THE CHILD THAT NEVER GREW UP

DIVORCE SHOULD COME WHEN LOVE REIGNS NO MORE

BEVERLY, May 15—Marriage is primarily the love of one man for one woman and of woman for man, and when that condition ceases, there should be divorce, because many of them marry.

This was the statement today of Judge Dan B. Lindsey, famous local jurist, in commenting on Chicago figures showing one divorce to every five marriages there during the first three months of 1923.

UNIDENTIFIED WOMAN FOUND DEAD IN CHINA, May 15—The body of an unidentified young woman about 23 years of age, was found early today in the surf on the beach here. She had been dead about an hour when discovered, the police believe.

IN MEMORY OF THOMAS WOODS

Reminding perfectly contented until the end and with his eyes shut at his bedside "ready for the journey" to eternal rest. He had been burdened in health and spirit for several years, and another mental shock no change of climate gave relief. About four weeks ago he took to his bed and although he had suffered intensely, he passed peacefully as if in sleep.

His last words, spoken only a few minutes before he went to sleep were to his son and were words of appreciation for loving care shown him in his illness.

Mr. Woods was born in Monmouth county, Ireland, June 22, 1852, and came to this country with his parents when he was sixteen months of age. They settled in Tama county, Iowa.

In 1878 he was married to Mrs. Henrietta Harmon, who survives him and who an ably assisted him through his years of ill health.

Many years of their married life were spent in Harvard, Clay county, Nebraska, where Mr. Woods was one of the most substantial and respected men of the community. Many old friends there registered to bear of his death.

They came to Twin Falls in 1909 and Mr. Woods bought an improved ranch on Alderson road and specialized in stock raising till he retired in 1915.

After every meal
WRIGLEYS
Top of each meal with a bit of sweet in the form of WRIGLEYS.

It satisfies the sweet tooth and aids digestion.
Pleasure and benefit combined.

Here's a popular way to serve Kellogg's Bran—greatest health food!

Just every one who realizes how effective Kellogg's Bran is for the permanent relief of constipation has their own popular way of serving this wonderful cereal. Most families put it in a cereal with milk or cream. Others sprinkle it on their favorite hot food cereal. Every one enjoys it for the flavor.

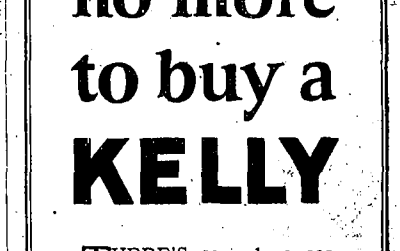

If you are cooking a hot cereal try this method—Measure out two tablespoons for each member of the family. Mix it with the cereal and cook as you always cook the cereal.

Kellogg's Bran is scientifically prepared and ready to eat, but its regular use keeps you in no way injured if you cook it with other cereals.

Kellogg's Bran has won the friendly recommendation of physicians because it does give prompt and permanent relief from mild or chronic constipation and because it can be eaten without forming a habit. Again, Kellogg's Bran will free you from drastic, dangerous cathartics.

When constipation conditions exist in your system or when you are threatened, do not take half-way measures. Foods with a partial lard content cannot free you! What you must have is Kellogg's Bran because it is ALL BRAN! To the limit get relief! Every member of your family will delight in eating Bran cereal bread, muffins, pancakes, macaroni, etc. Buy in every package.

Start eating Bran to-day! Get well—keep well—live longer out of your home! First-class hotels, clubs and restaurants serve Kellogg's Bran in individual packages. All grocers.

It costs no more to buy a KELLY

There's scarcely a car owner who hasn't heard motorist friends praise Kelly tires.

For this reason a good many people have the mistaken idea that KELLYS cost more than ordinary tires.

Compare tire prices and you'll find it costs no more to buy a Kelly.

a whole here's one dish

There's not one essential food element missing when you serve Shredded Whole Wheat with berries or fruits and cream.

In a full course dinner you might eat a greater quantity of food, but you cannot possibly get a more balanced, body-building combination than Shredded Whole Wheat topped with luscious fresh fruits and berries.

Here is your ideal summer food—one that appeals to tired appetites, and satisfies your craving for a light, wholesome and sustaining summer dish.

Strawberries and Shredded Whole Wheat

Oil Tank Ordinance Enacted by the City Commission

Those Putting Up Such in Municipality Must Conform to Regulations of Insurance Underwriters; Garbage Ordinance Requires People to Keep Places in Order; Finances Are Discussed at Great Length; Many Minor Matters Are Acted On.

Oil tanks heretofore constructed in this city must conform to all the requirements set forth by insurance underwriters and the city ordinance passed as an emergency by the city commission last evening. At a previous meeting City Attorney Andrew J. Myer had been instructed to draft an ordinance compelling people to keep their garages clean up, but on investigation it was found that such ordinance was already in force, with penalties of \$100 for each violation. Strict enforcement of the dog ordinance was ordered. It was nearly midnight when the commission adjourned.

Covers Wide Field

Other matters of interest were discussed with John Hatfield, city attorney, indicating that uncollected delinquent taxes for 1928 would amount to \$42,000, which was part of the city's assets. A bill of \$100 for each delinquent would double the banks of the city and to take warrants at par; an intention to the war department to compel the taker to reduce the amount of water used while filling up the automobile tank. The city attorney was to succeed Treasurer C. E. Jones. Dr. Knapp to succeed Patrolman J. C. Ryan and temporary City Engineer K. Reynolds to fill a vacancy on the fire department. H. H. Bond was appointed clerk and City Engineer was appointed a letter from Mayor E. L. Sherman of Idaho regarding the power bearing wire in city and in the city of George E. Eyre of Los Angeles, regarding an effort to build the anti-aircraft film directed by Mr. Halstead was tabled. Attention was called to condition of a street near the depot by Simpson & Company and it was reported that the matter was being fixed up. Several licenses were granted.

Had Been Prepared

The ordinance for the regulation of tanks was prepared by the city engineer and Commissioner W. T. Leslie at the last meeting when he called attention to the fact that there was no provision made for regulating oil tank construction. He said that Junkie was not in compliance with the ordinance and that the ordinance was in great need of covering the subject. This was passed just as the meeting adjourned.

Garbage Ordinance Iron-clad

The garbage ordinance is elaborate and stringent. Burpee has indicated that since the city is unable to pay for the hauling of garbage, it is necessary to pass an ordinance that will make contractors not want to make contracts with the people.

Dogs Must Obey Law

The dog ordinance is very tight. Dogs are not permitted to linger on the streets of neighbors unless invited. There is a penalty for such unwelcome intrusions; not on the dogs, but on the owners. A license law which condemns to death dogs on whom the license has not been paid. A dog which was placed at the dead line and Chief J. O. Herriman was instructed last evening to clean up dog tags.

Other Matters Up

O. E. Carlson appeared in behalf of the board of county commissioners to say that the manner of drawing water from the pipe to supply the stadium was causing a serious leak. It is a four inch pipe to the hospital and the hot has a two inch pipe. The hot water is being strained at night and the filling is completed by a check in the morning. But while the pipe is going on the pressure is strained, water would fill the tank and leave the pressure sufficient. Commissioner S. S. Hill and Harry Hartman were instructed to look after the matter today.

Beetle in Waterworks

There is a deficit of \$11,000 in the current waterworks fund. Another item which ought to be considered is the surplus in this fund. Water rates are slightly reduced in the city and that the old rate must be restored in order to make up the deficit. A long discussion of the matter followed by a decision to let the banks carry the water rate until they were able to pay. A speedy restoration, but if not carried out at par, then to issue refunding bonds. It was pointed out that the water rates of J. S. Keel that if the warrants could be paid up in a reasonable time, the somewhat higher interest charges would be more than offset by the interest on the bonds. It was pointed out that \$12,000 bonded in 1922 are now due. There seems to be a current extension pending.

Effort to Reach Every State by Radio Thru. P. M.

Miss Charlotte Pond, county superintendent of public instruction, has appointed the following: an instructor from the Idaho Anti-Tuberculosis society; the National Tuberculosis association expects to pull off one of the most unique publicity stunts in the history of the world. Through co-operation of the Chicago board of trade, the national anti-tuberculosis association, and the station on the Drake hotel, said to be one of the most powerful in the country, a talk on the modern health crusade.

Telephone First Aid Team Makes Grade; Enter Boise Contest

Causes Blocking Progress In Soft Coal Industry Revealed Before Fact-Finding Commission

The industry, which is highly complex, includes 9,000 independent operators. John C. Brydon, of Sacramento, Pa., chairman of the special committee, said in his committee's first report, the following four major obstacles to satisfactory bituminous coal mining from the standpoint of the public and the industry: 1. Instability of labor conditions due to the monopolistic power and methods of the United Mine Workers of America, with the following consequent handicaps to the industry: (a) Inability of mine owners to work their plants at year-around capacity with any certainty of regular operation. (b) Inability to make maximum use through coal shipments to the coast of the country. (c) High cost of mining, resulting in high prices, due to constantly interrupted and therefore inefficient operations, and to property losses through violence. (d) Exorbitant labor costs, causing prices which force other working people in effect to exchange from two to four days' labor for one day of mining labor when they buy coal. (e) Continuing threats of even higher wage demands, to be enforced by bludgeoning and violence. 2. Transportation difficulties. These consist of obvious and fundamental deterrent to satisfactory supply and price of coal. Problems of car shortage and exorbitant rates for improving the present system of distribution are being studied. 3. Seasonal demand. A diminished and through effort by the industry to encourage and teach the public to conserve coal in the winter of the committee's recommendation. 4. Speculation. Out of the gold listed above comes destructive opportunities for the industry's laborers, the speculators who, and since mines which, like the industry, are controlled by the speculators, when demand is hot and prices high. The great body of construction business citizens who constitute the bulk of the bituminous mining industry are as desirous as the public to stabilize the industry as to stann out the speculator.

PERSONALS

J. N. Clear returned today from Portland where he transacted business. Attorney H. W. Monahan was transacting business here Saturday from Boise. D. Morgan Hinkman came to West Point late in June to enter as a cadet on July 2. Lawrence Hodge of American Falls is visiting his parents, Mayor and Mrs. Shad L. Hodge. Mr. and Mrs. H. Steen and family (including a son) are visiting in Colorado and Nebraska. C. E. Coker was a visitor from Boise yesterday. Mrs. Lapp was in the city from Piler yesterday. J. W. Walkin went to Boise yesterday on business. George Engen was a passenger to Boise last evening. C. H. Gayer is here from Rupert looking after business matters. C. E. Wright returned today from a business visit to Hometown. Col. C. L. Lemley of the U. S. Army office at Boise is here on a visit.
