IN THE LAND OF MINEY MOE Story by Hal Oochran Drawings by Lee Wright... "Well," shouted Jack, as he snuggled up with his dog, "I'm glad that got away." Then he asked Eeny Meeny what he was on the other side of the stream. "Well, go right over and see," said the old man. "Just follow me." And Eeny Meeny led the way over a bridge of legs as Flip swam alongside. Jack was not so sure of his footing and he had only reached the middle of the log crawling when Eeny Meeny stopped on the other shore. Just then the logs started to move and, quick as a flash, Eeny Meeny bent another tail tree down and told Jack a grab hold. Jack did, and was swung to safety. (Continued.)

NEWS OF THE SPORT WORLD

GIBBONS' MANAGER WILLING TO HELP FIGHT PROMOTERS

SHELBY, Mont., June 30—A warm sun and an eastern breeze brought new hopes to Shelby today, drying the mud of the town's streets and nearby country roads which has been well nigh impassable for nearly a week.

This will enable the first tourists, who have been huddled about the tracks, to get through for the Dempsey-Gibbons fight.

Some feelers were sent today to Eddie Kane, manager of Tommy Gibbons, for a postponement of the match with Dempsey until July 14. Kane said he was willing to do just anything to help out the promoters, but he felt he would be compromised if he accepted a postponement.

"So many things have happened during the promotion of the show that I figure I have lost \$150,000," Kane said.

"When the match was made it looked like a \$150,000 show and would have been as it now stands, Gibbons won't get a cent for the fight."

Gibbons plans to take another day off before the bout, and he holds the title. This means that if he might be a little stale in his last two workouts. He remained definitely on the defensive and tried to lack the steam that has characterized his work all during his training. He hit hard, missing a lot, and seems to tire quickly.

Science vs Instinct; Gibbons vs Dempsey

SHELBY, Mont., June 30—Tom Gibbons' better boxer than Jack Dempsey? He is and he isn't. Gibbons is an orthodox boxer. Dempsey is a clever in his own way. By orthodox is meant boxing according to the book. Gibbons leads a certain way to win a certain result. That is science.

Dempsey's style is more by instinct. He is able to do anything. His strategy lies in doing the unexpected.

# THREE BROTHERS KILLED BY LIVE WIRE ON FARM

Connection of Arm of Derrick with Transmission Line of the Idaho Power Company at Aken Farm, Near Tottle Results in Wholesale Death.

Connection of the arm of a hay derrick with a transmission line of the Idaho Power company yesterday instantly killed John, Thomas and Lloyd Aken at their home a mile from Tottle and four and a half miles beyond Hagerman. The mother of the boys and the wife of the first named witnessed the accident and tried to get to the bodies, but were stopped by people standing by who refused to allow them to get near. This saved them from electrocution.

Lloyd, a boy of 12 years, was driving the derrick, which came in contact with the live wire. He was killed instantly by the electric shock. John, a boy of 10 years, was in the derrick with his wife, which was in touch with the wire that touched the derrick. John, Thomas, who were 21 and 18 years of age, respectively, rushed to attempt to get their dead body off their brother and were also instantly killed.

A son like the thimble announced the tragedy. This is one which runs through Idaho to Malad. The funeral of the boys, whose names are carried beyond recognition was held this afternoon at Gooding and laid to rest in the cemetery where their father who killed in an auto accident last fall, is buried.

John had been married but a short time.

Several Narrow Decides  
Whether the boy who was driving the derrick forgot the electric wire or thought he could drive under it, or began to cough. These have been several narrow escapes from death from effects of get derrick under live wires.

Near Wendell a couple of days ago a derrick arm caught and entangled, knowing the house, and several times that injuring no body. It knocked the line out of position for some hours.

Coupled in chains by Francis the Great as punishment for making love to the king's sister, the Princess Amelia, Trost inscribed the hundred black pages of his Bible with love sonnets in honor of the prince, every word being written in his own blood.

Plant Travels an Inch a Year.  
One of the most extraordinary plants known is the "traveling plant," which has a root forced of knots by which it annually advances about an inch from the place where it was first rooted.

Fatehodes Blackheads House.  
In Tarkenton, who is the author of notorious blackheads, they attacked the whole front of his house

# PRaise GIVEN URUGUAY FOR ITS COURTESY

Representative of Armour Who Visits Twin Falls Relatives Says Country Is Progressive, Likes League of Nations and Loves America.

London Andrew Shields, who is employed by Armour and company in Montevideo, Uruguay, today applied for passports to leave on his return trip on August 23. His wife also applied to go at a later date. They are the guests of Mr. and Mrs. O. M. Stephens, who are parents of Mrs. Shields. They tell an interesting story of their country and its growth, political condition, membership in the League of Nations and love for America.

Country is Growing.  
Uruguay is a growing country and very pleasant place to live, according to Mr. Shields. The people are

# UNiformly courteous. In manner. The language is Spanish but there is a strong literature of other peoples, and the completion of the inhabitants to reach the same as that of the people of the United States.

In League of Nations.  
Uruguay is in the League of Nations and the people there are much pleased with its operation. They like the people of the United States better than those of any other, even those of Spanish origin. However, it is not a good place for a new man to go without business connection, since the Spaniard and his descendants are suspicious of strangers and will not take them fully into confidence until they have proven themselves to be all right. However, there is a considerable period of probation.

Are Law Abiding.  
The country is governed much like our own. They have free streets, free

# elections, secret ballot and religious liberty, as we have. Mr. Shields stated that their constitution is based upon justice and the tariff is high, but on autos and their country is a considerable one.

The climate is always mild. There is 30 per cent in this case as we have in Idaho. Uruguay, which is 100 miles from the ocean, has no auto factories as large as Idaho. The capital, in the country.
