ahead by presenting the record of Miss Grace Ball, who up to and including last Sunday had not been absent from Sunday school in 22 years, seven months and two weeks. Making the champion is not going to be so easy as was first supposed. "The New York man who thought he was entitled to the honor because he had not omitted to go to Sunday school in 15 years merely started something."—Springfield Republican.

### SHOULD STAND BY THEIR PLATFORM

James D. Whelan in New Freedom gives the following sound advice to his fellow democrats: "I want to heartily endorse the position of Chairman H. W. Hornibrook in his opposition to the compromise primary and convention measure. Democrats should stand by their platform. Failure of the party in the past to enact was due to a few traitors in the legislature. Misrepresentation of Governor Alexander on these points contributed largely to his unmerited defeat last year. Let it not happen again. Let us go down in defeat rather than violate our principles. A clique of democrats in the senate ruined the Cleveland tariff reform plan. A faction of populists in Kansas ruined the railroad policy of Leedy. Whatever the republicans or progressives do, let the democrats do their duty."—Idaho Daily Free Press (official organ Progressive party).

### ... AT THE ... THEATRES

#### "MAKING A MAN" MAKES HIT.

"Making a Man," a Paramount picture starring Jack Holt, scored a decided hit at the premier at the Idaho theatre last night. The picture was adapted from the story, "Humoring Mr. Winslow" by Peter B. Kyne. Jack Holt is the star with a well selected cast, including Eva Novak and J. P. Lockney. It is an excellent picture and will, doubtless, prove one of the season's big successes. Directed by Joseph Henbury, the production adheres closely to the original novel and in so doing popularizes the exact thoughts of this universally recognized writer. The supporting players render efficient support.

#### "OVER THE HILL" WONDER PLAY, OPENS HERE

With "Desert Gold," whose "Farm Bill" secured the popular favor some years ago, provided the most of the show, which fast to show, a well-known young screen writer, has worked into one of the strongest picture plays ever devised.

The simplicity and humanness of the tale won a capacity audience at the Idaho theatre last night from the start. It is doubtful if any other theatrical attraction in recent years seen in this city has gained such direct and enthusiastic favor as has "Over the Hill" except "Way Down East."

#### "DESERT GOLD"

The attraction at the Laverne theatre next Monday and Tuesday will be "Desert Gold," the picture played in Twin Falls about two years ago, and left such a decided impression that the management has been requested to secure re-prints. While Mr. Babitt was in Salt Lake last week he made arrangements for presentation on February 12 and 13. On Wednesday and Thursday, Oliver Carwood's great story, "The Country and the Woman" and a Larry Semon comedy will be the bill. The regular comedy day continues one evening will be held Wednesday, Friday and Saturday a special feature and one that offers something entirely different in the way of interesting pictures will be the offering, "The Hutchison in his greatest and newest picture, "Speech." Hutchison is called the thrill a minute stunt king, and in this picture the thrills come even faster.

Here, paper, which is used with a perfect-matching grosgrain ribbon, one inch wide, which is slipped on both edges and extends from neck to hem. The ribbon is attached directly over the plain dress front and serves a three-fold purpose of brightness, ornament and line.  
The drapery at the left side extends toward the front, while the right side extends toward the back, forming a deep pocket. The neck stays in an apron box at the center back, the ribbon hanging more than half way to the bottom of the skirt.  
This dress, made of light or soft material, is a perfect example of a simple, yet elegant, and comfortable dress for the day.

THE nation-wide popularity of Mazola as the leading brand of salad and cooking oil, is due to the fact that Mazola has demonstrated its superior quality and great economy in the household—to the housewife herself.

However, there are still some housewives in America, who do not as yet use Mazola. There are also

some who still believe that expensive imported oil is necessary to make a delicious salad dressing. There are others who still believe that foods cooked in lard are as easily digested as foods cooked with Mazola—the 100% pure vegetable oil.

Many housewives continue to use high priced butter, whereas Mazola is equally as rich as butter, costs much less, goes further, and makes the most delicious cakes, etc., that you have ever tasted.

*It is to these Housewives that this 25c Free Mazola Coupon is offered for One Week Only*

*Fill out the coupon—hand it to your grocer. It is worth 25c towards the purchase of one quart can of Mazola. It gets you this remarkable salad and cooking oil at about half price.*

WE want you to give Mazola a fair trial. This is your opportunity to prove that Mazola is equal to any oil for salad dressing; that Mazola mayonnaise is smooth, rich and creamy, and will keep longer. And remember, Mazola costs considerably less than expensive imported oils.

For shortening you will find Mazola is equal to rich, creamy butter, and you use less. Makes your cakes and biscuits light and tasty. Once you use Mazola for shortening, you will prefer it to lard and butter.

And for frying you will find Mazola-cooked foods are more digestible. One reason is that Mazola can be heated so hot that the food is instantly crusted over. This keeps in all the rich juices, and makes the food more delicious and tastier. Because Mazola does not carry odors and flavors from one food to another, you can use it over and over again to the very last drop. Merely strain it. Always remains sweet and clean.

If you are not satisfied in every respect with Mazola as the best oil for salads and cooking, just as we have stated in this advertisement, your grocer is requested to refund your money without question.

All grocers are hereby requested to co-operate with us and their customers in carrying out this guarantee.

FREE Beautifully Illustrated Cook Book of 64 pages. Write to JOHNSON & JOHNSON COMPANY, Boise, Idaho.

NOTICE TO GROCERS  
We will accept this coupon, when properly redeemed, with allowance and no deduction of amount, for 25c. It must be used by the housewife receiving the free of Mazola before expiration date. Your signature below certifies that you have given to customer as many barrels one quart can of Mazola as shown.

This coupon is worth 25c towards the purchase of one quart or larger sizes of Mazola. Only one can to each family. Fill out and present it to your grocer.

DAIRY POINTS

BUTTER RATED FOR QUALITY

Producers Lose Much Money Because of Imperfect Grades and Methods in Making.

(Prepared by the United States Department of Agriculture.) If you are a producer or manufacturer of butter, were you disappointed in the price you received for that butter? Quality is the chief factor in determining butter prices, and according to United States Department of Agriculture circular 230, just issued, even small defects in quality may result in the loss of a sale by a cut in price.

Several million dollars annually are lost to producers and manufacturers because of imperfect conditions and methods in production, manufacture and marketing of dairy products, especially butter. During 1920 the marginal difference in the prices of high and low quality butter amounted at times to as much as 12 cents per 100 pounds and 12 cents.

It is stated that there has never before been a time in the history of American butter making when it was so well to produce high-quality butter as during recent years, but to secure

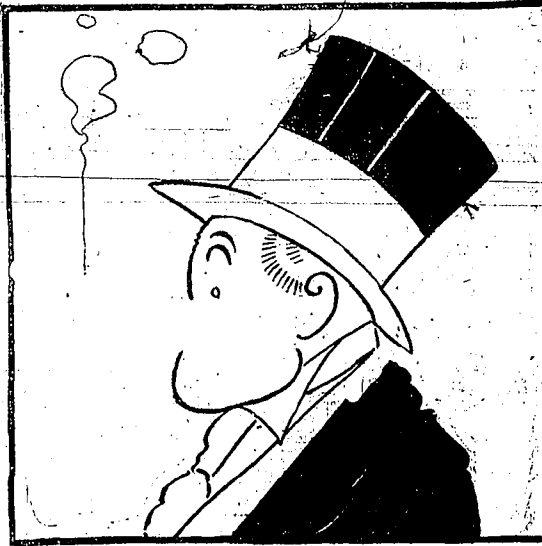

Taking Butter From Churn.

an active demand and the largest net return not only high quality and uniformity of the product are necessary, but a knowledge of market requirements and good marketing methods are required.

Circular 230, entitled "Defects in the Quality of Butter," has been prepared so that producers and manufacturers may know precisely how butter is rated for quality in the markets, and how the defects which lower the price may be avoided. Copies of the circular can be obtained free upon request to the United States Department of Agriculture, Washington, D. C.

JIGGS DRAWING CONTEST

The Twin Falls Times will offer the boys and girls who attend the grade or junior high school, a chance to see Jiggs in person when he appears here at the Lathrop theatre on February 19 and 20.

All that is necessary is to draw a likeness of Jiggs taken from the above picture, fill in the missing lines, but do not trace or draw through a thin paper. It must be a free hand drawing. Mail together with your name and age and the school that you attend, written very plainly on the back of the cartoon to The Jiggs Editor of The Times, so as to reach him not later than February 16, as the contest will close on Friday and the prizes will be as follows:

First prize will be six tickets to this big road show which are worth \$1.50 each. Second prize is four tickets, third prize two tickets and fourth prize two tickets.

QUESTION AND ANSWER BOX

(Conducted by Auntie Sue.)

Q. When a wife refuses her husband a divorce, would not the man be justified in offering his love to another woman?—M. P. D.
A. There are no unwritten laws to cover such an event. The written laws are known to all. When a man's wife turns away from him, the law warrants him in divorcing her; but neither religion, convention nor law justifies any married man making love to a woman not his wife. Persons of sturdy moral stock do not find it impossible to believe that it is unnecessary to be happy, but it is necessary to be right.

Q. What requirements must a girl have before she can get in the movie?
A. I quote Mary Pickford, from one of the recent magazines: "A girl needs a reasonable amount of soul looks and extreme youth; and a girl must have time to develop her talent before she begins to 'reel.' She 'reels' only when she is

Russia, France and Germany have all in turn been accused of inspiring the Lithuanian seizure of Menzel, and Moscow has now unearthed documents purporting to show that Poland was responsible. Whoever inspired it, the move was skillfully timed.

A group of well known and highly prosperous moving picture stars is reported to have agreed to make pictures and have them shown independent of Mr. Hays' organization of producers. It begins to look as if Judge Landis had a chance of being in a class by himself.

The Bible, with thirty million copies distributed, was last year's "best seller." The faithful readers of it were perhaps several million fewer in numbers, but the significance of the exhibit as a showing of the activity and vitality of the church- militant is too plain to be missed.

Men will outdo women in colorful clothing during the coming year, according to an official of the National Association of Merchant Tailors, now in convention at Detroit. The suggestion is rather dazzling, but perhaps he means it to be understood in an Einsteinian sense.

An unsettled financial market is ascribed by an expert to the fact that "no one is able even to conjecture exactly how and in what way the existing Franco-German deadlock will terminate." When the financial market is not merely ignorant, but forced to confess its ignorance, the rest of us need not feel ashamed to be no wiser; the market may often make mistakes, but it usually feels 100 per cent confidence in its inside "hope."

The Michigan legislature, it is reported, is to demand government operation of Pennsylvania anthracite mines. At least a concurrent resolution to that effect is to be introduced, with the approval of the state fuel administrator. The idea seems to be that other means of getting anthracite enough having failed, the proposed way is now in order. That is not quite reason enough. We may come to it, but let us hear first what the Hammond commission has to say.

It was not really necessary for Vice President Backlund of the New Haven to devote a part of his Boston speech to exonerating his company from Judge Anderson's charge that "the main political and moral responsibility for the shopmen's strike rests on railroad management." Judge Anderson did not make this complaint specifically against the management of the New Haven; in fact, that company was not charged with evading the wage scales fixed by the labor board. That the railroads collectively were in part morally responsible for the strike is admitted by President Willard of the Baltimore & Ohio and by independent observers like Professor Cunningham. It is, in fact, a commonplace.

The championship for longest unbroken attendance at Sunday school is far from settled. The Republican a week ago told of the record of Mrs. F. E. Brown, of Brimfield, who had not missed a Sunday in 21 years, but the Salisbury (Vt.) Sunday school now goes ahead by presenting the record of Miss Grace Ball, who up to and including last Sunday had not been absent from Sunday school in 22 years, seven months and two weeks. Picking the champion is not going to be so easy as was first supposed. The New York man who thought he was entitled to the honor because he had not omitted to go to Sunday school in 15 years merely "started something."—Springfield Republican.

### SHOULD STAND BY THEIR PLATFORM

James D. Wholan in New Freedom gives the following sound advice to his fellow democrats: "I want to heartily endorse the position of Chairman H. W. Hornbrook in his opposition to the compromise primary and convention measure. Democrats should stand by their platform. Failure of the party in the past to enact was due to a few traitors in the legislature. Misrepresentation of Governor Alexander on these points contributed largely to his unmerited defeat last year. Let it not happen again. Let us go down in defeat rather than violate our principles. A clique of democrats in the senate ruined the Cleveland tariff reform plan. A faction of populists in Kansas ruined the railroad policy of Leedy. Whatever the republicans or progressives do, let the democrats do their duty."—Idaho Daily Free Press (official organ Progressive party).

### AT THE THEATRES

#### "MAKING A MAN" MAKES HIT.

"Making a Man," a Paramount picture starring Jack Holt, secured a decided hit at its premier at the Idaho theatre last night. The picture was adapted from the story "Humanizing Mr. Winsby," by Peter B. Kyne. Jack Holt is the star with a well selected cast, including Eva Novak and J. P. Lockney. It is an excellent picture and will, doubtless, prove one of the season's big successes. Directed by Joseph Henabery, the production adheres closely to the original novel and in no stage pictureizes the exact thoughts of the author's recognized writer. The supporting players render efficient support.

#### "OVER THE HILL" WONDER PLAY, OPENS HERE

Will Carleton, whose "Furns Balada" captured the popular heart many years ago, provided the motif of the story, which Paul H. Simon, a well-known young screen writer, has worked into one of the strongest picture plays ever devised. The simplicity and humanness of the tale won a capacity audience at the Orpheum last night from the start. In fact, it is doubtful if any other theatrical attraction in recent years seen in this city has gained such instant and enthusiastic favor as "Over the Hill" except "Way Down East."

#### "DESERT GOLD"

The attraction at the Lavering theatre next Monday and Tuesday will be "Desert Gold," a most popular picture. "Desert Gold." This picture played in Twin Falls about two years ago, and left such a decided impression that the management has been requested to secure repeat dates. While Mr. Sabin was in Salt Lake last week he made arrangements for presentation on February 12 and 13. On Wednesday and Thursday "Oliver Twist," and the "Woman" and a Larry Semon comedy will be the bill. The regular Community day matinee and evening will be held Wednesday. Friday and Saturday a special feature and one that offers something entirely different in the way of interesting pictures will be the offering. This exhibition in its greatest and newest picture, "Speed." Hutchison is called the thrill a minute stunt king, and in this picture the thrills come even faster.

Canton Crepe Cones With Grosgrain Rib

By MARY DROOKS PICKEN  
Canton crepe suits on being just as popular for dinner and evening dresses for the smart afternoon frocks. Here, pale blue crepe is used with a perfect-matching grosgrain ribbon, one inch wide, which is attached on both edges and extends from neck to hem. The ribbon is attached directly over the plain dress front and serves the double purpose of brightening, ornament and fit.  
The drapey at the left side extends toward the front, while the right side extends toward the back and serves to keep the back from seeming too plain. The neck line in an apron bow at the center back, the strings hanging more than half way to the bottom of the skirt. They have been made for the purpose of being used.

Take it to your grocer

THE nation-wide popularity of Mazola as the leading brand of salad and cooking oil, is due to the fact that Mazola has demonstrated its superior quality and great economy in the household—to the housewife herself.

some who still believe that expensive imported olive oil is necessary to make a delicious salad dressing. There are others who still believe that foods cooked in lard are as easily digested as foods cooked with Mazola—the 100% pure vegetable oil.

Many housewives continue to use high priced butter, whereas Mazola is equally as rich as butter, costs much less, goes further, and makes the most delicious cakes, etc., that you have ever tasted.

*It is to these Housewives that this 25c Free Mazola Coupon is offered for One Week Only*

Fill out the coupon—hand it to your grocer. It is worth 25c towards the purchase of one quart can of Mazola. It gets you this remarkable salad and cooking oil at about half price.

WE want you to give Mazola a fair trial. This is your opportunity to prove that Mazola is equal to any oil for salad dressing; that Mazola mayonnaise is smooth, rich and creamy, and will keep longer. And remember, Mazola costs considerably less than expensive imported oils.

For shortening you will find Mazola is equal to rich, creamy butter, and you use less. Makes your cakes and biscuits light and tasty. Once you use Mazola for shortening, you will prefer it to lard and butter.

And for frying you will find Mazola-cooked foods are more digestible. One reason is that Mazola can be heated so hot that the food is instantly crusted over. This keeps in all the rich juices, and makes the food more delicious and tastier. Because Mazola does not carry odors and flavors from one food to another, you can use it over and over again to the very last drop. Merely strain it. Always remains sweet and clean.

If you are not satisfied in every respect with Mazola as the best oil for salads and cooking, just as we have stated in this advertisement, your grocer is requested to refund your money without question.

All grocers are hereby requested to co-operate with us and their customers in carrying out this guarantee.

**NOTICE TO GROCERS**  
We will accept this coupon, when properly presented, with signature and address of housewife, for 25c. It must be signed by the housewife receiving the can of Mazola.  
Your signature below certifies that you have direct to consumers action before use of any can of Mazola of larger size.

### DAIRY POINTS

#### BUTTER RATED FOR QUALITY

Producers Lose Much Money Because of Imperfect Conditions and Methods in Making.

(Prepared by the United States Department of Agriculture.)

If you are a producer or manufacturer of butter, were you disappointed in the price you received for that last shipment? Quality is the chief factor in determining butter prices, and according to United States Department of Agriculture circular 234, just issued, even small defects in quality may result in the loss of a sale or a cut in price.

Several million dollars annually are lost to producers and manufacturers because of imperfect conditions and methods in production, manufacture and marketing of dairy products, the circular states. During 1922 the seasonal difference in the prices of high and low quality butter amounted at times to as much as 17 cents between 57 score and 12 score. Lack of proper attention to care in the creamery in grading the cream, or in weighing, working, salting or packing the butter are listed to be mainly responsible for this condition.

The circular enumerates and describes the various factors such as flavor, body, color, salt and package that influence price. These factors are given specific ratings by local and federal milk inspectors, and receivers. In determining the final score of the product, and the ratings are governed by the absence or presence of certain defects described in the circular.

It is stated that there has never before been a time in the history of American butter making when it paid so well to produce high quality butter as during recent years. But to secure

Taking Butter From Churn.

an active demand and the largest net return, not only high quality and uniformity of the product are necessary, but a knowledge of market requirements and good marketing methods are required.

Circular 234, entitled "Defects in the Quality of Butter," has been prepared so that producers and manufacturers may know exactly how butter is rated for quality in the market, and how the defects which lower the price may be obtained. Copies of this circular can be obtained free upon request to the United States Department of Agriculture, Washington, D. C.

## JIGGS DRAWING CONTEST

The Twin Falls Times will offer the boys and girls who attend the grade or junior high school, a chance to see Jiggs in person when he appears here at the Lavington theatre on February 19 and 20, in "Bringing Up Father on His Vacation," the popular musical comedy taken from George M. Cohan's famous cartoons of the same name.

All that is necessary is to draw a likeness of Jiggs taken from the above picture, fill in the missing lines, but do not trace or draw through a thin paper. It must be a free hand drawing. Mail together with your name and age and the school that you attend, written very plainly on the face of the cartoon to The Jiggs Editor of The Times, so as to reach him not later than February 16, as the contest will close on Friday and the prizes will be as follows:

First prize will be six tickets to this big stage spectacle worth \$1.50 each. Second prize is four tickets, third prize two tickets and fourth prize two tickets.

### QUESTION AND ANSWER BOX

(Conducted by Auntie Sue.)

Q. When a wife refuses her husband's devotion, would not the man be justified in offering his love to another woman?—M. P. O.  
A. There are no invention laws to cover such a case. The inventor laws are known to all. When a man's wife turns away from him, the law warrants him in divorcing her; but neither religion, convention nor law justifies any married man making love to a woman not his wife. Persons of sturdy moral stock do not find it impossible to believe that it is unnecessary to be happy, but it is necessary to be right.

Q. What requirements must a girl have before she can get in the movies?  
A. I quote Mary Pickford from one of the recent magazines: "A girl needs a reasonable amount of good looks and extreme youth; and a girl must have time to develop her talent before she begins to film. She does not have to be a beauty and beauty without brains will make her nowhere. (Slightly who, granted a little spark of the thing, we call talent—has patience, courage, persistence, and is willing to work.)"  
Q. Where can I get Bonella toilet articles?—Jane.  
A. Write to "Bonella Laboratories, Bonella Bldg., Indianapolis, Ind."  
Q. What is Wallie Reid's little son named? Also what name does his wife go by?—Louie.  
A. William Wallace Reid, for the small son. Mrs. Reid, Dorothy, Denver, Ariz.

Q. Can you tell me something about the ship, "Beagle Duha" which was reported lost at sea?—A. Marie.  
A. According to the latest wireless report, the Beagle Duha, with her rudder broken, was still adrift in the Pacific Ocean. The freight ship Panama was expected to reach the boat sometime this week.

### Time to Face the Facts

"So much has been said against the use of patent medicines that I have had a strong prejudice against them. But after four years' doctoring with six different doctors, without results, for acute indigestion, gastritis, constipation, appendicitis and other ailments, I was said to be hopeless. I was encouraged to try May's Wonderful Remedy, seeing what it had done for a friend similarly afflicted. I also was entirely relieved of my trouble, and am sure this medicine will do all and more than is claimed for it." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allows the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis.
