ASSASSINATION OF DELEGATE TO WENTLAND

One-Time Officer in Russian Army Not Sorry for Slaying of Lussano Delegate; Declares Soviets Maltreated His Aged Parents and Sons.

LAUBANN, May 10.—"I'm glad I had revenge," said a man elected at in May, of Jean Francisco on a light wine and beer ticket. He is 42 years and four months old.

Irving was selected Thursday by a committee of adults from among a half dozen candidates of appropriate age and education.

Irving convinced the committee that in a few days' term of office—he could do a great deal for San Francisco.

The Ind will replace Mayor James Rolph, Jr. at the end of next week, which is boys' week in San Francisco.

GRAVITY WILL BE MASTERED

LOS ANGELES, May 11.—Gravity can be overcome by the newly discovered ray, Edgar L. Hughes, scientist, who maintains private laboratories at Pasadena, declared in an interview today.

The ray, which he called the "anti-gravity" ray, may be used to make a man heavier or lighter than any known gas without in any way changing its atomic weight.

By use of his radiation a photograph can be taken through 1 1/2 inches of solid lead—400 times as thick as the ordinary lead.

"The new ray," he told the United Press today, "is based on the theory that electricity is an element of substance, and has a definite atomic weight."

Member of Slain Northwestern University Student Bitterly Raps Testimony of President Scott; Investigation Discounts Suicide Theory.

CHICAGO, May 11.—Mrs. J. L. Scott, frail mother of Leighton Scott, a Northwestern University student who was killed in a riot, today related hints that her son committed suicide and declared she will fight to bring before the grand jury the story that she has as "campus life."

In denying Scott's testimony about his expressed fear to him that Leighton ran away or took his own life, Mrs. Scott accused Scott of inducing her to "keep quiet" in developments in the case to protect the school.

"My boy was killed by hazing," she declared today. "I am through protesting Northwestern."

Mrs. Scott has been near collapse since the skeleton identified as that of her son was found in a Lake Michigan pier where, it is believed, it was placed by hazers some time following the 1921 class race.

The mother said that soon after Leighton's disappearance President Scott called her up and told her he had expected to see her, but asked her to keep quiet so they could examine other possibilities.

"They told me my boy would return. That's why I kept quiet. Now I'm through keeping quiet. I demand justice."

She immediately had a long conference with John S. Hartman, assistant district attorney and said she laid out all the information in the case before him.

Alleged with Mrs. Scott in her fight today was Miss Doris Fuchs, the first held that Leighton killed himself and a confident now, he was killed by hazers," she told the grand jury.

She said that Leighton had been at the hotel of an "expert commission" visited the pier today and returned an opinion that the skeleton was that of her son. She said that the skeleton of her son was placed there by hazers.

She said that the physicians who examined the skeleton for traces of chemicals, said to have been used in keeping the body from being noticed in its hiding place.

Contractor Questioned Regarding Secret Chambers at Residence of King Farnell; Young Girl Tells of Association with the Strangers' Sect.

ST. JOSEPH, Mich., May 11.—Charges that secret chambers and passages were located in the house of David for age of "King" Benjamin Farnell and other high cult leaders were investigated today by Judge J. Harry Bingham's "one man" grand jury.

Philip Klum, the contractor who built 3100th, Farnell's residence, was summoned to disclose whether the chambers could be hiding in a secret apartment at the colony.

He will also be questioned as to the charges by the colony's enemies that Benjamin used secret tunnels to pass in and from rooms of young girls.

Following testimony of Louise Hayes, a young girl who lives with her recently at Eden Springs, the cult's famous amusement resort, other witnesses will be summoned to ascertain whether Benjamin now demands a "white wash" affidavit from women members who they leave the colony, authorities announced.

The Johnson girl left the House of David three weeks ago, she said, after signing an affidavit to the good moral character of the cult leaders, Sheriff George Bodeman said.

She accused Benjamin of attempting to attack her in a parlor at one of the colony buildings and declared that Benjamin used secret tunnels to pass in and from rooms of young girls.

The alleged break-down of prohibition enforcement under Hayes administration is the basis for the attack. Reported widespread corruption in the prohibition force is being used as one argument against Hayes by his enemies, working covertly.

They will presently carry their case to President Harding, who before the 1924 campaign, will have to face squarely the question of his position in the next campaign on liquor law enforcement.

If the investigation now being conducted at Secretary of the Treasury Mellon's order of alleged corruption and bribery among prohibition agents and officers any such condition as the rumors heard here would indicate the fight on liquor probably will be once again broken up.

In any event, it will be pressed in the new congress, when every possible effort will be made not only to amend the Volstead law but also to cripple prohibition enforcement by curtailing still further the appropriations for the force.

NETS ARE ON WARPATH FOR HAYNES SCALP

Alliance with Dry Element is Expectation of Liquor Men to Gain the End in View; Question in Dispute Will be Taken to Harding.

WASHINGTON, May 11.—A deliberate campaign to force the resignation of Federal Prohibition Commissioner Hayes is under way.

It has assumed proportions that cause some of Hayes' friends to fear that it will succeed. Started by "wets," the campaign is intended to turn the "dry" against Hayes, in the hope that they will demand that he be replaced.

CAPTURED AND RELEASED

Robert P. Scripps, American newspaperman, director of the Scripps Howard news-service, has graphically described his thrilling experience while kidnaped in China.

KIDNAPERS' GALLATRY CONDEMNED

Miss Aldrich Made Friends with Little Son of Bandit Chief; Well Treated While Captive; Insists Upon Continuing Her Tour Through China.

Peking, May 11.—Dressing behind a wall of blankets held by respectable Chinese kidnapers, Miss Aldrich returned in a few minutes an hour later to her kennel so small her feet stuck out, munching the soft-like bean cakes with which the captives are fed, and talking merrily with laughing children of the bandit and other sons of the ruffians described by Lucy Aldrich, sister-in-law of John D. Rockefeller, Jr., upon her arrival here.

Miss Aldrich, who was permitted to escape from the brigands who wrecked and robbed a crack express Sunday morning, told the reporter today that her captors, she said, of being a "good sport."

She told the reporter that she was gallant, that they treated her with respect, and that nothing can deter her from continuing her tour of China.

"The Chinese are not bad men and they are not so many of them as they are told to be in telling for the first time their full story."

She told only in slight attire, Miss Aldrich braved bravely into the hills with her captors, following the wreckage of the Shanghai Express, while she and other passengers were kept early Sunday morning.

"Because they are very kind," she said, "the bandits, at the first village they came to, gave her something to eat and offered her additional Chinese cigarettes. At her request, they handed her a small tin of cigarettes, which she had brought with her, and she had within, which she slipped into the pocket of her dress, and she and her captors were very kind, she said, and she had the first, eight, going to hall."

Miss Aldrich took refuge in a straw hut, where she had her clothes put into a sack and she slept the sleep of exhaustion throughout a fortnight's journey.

In the morning, abandoning her kennel shelter, she made friends with the other girls, and she and the bandit chief's son, whom she feared to like exceedingly. Her attention for the first time was attracted to the bandit who beamed upon her and tried to tell her, in sign language, that she was a good sport.

Miss Aldrich, in her turn, tried to convey to the bandits that she had a good sport. The entire village turned out to escort her to the station the next day, when she was released.

PRISONERS OF BANDITS URGE ACCELERATION

TWIN FALLS, May 11.—For God's sake take away the troops. They threaten to kill us all!

This message of despair came this afternoon from J. H. Powell, American bandit who wrecked and looted the Shanghai Express, and his fellow prisoners, and carried off by the bandits.

The message from the hills to which the brigands, now close pressed by government troops have withdrawn, came this afternoon from the captives are fast for the safety of the undetermined number of foreigners held.

The departing message from Powell, which was sent from the bandit camp today, urged that the government should take away the troops and spare the lives of the captives.

The captives are fast for the safety of the undetermined number of foreigners held.

CLUBS FAVOR ARBITRATION

ATLANTA, Ga., May 11.—The General Federation of Women's Clubs in Alabama today voted unanimously in favor of a resolution approving the settlement of international questions through a judicial tribunal, and expressing opposition to all other methods.

The organization represents two million club women in the United States.

The resolution stated that "international friction should give way to international understanding, and appropriate measures to that end. It recommended the hearing and adjudication by orderly procedure of all international controversies, economic war of settlement through an international tribunal."

"Unanimous approval was also given to resolutions providing for enforcement of all laws, particularly the 19th amendment, a child labor amendment to the constitution, a selective immigration bill and a probe of the herculean evil of the nation."

The delegates also went on record as in favor of the Pass bill, providing for an increased congressional appropriation for home economics work, and petitions to newspapers to give crime less prominence, and declared they would support the best of all possible means to private interests.

PRESIDENT'S ITINERARY IS DECIDED UPON

WASHINGTON, May 11.—President Harding's plans for his Atlantic trip, which have undergone complete revision, were approaching completion today.

Harding will make at least half his trip by water, thereby eliminating many of the speeches he would have to make in a land tour, and will return both ways overseas.

The decision to eliminate one leg of the tour in a land tour was a surprise to many of the press and the public, and it is believed that the president's program of development the first step in which he will take in a land tour is to visit the government's business over government of the west north coast.

An early announcement of the itinerary was expected to be made by the president's secretary, but it was revised the president and Mrs. Harding have been busy with the preparations for the trip, and it is believed that they will not make any more public statements.

Oil Conflagration Burns on Unchecked in Southern Fields

COVINGTON, Texas, May 11.—Pled by an unceasing fire of oil, the raging inferno in the Hughes McKie field, where eleven miles were burned to death when a giant well exploded, continued today unopposed by efforts of the firemen.

Workers labored all night and today connecting up giant, bolts from which steam will be piped to the flaming center, which blew up soon after it was brought to Wednesday night.

Four skeletons still up of reach of the workers, because of the intense heat, can be seen behind the screen of smoke and flames surrounding the well.

WAGE RAISE ATTEMPTED

CHICAGO, May 11.—Railway unions are attempting to secure wage increases for practically all classes of employees. It was reported here today.

Negotiating direct with rail managers, the shopmen, shop laborers, maintenance of way men, clerks and others are acting through individual unions in requesting advances. Several have already granted such petitions.

Only a small percentage of the cases have come before the United States Railroad Labor board.

These include recent petitions of maintenance of way and shop laborers and clerks on the group of roads mostly in the West.

Shopmen on the Erie, Baltimore and Ohio and New York Central all "will rail settlement" lines in the recent strike, have asked the roads for an increase totaling between \$50,000,000 and \$60,000,000, according to unofficial railroad labor board members.

The Chicago and Alton and Pennsylvania have granted wage advances direct with the roads and if such requests are not settled the labor board will be petitioned.

GOVERNOR SWEET NOT TO ASK DISCUSSION OF FACT AT PRESENT

DENVER, May 11.—Because he believes it "untimely and unwise" Governor William E. Sweet will not attend a meeting called by the League of the Southwest to discuss the Colorado River pact at Boulder, Colo., today, it was learned today from officials of the league at Boulder.

The governor's statement was made in a letter to the League of the Southwest, which was sent to the governor's office today.

Fortified the Soil
Sometimes a man digs his toe into the ground and hears him say: "The soil's dead, it will not produce anything." You do not realize, perhaps, how true the words are. Good soil is literally living soil. Our chemist, Professor McCaffrey, declares that a single teaspoonful of soil may contain more living inhabitants than the whole United States!" It is these microbes that breathe the little people of the soil that enrich its storehouse of fertility and cause the plants to grow. Without them farming would be impossible.—Farm Life.

We, on the Twin Falls South Side Have the Big Chance NOW

A big vote will show a big determination to help ourselves and encourage others to help us make our tract one of the best in the Northwest.

LET'S VOTE IT ACROSS

VERY IMPORTANT

VOTERS MUST VOTE ON THE CONTRACT ALSO. VOTE "Y E S" ALL THE TIME FOR A BETTER TIME HERE.

More business for the farm and city.
Investors for what we have to sell at profitable prices.

More employment for our laboring classes.
Nearer and better markets for our produce.
Sure growth and permanent prosperity.

revival of the Twin Falls tract spirit—Getting us out of the rut.
A more prosperous and contented people on this tract.

A clincher on the Railroad south. Failure of the American Falls Project might easily cause a revision of the program. Delays are dangerous. Let's take no chances.
