NEWS OF THE SPORT WORLD

JUNIOR HIGH BEATS JEROME

Twin Falls Junior high school football team won its game from the Jerome high school team Monday afternoon at Lincoln field 28 to 6.

This is the first game the Juniors have played and all covered themselves with glory.

Twin Falls scored a touchdown every two minutes play when Kelley, Blue and White halfback, ran 45 yards for a marker. Frasselle converted.

Jerome made their counter in the third quarter when Stimpson, capt. of the team, took the ball on the 20-yard line, and James ran the length of the field for a touchdown. It was the longest run of the day, and incidentally the only time during the contest that the Twin Falls line was in danger of being broken through for repeated gains.

Twin Falls had an easy time tearing through the black and gold line-men, and being ploughed through for repeated gains.

On the other hand Jerome found it formidable resistance trying to penetrate the Twin Falls line. Owens, Anderson and Smith alone valient work.

Twin Falls scored another marker in the first quarter when plunked took the ball on the 10-yard line, from where Frasselle circled left for the next counter, although he failed to convert.

The local scored a touchdown after two plays were made in the second quarter, and again Frasselle failed to convert.

Frasselle made the second touchdown of the second half when he went through tackle from the 15-yard line.

The half ended with the ball in Twin Falls possession on Jerome's 10-yard line.

The first half of the game showed the Twin Falls team superior in every department of the game, with a much heavier line, and with a keener knowledge of the game.

Jerome seemed to be nervous, fumbling many times for severe losses.

The score at the end of the first half stood Twin Falls 26, Jerome 6.

Twin Falls failed to score in the third quarter, the Jerome line played a noble better brand of football.

Two touchdowns were added to the Twin Falls score in the last session, Kelley making a 30-yard run for a marker, while Berg made the last one on an end run of 20 yards.

In the period Berg had the ball over but fumbled, with a Jerome led touchdown. Jerome was in danger on the next play, but on the second play Kelly made his long run and all was well.

For Jerome, the work of Jane, McCorkle and Ostler featured, while the most prominent feature here on the Twin Falls team were Frasselle, Berg, Smith, Anderson and Owens.

The lineup: TWIN FALLS—Position: JEROME: Nye Left End, Lewis Left Tackle, Le May Left Guard, Foltman Center, Sullivan Right Guard, Jones Right Tackle, Wallick Right Half, Yorgansen Right End, McCorkle Right Half, Ostler Quarterback, Piper Fullback, Frasselle Fullback, Adams Quarterback, Bennett Linebacker, Stimpson Linebacker, Headlinesman—Orom.

Twin Falls scoring: Touchdowns: Kelly 2, Frasselle 2, Berg 2. Goal converted: Frasselle 2. Jerome scoring: Touchdowns: Kelley 1, Berg 1.

COACH ANDERSON'S GAME: Coach Anderson of the Junior team says a team that will rank with some of the high schools in this section.

In Frasselle, he has one of the best all-around players in the state. Hitting the line with the style of "Swede" Jenkins, Frasselle can always be depended upon to make the necessary yardage.

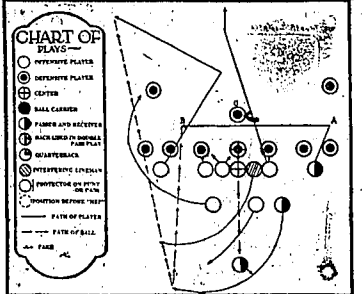

Frasselle is ready for faster football, says the coach, but he wants a couple of more players at that he could help Coach Evans on the first year.

Howard Berg is another lad, who looked mighty sweet. He hit the line hard and uses good technique in the picking of plays. Howard is a

Platter Play Is Gray With Age, Yet Much Used by Many Teams

BY ROBERT ZUPPKE. Football Coach, University of Illinois, Author of "Football Technique and Tactics". The usual error makes believe he is about to throw, holding the ball up and back of him somewhat as a waiter or waiter and snuffer back, running around to the rear of him, snatching the ball for the purpose of catching the driver in the net and tactics of the defense or actually throwing it to a designated receiver.

The direction of the run from A to B is determined by the position of defensive back C. I can well imagine that some of my readers have smiled broadly when they have seen the small-odds platter play included in this series. Just the same, if it is executed correctly and at the appropriate moment, it might break up many a game. I have seen it work here with the best of them.

After the false pass we will consider play No. 5, a forward pass after a triple pass.

Smith is by far the best bet Coach Anderson has on the line.

A word must be said about Anderson's twin falls team. "This line breaker" has the record of getting through the line on every play, and he rarely misses a man. Coach Evans told me this last night.

Owens at right tackle is another of our players who knows how to get through the line. Owens played a dandy game yesterday.

Coach Anderson has two middeals in Putter and O'Neal, but both are first class lincks.

O'Neal, although only as big as a pepper, went into the second quarter at halfback and gave a fine account of himself, carrying the ball nice for nice gains.

Putter, a brother of Bob, went in during the last game of the game, although much smaller than even O'Neal, hit the line as though he meant business. The man of Putter did not die out at the Twin Falls high school for a good many years to come.

Captain Stimpson of the local team played a nice game but had a tendency to fumble. At that he did his share toward the afternoon's entertainment.

Jerome seemed to be afraid to try and make yardage through the Twin Falls line, as they kicked the first three times they got the ball, all three yards coming on the first down.

A return game will be played in the near future at Jerome.

FLOUR WAS \$20 A BARREL. DENVER, Colo., Oct. 22.—Flour nine years ago today flour was selling for \$20 a barrel—here nearly two times as high as it is today. GRIDIRON GOSSIP

STATE COLLEGE—Mike Dahn, Penn State star quarterback, lost a badly injured hip and may not be able to get into the West Virginia game Saturday in New York. Johnny Patton is being used in his place.

PHILADELPHIA—Getting away from his characteristic mood of gloom, Gil Potts told his Cornell team he was "well pleased" over the defeat of Colgate. The squad will start work today for the next big game with Dartmouth.

ANNAPOLIS—Liney, Callow, McKee and Philip will be in the Navy backfield in the Princeton game next Saturday.

CAMBRIDGE—Intensive work to get Harvard ready for the Dartmouth game has been started by the coaching staff. Kerman was not injured badly in the Holy Cross game and will be able to start at center.

NEW HAVEN—Getting ready for Brown, Coach Tad Jones has made several changes in the Yale varsity team. Hill replaced Miller at quarterback and Hiltman was sent back to tackle. Stevens was moved up to O'Leary's place in the backfield.

Geologist Returns from Fruitful Trip to Mongolian Wilds

YANCOVICH, R. C., Oct. 22.—With a tale of success in the unearthing of prehistoric reptiles and mammals in the basins of Mongolia, Dr. Frederick H. Mottis of New York City, geologist of the third Alaska expedition of the American Museum of Natural History, has reached here.

The expedition was wonderfully successful from a paleontological point, as well as from others, said Mottis. "Discovery of remains from the age of reptiles included sixty skulls of caracatops, which I believe is the largest find in the world's history."

"The Covered Wagon" Coming

"The Covered Wagon" which comes to the LaSalle theatre for a three-day run starting next Monday, was adapted from the late Emerson Hough's novel of the same name by Jack Cunningham, a well known newspaper man. The screen version follows the novel so closely that it is a detail; which, in itself, is unusual in motion pictures.

Throughout the picture, actors who have acted his specialties in the streets of New York, Boston and Los Angeles, are mentioned in declaring that the atmosphere of the book has been transferred to the screen by a master hand, and that the picture is unlike anything ever produced for the silver sheet. It depicts with historical accuracy the brave hearted men and women who first settled the Pacific Northwest, and the director has succeeded in making any fiction. To adequately describe the thrilling incidents and remarkable photography is impossible. Everything is on a huge scale; there are more than 500 riders on wagon in one striking as many as 200 are seen at one time fording a mile-wide river; thousands of Indians attack the wagon train; three are deaths, births, marriages and divorces. From the small son of Jesse Wingate, leader of the caravan of white-topped wagons, to the villainous chief and his true hearted rival, there is not a character who does not lend realism and fascination to the story.

The love story of Nelly M'Intyre and Will Hanton which runs through the picture, is beautiful, but according to the very end. The humor which appears in happy little anecdotes now and then, is supplied only by the touches of pathos which makes the picture an tremendously impressive film—has a happy ending.

PIGSKIN DOPE BY GOSHI.

Two full teams showed up for practice this morning and Coach Evans had them working every minute.

Riches Anderson of Hexterville will be here Thursday, and this morning was given the chance to give the boys a real drilling, as he rarely works the line the day before a game.

Every member of the team was present with the exception of "Doc" Jenkins, who is out for the week with a bad ankle.

Speaking of Jenkins, although still using crutches, the swelling in his foot has subsided considerably—and Dr. Passer was of the opinion that the injured foot would be of normal size by Friday.

Joe Christoffersen is another member of the team who is heavily under the weather, his knee bothering him a trifle.

Joe was out in mechanics but was unable to take his place on the team.

Evans used "Spinks" Hodgin at left tackle, changing off with Holman.

The boys took a little longer than usual to get their stride, but when the snow began to fall, they HAD to "mure" (reap) from training and their team showed the elements for acting in the role of an alarm clock.

From the time the boys saw the white flakes they snapped up, going through their signals with speed and pep.

The fact that more than 100,000 perch will perch in Murchaugh lake this evening or tomorrow is something to make the fisherman look forward to long life with something more than contented resignation.

The coming of Skovgaard, the famous Danish musician, October 29, is an event of importance, and a credit to this city, since it shows that Twin Falls appreciates good talent. And the object—the defraying of a scholarship cost by the Twentieth Century club, is most worthy.

An ounce of prevention is proverbially worth a pound of cure. The determination of the Twin Falls Red Cross society to use its share of the sale of seals for the nutrition of the children is worthy of commendation, and should secure a greater sale of the seals than has ever before been enjoyed by the organization here. It is unfortunate that Twin Falls county last year was nearly at the bottom of the list as for its sales were concerned.

We understand that a boy recently refused a job which paid only three dollars per week. Such a spirit is contrary to the ethics of good citizenship and unless we can overcome such an idea with the rising generation we shall need something more than we have at the present time to save the nation. This thing did not happen way off in New York city or in Paris but right here in Twin Falls.

How much will you invest for the improvement of the coming generation? This question will come up to the business and professional men of Twin Falls in the near future and each of us will be asked to answer with our checks. There are many calls being made day after day in this city, but few have such a worthy purpose as the Boy Scout movement. Here is an investment that pays real dividends which are worth while. Money invested in the Boy Scout movement is an economic saving because it materially reduces the cost of juvenile work and thus makes a real saving to the community.

## BABY PEGGY GETS HIGH RATING IN PSYCHOLOGY TEST

Baby Peggy Jean Montgomery received the second highest rating of her age in a psychology test conducted by the University of Southern California in Los Angeles.

This places her in the category of infant prodigies, which is a formidable title for a chubby little girl to carry around. But it does not weigh heavily on this sprightly infant. Baby Peggy is a child gifted with intelligence beyond her years, yet, but lacking in none of the graces of childhood. Hers is a well-rounded character, not abnormally developed in one line at the expense of all others. Such children as these—mathematical marvels and chess wizards—are not prodigies; they are freaks, and seldom reach maturity.

Negotiations for Baby Peggy's first story for Principal Pictures corporation are being conducted with the publisher, and the title will be announced immediately upon their settlement, Edward F. Cline will direct the little star's first Principal picture.

## THE LEGION AND THE KLAN

The American Legion, after a somewhat stormy but interesting wrangle over the attitude to be taken respecting the so-called invisible empire of the Knights of the Ku Klux Klan, has let it be known that while the Legion objects to the hooded Klan it will not denounce it through a resolution which calls a spade a spade.

The outcome of the oratorical battle in the informal convention in San Francisco is promising. When representatives of the opposition to new and all organizations which foster racial and religious discords. The formal declaration does not mention the Klan; the convention set its face against any specific denunciation, as it voted down attempts to have the Legion go on record as condemning the work of the hooded organization.

Since unquestionably the resolution as it was finally shipped into shape for adoption had the Ku Klux Klan in mind, the mere omission of specific mention of the invisible empire amounts to little or nothing. It was around the Klan that the convention battle was waged, and that fact cannot be disguised by generalities. As it was impossible to keep the delegates from discussing what appears to have been regarded as a dangerous topic, it is rather a matter to be regretted that the issue was not faced boldly and disposed of without camouflaging.

# QUESTION AND ANSWER BOX

(Conducted by Auntie Sue.)

Dear Auntie Sue: This is my first question which I hope you will answer. I would like very much to know the electric iron wringers which are on the Spicard and Doubtless packages of gum are good in any way as any quantity of some thing of that sort. You send me a couple of them you can see. And would you send me a couple of Micky. A—It appears to me, Micky, that you ought to be satisfied with some whole hick's worth of gum for a couple, without wanting to turn it over into square nails. As I don't know gum, and think from asking any of my acquaintances for their cast-off gum wringers I have been helped help yourself, which is after all, perhaps the best way. Some where I believe I have heard that gum wringers has a little value attached to them, and you could save a good many by sending them into the right company, but it takes no small wrappers of gum to supply that for the time you have enough wrappers to get anything, you are too tired, and not to enjoy the premium. Anyway, Micky, suppose you look into the gum wrapper yourself. You sure you will be able to understand them. Sue to you.

Dear Auntie Sue: What is a cigarette and how can one keep their weight down by watching their eating. —Patricia.

A—You must have had your head buried in the sand like an ostrich, and not heard about cigarettes. However, I'm mighty glad to enlighten you.

The unit of food value in nutrition is not a taboulet, but a calorie. Some foods yield more energy than others. A woman

engaged in clerical or other sedentary work, needs 2000 to 2500 calories in 24 hours. A woman who does housework, much walking and standing, needs 2500 to 3000 calories in 24 hours. By finding out how many calories are contained in the food you eat and by exercising to burn them up, you can control your weight. In case you are over-weight, you would not eat less than that amount of calories, but you will need three extra whole hick's worth of gum for a couple, without wanting to turn it over into square nails. As I don't know gum, and think from asking any of my acquaintances for their cast-off gum wringers I have been helped help yourself, which is after all, perhaps the best way. Some where I believe I have heard that gum wringers has a little value attached to them, and you could save a good many by sending them into the right company, but it takes no small wrappers of gum to supply that for the time you have enough wrappers to get anything, you are too tired, and not to enjoy the premium. Anyway, Micky, suppose you look into the gum wrapper yourself. You sure you will be able to understand them. Sue to you.

**SAVED FROM AN OPERATION**  
 Now Recommends Lydia E. Pinkham's Vegetable Compound  
 Washington, D. C.—"Lydia E. Pinkham's Vegetable Compound saved me from an operation which a physician said I would have to have for a very bad case of female trouble. My system was all run down for two years after my little girl was born. Then I read of your wonderful medicine and decided to try it. I had had a foot for the other, and after taking six bottles of the Vegetable Compound I felt like a new woman. I now do all my housework, also washing and ironing, and do not know what trouble I had. My health is fine, and I weigh 140 pounds. When I started taking it I weighed 97 pounds. I fully recommend Lydia E. Pinkham's Vegetable Compound to any one who is suffering from female trouble or is run down. You may use this testimonial for I am only too glad to tell suffering women know what the Vegetable Compound did for me."—Mrs. I. A. HENRY, 1125 1/2 Street S.W., Washington, D.C.

Such letters from women in every section of this country prove beyond question the merit of Lydia E. Pinkham's Vegetable Compound.
