

WOULD PLACE WALL STREET UNDER STATE

Repeated Brokerage Failures Leads District Attorney to Favor Drastic Step to Curb Irregularities; Says Money Center Is Full of Crooks.

NEW YORK, June 22.—Spurred by the numerous stock brokerage failures, the disclosure of serious irregularities, suspension of stock exchanges, and the heavy losses inflicted on the investing public, District Attorney Danton today served notice of his intention to place Wall Street under state supervision.

Danton would place all brokerage houses under the jurisdiction of the state banking committee, insuring licenses for their operation.

On the New York Stock Exchange for the present condition and feeling in Wall street, Danton declared. "It is, in fact, a state of anarchy, and constructive legislation that would have been helpful to the brokerage industry, and established that business and has remained and secured a law, the enforcement of which will place the brokerage business in New York."

Wall street is full of crooks, Danton declared. "These men start false rumors and then gamble on the market results, he said. The New York Stock Exchange, the Securities and Exchange Commission, and the Federal Reserve Board, are all controlled by these men, and they are all crooks."

During the past two years 150 brokerage houses with aggregating liabilities of \$50,000,000 have failed, Danton said. "During that same period, not a single bank under supervision of the state banking commission has failed," he said. "This fact alone should be a warning to the people to the necessity of putting the brokerage business of New York under supervision of the state superintendent of banks," Danton declared.

PROTEST AGAINST JAILING CITIZENS

HOUSTON, Texas, June 22.—Grove Creek, a village near here, closed up, today and moved over to Houston today. The village was in the midst of the residents, failed on charges of contempt of court. The three prisoners refused to answer questions regarding the masked figures in the Grove Creek district, and were ordered to jail until they would consent to talk.

Three hundred fellow residents and in a hurried and unorganized fashion, they gathered to protest against the jailing of the prisoners, staged meetings around the jail here.

Kansas City Extends Welcome to Harding; Address Suits Borah

KANSAS CITY, Mo., June 22.—President and Mrs. Harding came to the "heart of America" today along with the hottest weather of the summer.

After a 37 mile drive over city boulevards that radiated the blistering heat, Mr. and Mrs. Harding took to their strenuous pace by staking hands with several thousand Missourians in a down town hotel.

Then they relaxed for a few hours, before the president delivered the second formal speech of his western tour.

While a woman's committee headed after Mrs. Harding's comfort, the president and Mrs. Harding again went out for a tour of the city.

After his speech on transportation here tonight the president will leave for Hutchinson, Kan., where he will deliver his agricultural speech Saturday afternoon at the fair grounds.

BOHRH, June 22—Senator Borah was manifestly pleased with President Harding's speech at St. Louis.

"The president declared most candidly and bravely, and with a freedom and against having any relationship with the league. He proposed a referendum on the subject, and I am glad to see that he has done so."

BARUCH PLAN FOR PURCHASE IS ENDORSED

OGDEN ARMOUR Shows Willingness to Do Anything Possible Looking Toward Agreement Co-operative Handling Has Numerous Advantages.

CHICAGO, June 22.—A plan for cooperative purchase of the Armour brand of corn by farmers as suggested by Bernard M. Baruch has received favorable interest from J. Ogden Armour and George E. Marcy, head of the grain company, Marcy said today.

Armour said that Baruch had branched the scheme to both the Armour and Marcy sides, and that the plan, now definitely proposed as to purchase of the grain, was made and the project is still in a "tentative stage."

"We are open to any proposition made to us and we understand that the cooperative plan will be returned after we have had the opportunity to study it (probably farmers or wheat growers organization), which will be made to us to such an arrangement," said Marcy.

Baruch revealed his proposed plan to an editorial in the Chicago Press to New York last night. He urged that farmers, probably through the United States Grain Growers Inc., or a like organization purchase the Armour brand and turn it into a great cooperative marketing center through which the wheat grows may obtain increased price and greater profits.

J. N. Mohr, president of the United States Grain Growers, and C. E. Hurler, president of the American Farm Bureau Federation, today declared that the grain growers "will be taken over by any other organization."

QUESTION AND ANSWER BOX

(Conducted by Auntie Sue)

Q. Dear Auntie Sue: Please tell me what is the meaning of "The Kingdom of the Egyptians"?—Mrs. J. K. A. Ninety-two per cent of the Nile valley people who live in Egypt are of the Mohammedan faith. The remaining 8 per cent are mostly Christians and Jews.

Q. Dear Auntie Sue: Was Peter, the first head of the Roman Catholic church, married? Hoping you can answer this question and thanking you very much in advance. Very truly yours, J. J. B.

A. The gospel of St. Matthew, chapter 8, verses 14-15, describes the healing by Jesus of the mother of Peter's wife, who "lay sick of a fever" at Peter's house. This indicates that Peter was married. You are very welcome.

OLIVER TWIST GREAT SHOW AT ORPHEUM

A large crowd enjoyed Oliver Twist at the Orpheum last evening, with Jackie Cogan giving an ideal character in the title role. Long chance made a perfectly beautiful play and the other parts of the cast, as well as the scenery, were up to the advance notice. The lovers of Dickens will follow with breathless interest the future of the hero while those who seek to laugh and to be entertained will find the dramatic plot and activities of the various villains. —Times Critic.

DICKENS' LONDON FILMED

According to Frank Lloyd, director of "Oliver Twist," in which he covers the life of the orphan at the Orpheum theatre, the reproduction of the scenes in "Field Lane" is photographically accurate. It was in this disreputable quarter of London that Oliver Twist was held captive by Fagin and his evil band. The place still exists, though much of the architecture has been changed. The Dickens' play has been filmed again. But the landmarks remain and any student of Charles Dickens' "Oliver Twist," will, with the illustrations done

GRACEY STORES

Webster's dictionary gives as one of the meanings of the word "grocery" in the United States a "retail grocery store." It is quite correct to use it in this sense and to pluralize it, so as to make it unnecessary to say "grocery stores," just as we have "bakeries," etc.

NEED FOR UNIFORMITY IN BUSINESS LAWS

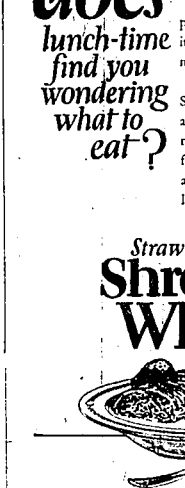

How Collection of Just Debts May Be Prevented by Differing State Statutes.

An effort to bring about better coordination and greater uniformity among state laws dealing with business and banking is being made by the American Bankers Association. It is pointed out that, although the country is a unit commercially, and citizens of any one state may do business with banks all over the country, most laws governing business transactions are made by the different states, with applications limited to their own local jurisdictions and often in conflict with laws in other states. It is hoped that state laws will be uniform so that the same transaction will not be subject to different sets of rules according as one law differs.

To illustrate the disadvantages of conflicting laws, the following illustration is given: Mr. Jones lives in New York where the statute of limitations outlaws a note in six years. He falls into the error of assuming that the same rule prevails everywhere. He visits Maryland and loans \$1,000 to his friend, Mr. Smith, making a promissory note. As the note carries

NEWS OF THE SPORT WORLD

CHAMP LOOKS PREPARED TO BOX GIBBONS

Assurance Given to Congressman Smith That Consideration of Granting of Certificate Will Be Taken Up at Once; Will Disregard Private Controversies.

BY HENRY L. FARNELL. QUITZA FALLS, Mont., June 22.—Jack Dempsey weighs 180 pounds and "he won't be much more" when he goes into the ring against Tommy Gibbons July 8, Jerry L. Avator, his trainer, said today.

Dempsey still looks lighter than he did when he was getting ready for George Carpentier. He has the healthy shadow and a little more fat in his arm but he seems to be smaller in the waist and back.

He was being offered today with Dempsey the favorite to knock out Gibbons, in an eight-round fight. The odds are posted on a blackboard, \$100 to \$25 and \$200 to \$100 were offered on Dempsey to win but these were not taken. Several large bets of more than \$1,000 were taken last week at odds of four to one for Gibbons to win.

"Outside of the heavyweight boxing championship fight, Dempsey has his best fight in his life. He will take on any man of his weight or better at his heart's desire, and Dempsey said he would do the same." "The wind whistled through the trees about the middle of the night and Dempsey slept soundly on the roof. Dempsey knocked the shirt and a dime in front of him as he ran a final game of hearts with his camp mate.

"I'm better with the dough than Doc Kerens and that makes me a champion," Dempsey said as he looked over a handful of clubs and re-counted on top of it. "Woolen's is a bad wicket, how'd it be?" Dempsey has lots of the money left that he had at Atlantic City. He doesn't try his strength bolts on his friends and he no longer takes pride in putting a "wreath" flat on a chair with his right hand on the back. But the champion still likes to play cards and win.

"Dempsey has no more, I think the dough, four miles out 'no good," he called, "extra time the cards came right, fast-did-anything usually came right."

WATCHING THE SCOREBOARD

The Senators staged a rally in the ninth, put over four runs from the Cleveland Indians, 4 to 5. Boston lost to Pittsburgh, 2 to 1, in the ninth after Jake Adams and Jess Flannery waded a pitchers' battle for eight innings. "Finely hitting in the sixth and seventh runs for the Cubs, 4 to 0 and made it the fourth straight defeat for the Cardinals. Collins belted his second home run of the series and the White Sox drove history off the mound, winning from the Athletics, 6 to 1. The Browns made it four off five for the series by beating the Red Sox 3 to 1.

CHAMBER COMMERCE WANTS WRESTLERS

Five expert wrestlers, light of weight and lithe of limb, are wanted by the Chamber of Commerce to accept the challenge of the noted Vinton athlete who signs his name "Milton Handin, lightest champion wrestler in the world." He offers to throw any five men of his weight in one hour or one day for a fee of \$1,000 and, incidentally issues a challenge to any man in the world to meet him. Secretary Nowell B. Right said today that this feat would be performed and expressed the hope that anyone who knows of any wrestler of a reasonable distance who would like to be interested, would let him know at once. The sports committee is busy on the Fourth program and wants to get it in shape as soon as possible.

Dempsey and Gibbons Most Evenly-Matched of Heavyweight Fighters

SHERIDAN, Mont., June 22.—Recent statistics on Jack Dempsey and Tom Gibbons as they are at this stage of training follows:

Table with 3 columns: Measure (height, chest, waist, etc.), Dempsey, Gibbons. Measures include height (5 feet 8 1/2 inches vs 5 feet 7 1/2 inches), chest (45 inches vs 44 inches), waist (35 inches vs 34 inches), etc.

The above figures speak for themselves. Dempsey and Gibbons are more evenly matched in weight, height and reach than any two heavyweight who ever fought for the title. Jim Corbett weighed 187 when he lifted the crown from John L. Sullivan. Fitz was two and a half inches taller than Sullivan and 25 pounds lighter.

Bob Fitzsimmons weighed just 165 pounds when he defeated John P. Gitz. Fitz was one and one-quarter inches shorter than Corbett and 22 pounds lighter. Jim Jeffries weighed 200 pounds when he defeated Jeff. Jeff was one and one-quarter inches taller and 55 pounds heavier.

The record book muffs age of Tom Gibbons. Gibbons, former world heavyweight boxing champion, and gave up the business in San Francisco, insisted on his interview here today that he was serious in his plan to stage a comeback with light Tommy Leonard. "I've got a list of my following, including the reputation, the fight conditions. As I'm going around to be Will Leonard's son."

Ritchie believes he can lick Benny. Ritchie says he weighs only 124 and could be in his prime in the summer to prepare for a possible bout with Leonard.

RECORD BOOK MUFFS AGE OF TOM GIBBONS

SHERIDAN, Mont., June 22.—The record book muffed one year on Tom Gibbons wrong on one of the items. That's how long he has been on the record. The record book says that for the last 21 years there has been no Tom Gibbons with him. He says he is 28. And Tom caught to 1837. "I was born March 22, 1897," says Tom. "The record book muffed one year on me. I don't like to see it in print that I'm older than I am. "My brother Mike, is five years older than I am. "I noticed the record book had me wrong a long time ago, but I never thought it made such a difference. "Now that I'm fighting for the title, I want my age correct. "I don't make any difference. When I get in the ring it will be Tom Gibbons against Jack Dempsey." "But somehow I'd like my friends to know that I am only 27—a difference of one year between the champion and I. "The way the records got my age wrong was probably due to the fact that there was another brother born between Mike and I. My parents named him Tom. He was to carry my father's name. He died in infancy. Then I came into this world and was christened with the name. It may be that this is how the mixup came about. "I was only 14 when I met my father. "Personally, I don't think it makes my difference whether I am 28 or 27 to the extent of my big battle. "Most men are at their best physically between 25 and 35. "The way I shape it out is that a fighter has just about so many good fighting years under his belt. "Hard battles turn a fellow up physically. "Some fellows get quicker than others. Those that take but breathing have forethought careers. "Hard battles might cause such. Most of mine has been pitching. The catcher face quakes. "I don't think I ever so knacker me down during my 88 battles. "That I would like the public to get it straight. "I'm only 27, the record book muffed that age down on me."

YALE FROSH BEAT CRIMSON BOATMEN

NEW YORK, Conn., June 22.—Yale won the football first event of the annual Harvard Yale regatta on the Thames here today. The freshmen eight got ahead at 11:05 a.m. The Yale coxswain pulled out into the lead at the turn, 3:32, and won the race in 12 minutes 18 seconds.

Yale moved the two miles in perfect form. Entering the second mile, Yale increased the lead by long lengths. Harvard started a sprint and overtook the margin by three lengths but this effort failed the freshman eight.

RITCHIE BELIEVES HE CAN LICK BENNY

Gibbons, former world heavyweight boxing champion, and gave up the business in San Francisco, insisted on his interview here today that he was serious in his plan to stage a comeback with light Tommy Leonard. "I've got a list of my following, including the reputation, the fight conditions. As I'm going around to be Will Leonard's son."

Ritchie says he weighs only 124 and could be in his prime in the summer to prepare for a possible bout with Leonard. "I've got a list of my following, including the reputation, the fight conditions. As I'm going around to be Will Leonard's son."

LITTLE TALKS ON THRIFT

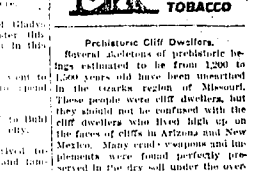

President American Society for Thrift. "WITH ALMOST regular frequency one reads in the newspapers of the heavy losses of funds advanced by the beneficiaries of their personal affairs. More and more are emphasizing the greater need of thrift education. Our public losses through the various varieties of fraud reach back into the hundreds of millions of dollars each year. While the courts eventually administer punishment to these various "barbarians" (perhaps the only lasting remedy for the economic malady lies in education. To begin with, there should be a broader groundwork of thrift training for many years. In August, 1915, the National Education Association, while in session in Oakland, Calif. took official action. Since that time this national body of educators has considered the matter of thrift education, and in many parts of the country thrift has been included in the curriculum. Thrift education in thrift still lacks attentiveness. There should be encouraged continuously, not intermittently. In our schools and Sunday schools, in our churches, theaters, business houses, newspapers and through every other possible medium, interesting and appropriate lessons in thrift should be given. Until these things are done, we shall continue to run in the newspapers from time to time of terrible financial losses sustained by those who have not learned that money may be so hard to get that it is so easy to lose."

FIRED FOR FAITHFULNESS

Just about 40 years ago, a middle western lad of 23 years gave himself to a career of service in the United States department of the interior.

Yesterday the same man, now a grizzled veteran of public service whose reputation as a hydrographic and irrigation engineer has become second only in the world to that of Sir William Willcox, found his office abolished and himself turned out. And he said to reporters:

I was only informed that the secretary thought it best the office should be under a business man rather than an engineer, so I was summarily dismissed.

The man was Arthur Powell Davis, director of reclamation. To his careful scientific methods and his untrusting independence of "influences" Idaho like the rest of the irrigation west owes an incalculable debt.

We have looked up some facts about the career of this man whose conception of service took no account of salary since he could at any time have earned three or four times what the government paid. Here they are:

- Graduate of state normal school, Emporia, Kan.;
Bachelor of Science, Columbia university;
Topographer, United States geological survey, 1884-1894;
Hydrographer in charge of all government stream measurements, 1895-1897;
Hydrographer in charge examination of Niagaragan and Panama canal routes, 1898-1901;
Chief engineer, United States reclamation service, 1906-1914;
Director of reclamation 1914-1923;
Author of many books and magazine articles on hydrography and irrigation;
Consulting engineer, Panama canal.
And now—"summarily dismissed."

The matter will bear looking into, will it not?—Boise Statesman. Such is the way of politics, especially during the present administration. About two years ago a number of old and faithful employees in the engraving department at Washington were discharged without notice of assigned cause. It was intimated that they had been guilty of grave faults and misdemeanors. It was generally admitted that while they held strictly observed civil service rules, they had as individual citizens sympathized with the Wilson administration.

Senator Harrison of Mississippi championed their cause on the floor of the senate. Senators on the other side told him that he was not a friend of the men discharged as his attitude would compel the publication of their faults to the world. Harrison said that was what he wanted done. After a year of hectoring, the government completely exonerated the men in a statement forced from it reluctantly.

Governor Alexander once cast a deciding vote as chairman of the land board, ousting Oliver Hale from the position of secretary of that body. In so doing he gave him a public recommendation for efficiency and honesty, stating frankly that his vote for the removal was purely on partisan grounds. There is an element of bravery in that sort of thing, whether it is wise from the point of public policy or not. It at least leaves no stigma on the man removed and assumes responsibility for the removal.

If the removal of Arthur P. Davis was not on political grounds, why was it done? The Statesman is right in raising the question.

MORTALITY RECORDS SHOW BENEFITS OF PROHIBITION

Deaths attributed to alcoholism during 1922 in 19 American cities of more than 300,000 population were fewer by 57 per cent than in the last two normal prohibition years, 1916-1917. These are figures compiled by the Scientific Temperance Federation of Boston. "The deaths from alcoholism were more in 1922 than in either of the two preceding prohibition years, but the average total for the 19 cities in the three prohibition years has been 551, while the average for the last three years before national prohibition, 1916-1918, was 1530," the federation reports.

Cirrhosis of the liver as a cause of death is so closely connected in the mind of the public with prevalence of the drink habit that its statistics are commonly held as a criterion to the state of wetness of any community. It is true that this disease is not caused always by heavy drinking, nor is it found only in drinkers, yet for comparison of prohibition with the period immediately preceding the federation gives it in complete detail.

Deaths from cirrhosis of the liver have decreased amazingly. In 1916 there existed an average mortality from this disease of 2733, while last year the total was 1485. The average for the three non-prohibition years was 2482; for the three prohibition years the average was 1461.

Reports from cities disclose such remarkable statistics as those Philadelphia, year 1916, deaths from alcoholism, 187, and in 1922, 33; New York, 687 in 1914; St. Louis, 73 in 1917. In last year, San Francisco, 55 in 1916 to 14; Milwaukee, 25 in 1916 to 7. On cirrhosis of the liver Philadelphia recorded a reduction in deaths from 269 in 1916 to 134 last year; New York from 644 to 293; St. Louis, 170 to 98; San Francisco, 139 to 57; Milwaukee, 131 to 71.

Home Missionary Society Meets at Home of Mrs. Price

FULLER, June 22—The Home Missionary Society of the Twin Falls church held its regular monthly meeting at the home of Mrs. William Price on Wednesday afternoon.

The members were present and the session being the annual meeting the following officers were elected for the coming year: President, M. J. Graves; Secretary, Mrs. Charles McHenry; Treasurer, Mrs. W. E. Mayhew. The minutes were read and distributed to the members. Last year were approved following the business session duty refreshments were served by the hostess, Mrs. James Ed. Wilson, and Wm. Price. The next meeting will occur in four weeks at the home of Mrs. P. C. Graves when Mrs. Sarah Bond and Mrs. H. E. McMillan will be the hostesses for the afternoon.

Mrs. Edward Lord and two small children from Stoughton, Nevada, are visiting at the home of her parents, Mr. and Mrs. Ed. Wilson, while Mr. Lord is in California inspecting after landlady interests and expects in a month to be back in Twin Falls. On Thursday afternoon Mrs. J. M. Good and Robert Pettibone will entertain with the aid of a series of three parties with a luncheon for a number of friends at the home of Mrs. Billings.

Mrs. A. O. Madlan has issued invitations for three tables of bridge on Friday afternoon, commencing Mrs. N. D. Reed, who is leaving soon to make her home in Twin Falls. The first table Mrs. Madlan will entertain in Mrs. Reed's honor a number of intimate friends.

Mrs. Reed has been produced in church and child circles, also the Auxiliary of the American Legion and her services will leave a heavy hand to Bill. More than a year ago she was afflicted with the Eastern Fever, which she contracted for Bill, becoming its first patient and was re-elected at the annual meeting. The last of April, and during her term of office a number of affidavits for the school, including the erection of more playground equipment at the Y. W. C. A. building.

Mrs. Sarah Hannequist and daughter, Mrs. Helen, who have been visiting at the home of Mr. and Mrs. Harry Hannequist, for a few days recently from Boise, where Miss Hannequist taught in the city while in the past year, she had the last of the work for their former home in South Idaho where they will remain during the summer months.

G. F. Childs and William C. Grant have let the contract in Higginbotham and Ellis, local contractors, for the erection of a new sawmill. Plans are completed and ready for the start. The new building will be 50 by 25 feet in size, will have a full center truss and rafters and will be later be finished with concrete floor. It will be used principally by Mr. Childs in connection with the large contracts in bean and clover and other seed buying and will be equipped with the best machinery for cleaning seeds and preparing them for shipment.

John Hebbate has the contract for the excavation for the basement and cellar. The building will be located on the corner of the block between Mission Co. warehouse.

Fairchild Says the Watermelon Episode Caused Farm's Loss

"Some years ago at the close of the war for liberty and democracy," said S. Fairchild last evening. "I published in the Times that nineteen great services rendered to humanity and civilization on the battle fields and in the brave hearts who went across the sea, service that would amount to the equivalent of as long as the world would value it would plant 40 acres of watermelons on my farm in the heart of Idaho, and that the returning heroes might eat there and enjoy the best of their hearts' content."

"My plan will be sold for tomorrow and will be gone for good unless the boys will come to my rescue. I believe they will do it, because they told me at the time that if I ever needed help to sell on them."

Just Like a Man. "My husband suffered for several years with stomach trouble. He tried to eat but a man's stomach often had colic attacks that put the pain in that a woman can. He thought he was going to die and the doctor didn't seem to help him any. Like a ironing man grasping the iron he tried Meyer's Constiflex remedy, which a nurse told us about, and now he is entirely well and eats to his heart's content. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and stops the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all drug stores.

Quick Quaker Oats

Cooks to perfection in 3 to 5 minutes

The Quaker Oats flavor has won millions the world over. The brand dominated wherever oat flours live, for they make it from quick-cooking only. Now there's a quick-cooking Quaker, made from those same quick-cooking Quakers in 3 to 5 minutes. It is the quickest-cooking oats in the world. The oats are cut before baking. They are rolled very thin and partly cooked. So the flakes are smaller and thinner—they cook in 3 to 5 minutes. Say which you want. In either regular or Quick you get the finest flavor oat flakes ever had. In Quick you get the quickest-cooking oat dish in existence. There are now three great reasons for insisting on this brand.

Protect your house from the weather

It is the effect of rain, wind and sun on the unpainted parts of a house that "weathers" it—that makes it age and decay. But when a house is well painted, the tough, classic "film" of paint shields the surface like a rubber coat protects a man.

All Fuller house paints and stains, Pure Prepared Paint, Phoenix Pure Paint, Pioneer Shingle Stain, and Concrete for stucco, brick and concrete surfaces, have high protective properties as well as ornamental value. They are manufactured from formulas that are the result of 74 years paint-making experience. Fuller paint products give long, positive protection.

Get in touch with master painter before the weather comes your house to show signs of decay. Or write to our Service Department for advice and a copy of the free "Home Service" booklet. Whatever your painting needs, W. P. Fuller & Co. makes a paint for the purpose.

INTERSTATE COMMISSION TO ACT SOON

The interstate commerce commission will promptly take up the matter of the grant of a certificate of convenience and necessity for the construction of the line from Oregon to Well upon the completion of filings by the Oregon Short Line, it was indicated in a telegram from Chairman Halliwell H. Meyer of that body to Congresswoman Addison T. Smith, in which it was also indicated that the commission would not delay its decision on the matter of the certificate until after the Oregon Short Line was completed.

Early Work Expected. The Oregon Short Line seems prepared to push work at once on the construction of the road, according to all indications and reports. The surveying crews are said to be progressing rapidly; the report that the Utah Construction company will begin building on the Weir and on July 1, when it completes its contract for the joint double track for the Western Pacific and the Southern Pacific is regarded as plausible.

while the assurance of President Coolidge and Vice President E. F. Calvin of the Union Pacific system and Vice President H. V. Plummer of the Oregon Short Line construction would start from this end as soon as the certificate had been granted and the survey work indicates that the completion of the construction will be pushed.

Nevada Files Approval. WASHINGTON, D. C., June 22.—Congressman Addison T. Smith of Idaho and Nevada public service commission has filed statements with the interstate commerce commission favoring granting Oregon-Well certificate but nothing by the Oregon Short Line except its original application.

Young People of Bible School Have Program in Park

Two hundred young people who attended the joint Bible schools conducted by the Presbyterian, Methodist and Christian churches congregated in the city park this morning for a program of recreational amusements. The affair was very successful and interesting and the rain cleared up in time to allow the sun to dry up things and get the greenery bright and up.

This school has been declared a pronounced success by all concerned and there has been much praise given to the corps of teachers who were in charge.

LOW RATES FOR HANDING TRIP TO PUEBLO

General Passenger Agent Ian McMillan, Nevada, ticket agent of Twin Falls, to the effect that the Oregon Short Line would grant an special round trip rate of a fare and a third for President Harding's visit to Pueblo, June 25. This is especially a low fare for the round trip and is a grand price.

G. M. of A. R. L. Bradman, Kellogg, G. I. G. W. C. Renfrew, Moscow, G. O. G. Robert E. Emmet, Genesee, Grand Tribune, C. D. Moore, Pueblo, Grand Tribune, A. B. Ingle, Grand Tribune, A. P. Ingle, Cour d'Alene, Supreme representative, J. H. East, Walling.

Large Grand Excursion to go to Pueblo to meet President Harding is to accompany him to the Dan McShall He Come There.

That the campaign for the big excursion to meet President Harding at Pueblo promises to be a great success is indicated by reports received from all the surrounding towns. It is felt that it is proper to show every courtesy to the president of the United States and people of all parties are expressing a desire to see a large crowd go. It is especially desired to have the president realize the friendly attitude shown toward the American Falls dam project is appreciated.

Congressman Addison T. Smith and Arthur D. Wilson visited Buhl and Piler yesterday and found the people there anxious to participate so far as those linked to were concerned. Committees were appointed to get specific pledges from outsets desiring to make the trip. At the various towns cast as far as Harley, there is a movement already active to get folks to go.

No confirmation has been received of the prediction made by E. E. Shepherd that the president would come to American Falls. It is felt, however, that if such should be the case, it would be a fine thing to have the excursion meet him at the Gate City and accompany him to the site of the dam and reservoir. In any event there is a feeling that the report that the head of the nation should be manifested in a tangible way.

Wirelines. In the love of money, and the wisdom of this world, business is prospering. The struggle of affairs push forward, nor can the mind in this state discern the good and perfect will of the coming us—John Woolman's Journal.

BUHL, Idaho, June 22.—The final day of the meeting of the Knights of Pythias and Pythian Lodge is one of business and is confined to matters pertaining to the lodge work. The grand lodge meetings here have been most successful. The place of meeting for next year will be at Idaho and all "business before the houses" brought to a close.

Noted Men Present. The relief officers of the Knights of Pythias are Grand Chancellor H. Augur of Grandville; G. H. McMillan, Nampa, grand vice chan-

cellor; E. V. Houghton, Cour d'Alene, grand prelate; William Voigtlander, Kellogg, grand keeper of records and seal; Charles W. Culp, Rathburn, grand master of financial affairs; Henry Hill, Rupert, grand guard; W. A. Renfrew, Harlow, grand warden; Frank E. Smith, Weiser, and Thomas R. Jones, Wardner, supreme representatives; J. W. Halloway, Kellogg, vice president; J. H. Sherry, Buhl, A. P. Bowler, Shoshone, and G. M. Fox, Caldwell, grand trustees.

The D. O. K. K. parade last night was a magnificent affair and greatly enjoyed by everybody. The ceremonial at night was followed by a grand ball at the Hotel Grandview. Much enthusiasm was shown during the session over the report on work for sick and needy by the Pythian Sisters who spent over \$700 on this during the year.

Towns represented by Pythian Sister delegates are: Pueblo, Lewiston, Glenn's Ferry, Rathburn, Buhl, Redwood Mountain, Home, Sand Point, Kellogg, Genesee, Weiser, Nez Perce, Twin Falls, Moscow, Grainmont, Cour d'Alene.

TO VISIT COAST. WASHINGTON, D. S.S.S. keeps away Pimples

THERE are thousands of women who wonder why their complexion does not improve in spite of all the face treatments they use. They should not continue to wonder. Eruptions come from blood impurities and a lack of rich blood-cells. S.S.S. is acknowledged to be one of the most powerful, rapid and effective blood cleansers known. S.S.S. builds new blood-cells. This is why S.S.S. roots out of your system the impurities which cause boils, pimples, blackheads, acne, blotches, eczema, tetter, rash. S.S.S. is a remarkable flesh-builder. That's why underweight people can quickly build up their lost flesh, get back their normal weight, get plump cheeks, bright eyes, and "pep."

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

TOM THEM WEDDING AT THE LAVERING THEATRE TONIGHT

Fifty children trained by an expert will put on the Tom Thumbl wedding at the Lavinging theatre tonight. The affair will be a very elaborate social function under the auspices of the Woman's council of the Christian church to which everyone is invited. The little ones are trained to perfection, and the rehearsal indicated that the play will be one of the most enjoyable staged locally for a long time. The prices are very moderate and critics say that there should be a full house.
