

INTERNATIONAL COMPLICATIONS CAUSED BY OIL

Agreement by Turkish Parliament to Permit Development of Big District; Conflict Expected Between American Groups; Vast Railroad System Included in Mammoth Plan.

WASHINGTON, D. C., April 11.—A serious international situation has been created by the action of the Turkish national parliament at Ankara in ratifying the so-called Chester concession...

Great Britain is certain to contest the Chester concession according to information in well posted quarters here as the plan strikes squarely at vast British interests in the Near East...

Finally the United States government itself is thrown into a delicate position because the rival plans of two great American groups studying the development scheme...

1. A vast system of railroads, hundreds of miles long, to be constructed throughout eastern Anatolia.

2. The rights to the oil and other mineral development are granted to the territory stretching for twenty kilometers on each side of the concession. There are similar vast power plants.

3. Ports to be constructed on the Black sea at Hamam, and on the Mediterranean at Yumurtalik.

The construction of a great road, the Ankara road, is planned. Oil is at the bottom of this question.

WOULD DENY'S WAY OF COMBATING OIL DECISION

SPOKANE, April 11.—Governor Louis F. Hart announced here today that he has sent invitations to the governors of five states having minimum wage laws asking them to aid in calling a general conference of executives of all states to discuss ways and means for meeting the situation created by the recent supreme court decision.

ENGLISH PREMIER MAY QUIT HIS JOB

LONDON, April 11.—A combination of ill health and the unpopularity of his candidates at bye-elections and incidents such as that in the house last night when Lloyd George outvoted the government, may cause the resignation of Premier Bonar Law before the end of the month.

Many political observers maintain that the prime minister is only awaiting submission of the budget to parliament before he will resign. Absence of a really strong party conservative might succeed him.

Asquithian liberals, Lord George Balfour and the laborites, gathered in the house last night and defeated the government on the latter's resolution for aid for ex-service men. The vote was on a "snap division" and the members were present, the government losing out by seven votes, 147 to 139.

Lloyd and persistent cries of "Premier and his followers." The "Premier resigned" was ignored by the warrant the government's resignation is not serious enough to force a snap division.

Reported Capture of De Valera Denied by Free State Officers

Irish Leader Said to Have Been Taken While a Fugitive After Fight in Which Lynch Is Badly Wounded; All Ireland in Fever of Excitement Over Story of Apprehension.

Eamon de Valera

DUBLIN, April 11.—Capture of Eamon de Valera was reported throughout southern Ireland today, but the military authorities of the free state later denied the former president of the Irish republic had been taken.

Irish history in which De Valera has played so vital a part views the rebel chief in two distinct roles. Until January 7, 1922, when the dail Eireann ratified the peace treaty...

Japanese Privy Council Favors Abrogation of the Lansing-Ishii Pact

TOKIO, April 11.—The Japanese privy council today ratified the proposed abrogation of the Lansing-Ishii agreement with the United States.

This action, when followed by formal abrogation by the United States will complete the work of throwing into the diplomatic discard the agreement made five years ago under which the United States recognized the "special interests" of Japan in China.

The agreement has been abrogated because the nine-power treaty of Washington covered the same ground and was considered as defining clearly terms the nature of Japan's rights in China.

PUT TO DEATH. LONDON, April 11.—Six Irish insurgents were executed at Dublin this morning, according to Dublin dispatches.

Humburg—The French fled the town approximately 75,000,000 marks, ordered immediate payment in dollars and arrested the mayor and others as hostages.

Soviets Strengthen Military Forces in Readiness for War

MOSCOW, April 11.—Russia, desiring peace as much as any nation, is strengthening its army, navy and air forces against the eventuality of new war, according to Leon Trotsky, war minister.

Replying to a question in an assembly last night regarding the possibility of such new war, Trotsky said:

"We avoid war as much as possible. 'Proof of that fact is that we have called for a disarmament conference and reduced the size of our army. However, the possibility of war is not excluded, and one of our first tasks at present is to strengthen the army, navy and air forces.'"

HARVEY TO GUIDE AMERICA COURT

WASHINGTON, April 11.—Gerald Harvey, American ambassador to Great Britain will come home this month to manage the administration of the court for America's entrance into the international court of the League of Nations.

President Harding and Ambassador Harvey will return to London next week to direct the world court campaign, and he regards the choice as the happiest possible under the circumstances for these reasons:

1—Harvey combines with strong national an international point of view which enables him to visualize American participation in a world court without undue antagonism.

2—He is friendly with the two main groups of the court, the American party on international policy and the European party on international policy.

According to the Indian runners followed by the State, the trail blazers are encountering great difficulties. They are bringing about however, at a little more than a mile a day, the work of the blazers was abandoned when it slipped into a swamp.

FILE CENSORSHIP DECLARED UNWISE

DES MOINES, Iowa, April 11.—Decried by the League of Women Voters national convention, the proposed file censorship law, which would enforce law, masked mobs and censorship of motion pictures.

Mrs. Maud Wood Bark, in her presidential address last night, declared the proposed law on the subject makes more widespread the influence of lawlessness. She decried the proposed law as a "backslide" referring to prohibition indirectly.

Retiring to prohibition indirectly, she said, the law would enforce law to obtain law, not law because of the fact that a citizen may be arrested for a crime.

Miss Julia Lathrop, former head of the children's bureau of the department of labor, urged that motion picture censorship is "unwise and dangerous."

Her influence moves have on children are growing less and are causing a serious reaction. She said that if the usual law film integrates the majority of children.

"Any form of censorship is dangerous, as it centers too much authority on a small group of persons. Censorship of the press and platform is the result."

Testimony tending to prove and shift for the "young" physician was given by a doctor who was called to the scene by the police.

FOUR ESCAPE FROM INSANE INSTITUTION

Inmates of New York Hospital Beat Guards Into Submission in Spectacular Manner and Become Free Men; Harry Thaw Brake Out of Same Place in About the Same Way in 1913.

MATHEWAN, N. Y., April 11.—Three of four criminally insane convicts who escaped from Matteawan and escaped capture at 11:30 afternoon south of Amity, N. Y.

They were shot before they were taken. The fourth convict was surprised by the police near where the three were captured.

Four prisoners escaped today from the state hospital for criminal insanity in the spectacular manner that characterized the escape of Harry Thaw from the same institution.

State police, hospital guards, local militia and inspectors were alerted for the four men, who escaped in an automobile from Matteawan.

The fugitives are Frank James and John Hawkins, Brockway and John Kelly. They took his keys and the man overpowered Henry Wilson, guard, and after taking his keys, drove away in the automobile.

Wilson was indicted for murder. James was indicted for numerous possession of explosives and the other two were arrested for theft.

The men overpowered Henry Wilson, guard, and after taking his keys, drove away in the automobile. The fugitives took his keys and opened the door.

As the guards were not armed they were unable to resist the convicts. One of the men, Harry Thaw, was a massive door. Once more they broke in the door and escaped.

The fugitives took their escape to a point north of the hospital.

Wilson escaped from his bonds an hour later and gave the alarm. Immediate search was started. Harry Thaw, slayer of Stanford White, fled Matteawan to such the fugitives were captured August 1912.

The case of several accomplices he dashed from the asylum in an automobile, and made his way to Cambridge, Mass. He was captured there two days later.

Twin Falls, Idaho, March 16, 1923, 10 A. M. Regular January Session. The Board convened at this time pursuant to recess, present all members and the Clerk. In the Matter of Auditing the County Affairs.

In this matter, after lengthy discussion pro and con, it is decided that an audit of the County affairs be had under the following motion, made by J. E. Carlson:

Moved, that calls be issued for bids on a County Audit covering a period of four years from and after the second Monday in January, 1918, to date of the next audit, with the specifications now on file and record in the office of this Board, open for negotiation by all bidders.

Time for bidding on this contract closed at 5 o'clock P. M., April 8, 1923, and the following notice was ordered inserted in the official paper of the County, for three issues.

SPECIFICATIONS FOR AUDIT
Certified Public Accountants who desire to bid on the proposed Audit of the County Affairs should prepare and submit their lowest bid call price based on the outline following, and their contracts to be made in full and agreement embodying the following requirements:

A full and complete and detailed audit of all accounts of all departments of said County, including the Highway Agent, County Fair Association and County Hospital, as well as the various other departments, shall be audited as separate units. If, at all, for the period ending second Monday in June, 1923.

Such audits must cover all transactions and include a verification of the correctness of the books of accounts and cash balances of each County Officer; an examination of the Minute Book of proceedings of record, leading up to the letting of bids for construction, the purchase of material and supplies, and of all purchases and payrolls; an examination of the books of accounts; an examination of the tax rolls from the time the charge is made by the County, and of the receipt books, such charge to and including the collection of the taxes, sale of delinquent lands, or other receipts. No verification however in to be made regarding the various taxing units or districts.

The auditors shall make an examination of the books of accounts, independence of the County, the payment of interest thereon, and the State Tax Commission, and in the event thereto, shall make an examination of the receipts of each office and the disbursements therefrom, and of the proper accounting of the receipts and disbursements of each office and department for each year, including all accounts, and in particular, fidelity and delinquency bonds and insurance in force in the hands of the County and in the hands of the County. The Auditor's certified report shall contain a statement of statements of the receipts and disbursements of each office and department for each year, a balance sheet and operating statement, and account for each office and department, a list of the taxes delinquent, and account for the same, and such other statements as are necessary to present the facts and findings of the Auditor and to show compliance therewith as a clear understanding of the work done by him reported.

As the last previous Audit closed in the year 1918, several years previous to the beginning of the present one, this audit shall commence with the second Monday in January, 1918, which for the purpose of auditing the accounts, the auditors shall not be held responsible for their failure to discover any irregularities pertaining to the period prior to that covered by the present audit, unless a present examination should disclose errors or irregularities which appear to have been common to or originated in the previous period, in which case the auditors shall be held responsible for such matters to the Board of County Commissioners who will then instruct the auditors as to any further work which they may desire to have done and which is not to be considered a part of this audit.

The work must commence on or before the first day of March, 1923, and prosecuted continuously until completed.

Whereupon the Clerk was instructed to have the following notice published in the Twin Falls Times:

Sealed bids for the auditing of the accounts of Twin Falls County for a period of four years from and after the second Monday in January, 1918, up to and including the second Monday in January, 1923, will be received at the office of the Board of County Commissioners of Twin Falls County, Idaho, at 8 o'clock P. STRENGTH AND SAFETY
IN THE BODY OF STEEL

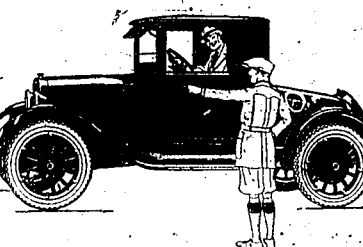

If you could see the main body structure of Dodge Brothers Business Coupe before the enamel is baked on, and before the interior is furnished, you would be profoundly impressed by its strength.

You would see that every panel, every pillar, and every rib of steel—that even the door sills and window moldings are steel.

You would see that all of these parts and sections are electrically welded together into one staunch steel body, with no bolts or rivets to work loose, nothing to rattle or squeak or warp.

And you would realize that, like the all-steel Pullman coach, this unique construction—originated by Dodge Brothers for this car—represents the last word in protection to passengers—the ultimate achievement in closed car sturdiness.

The price of the Business Coupe is \$1170 delivered

SPRING 5,000 FALL
disappointed home-owners tell you to buy ARCOLA NOW

THE BUILDING BOOM started in 1921. That Fall, 5,000 home-owners who had ordered radiator warmth with Arcola were disappointed.

Why? Because they waited until Fall to place their orders. This year three times as many homes are being built as in 1921. Yet no more ARCOLAS can be produced this year than in 1921 because our factories are already over-taxed with orders for larger IDEAL Boilers.

ARCOLA is radiator and boiler in one—different from any others. It is connected with a genuine American Radiator in each room. Warm bed-rooms! Breakfast in a warm dining room! Protection for the children from colds and grippe!

The 5,000 home-owners who were disappointed in 1921 are 5,000 reasons why you should let your Heating Contractor give you an estimate now.

SENIORS WIN INTERCLASS TRACK MEET

Alford is High Man with 26 Points, Five First Places Being Taken by Promising Junior; Frank Powers Turns in Most Points for Seniors.

Class Points table showing Seniors 51, Juniors 49, Sophomores 15, Freshmen 0.

Yesterday afternoon the seniors took the annual interclass track meet from the Juniors. The final score listed: Seniors, 61 points; Juniors, 49, and the Sophomores, 15 points. The seniors' victory was all but assured by the result. The seniors were looked upon as easy winners. However, they soon found themselves behind and at the latter part of the meet it looked as though the Juniors would win. The final event, the half mile relay, was the deciding contest of the day. The Juniors had to take second in order to tie the Seniors and it was imperative that the Seniors should win. The result was that the Seniors took first, the Sophomores second and the Juniors third. There was some dissatisfaction on the part of the Juniors who believed that they would have tied the score had Alford run in the relay. However, the captain of the two senior classes says that they agree that everything was run fairly and as the senior captain puts it every one but the satisfied were willing to try it again.

A summary of the meet shows Alford, the Junior captain, to be high point man with a total of 26 points. The Seniors and second with 15 points in five events. The Freshmen were runner up in a mile point. There were 15 events, all points being figured on a basis of 10 points for first, 5 for second, and 1 for third.

Loosen Up That Cold With Musterole

Have Musterole handy when a cold starts. It has all the advantages of grandmother's mustard plaster WITHOUT the blister. You just apply it to the nose. First you feel a warm tingle as the healing ointment penetrates the pores, then comes a soothing, cooling sensation and quick relief. Made of pure oil of mustard and other simple ingredients, Musterole is recommended by many nurses and doctors. Try Musterole for bronchitis, sore throat, stiff neck, pleurisy, rheumatism, lumbago, neuralgia, sciatica, congestion, pains and aches of the back or joints, sea sickness, sprains, bruises, chills, fever, a hot, painful chest. It may prevent pneumonia and "flu." 50c and 66c jars and tubes. Better than a mustard plaster.

HUGGINS PRAISES FINE BATTING OF NEW OUTFIELDER

HARRY HENDRICKS. The New York Americans have picked up what might be the outfielding prospect of the year in Harvey Huggins. The big fellow hits left-handed and has shown one of the budding sensations of the spring training at New Orleans. Huggins regards him as a great hitter. Hendricks was secured by the Yankees from invention in the Texas league. While the youngster has shown great promise at the bat, his fielding is still very crude, and he has much to learn in that department of play before being ready for a regular berth.

Training Camp Stays

KNOXVILLE, Tenn.—Ole triple play and three double plays by the White Sox inflated today the Giants and McDrew's team lost a 10-inning battle by a score of 4 to 2. Willie Kamm hit a homer and Jimmy O'Connell got three singles in three times up.

TULSA, Okla.—Dubs Ruth fanned four times while the Yanks were beating the Hobbs, 5 to 4. Dugan, Bush and Wheat and Tom Griffith hit homers.

PHILADELPHIA—By working a squeeze play in the eighth inning yesterday the Athletics broke a 1 to 0 tie and put over two other runs that resulted in the Phillies being defeated, 4 to 1.

NASHVILLE, Tenn.—Russell's home run drive in the seventh put the Pirates in the lead and Nashville got 5 to 6.

SELECTION OF OLYMPIC TEAM CONCERNS ALL

A. A. U. Head Advises Against Sending Athletes to Europe This Summer, Believing in Concentrating on Games in Paris Later On.

(By HENRY L. PARHILL) NEW YORK, April 11.—Serious thought about organization of the team the United States is to send to the Olympic games in Paris is near from this coming summer and at last being exercised by the officials.

No doubt it is realized that a representative team of American athletes cannot be recruited by showing a leg in the four corners of the country a week or so before the month ends. William C. Prout, president of the A. A. U., and a member of the Olympic committee, advised that it is not an American team to be sent to European meet this summer and last extra efforts are devoted to meet in this country in preparation for it.

The Swedes wanted the A. A. U. to send over a team of 12 champions that would compete in June at the invitation will be declined because the committee would keep the "Twin Falls" players, and the important American meet just when they are most needed. The American Olympic association is considering most seriously to send a team to Paris that will include the winning relay of Great Britain. A fund of \$250,000 is being raised for the invasion and unusual efforts are being made to get the country back of the movement.

England, where the Antwerp meet has brought out a number of great college athletes and it seems certain that the United States will be the most formidable rival the Americans will have to compete against. Financing the American team will not be such a serious problem as with many of the European nations. After the Antwerp meet the American officials decided to take a European tour of the continent from all A. A. U. men, and while no figures are available there must be a substantial sum already in the treasury.

Last year at this time it seemed that there would be a political fight for the control of the 1924 Olympic games, but many of the differences between the present controlling body and the national federation have been smoothed, and little friction is expected next year.

SOUP DISPENSERS HANG UP NEW MARK IN WRIGHT MATCH

The Wright Store hardware was shown under last night in all three games by the Rogers' Experts and they were well shown under last night for the soup dispensers being up a new mark for the Twin Falls players, and turned in a score that would have aroused comment in any circle. The first of the contest the cafe men bowled over 300 and in one, the second, reached the amazing mark of 200. The total score was 254 for the evening, an impressive performance, certainly. The house guests' game's throughout, but what can you do when you are up against such human perfection.

Town of the soup dispensers found themselves completely left night if however low himself and his score of 224 better than any number of words tells of the games and why the winners came out on top as they did twice during the evening. Town pulled an over the top mark and, certainly, the house guests' game's throughout, but what can you do when you are up against such human perfection.

FISH AND GAME ASSOCIATION HAS GROWD AT BANQUET

"Over 250,000 trout have been planted in the streams of this section of Idaho, 300 Black Bears, 200 Wolf, 200 catfish and 2500 perch have also been planted here," according to H. H. Green, in his report on the Southern Idaho Fish and Game Association's annual banquet. The report also showed the amount of cash handled by the organization during the past year. W. W. Shroyer, president of the association, opened the meeting with several introductory remarks and introduced the Old Home Town quartet consisting of E. Wright, M. G. Bailey, J. C. Logan and Phil Goldwater. They sang several numbers which were highly appreciated. The party in which they took off a number of local fishermen made a wonderful hit. "Jack" then introduced Mayor J. E. Whedon, who presided over the banquet. The speaker of the need of cooperation with the Fish and Game department and the enforcement of the law if we are to have game preserved and fish in our streams. He stated that every sportsman must be a game keeper. Representative T. J. Lloyd then spoke of his acquaintance with the various game laws of the state and game warden, H. E. Thomas. He introduced some of the speakers of the evening, all of whom were highly pleased with the appointment of Mr. Thomas. The latter spoke on the importance of the game laws of our state government, and especially in the fish and game department. "Jack" then introduced Mayor J. E. Whedon, who presided over the banquet.

LET US NOT BE DECEIVED OR BECOME OVER-CONFIDENT. The biggest development in point of both immediate and future benefit to the people of this section is the American Falls project and the industrial construction associated with it. The latter these allied enterprises is headed by a railroad from Rogerson to Wells. The Times is in position to know, and it does not hesitate to tell the people of this section that it is an absolute fact that the actual construction of the Rogerson-Wells railroad will follow the assurance that the American Falls reservoir is to be built. There is a double and a treble significance, therefore, attaching to the American Falls project. So very much hinges upon its successful consummation that WE CANNOT AFFORD TO TAKE THE SLIGHTEST CHANCE OF ITS DEFEAT! There is, however, an air of over-confidence revealed. Because the big district was created by such an overwhelming majority it is assumed that the bond election, to be held on May 12th, will slip without effort and without opposition. We desire to warn our people against falling into that error. There may be any bond issue that did not meet opposition in some quarters, due, perhaps, to misunderstanding. At the same time the people who have misunderstood have voted "No" and all too late have realized their error and the damage they have done. Whatever opposition exists, as to its leadership, will be exercised by new elements that may be injected bearing upon the bonds, the contract with the government, etc.; and it is a fact that any one who may be concerned in finding pegs on which to hand arguments of opposition can discover them with relation to most any issue. THERE IS ONLY ONE SAFE COURSE, and that is to BE PREPARED. Every effort must be put forth to arouse the people here to the great importance of carrying this bond election and doing it by such a majority that all those interests contemplating making heavy investments in our section will be further encouraged to go on with their plans. The undertaking is so highly important to the future of every industry here, notably agriculture, to every business institution, to every home, that we cannot afford to permit ourselves to be deceived or lulled into a sense of false security.

FROM THE GRAVE Men who have died (their hearts stopped beating entirely) have occasionally been brought back to life by injecting adrenalin into their hearts. Adrenalin—most powerful heart stimulant, even more so than nitro-glycerin—sometimes can start the heart beating again. This has been known to the medical profession for twenty years. Improved methods have been discovered by Dr. Dennis W. Crile of Chicago. He makes the announcement to the Chicago Medical Society. Similar results were obtained about a month ago by Dr. Karl Bodon of Budapest. The adrenalin treatment, to be successful, must be applied within 10 minutes after death. Also, the cause of death must be removed. To understand that last statement, it should be known that the adrenalin injection is of most use in reviving patients who, having weak hearts, die from the anaesthetic during an operation. Incidentally, a heart that has stopped is sometimes made to beat again by the surgeon using his knife quickly to enable him to massage the heart.

Adrenalin is a chemical substance extracted from the adrenal glands, usually of sheep. These glands are located close to the kidneys. You have a set of them. Take them away and you can't live, for the stimulus generated by the adrenals and shot into the blood keeps the heart going—speaking broadly. When you get excited, you sometimes feel your heart pounding fast. Your adrenal glands, responding to your emotional change, simply shoot more adrenalin into your blood and over-stimulate your heart. When the adrenals are not active enough, the pulse gets low and faint. A friend of ours, a hyper-thyroid, went to a doctor who specializes in endocrine glandology. The friend had a pulse of 150. The physician fed him extract of pancreas. This, working through his own pancreatic gland, calmed down his thyroid in his neck. In turn, that slowed down his adrenal glands—and his pulse has been reduced to nearly normal. An intricate process. It again emphasizes the importance of the discoveries doctors are making about the functions of our glands.

Dr. Crile brings a man back from the grave after he has been dead ten minutes. This ends the old saying: "No one ever died and came back to tell us about it." Most people will wonder, what happened to the man during the 10 minutes he was dead? Where was his soul? No one can answer. A curtain is drawn over his memory of those ten minutes, when he returns to consciousness. Some religious cults believe it takes as much as 24 hours for the soul to leave the body.

QUESTION AND ANSWER BOX (Conducted by Auntie Sue.)

Q. Dear Auntie Sue: Is it right to lean your head on a boy's shoulder? And what are you supposed to do when a boy asks you for a date?—Cheyenne. A. In case you should faint, perhaps not advisable. And what could you say, except "yes" if you wish to go and "no" if you do not. Of course you should be polite and say "Thank you, would be pleased to go" or "Sorry, but I have an engagement for that date" or something of this nature. Q. Dear Auntie Sue: My I come for your help once more? Will you please print the address of Edgar A. Guest in the Times? Thinking you can advise—Simple Simon. A. Always welcome, Simple Simon. Here is the address: Edgar A. Guest, 1202 Alderson Ave., Detroit, Mich. You are very welcome. Q. Dear Auntie Sue: Why was Washington, D. C. chosen as the president's home? Thank you Auntie Sue for your help—Frederick. A. Shortly after the revolutionary war, the congress of the young republic found it necessary to secure a place in which to establish a permanent home for the government, and after much deliberation this question was finally decided upon. George Washington was then authorized to select the site for the capital, and he selected the mouth of the Potomac and the eastern branch of the Potomac and the present site of the city of Washington was chosen. Q. Dear Auntie Sue: Is it alright for a girl of 14 to have boy friends? How should you address a boy when he comes up to you and how should you act so boys will appreciate your company?—A. Wanderer. A. Have boy friends surely but not because if you know him well, say "Hello, Charley" or "How do you do, Ben." Act natural, pleasant and modest. Q. Dear Auntie Sue: I enjoy your column very much. How old do you think I am by my writing?—Drown Eyes, Utah. A. I for I am not an expert at "guessing" ages by the hand writing, so would rather not try.

THE GREAT AMERICAN PLAY. Suppose that "Peg O' My Heart" performers had all been given the theatre, night after night. Suppose that, in one long string, they had reached a total of 10,000 performances, the run would have started back in 1881. That was about the time President Garfield was shot; it was before King Alfonso was born; it was before such things as airplane and automobile existed. And look again—suppose the run were starting today, and was destined to attain its total of 10,000. The lady in the perambulator outside your theatre would be 41 years old before "Peg O' My Heart" finally closed. It would probably be built of some business house and have a son ready to enter Yale. It would be in the year 1923. Now a second play. And it's one of the biggest this year. Will show at the Orpheum last half of the week. HIER'S DEBTS COUNTRY. Attention, Farmers! We have now about 5000 acres of beets in sight. The price of sugar keeps going higher. We have paid \$37.75 per ton for the 1922-23 crop to date. Farmers are sure to get at least \$1.00 more per ton for the past year's crop which will make \$7.50 per ton. Prospects for the coming year are better than the past year's prices. Why not help us get 10,000 acres by putting a part of your land in sugar beets. We feel that early planted beets is the safest and surest crop you can plant. The price is sure and there is no other crop we know of that will bring a good return. Why not take advantage of these good prices this year? Sugar beets get most of their sugar from the air and contrary to dope given out are easier on land and put land in better condition than any other crop we know of. Stop and figure, it will pay to diversify. Ten acres of sugar beets will pay expense of running your farm. Mr. Land Owner, did you know that every acre of land planted to sugar beets the past year on the Twin Falls tract brought from \$30 to \$40 per acre rent? THE AMALGAMATED SUGAR COMPANY

MARKETS

CHICAGO, April 11 - Continued report of unfavorable reports caused grain prices to advance to new high levels in trading on the Chicago Board of Trade today. The government wheat crop report indicated a smaller harvest than expected by the wheat crop in Illinois, Ohio, and Indiana by the continued lower temperatures; that the Nebraska crop showed no growth during the past week. Increasing farmers' demands, delayed seeding and some export inquiries caused the strength in corn. Some foreign inquiries developed to oats. Commission houses with western connection were good buyers. Provisions were higher. WHARF - Open High. Low. Close. May 122 125 121 124 1/2. Sept 118 121 118 121. CORN - May 70 80 77 80. Boise Concedes that Twin Falls Should Have Lower Rate

Mayor Sherman Assures Mayor Tucker That Proximity Should Count in Making of Electrical Prices; Undertow Threatens Lives of Navigators in Mark Murtaugh's Torrent; Octopus Allowed to Seize Site of Many Adventures with Wild Beasts.

That Mayor Eugene H. Sherman assured him of a conviction that the city should have the advantage of lower rates, relatively, by reason of its proximity to Great Shoshone Falls, was the statement made by J. D. Tucker of this city last evening when the matter was brought before the commission by a letter from the public utilities commission and talk by Attorney John W. Graham, former chairman of that body. Mayor Tucker said that this matter by the Boise mayor was made on the occasion of a visit which he and John Wolfenden made some time ago to the state capital, at which time hearing on a proposed increase was postponed until April 30th.

Other matters of moment had to do with a threatened drowning and shipwreck in a prospective project in Mark Murtaugh's ditch, near the creek, the granting of a permit for the Texas Oil company, permit, etc., and a discussion of the fencing along the Edinboro canal, which is in bad condition, with one or two minor matters.

Power Case Matter.

Last year after a hearing which lasted some months and in which the company, however, made Twin Falls look part, the public utilities commission reported that the value of the property of the company up to a date in 1919, the company, however, made a rate of something over four mill dollars be granted for substantially increase in value, and it is this matter which comes before the public utilities commission on April 30, which was given to the city commission last evening. When the matter was read last evening, Mr. Graham, who was present, representing claims opposed to the original proposed location of the Indianapolis. On company, he said to say that he believed that this city should be represented in the original content the interests of all the cities and communities were identical in that they were opposed to the increased valuation asked by the company. Now, while they will have a common interest in preventing an increase, there were points of divergence, inasmuch as rates would be fixed for the various communities following this hearing. So far as opposition to going in this matter concerned, their interests were still alike; so far as a discrimination between communities was concerned, they were, or might be, different. We were near the great power plant, while Idaho and surrounding cities were far away and the cost of transportation there was comparatively lighter. A difference of 2 per cent between this city and Boise would be material in the course of a year. He believed the city should be represented at the hearing.

Boise might claim some offset by reason of larger business, but allowance for location of the plant. Mayor Tucker replied that the matter would be taken care of. He said that Mayor Sherman had said that he believed Twin Falls to be entitled to allowance on account of its location near Great Shoshone Falls.

ORD COPPER CO. WILL START UP ACTIVE WORK

Confident That Idaho Central Will Be Pushed to the Body; Other Companies Confident.

Enthusiasm over the anticipated construction of the Idaho Central as part of the equipment following the completion of the survey, and the receipt of money with which to continue the development, induced the directors and officers of the Oregon Mining company of Canton to order immediate examination work on its tunnel at a meeting held last night. The tunnel is 200 feet long and it is expected that the main ore body will be reached in 25 feet more. It is reported that the Idaho Central will carry forward its work. The Three in one people also express interest in getting immediately sure of the speedy construction of the Idaho Central. Fred Smith and George H. House of contact attended the meeting.

NO HOPE OF THAIL

Glaze Butter to Preserve It

A singular method of protecting rolls of butter from deterioration due to outside influences is said to be practiced in France. It consists in coating the butter with a glaze of melted sugar laid on with a soft brush. The surface of the butter is slightly melted and a protective varnish is formed. The process has also been introduced on a large scale in England.

Bank Notes Quickly Retired.

An English bank note has a very short life. In fact, it averages only about 18 months. As soon as the Bank of England receives a note back from the public, it is not circulated any more. It is automatically cancelled and bearing the cashier's signature torn off. Some 350,000 notes are thus cancelled every week.

Miriam's Handicap.

Two girls were giving a concert. Jean sings nicely, but Miriam cannot carry a tune at all. After trying vainly to sing the tune, Jean ran to her mother crying, "Mother, we can't have a concert. Miriam sings croak."

Restoration by Forest Fires.

Every year in California there is a loss of some 125,000,000 acres of timber land, cost us \$200,000,000.

FAMOUS DEMOCRAT AT PARISH HALLO FRIDAY NIGHT

Early Communion of Bryan and Director of National Republic Will Tell of Charles Jefferson; All Voters of All Parties Welcome, Says Committee.

J. W. Edgerton, well known Democratic lawyer, who in the great campaign was considered among the most brilliant campaigners in the United States will be the speaker of the night at the Jefferson Day meeting under the auspices of the Twin Falls County Jefferson club, at a meeting to which the public is invited regardless of party affiliation. Following the election in this way last year by electing officers. The affair will wind up with a smoker.

Field Three

In the early 20s Mr. Edgerton was a member of William Jefferson Bryan in Nebraska. Following the election in 1892, he was the leading candidate for many ballots for the death in the future legislative caucus, where he backed but one vote of a majority. He at last broke the deadlock by throwing his support to William V. Allen, who was elected. He was appointed on the state railroad commission. In 1908, on recommendations of Colonel Bryan, he was sent to stump the country for the democratic ticket. Palling health, he never came to Idaho for more than a year. Later he served as prosecuting attorney of Cannon county before moving to Princeton. His health is restored and he will retain the practice here of earlier days.

BOOK DAYS FOR LIBRARY AT THE END OF WEEK

Friday and Saturday Especially Set Apart for Taking in Volume Which Friends Are Kind Enough to Donate.

The campaign for increasing the number of volumes in the library by contributions of friends is going on apace and many fine volumes have been contributed already. The last days of this week, however, are especially set aside for this purpose. The character of the movement is set forth in the following statement by the librarian, Miss Alice Prater: "Friday and Saturday, April 13 and 14, are the days set aside for the people of Twin Falls and vicinity to make some real contributions to the Twin Falls public library. The usual requirements of our people to public enterprises is evidenced by the many and valuable books which have already been brought to the library. People have taken advantage of the opportunity, not of getting the books, but of putting good books where they will be read by our citizens. In many books of fiction, if in good condition, which are of recent publication are very good, as they can be used to replace the much worn and old ones on our shelves. "The various organizations of the city have taken an active interest in the furthering of this work, if possible. If it is not possible to bring or send your book to the library on one of these days, the 13th and 14th, a boy sent will call for it. The books are to be put in the library as the citizen is set forth in recent publication as follows: "The public library aids the citizen in obtaining an education; it helps him to conduct his business efficiently; by supplying food for his mind, it increases the output of his plant by serving the inventor and the scientist; it creates his progress in life by keeping him in touch with recent developments in their respective fields; it enables the citizen to secure his contact with the sources of religious inspiration; it provides him with recreational reading and enlarges his artistic and literary horizons, and finally, it furnishes the citizen with information concerning the progress and improvement of the government, thus making it possible for him to perform more intelligently his duties and obligations as a citizen."

Idaho Wheat Growers Association to Go Into Receivership

The Northwest Wheatgrowers' association has asked for a receiver for the Idaho Wheatgrowers' association of which it is a creditor. Speaking of the matter today W. F. A. House, a director in the Idaho concern stated that the assets were ample to pay out everything, but as soon as the wheat was sold and it would take some time to realize the money, the association contracted for 2,000,000 bushels of wheat, it expected at least half of it, but former because the wheat was refused to deliver more than about 125,000 bushels. The overhead was not about as great as it was, the amount had been delivered. The Idaho concern owns some elevators and the association has a large amount of wheat on hand. On April 16, stockholders will vote and whether they will disincorporate or not.
