

NEW GERMAN CHANCELLOR TAKES REINS

Chancellor Stresemann Feels Able to Cope With Situation Which Is Frightful With Chaos; Mob Violence Prevalent.

BERLIN, Aug. 14.—Chancellor Stresemann was subjected to a new coalition cabinet in the Reichstag today with a program of "food and money for all."

In the Reichstrasse, demonstrators attacked police who routed the mob and one man had fired at a policeman.

Minor riots were reported in the suburbs of Schöneberg and Charlottenburg in which people were wounded but none were killed.

Chancellor Stresemann faced the situation with apparent calm. He stated that he was calling on the workers in the interest of themselves and the fatherland to refrain from wounding the Reichstag.

FAVORITES COME THROUGH SAFELY IN TENNIS MEET

FOREST HILLS, N. Y., Aug. 14.—British and American stars who were busy in the Wimbledon cup in their round matches easily here today in the national women's tennis championships.

Helen Wills, the young California girl, had an easy time winning from Miss Martina Jolly in the first round. She won in straight sets.

England and France Drift Farther Apart

LONDON, Aug. 14.—The extreme gravity of the Anglo-French situation, which has been growing more intense and was brought to head by the British reparations note, is emphasized by a growing collection of public opinion in each country as well as by the record low level of the franc.

Here in England, popular home support for the British government is comparable in one way to that of August, 1914, when the great war was getting under way.

The British government frankly does not expect the current of the latest communication to the allies, to affect the slightest change in its position.

MARTIAL LAW AT SOUTHERN CITY

TULSA, Okla., Aug. 14.—Tulsa, capital of the southwest, was placed under martial law at six a. m. today.

Two companies of crack national guards troops were ordered to report to military law under orders of Tulsa, Okla., today.

At five time five men, and one woman, were taken into custody for the operation of civil procedure due to failure of local authorities to prosecute the bandits who whipped many victims.

Three hundred militiamen from Oklahoma, Tulsa, and surrounding counties were ordered indoors between 11 p. m. and 6 a. m.

SHEDS LIGHT ON BAFFLING TAYLOR CASE

LOS ANGELES, Cal., Aug. 14.—The tangled love affair in the life of Mrs. Beaumont Taylor, murdered movie director and man of mystery, unraveled a golden thread today.

Mary Miles Minter admitted today that she was engaged to the murdered film director, when he was shot in the Los Angeles shooting.

Mary was forced to keep her marriage a deep secret by her mother, when she is now preparing to sue for an accounting of her fortune earned when the better life she was led into a life of luxury.

Mr. Taylor was not old, and he was wonderful—everyone who knew him was charmed.

FIRMS CLASH OVER LOWER PRICED GAS

Chicago in Threes of Bitter War Over Gasoline Prices; Standard Cuts 6 Cents Per Gallon; Independents in Race.

CHICAGO, Aug. 14.—A gasoline war that will lower retail prices here by 3 to 4 cents a gallon, possibly to 15 or 17 cents a gallon proved imminent here today.

The Standard Oil company and independent oil companies and independent dealers were forecast to cut prices to 15 cents a gallon in the Standard Oil company of Indiana putting prices as low as 15 1/2 cents a gallon.

The price war was attributed to the Standard Oil company's demand for a cut, the 20 cents then charged in South Dakota, he ordered the Mitchell oil field, producing about 300,000 barrels of oil a day, to be sold to the public at 16 cents.

DODGE BROTHERS PLAN A LARGER PRODUCTION

An immense new assembly building, duplicating the present structure in size, is announced by Dodge Brothers as the principal unit of the 1923 expansion program. The building is 34 stories high, 100 feet long and 75 feet wide, with more than one-half million square feet of floor space. Construction work which started some months ago is now nearly completed. The new assembly building, paralleling the old structure, is just across the street which formerly marked the boundary line of the great Dodge Brothers factory.

Factory executives would not comment on the number of additional years contemplated in this extensive addition, but it is believed that the ultimate aim is a capacity of 100,000 cars a day. In the face of the greatly increased conditions which prevailed throughout the entire year last past it is not surprising to assume that this number mentioned could be exceeded easily by Dodge Brothers dealers.

Other units of the expansion program are the new executive building, a million-dollar addition to the power house, and a mammoth plant which started some months ago. The latter is being occupied for some time. It is estimated that the total investment required by these additions, in buildings alone, will reach five million dollars.

The following registered warrants of the City of Twin Falls, Idaho are held for payment this date and will be held on presentation at the office of General Fund, No. 12360-12751, including: Waters works fund 2952-2476, interest on these warrants ceased August 21th, 1922. Elliott Dexter, screen favorite, appears opposite Clara Kimball Young in "The Hands of Nara," by Richard Washburn Child, which is being presented at the Idaho theatre. Mr. Dexter, who has a large screen following, has never had a more appealing characterization than that of Dr. Endre Clavdiaz, whom he portrays in this new photoplay. Mr. Dexter has had a number of screen successes since he left the stage opposite Mary Pickford, Marie Dressler and Valdez to fit your car. See Stopken Cyl. Grind Co. questions. He has played leading roles opposite Mary Pickford, Marie Dressler, Clara Kimball Young and Lila Lee, among others.

Important To All Mothers

Your children can always be charmingly dressed if you will search their wardrobe with Linit—the remarkable starch discovery. Even ordinary cotton goods, napkins, table-linens, curtains, etc., have a cool, soft, pliable finish, like expensive linen, when starched with Linit.

A New Starch Discovery Linit is a scientific starch discovery—distinctly different from ordinary starches. After Linit is thoroughly dissolved, according to directions and is ready for use, you will notice it is THIN and FERLENSING LIKE WATER—with a "milky" appearance. Be sure to use Linit according to directions, and unlike other starches, you will not find Linit stiff or jelly-like. This is why Linit goes much further than the old-fashioned kind of starches, and is much easier to iron with. Linit penetrates the fabric, helps prevent wear, and prolongs the life of the material.

You will be interested to know that Linit was originally developed for the use of the great Fabric Makers to give that smartly fashionable finish now so much in vogue. With Linit you can have your shirt waists look like new. The children can have their garments finished in the daintiest style, equal to the most beautiful French finish.

Linit is sold by all grocers, 10c —Perfection in starching is guaranteed or your money refunded. Linit is made by the Corn Products Refining Company—makers of the famous Argo Starch—Karo Syrup and Mazola Salad and Cooking Oil. JOHNSON-LIEBER CO. Boise, Idaho

The Wall Street Journal, perhaps with a view of securing favors from the new administration, endorses President Coolidge to succeed himself and attacks President Wilson. President Coolidge has long enough to carry without this added burden and has done nothing, either as governor, vice president or president, to warrant this affliction of the Journal's endorsement, which like troubles of Job may have been added to try him.

HERO DEAD.

Two unknown soldiers of the American Revolution, found at Tuckahoe, N. Y., in a shallow grave where they were placed following the fighting around Tuckahoe Hill, will be given a military funeral nearly a century and a half after they were killed.

The reinforcement of the "Unknown Soldiers" will take place at a fitting time in American history, when respect for law and American institutions is at a low ebb. The burial, attended by full military honors, will bring to many a reawakening of the realization of the sacrifices made a century ago that the nation might live.

YOUR CO-OP

You remember the good old days when you could buy a fine meal for a quarter. The army is doing better than that. It will feed each of the 30,000 young men who attend the citizens' military training camps this summer at a cost of 70 cents a day for three meals.

The quartermaster general says he could give them the regular army chuk at 45 cents a day apiece. But an additional 25 cents has been provided to furnish fancy cuts, such as the 30,000 may happen to be accustomed to in civilian life.

Each man daily will get, in addition to the regulation menu, a part of fresh milk or buttermilk, a salad for dinner, and cereal and fresh fruit for breakfast. These four items alone would cost 70 cents or more in the average restaurant.

To the person who eats in restaurants or does the market-basket shopping for a family, the low cost of feeding the army is the eighth wonder of the world.

And yet it is a marvel only by contrast.

In the first place, the army gets the advantage of co-operative buying—big orders at wholesale prices. The middlemen are, to considerable extent, eliminated.

Then, comparing with restaurant prices and management: The restaurant is high overhead while the army in most cases avoids—high rent, insurance, semi-compulsory charitable donations, kitchen waste which in the army would be punished, higher-priced "help," cost of soliciting business, more fragile equipment, and probably the expenses of orchestra or other amusements.

The restaurant man will point out that one of the most vital of these items is that the army's "70 cents a day-per man" doesn't include any labor charges.

The solution of certain phases of the high cost of living may be in army organization. For instance, if 25 or 50 families in a neighborhood standardized their meals and clubbed together to buy their supplies co-operatively, they could get wholesale prices, or nearly so.

Some visionaries have even predicted a day when cooking will be a community job. Meat would be prepared at a certain number of branch stations and carried home by the housewives or delivered to the homes.

Enough variety, of course, to permit a wide selection. The bakery, expanded and socialized.

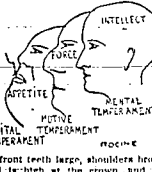

These municipal kitchens may be visionary. But the idea of co-operative buying is practicable. When such co-operation fails, it is usually due to defective organization and peasant politics.

Excuse Us Please!

We would like to ask you a few personal questions—their import is:

- Do Your Glasses Fit You Correctly? Look into the mirror a moment and see those glasses you have on. Do they suit you as well as they did when you first had them? Are they as becoming to your features as modern Optometry can make them?

We Are Interested for Several Reasons:

- 1. Glasses that do not fit correctly are injurious to your eyes and are worse than no glasses at all.
- 2. When you wear glasses that are old-fashioned or unbecoming they make you look old and you do not like to wear them. That is the reason a great many people do not get the benefit from their glasses they should.
- 3. When glasses have been worn for any length of time and are not changed the eyes become strained and give a lot of trouble that people try to correct by other means than the proper glasses, because they say, "It is not my eyes—I have glasses."

Everyone Who Wears Glasses Should Have Them Changed

at least every other year, and have an examination every year. They will be the healthier and happier for doing so. Come in for an examination and you can do so with perfect confidence that we will not recommend a change unless it is absolutely necessary.
