POCATELLO LOSES TO T.F. TEAM

Atkinson's Homer Is Crowning Event of the Day; Garrity and Erickson Pitch in Good Form.

Garrity had the better of a pitching duel with Erickson, the tall left-hander yesterday, and Twin Falls drew first blood in their series with Pocatello, the score reading 6-3.

The game was something of a pitchers' battle but Erickson allowed the runs and two doubles, which made the score higher than pre-game expectations.

The features were almost all home run drive over the right field fence, the two bangers of Erickson and the Jarman brothers, who were out when Muscell tipped the Gate City lads who tried to swipe bases.

Pocatello took the lead in the second inning and held it for three innings. 12 Cox tripped to center and came home somewhat later after Garrity had whiffed two men.

The Gate City players added a run in the next inning. Bob Full sent Laval Jarman muffed his fly, stole second and scored on an infield out and an error.

Two runs were scored in the fourth, tallying three runs. J. Jarman walked, Mypell and Atkinson, when Jarman struck the latter's hit scoring Jarman. Hammond fanned but Garrity came through with a hit, on which Bob Full and Atkinson spiked the rubber.

Successive doubles by Jarman boys in the fifth added another run. Pocatello threatened in the eighth by making the coupe 4-3. And they brought in a run without a hit, walk, sacrifice fly and an error did the business and threw a scare into the home boys.

But Garrity lightened up as the game proceeded and the only runs during the rest of the contest were put on the home side of the ledger. A walk and Atkinson's home helped us to two more in the last of the eighth.

Verified with a comfortable lead, Garrity handled his rivals in the ninth with bare judgment. Soragatz got on through Cron's misplay but the latter drew to Slack and he was caught going to second. That was all.

Struck out—By Erickson 14, Garrity 4. Errors—L. Whitzel and Bailey.

OUTCOME IN DOUBT THINIDAD, Colo., May 12—The outcome of the strike of 500 high school students who refused to attend yesterday because school officials failed to hoist the American flag over the building, was in doubt today when the students' body fired in its resolve to enter the building until the flag was flown.

ALBION NORMAL TO HAVE COACH

ALBION, May 12—There was good news for the supporters of the school when President Hancock notified the city residents in the regular meeting, on Thursday, that Albion State Normal school is to have a coach and men's department of physical education.

Better news could not have greeted the ears of the members of the "A. S. N." club and the friends of the school. No more fitting climax could have come to the season's athletic career.

If Albion State Normal could make a showing as they did the past year without a regular coach that thing can certainly be accomplished in the future years under the eyes and in the positions of a regular coach.

The appointment of a coach will be encouraging to the high school athletes entering the higher institutions. They can now offer as good opportunities as any state institution. It is an established fact that the teaching profession is attracting more and more the young men from the communities.

Recourse. When the look backward yields only pain, and the look forward can give no comfort, there is still the look upward—Houston Transcript.

JACK DAW IN CANDY LAND

As the first Peppermint got right under the spot he stopped. Then Mister Taffy stood on his tiptoes and pushed the great handle of the Chocolate Pot upwards. This sent forth a stream of fine rich chocolate and it landed on and spread all over the peppermint. Jack laughed loudly.

RIGHT ACROSS THE PAN, OLD GIRL!

If you stand near the sturdy backdrop of a certain team at Philadelphia, Pa., you might hear that, Miss Sara Conlin is the catcher and she has the big league manner. Yet within she has a trace of the eternal feminine. Pads of her mark match her hair.

Work of Difficulty. It is an easy and vulgar thing to please the mob, and not a very arduous task to affront them; but essentially to benefit and to improve them is a work fraught with difficulty, and needing with danger—Colton.

Garb and Function Adopted. From an English boy's examination paper: "When the duke of Monmouth fled from the battle he changed clothes with a peasant and was afterwards discovered lying in a ditch."—Boston Knowledge Transcript.

ink number of twelve errors during the melee, Laval Jarman found himself against Pocatello and the hit paraded off his delivery were few and far between. He fanned 16.

Hill started the game for the visitors but was soon relieved by McMillan, who yielded numerous long hits, including a scorching home run, fresh from the bat of Alford Jarman. The game was one of the slowest and most one-sided ever seen here and a very small crowd attended.

The Twin Falls regulars scored at least one run, Jerry Jarman and Ed Slack, crossing the rubber four times. Hill fairly calmed off the right field fence and several almost homered over the barrier.

FIVE-PIECE JAZZ ORCHESTRA

Drawings by Leslie Elton. Story by Hal Cochran

"Is that the way the Peppermints get their chocolate overcoats?" he asked. "Why, sure," replied Caramel. And by this time several more candies had passed under the spot and were now standing in line waiting for the rest of the peppermints to be fixed up with new overcoats.

After every Peppermint had been covered with chocolate, they again started to march away. "Now, where are they going?" asked Jack. "Oh, they're going to take a long trip now," replied Caramel. "They'll march right down and step into a candy box and be gone."

THE BIBLE IN A NEWSPAPER.

The Topeka State Journal of Topeka, Kan., is publishing the Bible in serial form, at the suggestion of Dr. Charles M. Schulbin, author of that widely discussed book of twenty years or so ago, "In His Steps."

The Four Gospels will be published in weekly installments of about three thousand words each. The first installment has already journeyed the title: "The Good News as Recorded by Mark."

It is doubtful whether this is a tribute to the spirituality of the Kansas public that they want the Bible in this form, or an unkind imputation that they have not a copy of the Bible at home.

The American Bible Society has been selling and distributing Bibles for nearly ninety years—millions of copies. Where have they gone?

CENSORING HISTORY.

There is only way of teaching history and that is from the record and the interpretation of men qualified to study the record. No book which omits the unpleasant chapters of history, no matter how entertaining to read, can be classed or considered as a proper text. Nations in all ages are human, governments make mistakes and the greatest leaders are not always right.

The censoring of text and reference books in history, it would seem, should be concerned only with the elimination of propaganda and biased personal opinion. When it seeks to erase all mention of reverses to American arms, all discreditable acts and would confine the story to the pleasant chapters and, perhaps, to exaggeration of the victories and achievements, it ceases to perform a service. Moreover, it implies the belief that the American story is not sufficiently glorious as it was written to command a genuine admiration and that putting Pollyanna changes must be made.

The United States may be proud of every chapter in its history. It may be proud of the mistakes because they were overcome and it knows the incidents which make unpleasant reading as well as nothing in the general story. When a library burns historical works of Albert Bushnell Hart and deduces other books unfit, not because they are untrue, but because they include incidents not to the credit of certain Americans, that board is working for the substitution of fiction for history—of propaganda for facts. The actions of the San Jose board has attracted an amazed attention the country over and the thousands who read the accounts can not know that the city itself did not burn the Hart books and that it is, in fact, one of the educational and cultural centers of California.—Oakland Tribune.

The books which were more or less under the ban in the opinion of the wiseness of this library board were the works of Professor Roland G. Usher, noted authority on international relations, and the "History of the American People" by Woodrow Wilson, who was twice elected president of the United States after the book had received international fame.

Whoever the American people get ready to allow pinheaded boards of censorship to eliminate history because it tells the truth, the statement attributed to Henry Ford that "history is bunk" will be justified.

Hildfield.

THE OLD HOME TOWN

MARKETS

CHICAGO, May 12. Health senti-
ment prevailed on the Chicago Board
of Trade today and prices closed
weak and lower.
Despite a fair class of haying at
the extreme low, wheat advanced
steadily until the close. The buying
was attributed mostly to evening up,
although Chicago was reported to
have bought about 100,000 bushels on
the break. Crop news remained
favorable, warmer weather with accom-
panying over seeded sections of the
west beat.
Corn finished in late trading with re-
ports that light receipts prevailed at
all markets. A practical cessation
of country offerings was noted, and
it is believed, however, that long inter-
mittent hold a good supply. About 3,500,
000 bushels of corn were shipped from
Chicago elevators during the
week to mills via the lakes.
Cats were dull and neglected and
showed practically no change over
early trading.
Open. High. Low. Close.

ELECTION IS GOING BIG IN FAVOR BOND

Reports from Everywhere Show Practical Unanimity in Favor of the Contract and of the Bonds; Opposition Fades but Workers Busy on Job.

The people of the American Falls reclamation project will have a majority of 16 to one for the contract and the bonds in the opinion of most people herewith have kept tab on the situation. There is absolutely no organized opposition anywhere and many who when the subject was first broached by the people were opposed, now make it clear that their opposition was based either on a misunderstanding of what was involved or on technical points which they thought might be improved.

In spite of all this the pro-district and pro-bond workers are not feeling into things as fiercely as the workers on both sides did in the recent city election when the fate of the contract hung in the balance.

The fact that a railroad has already been promised has been new energy to the hunters.

The opposition to the contract and bonds is always located somewhere else. This morning it was reported here that there was some opposition at Buhl. Making allowance for this an offer was made to bet that the people would vote yes by six to one. He got no takers. Later Attorney A. W. Ostrom and Editor A. W. McCallum of Buhl were here and stated that at a conservative estimate Buhl would vote yes 16 to one. It was said that one man made a poll of a large district and found only three who would vote no. W. P. Brockton, former commissioner, said Kimberly was voted for, contract and bonds. W. C. Hill said of Murtagh: "If we had anyone up there opposed in these matters we would kick him, but we haven't."

J. S. Busell came down from Pa-

calho on the noon train. He said his vicinity was voted for the plan and that it was said up here that the only danger would be in Twin Falls. He expressed himself as much gratified when he heard that things seemed almost unanimous here.

And on it goes and so on unless folks are to get the greatest surprise in history.

More than 120 had voted at 6 o'clock.

Bonus Will Be Sent Back to the Donors

Those who contributed to the Idaho Central Holding Committee for the purpose of inducing that company to build the road, when the late George H. Straus was president, will get back their notes. It was announced at meeting last night.

LITTLE TALKS ON THRIFT

By S. W. STRAUS, President American Society for Thrift.

THRIFT is a Japanese proverb which expresses a deep truth in the following words: "Success and happiness are the beautiful flowers that spring from the plain brown bulbs of thrift and industry." It is printed on posters, are displayed in many windows of the Island Kimpin.

S. W. STRAUS means are apt to think of thrift in terms of plain brown bulbs, without thought of the beautiful foliage that comes from them. One sometimes hears the expression: "My life was only one day." It means the good things that life has to offer, or "let the future take care of itself. It does not pay to worry about things that may never happen."

Those who give expression to this thought must be looking at the wrong point of view. They are not thinking of the beautiful flowers that blossom from the brown bulbs and buds of thrift and industry, but are thinking only of the plain brown bulbs. The necessary connection between practices of thrift and real success is just as definite as is the connection between the brown bulbs and the beautiful flowers of the lily.

To maintain that one can go through life with absolute disregard for the fundamental of efficient living and prudent habits, and still continue to thrive and make progress is as false doctrine as would be the notion that the flowers could live and grow without the bulb.

There are varying standards of thrift, according to the individual's circumstances and conditions. But living beyond one's means, squandering one's time, energies and health, and thinking only of the present moment without plan or preparation for the later years, are practices that cannot fail to bring unhappiness in the end.

MEETING TO HEAR MANY BRIEF TALKS

Mayor E. B. Sherman and Party on Way from Boise to Take Part in Jollification Tonight; Band Will Play.

Although it was earlier decided to hold no meeting last night, a number met together at 7:30 Friday afternoon for the purpose of the Chamber of Commerce and informally decided on the celebration after some discussion.

Later in the evening a number of committees were selected and visited neighboring towns carrying invitations and meeting with hearty responses. John W. Graham was general chairman of the gathering.

It was determined to hasten the matter as much as possible in order that the custom might be taken care of and other conditions complied with so that work can begin at the earliest possible moment on railroad construction. It was also decided to have the celebration of the American Falls and the name given to the place and to return from other places.

Mayor E. B. Sherman and a party are on the way from Boise to join with Twin Falls in jollification over the promise of a railroad and the creation of the big district. This news was wired here Tuesday. The jollification was organized by the Advertiser of that city and recruited from the Kiwanis, Rotary, Exchange and Business Women's clubs of the capital. Promptly at 8 o'clock the band will start up and play for half an hour. Then there will be a series of short speeches by Mayor Shad E. A. Walters, Mayor Sherman, Judge L. C. Johnson, Guy Fleener, and representatives from other towns on the Twin Falls tract.

The celebration will be held at the intersection of Main avenue and Stone street.

Band Concert Held At Auditorium Last Evening Was Fine

The final band concert of the term was held last evening at the high school auditorium and deserved a larger audience than it had. The following was the program: "Princess of India," selection from Holm Boat; "Love Sends a Gift of Boxes," romances solo by Edward Walters; "The Mill in the Forest," quartet from "Hippocrene"; saxophone solo, "Gustavine"; "Prize Drawing"; "Shower of Gold," clarinet solo by T. Hinrichsen; "Apple Blossoms"; "Overland"; "Our Favorite Recruitant"; "Star Spangled Banner."

LOCAL BRIEFS

Give Musical Recital—Miss Georgia Martin's piano pupils gave a recital last evening at her home.

Will Speak at State—A joint meeting of the Twin Falls, Casala, Alland, Hoti river and Hurley stakes in in session today in the last session and will continue over tomorrow. William A. Norton of Salt Lake City will be speaker.

Many Take Examinations—Nearly two hundred grammar schools the county have taken eighth grade examinations this week. It was announced by the superintendent, Charles Bond. The papers are now being examined.

Program Was Excellent—The program of the St. Dennis parochial school at the Parish ball last evening was excellent; the children showing accurate knowledge of arithmetic, music and the dramatic. There were no excuses in response to the program and the children's number for the program was well filled.

Injunction Hearing Resumed—The case of Charles M. Smith against F. W. Dunke, wherein an effort is made to enjoin the latter from trading stock of the building rendered from the former to the F. S. Most company was resumed today in the 11th district court yesterday Judge Babcock adjourned court to go out and view the ground and continuing cooperation of all and declined Dry Creek water case.

Chinese Bandits Are Largely Made Up of An Unpaid Soldiery

There is nothing new in the direction of the bandits of Szechuan except that they got a lot of white rice the other time, according to William Liebraun, who left last evening for a visit with his cler. Mrs. J. C. Getch in this city. Mr. Liebraun has represented large corporations in Shanghai for many years. Two years ago an army of 10,000 of them made a big raid. They are able to defeat an ordinary Chinese army. Great chaos exists in this district. Mr. Liebraun believes that out of the present trouble good will come and that the nation will bring pressure to bear which will eliminate the pirates.

Harding States Obligation to Disabled Veteran

Endorses Appeal to Nation by Citizens' Committee of America

PRESIDENT'S LETTER

President Harding, Members of Congress, Governors and the American people were recently appealed to by the Citizens' Committee of America to take up the matter of assuring occupations in disabled veterans after they finish federal training.

The necessity of the public interest has been strongly set forth in the President's answer to the appeal which reads as follows:

"My dear Mr. Knauer: The appeal of the Citizens' Committee of America, which you have been good enough to send to me, represents a well directed effort in a most worthy cause. I completely agree that, no matter how generously, or how efficiently the Government may succeed in discharging its obligation to the disabled veterans, nothing short of the sincere and continuing cooperation of all the people, or of all the agencies which have to deal with the problems of employment and of individual opportunity, can insure a complete performance of the national duty. I earnestly hope the effort which your committee is putting forth will be productive of valuable results and that they may be attained early.

Most sincerely yours,

(Signed) WARREN G. HARDING.

Fifty-nine national organizations are represented in the Advisory Board of the Citizens' Committee of America thus establishing the widest possible interest in assuring the fulfillment of the nation's obligation to the disabled veteran.

BABCOCK IMPOSES MANY FINES IN DISTRICT COURT

Those letters "put them" in the district court before Judge W. A. Babcock today when six were sentenced for illegal possession of which they had admitted that they were guilty.

Those sentenced were Andrew Ailre, \$200 fine and two months in jail; Marvin Blink \$400 fine and two months in jail; Anthony Fole who has wife sick in hospital and is assuring occupations in disabled veterans after they finish federal training.

The Magic of a Great Name

The Import of a great name on a product is a protection, and a safeguard. The name of the House of Brunswick on a tire is like the imprint, "Sterling," on silver. It stands for the best.

For over 72 years the House of Brunswick has been famed for the quality standards of its products.

This fame is precious to this great house. It could not afford to allow its stamp to go on an unworthy product.

So the Import of the House of Brunswick on tires means that it is a warranty of quality, of excellence.

Never before has a famous name been such an asset, never before has it been so important to the buyer of a product.

There are many tires, but there is only one Brunswick—and it is always the best.

The Brunswick-Balke-Collender Co. Manufacturers Established 1848

The Brunswick will stay 94 per cent longer than any other tire made—you cannot get them hot in the summer. What does this mean to you tires? It means that they will last longer.

1923 Celebrating 1923

Everybody is celebrating—rightly so, because there are good reasons—Today they are doing their bit to help build a bigger empire and a greater future in its store for all.

We are joining in on the celebration. Fifteen years ago TODAY we landed in Twin Falls—we came to stay. So today we feel we have an added reason for celebrating. Next Tuesday, May 15, is our Fifteenth Anniversary—and we are going to celebrate by giving a dainty little gift to all the ladies that visit our store on this date.

All of next week will be known as Anniversary Week. This will be celebrated by giving the best values we have ever given. Remember, Tuesday you celebrate with

TWIN FALLS COWS TAKE THE LEAD

General Average for Association is Lower for Month of April Than for March Owing to Change of Feed Official Veter Reports.

Summary of the principal facts of the last report of the Governor's association set forth the following statement by A. H. Koster, official veterinarian.

Fewer cows attained the 40 pound fat production mark in the Pioneer cow association for the 30 day period ending April 31, according to the report of A. H. Koster, tester for the association.

For the 36 day period ending March 30 547 one cows produced over 40 pounds of butterfat for the 30 day period ending April 31 37 cows produced over 40 pounds butterfat. This drop is due to the fact that the cows are being changed from winter feed to summer feed and a number of farmers report that alfalfa and other succulent feeds are running low.

For the month of April there were 220 cows tested with an average production of 742.8 pounds milk and 30.6 pounds butterfat. The first and second high cows were owned by E. G. Elbers of Twin Falls; Baracath Merced, with 2700 pounds milk and 164 pounds butterfat and Buhl Queen Mercedes, with 2550 pounds milk and 62 pounds butterfat.

"and" registered Jersey has third row, G. P., a registered Jersey, with a production of 1065.2 pounds milk and 36.6 pounds butterfat. The high herd for the month is owned by Carl Middlestadt of Buhl, his herd of 17 Jerseys have an average production of 321.6 pounds milk and 41.4 pounds butterfat. John H. Gist of Park 14 has a herd of 14 Holsteins show an average of 190.2 pounds milk and 40.0 pounds butterfat.

World Ungrateful to Mozart

Mozart's grave in the plainest manner possible, with nobody present except the keepers of the cemetery. Weeks after, when the wife visited the spot, she found a new grave-digger, who could not tell where her beloved husband was buried, and to this day the author of 14 Italian operas, 17 symphonies and dozens of cantatas and serenades, about 600 compositions in all, sleeps in an unknown grave. Salzburg, Austria, wanted a half-century before erected a bronze statue to the world-renowned genius, in the square of St. Michael, and 20 years after his death Vienna built him a monument in the central market.

History scarcely furnishes a more pathetic life. "He lived the world with music, yet died in want and sorrow," says a biographer. He died December 6, 1791.
