Enormous Campaign Fund Will Be Raised; Dramatic Politics in Reality of Election Is Confidently Expected by Party Heads.

WASHINGTON, D. C., Sept. 29.—Organized labor, at its convention in Portland, Ore., last week, will be asked to provide the biggest campaign fund in the history of political activity in the 1924 campaign.

Labor leaders sense a great opportunity in the present situation to give themselves a "labor bloc" in congress that will function as effectively as the bloc has on occasion. Labor's political opportunity, they feel, lies in the present depression and the poverty of agriculture.

Property in industry means a demand for workers and that means the workers feel more independent than in slack times. Organized labor sought to establish its property to consolidate its position by securing election to congress of their friends and allies.

Labor's convention will be held in New York. The republicans are quietly raising large sums for campaign purposes. Labor leaders have not given up hope of an effort that will win in the election.

RACING FANS TURN OUT AT DOCK AS PAPHOS MAKES APPEARANCE

NEW YORK, Sept. 29.—Papyrus of England landed from the Aquitania at the Grand pier at the foot of Fourteenth street at 9 o'clock today.

Excitement he strode down an 80-foot especially constructed gang plank, covered and carpeted. Crowds cheered, traffic policemen were on hand.

It looked like the arrival of a foreign prince or prize-fighter. As the English flyer winner sat on the pier, he picked up his hat and the crowd, then became indignant. He deigned and pranced for a moment it appeared as though

he might do a high dive into the North river. He refused to pose for photographers and refused to enter a palatial two-story motor driven limousine.

Then the hour and a half pilgrimage to Belmont Park began, headed by a squadron of motorcycle policemen to clear the way.

FLOOD WATERS ARE RECEDING

Search for Missing Under Way While Sorrowful Relatives Wait

CARPER, Wyo., Sept. 29.—Flood waters of Cole Creek, with its unknown number of dead, from Thursday night's plugging of Burlington train No. 20, broke rapidly to recede at 3:30 this morning.

Breaking crews, after an all night vigil about the plugging creek, got equipment ready and began search for bodies about 4:30 a. m. Water was receding almost as fast as the had risen, although a steady drizzle of rain and snow was still coming down.

Clouds began to break at 8 a. m. in Carper and weather forecast for this district was for clearing skies. Figures on the number of dead are as greatly at variance as when the first wild tale of disaster were carried to Carper. They range from 20 reported by "army" companies to 70 and 80 declared by some passengers to have lost their lives.

It is probable a reasonable estimate may be made by noon today of those who perished. It is not believed likely the complete death list will run above 30, and the estimate of from 20 to 25 carried yesterday may prove correct.

One he buried deeper than ever in the quicksand bed of the creek this morning.

PRASE PINCHOT FOR HIS WORK

Credit for Settlement of Strike Is Given to Governor.

WASHINGTON, D. C., Sept. 29.—New Englanders are praising Governor Pinchot that it is "not" understood that they owe the settlement of the coal strike and whatever benefits in the way of planting and other public works, if any, may follow.

These stories of Governor Pinchot's prompt action to increase his political standing in Rhode Island, Connecticut and other New England states that, unlike Massachusetts, have not seen a strong pro and a recent interest in having one of their own in the White House.

New England has an acute recollection of the shortage and profiteering which occurred in 1917-18, when the people of that section last winter, and there was a general fear that these experiences would be repeated during the coming coal season. It was for that reason that the republican congressmen of that section sought to persuade President Coolidge to take charge of the adjustment of the coal strike and adopt drastic measures to prevent a recurrence of last winter's suffering.

BOURBONS TO RENEW FIGHT FOR CUT IN THE SUGAR TARIFF

WASHINGTON, D. C., Sept. 29.—"Frustrated" by "restriction" of the tariff on sugar, the republicans in congress are planning to present a bill to cut the tariff on sugar to 10 cents a pound to the consumer, which will be brought to bear on the new congress as soon as it convenes in December, according to information from trust-worthy sources.

It is understood that the battle for lowering of the existing duties on sugar will be renewed with a vigor. It will begin with a renewal of the debate on the tariff on sugar in the republican summer. A resolution introduced in the senate, which introduced in the closing days of the last congress, but was defeated by the republicans, is being revived by Senator Smoot, who owns shares in the Utah-Hindu company, and Senator Carlisle, who has been charged with the duty of introducing the resolution by the republican party.

What you want is see sweet, clinging vine woman who tells her secrets all to the good-kind, understanding, brave. Like my favorite song, may to be 'Every night I cry myself to sleep over you, weep over you.' Ask his opinion, fella, look up to him. Then he will love you and cling to you all of your life."

Incidentally it may be added that Madame Mooers' advice is doubly valuable since her speech already has won her a wealthy and devoted American husband.

"It was almost criminal—"

The amount of good Conoco gasoline I was wasting until I discovered not long ago that the carburetor needed was more air!

Now I've got a lean, economical mixture and this little motor is spinning along in great shape. Not a bit of sacrifice on pep or power, either—while the merry mileage figures I'm reading on the speedometer are a great comfort to the pocketbook.

The big point about this carburetor adjustment is that I don't have to tinker with it every time I start off on a long trip. In practically every town I've made this season I've seen the CONOCO sign—where I was sure of getting the same dependable gas that I started out with.

PROTEST ON CASAL DIST. FLEED TODAY

Residents of Allendale Oppose Movement Started by Owners of Other Parts of the Salmon Tract; Claim That They Constitute Separate Community and Have Not Been Consulted.

Protest against the creation of an irrigation district on the Salmon tract was filed at the hearing of the county commissioners this morning by Nelson Hayward, J. L. Maxwell, T. Douglas, J. P. Wolfe and William Strauss, who claimed that by reason of the fact that the Allendale district in which they live is differently situated, having different tracts, requiring irrigation at somewhat different times and creating different problems from the rest, it constitutes a community within the bounds of the law and should not be included in the rest.

Reasons for Protest The objectors asserted that the petition to create the Salmon River and Twin Falls county districts, Idaho, has been carried out and changed without the consent of the owners of the lands who are to be included in the district.

Understand are informed and believe and therefore allege, that the petition fails to contain fully or a majority of the names of the owners of the lands to be included in the district.
