

SUN'S ECLIPSE OCCURS NEXT MIDDAY

Great Growth Through San Diego to Watch the Total Eclipse of Sun by Moon on Monday; People Are Not Unprepared As in Days of Hi and Ho; May Be Visible in Idaho But Not Very Distinct; Starts in Japan.

SAN DIEGO, Cal., Sept. 8.—October 23, 1923, according to ancient Chinese chronicles, terror reigned through the domain of Emperor T'ien-tai.

Present day astronomers have been told that the eclipse of the sun will be no more of beholding any lurid colors than the whole world knows it.

Monday's show is the first the Sun and Moon have shared in nearly accessible form of the world in many years.

Among them are: How does the sun contrive to give off such enormous quantities of heat without observable shrinkage in size?

More data bearing on proof of the accuracy or inaccuracy of the Helmholtz theory are being gathered by the Crocker expedition to Australia a year ago which will be secured.

It will touch a few islands off the coast of Southern California, strike the mainland at San Diego, sweeping over just a corner of the United States and then travel across Mexico.

VOLCANO OSHIMA SPOUTED LAVA PREVIOUS TO JAPAN'S GREAT EARTHQUAKE-FIRE

Tidal Waves Were Caused by Sinking of Volcano Oshima After Eruption and These Waves Swept Thousands Into Sea. Accurate Returns As to Number Killed Still Unknown. Volcano Burst Forth Just Prior to Earthquake Is Belief Now.

TOKYO, Sept. 8.—(By wireless from Iwak.) The earthquake of Saturday which shook from their foundations the cities of Tokyo and Yokohama and a score of smaller cities with appalling loss of life and destruction of property was the dying convulsion of the once great volcano, Oshima, lying off the coast near Yokohama.

From the spot where the volcanic side had stood, a great tidal wave rushed up on the Japanese coast, engulfing part of helpless Yokohama.

Southward from Tokyo to Yokohama, the great industrial region was almost completely devastated. Yokohama was nearly wiped out.

Broken communications have made it impossible to determine as yet the full extent of the damage in these regions.

Landslides poured in from bluffs and hills as the earth crumbled, when by waves of the tremors.

Lighter earth shacks continued for four days after the earthquake. Communications almost throughout the whole of Japan were disrupted.

NEWS OF THE SPORT WORLD

GRAHAM WINS IDAHO TENNIS CHAMPIONSHIP

Twin Falls Man Won the Championship in Singles Yesterday Afternoon by Winning Two Straight Sets from Eaton. Score Was 6-4 and 8-6. Henry Graham Will Bring Trophy of Southern Idaho Tennis Asso. to Twin Falls for First Time in 6 Years.

BOISE, Idaho, Sept. 8.—Winning two straight sets in the final match of the men's singles of the Southern Idaho open championship tennis tournament, H. H. Graham of Twin Falls, Idaho, defeated A. H. Eaton of Boise, 6-4, 8-6.

Keeping Eaton on the back of the court with long shots accurately placed, Graham won for Twin Falls for the first time in six years, the cup of the Southern Idaho Tennis Association. Returning shots that were seemingly impossible to reach, he time and again brought applause from the gallery. Time after time his opponent was baffled by the shots that seemingly were destined to go out of bounds, but would strike the courts within the line out of Eaton's reach.

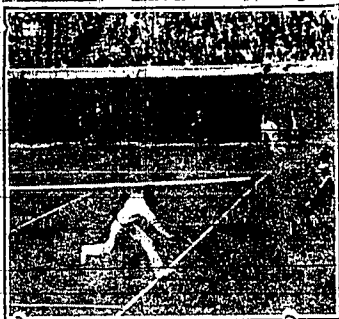

Eaton, however, proved at all times to be a worthy opponent of the champion and kept Graham continually at his base. Employing a shot, choppy stroke, he placed his shots where a lesser player could not have reached them. The breaks of the game seemed, to a great extent, to be with the winner. Numerous times Eaton's shots went out of bounds by inches, and only this prevented the score from being much closer.

SHOSHONE BALL TEAM COMING

The Shoshone baseball team won from the first Shoshone ball team recently and now they are coming to Twin Falls on Sunday to play the local balling aggregation from the south side. They will be re-enforced by a team from Boise. This team which should give them the best lineup in Idaho.

Manager Brown of the Twin Falls nine has arranged for "Moose" Gartry to pitch for the locals and this alone is assurance that the visitors will have to go some if they find the big high school fellow's curveball was always true. The position of close of the high school season and the loss of the top form Sunday afternoon are the reasons for the team coming for the home team.

HOW TO DISTINGUISH THE GENUINE FATHER

The face and head of a man tell the story of his children; I will care for them and my wife or they reveal the contrary, louder than words.

When the faculty of parental love is combined with the developed faculty of conscientiousness in the top head, that man will go back on his children or wife.

Amittiveness, treated further down on the head, nearer the neck than parental love, is a different quality altogether, peering out and peering close. The skin is softened. A man with such characteristics has a tendency to throw the middle part of the body forward when laughing, and

though his laugh is coarse—he often has a low, persuasive, gentle voice. He does not look at the little ears or the old ones on the street car, but the young ones of the opposite sex. While amittiveness has its function in the body, properly quelling and creating red blood corpuscles, overdevelopment in this area without a corresponding development of high ideals and conscientiousness in the upper head means promiscuous love, extreme selfishness and unreliability as a husband or father.

DODGE BROTHERS TOURING CAR

The comfort and beauty of this new touring car are instantly apparent. Long underslung springs, deeper seats and greater body length have resulted in an unusual degree of riding ease.

The body is exceptionally trim and graceful. Slung low to the road, with long, straight hood-and-cowl effect and tasteful appointments, the car reveals new value and sound workmanship in every detail.

The engine—which remains essentially the same—needs no eulogy. It has proved its power and economy to nearly a million owners.

The price of the Touring Car is \$1045 delivered.
