GERMANS TAKE CAUSE TO HEADQUARTERS

FRENCH TURN DEAF EAR TO NEW REQUEST

Poincare Tells Cabinet That France Will Not Consider Overture; Shows No Indication of Weakening in Stand on Reparations.

PARIS, Oct. 25.—France will not accept any latest proposal for a settlement of the reparations problem, Poincare told the cabinet today. There will be no weakening in the French attitude of uncompromising firmness toward the German Reich, Poincare indicated.

Despite the great internal situation in Germany, France will not her program of complete enforcement of the treaty of Versailles. With France in complete control of reparations commission there is no doubt that she will reject the German appeal, declaring Germany's inability to pay and asking appointment of a commission of experts to determine her future capacity.

PARIS, Oct. 25.—Forty persons were killed, including the chief of police in fierce fighting in Creteil between Germans loyal to the French government and separatists, a dispatch from that city said today.

The separatists were in complete control of Creteil today, the dispatch said.

BERLIN, Oct. 25.—The former German crown prince has urgently requested that he be allowed to return to Germany, it was learned today. After a vigorous correspondence between the prince and Chancellor Stresemann, the chancellor laid the matter before one of the cabinet's sitting of the cabinet for a decision. Socialists are considerably embarrassed by the appeal and no answer has been reached yet.

Some members of the cabinet admit, however, that the chief of state has an especially good reason why the prince should not return. The Dutch government has agreed to the prince's request to leave Holland, it was understood, on condition he will not ask to return to his refuge in Westphalia.

STAFFORD OVERDUE. DALLAS, Texas, Oct. 25.—The steamer Peter H. Lacombe, which sailed from this port October 13 for Baltimore with a cargo of sulphur, its four days overdue and no word has been received from her. Officials of the Texas Gulf Sulphur company fear the steamer is disabled and is in the water which swept the Atlantic coast Tuesday night. The ship carried a crew of 25.

FREIGHTER OVERDUE. BALTIMORE, Oct. 25.—The three thousand-ton freighter Peter H. Lacombe which sailed from Dallas, Texas, on October 13 for Baltimore has been three days overdue and no word has been heard from, according to agents here today. She carried a crew of 25 officers and men.

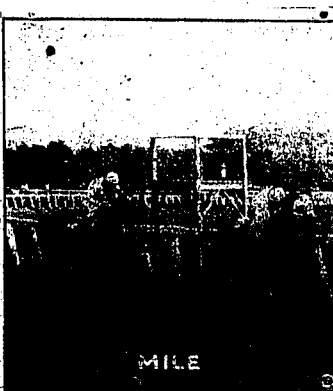

CALLS AUSTRIA A COUNTRY OF SPENDTHRIFTS

WICHITA FALLS, Texas, Oct. 25.—Austria is a nation of spendthrifts and the one characteristic for which Austrians were noted—frugality—has almost entirely disappeared from the war, according to Professor Ernest Katz, who has just returned to this city from three months' visit overseas.

Most everyone has a job. Kate is paid, but instead of saving a part of their earnings, the Austrians are spending it all, apparently in a highly as they make it. The chief occupation is eating and drinking, according to Professor Katz, who said that cafes and drinking places are crowded constantly with persons whose sole aim, apparently, is to spend their entire salary for food or liquor.

As for living conditions and prices, a five room apartment house rents on an average for 1500 crowns, but is very cheap. Professor Katz pointed out, since a glass of beer costs 2700 crowns. Industries of Austria are in a very run-down condition, due to a lack of domestic market and the high duty on exported finished products.

WHEN ZEV DEFEATED PAPHYRUS

At the mile post Zev's advantage had increased and Paphyrus and his rider are being splattered with mud from the heels of the American horse which is drawing away as they enter the strath.

STARVING PRUSSIA APPEALS FOR AID THROUGH MONTHS OF WINTER

BERLIN, Oct. 25.—At least one warm meal a day for every Prussian during the coming winter in the strath announced by the Prussian government.

Pointing out the great need for community co-operation because of "results growing out of the war, the Ruhr occupation and the crash of the mark and high prices," the Prussian ministry, promising food for everybody who needs it, appeals for aid from those who have still to give.

"Only he who breaks bread with his neighbor can stand the winter," the appeal declares, stressing the fact that great sums of money are needed to feed the thousands who will be without work this winter. "Our plans must be put into immediate execution," it continues. "Every man whose health is still warm, whose pantry is still full, who can supply his own daily needs, should be tried to aid those who have no power to work, breaking down through hunger. He must make it possible to shield our children, old folk and prospective mothers from want."

LINDSEY IS NOT CITED FOR COURT CONTEMPT TODAY

DENVER, Oct. 25.—No citation for contempt performed. Lindsey will be made against Judge Lindsey at least for several days. Philip Y. Cline, district attorney, made known this morning.

Following Lindsey's refusal to appear before the grand jury yesterday direct questions visited names of doctors alleged to have performed illegal operations, and women said to have been the patients. Van Cise went into conference with his deputies to determine what action should be taken. It was intimated the judge might be cited for contempt.

Failure to take action against Lindsey today court convened this morning leads to belief the grand jury may have occurred in the judge's appeal for his three months' visit overseas.

Lindsey subsequently called upon the grand jury to return indictments demanding public education in birth control and requirement of education for members of the grand jury. "Killing stones" and support a program to eliminate necessity of abortion, and to abolish illegitimacy of children.

DRY RAIDER HOME IN WRECKED BY DEKAMITE

YOUNGSTOWN, O., Oct. 25.—The house of Dr. B. B. DeKamite, a dry agent of Salem, was destroyed by blast of dynamite early today. Dr. DeKamite's house, and his daughter was badly shaken up but not severely injured.

UNEMPLOYED STORM REICH FOR DEMANDS

Large Army of Citizens Begin March to Gain What They Want; Food Crisis Continues As Alarming As Ever.

BERLIN, Oct. 25.—Fifty thousand unemployed began a march today to demand renewal of the unemployment law which had lapsed on account of money shortages.

The men were in rebellious mood because of lack of pay, and counter-acted authorities to suspend payment of relief, which is their sole means of livelihood.

PARIS, Oct. 25.—(AP) A German committee and nationalists at noon today opened fire on the Prefecture of Police at Westend, in which French soldiers were quartered according to a dispatch to the Temps.

The attack was immediately repulsed. This is the first instance of the Germans having attacked troops of the army of occupation since the present revolt in Germany started.

LONDON, Oct. 25.—Belgian soldiers have intervened in favor of the separatists in fighting for possession of Aix La Chapelle today, a General News dispatch said.

The fighting began when separatists attempted to re-take the positions in the city from which they were driven in a few days fighting by police and units of citizens loyal to the German Reich.

INVESTIGATION OF VETERANS' HERALD MARKING TIME TODAY

WASHINGTON, Oct. 25.—Investigation into alleged "scandalous conditions" in the Veterans' Bureau marking time today with both investigators and defenders sought additional supporting evidence to bring before the senate select committee when it resumes the hearings next Monday.

Former head of the bureau, Col. Charles R. Forbes, broken in health, weakened by illness and worry was kept in hospital today. Medical advisors ordered that on account of the dangerous heart affection from which Forbes is suffering he be protected as much as possible from excitement and exertion. His place of retirement was kept secret even from most of his friends and from associates in the bureau.

MUCH OF THE RECENT POTATO CROP HAS BEEN PLUNDERED BY INDIVIDUALS AND ORGANIZED BANDS, WHO HAVE KEPT INTO THE FIELDS BY THE THOUSANDS, CARRYING AWAY TONS UPON TONS OF POTATOES. THIS HAS DISCOURAGED THE AGRICULTURAL BARONS, WHO THREATEN NOT TO PLANT A NEW CROP.

DENVER UNDER SNOW BLANKET AFTER STORM

DENVER, Colo., Oct. 25.—Thousands of tons of snow have piled up since the storm hit Denver, by a 12-hour snowstorm yesterday and tonight demoralized street railway traffic and extinguished lights over a large portion of the city.

During the late hours of the afternoon cars were derailed and schedules entirely done away with. For hours large blocks of the residential district were without light. Pedestrians could not see their way and crashed limbs, and several suffered minor injuries.

STAY DAY ATTRACTS DALLAS, Texas, Oct. 25.—"Klan day" at the Texas State Fair broke out the largest gathering of Ku Klux Klans and members of the organization, according to statements of high officials of the organization today.

WITH RHINELAND SEPARATED FROM MOTHER COUNTRY, AND FOOD RIOTS, GOVERNMENT HAS QUOTA OF WORRY

While engaged in fighting separatists in Rhineland and communists in Hamburg and Bremen, the German government today was confronted with a new peril—food riots in Berlin.

Food shops were plundered by mobs following an announcement that the price of bread had been increased. German ministers, receiving dispatches telling of disorders and rebellion in distant cities, heard almost beneath their windows the cries of hungry crowds rioting in the streets of the capital.

To add to the troubles of the central government the Palatinat, a former Bavarian province south of the new "Rhineland republic" declared its autonomy. It was not clear, however, whether it intended to secede from Germany.

Meanwhile the "Rhineland republic" rebels were still struggling to establish a separate state and make good their secession from Germany. A report that France had formally recognized the rebel government was flatly denied in Paris. In Aix La Chapelle, the original capital of the new state, infuriated loyal Germans lynched a number of rebels. Scores of persons were wounded in street fighting between loyalists and separatists.

STEEL MAGNATE LAUDS COOLIDGE

Judge Gary Endorses the Record of President in Address.

NEW YORK, Oct. 25.—Hearty endorsement of the policies and record of President Calvin Coolidge, president of the American Iron and Steel Institute, in his first address since the new chief executive took office.

The speech made at a meeting of the Iron and Steel Institute at the Hotel Commodore, was full of optimism for the business future.

If the business men will do their part and keep with the president and his assistants in conducting their affairs in conformity with the ideals which we believe actuate the president in the performance of his duties as the chief executive, there is no reason to fear there will be a serious financial or commercial disturbance of depression during the next few months.

There are at all times some hindrance to the natural progress and prosperity in the United States. These are the turbulent conditions in other countries, the unreasonably high and burdensome taxes, national, state and municipal; the high costs of production, in some lines uncomprehending and the high costs of living, brought about largely by those who claim the most.

But there are many reasons for confidence in the economic future of our country, outside of those which are basic and permanent, including our enormous wealth and immense yearly income, which increases as the months go by.

UP ANCHOR I I I

HUGHES PLAN IS DISCUSSED WITH AUTHOR

Lloyd George Talks With Hughes Relative to Saving Europe from Total Ruin; Settlement on Business Basis Advised.

WASHINGTON, Oct. 25.—There is no doubt of the "complete readiness of the American people to support any step their government may take" toward bringing about a European settlement, Lloyd George asserted in his address here today, after a long which he has talked with men of affairs on this nation in opinion.

"The American public mind is ripe for whatever action is deemed wise by our government," he said. "I've no doubt in my mind that the people intend to follow their government in this regard."

Just what steps the United States government should take Lloyd George said he did not wish to say at this time. He obviously wished to have any suggestions that sort for his reference with Secretary of State Hughes.

"There are ways," he said, when asked how the "laid States could save Europe from a total ruin," he said, "but I think I could find a way."

American intervention to help save Europe might bring certain difficulties to this country, Lloyd George admitted.

With nations, as with individuals," he said, "nothing worth while is accomplished without some sacrifice." But American action could not possibly involve this nation in any serious war, he said emphatically. "Who would fight you?" he asked.

Arriving at 3 a. m. Lloyd George said he had not had a good night's sleep. "The war would have been over long ago," he said.

Lloyd George went to his hotel, where W. J. Bryan called on him. They are old friends.

WITH LLOYD GEORGE, WASHINGTON, Oct. 25.—Lloyd George came to the American national capital today to discuss with his author, Secretary of State Hughes, the settlement of the reparations problem upon a business basis.

Arriving at 3 a. m. Lloyd George said he had not had a good night's sleep. "The war would have been over long ago," he said.

Lloyd George went to his hotel, where W. J. Bryan called on him. They are old friends.

TO FACE COURT MARTIAL

WASHINGTON, Oct. 25.—Edward United States naval officer will stand general court martial for the destruction of the battleship USS Arizona, secretary of the Navy today announced today.

Names of the officers involved: Captain E. H. Warner, Captain Morris, Commander E. P. Davis, Commander W. J. C. Davis, Commander T. G. Thompson, Commander J. C. Thompson, Lieutenant Commander J. O. Bessie, Lieutenant Commander H. H. Bessie, Lieutenant Commander J. H. Bessie, Lieutenant J. H. Bessie.

MORE REASONS WHY THE ECONOMY BASEMENT IN TWIN FALLS HAS BEEN HAVING THE CROWDS

HUNDREDS OF PAIRS OF HOSE

METHOD AND SYSTEM TRUE BASIS OF PERSONAL TRUTH

By S. W. STAUBS.

President American Society for Personal Truth

I CAN'T understand why I am always behind in my personal financial affairs. I know that I have a good salary paid to the writer every month. When asked if he kept a few dollars of his salary, he replied that he was too busy to do so. He was then asked to explain the reason why he was always in a quandary about his personal affairs. When he was brought face to face with conditions he began to change his habits and his situation improved in like proportion. There are, no doubt, many such persons in the world who are constantly are running behind and cannot understand why. The very first step must be a daily record of expenditures. We dare say that the majority of those who begin this plan will soon be astonished at the amount of money they waste during the course of a month.

It is not too late. You can't spend your money and have it. If you want to spend constructively and save wisely you must eliminate the little wastes.

Above everything else you must know what you are doing. You cannot really save if you are shifting sands of ignorance or indifference.

It was never like a waste of time and effort to keep a record of every penny you spend. It is the best method of getting on the right track in the management of your personal affairs.

Personal Thrift, like business efficiency, is a matter of method and system. It must be founded on complete knowledge of one's affairs.

From a long experience I should have loved to see a copy of this book in the hands of every man, woman and child. It is a book that will save you money and give you the happy path to financial independence.

CUSTOM COKE MAKING

BERGER

BERGER, Ida.—The loyal neighbors were host to a well appointed entertainment in honor of the teachers of our school, Misses Dale Corbett and Helen Brown, Monday evening. Hallway decorations were artistically arranged in the community room of the schoolhouse.

Ye old time refreshments of home-made doughnuts, cider and popcorn were served. Fortune telling and games were played until a late hour. Most of the families of the district were represented and enjoyed the teachers in their work.

The regular meeting of the Loyal Neighbors was held at the home of Mrs. Max Smith Friday afternoon. Most of the members were present and enjoyed the time socially. Light refreshments were served after the business hour.

R. J. Boyer was a business visitor in Twin Falls Wednesday. The bean hullers are busy again in our community, the recent fall has not damaged the bean materially and the crop will be of a marketable quality. Times that are not falling are starting their houses.

A box supper will be given at the Berger schoolhouse Friday evening, October 26. All are cordially invited.

Miss Francis McGregor visited with home folks over the week end and returned to Twin Falls Sunday evening where she has the position of clerk for the Shantel Coal Company.

Robert Griggs and Web Cox went to Portvello Monday morning where...

Nothing Over 15c

Many remarkable things are heard from time to time as to what dogs will do, but one of the strangest stories that has come to our knowledge is about a tobacco chewing dog, and evidently from the manner in which it is told our reader friend enjoys it exceedingly. The home of this dog is in West Virginia in the town of Clarksburg. His name is Laddie and his owner is James Mack. Mack finds great pleasure in the use of tobacco and naturally being of a kind hearted nature he concluded that his four-legged pal might derive the same benefit from it as he does. Accordingly Laddie received a generous share and at once showed his ability to master the chew. Since then he has formed the habit, and is very proud of it. He will chew any brand that is given to him, but in every instance he seems to prefer the brand of his master. His tobacco chewing habit has now reached such a point that his owner has to limit him to three chews a day. In Laddie is a combination of Scotch collie and rat terrier.—Sportsman's Digest.

A BOY SCOUT GETTYSBURG

Two years and a decade ago, a few boy-loving Americans brought forth on this continent a new movement, conceived in unselfishness and dedicated to the proposition that all boys are equally entitled to the opportunity to keep themselves "physically strong, mentally awake and morally straight."

Now we are engaged in the great work of proving that a movement so conceived and so dedicated will always endure. We are met in a local council of that movement, to dedicate this community to the safeguarding and development of its boyhood, realizing that prevention is infinitely better than cure. It is altogether fitting and proper that we should do this.

But in a larger sense we cannot dedicate, we cannot consecrate the community. The noble young manhood developed by this movement has consecrated it for above our power to add or detract. The world may little note or long remember what we say in this community, but it can never forget the service rendered for and by our boys.

It is for us, rather, to be dedicated to the work which has been thus far so nobly advanced. It is rather for us, men and women, to be here dedicated to the great task remaining before us—that we here highly resolve that the Boy Scout movement under God shall have a new vision of service, and that the well-being of our boys, physically, mentally and morally, shall be our consecrated purpose.—From "The Communionalter."

IDAHO RANKS FOURTH

Idaho, which in 1900 was third in the percentage of families owning their homes, was one of 31 states to show a falling off in the period to 1920, according to a pamphlet "How to Own Your Home," which has been prepared by the department of commerce for a handbook and guide to prospective home owners.

The decrease was from 70.7 per cent to 69.9 per cent, or 95 families less in each thousand who were home owners. Yet Idaho is still fourth in rank in respect to home ownership in 1920. And the average for the mountain group average of 55.2 per cent of home owners among its families is still far above the average for the nation, which in 1920 was 45.6 per cent.

"Although most men and women who buy a house have never done it before and are usually unskilled, as people generally are in the things they do but once or twice in a lifetime, the prospective home owner who carefully considers the real needs of his family and his ability to pay, and who checks his own judgment by consulting experienced persons, may go ahead with full confidence. He need not be frightened by the mistakes of heedless persons who have been carried away by some novel feature and covered into a bad bargain, or who have tried to buy beyond their means. While some risks are involved, as is usually the case in obtaining anything worth while, the danger of failure is relatively small when weighed against the advantages of an owned home."

"Today, in the period of post-war recovery, when our national productivity is increasing, we have the opportunity to make definite progress in the right direction. Moreover, the development of the automobile has given a great impetus to suburban life and an increasing possibility of home ownership. Happily a large section of the people are awake to the problem and an increasing number of business groups have publicly acknowledged their responsibility and interest in it. They realize that necessary barriers that may encompass a man determined to own his home are hindrances to good community spirit and to good business."

In "How to Own Your Own Home," emphasis is laid at the outset on the importance of the decision, the authors likening this step to purchase in a business partnership. "A family that has saved up enough to make a first payment and has paid its rent regularly when due has given good evidence of its ability to pay for and own a home," say the authors. "Times are usually bought from savings. Habits of saving are best begun in early childhood; but adults who have not already begun to save toward buying a home should start at once. Many find the buying of a home the largest investment they ever make. But lack of experience should deter no one."

UTAH SANATORIUM FOR TUBERCULOSIS

Debate Action Taken Toward Securing Such An Institution at the Next Session of the Utah Legislature.

The urgent need of a sanatorium in Utah to care for tuberculosis patients has recently emphasized at the annual session of the Utah Public Health Association, held October 20 at the Hotel Utah, Salt Lake City. When a set of resolutions looking toward the establishment of a sanatorium in the state, drawn up and presented by James H. Wallis, executive secretary of the organization, were unanimously adopted.

This is the first step ever taken in Utah to provide hospital care for children who are the unfortunate victims of the white plague, according to Mr. Wallis, who has worked untiringly during the four years he has served as executive head of the Utah Public Health Association, to secure the establishment of such a hospital.

The annual report of the Association's activities, presented by Mr. Wallis, showed that the funds raised for the Christmas seal sale had been expended in financing the Traveling Clinics and employment of public health nurses, carrying out Clean School Campaigns in various counties, conducting the Home Visit campaign in the public schools, presenting health exhibits at fairs, institutions, and public gatherings, and distributing literature on all phases of public health work throughout the state, and providing dental service to three sections of the state which have no dentists.

In the dental clinic, Mr. Wallis showed that more than 600 X-rays are being made with active tuberculosis and through personal contact are infecting more than 8,000 people, that there is no hospital in Utah which provides even a ward for tuberculosis cases except Salt Lake County hospital.

In recognition of this situation, the following resolutions were adopted: "Resolved, that a committee be appointed from this organization to take necessary steps looking to the erection and equipment of a state sanatorium for the tuberculous, and to aid committees in all localities available from any official or other source bearing on this subject, and appropriate same for the formation of all civic organizations, commercial clubs, fraternal societies, women's clubs, labor organizations, and other bodies, pledging the cooperation and support of the organizations in securing the passage at the next legislature of a measure providing for the state tuberculosis sanatorium with 100 beds.

"Resolved further, that at the next annual convention of the Utah Public Health Association, a complete report be submitted of the work accomplished at this committee.

The convention, on motion of Senator Roy Dixon of Provo, tendered Mr. Wallis the thanks of the assembly for his faithful and energetic services.

Dr. Phillip F. P. Jones, director of the National Tuberculosis Association, spoke on the educational value of the Clean School Campaign, explaining how it had become a familiar trade mark of the energetic campaign to wipe out tuberculosis. He expressed his appreciation of the cooperation which permits every person to contribute his share to the fight against the disease, and to the public at large.

Dr. Jacobs also spoke on the outlook for the control of tuberculosis, saying that already through the organized fight against it, its death rate has been cut in half.

Other spirited talks were given by Dr. J. M. Merrill, president of the Utah State Medical Society; Dr. Fred Stammer, president of the Utah State Board of Health, and by the Salt Lake City and County health commissioners, Drs. Willard Christopher and F. E. Bismay.

Mayor O. K. Hanson of Provo presented in the absence of the treasurer, E. O. Howard. At the annual election of officers, which took place at the close of the convention, the following were made members of the Board of Directors: Mrs. E. B. Bristol and Dr. E. C. Bland, Big Water; Allan Colville, Dr. George Thomas, Elias E. Woodruff, Mrs. Arthur W. McConkie, Governor, Rev. Arthur W. Morrison, W. W. Armstrong, Mrs. A. H. S. Hill and O. Howard, Salt Lake; Mrs. E. W. Forrest, Nephi; E. E. Anderson, Midway; Dr. M. E. Reay, Randolph; W. C. Henderson, Panguitch; G. W. McConkie, Blanding; Mrs. Thomas Robinson, Marysville; Dr. Charles England, Logan; and Mrs. Grace Cooper, Price.

E. C. Bismay was elected president for the sixth consecutive term.

RHEUMATISM LEAVES YOU FOREVER

Every druggist in this county is authorized to sell every rheumatism sufferer that if a full pint bottle of Allenruhn, the sure cure for rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

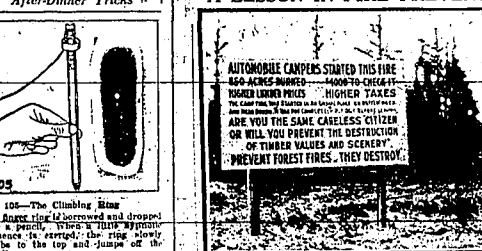

Allenruhn had been tried and tested for years, and really marvellous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable—and where the patient was helpless.

BEAN SOUP SHOULD BE CALLED BEAN SOUP!

Dining rooms on American liners should have their menu cards printed in English, says Congressman Fred Britton of Illinois. He recently criticized the Biltmore of the Lehigh, where the cards are printed in French. Here is in a Washington hotel asking Aug. P. Moller, maitre d'hotel, why hash should not be called hash. The waiter is neutral.

A LESSON IN FIRE PREVENTION

Here's a sermon in fire prevention far better than any fire marshal-or fire chief could preach. This sign, erected by the U. S. forestry service in the Kamikist National Forest in Idaho, shows the havoc one careless camper unwittingly wrought. It ought to be a grand reminder to others.

The Secret of Success. "Lytic contrived to look well dressed, having early in his career discovered that the putting on of clothes is more than half the battle. Wear rags with enough of an air, a stylish conviction, and you may boldly take the social field."—From "The Survivors" by Loren Mead.

Baking Adobe. Adobe may be made from any material which becomes hardened on exposure to the sun. The process of baking consists in first spreading the molded bricks to the direct rays of the sun for a day, then turning them, exposing different faces for from seven to fourteen days. Because of the lack of cohesion, adobe can be employed only in regions of limited rainfall.

After-Dinner Tricks. No. 105—The Climbing Bear. A large bear lay down and dropped over a fence, then a third person, and the bear was left hanging from the fence. The bear is now in the hospital.

The Twin-Falls juvenile problem would be settled if we had every boy in Scouting and every girl a member of the Campfire.

I-GO GAS

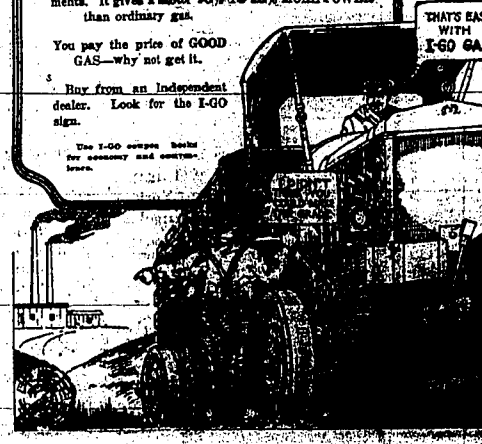

More Power

Drivers of trucks, hauling heavy loads up steep grades find the value of PURE gasoline as compared with ordinary mixtures CALLED gasoline.

Straight-run refined I-GO GAS meets the requirements. It gives a motor 15% TO 25% MORE POWER than ordinary gas.

You pay the price of GOOD GAS—why not get it.

Buy from an independent dealer. Look for the I-GO sign.

DAM WORK WILL BEGIN JULY 1ST FOR BIG DISTRICT

Moving of City of American Falls Under Way and Nearly a Million Dollars in Construction Will Be Expended on the Mine Mouth-Says Flemer.

A bulletin issued by the Idaho Reclamation association, through its managing director, Guy Flemer, contains the following information as to development at American Falls, site of the big reservoir, and is issued in response to numerous mail inquiries.

"The work of grading the streets of the new townsite and of installing water and sewer systems is now under way. The work of installing houses from the old townsite to make way for the reservoir will be undertaken near the district of the year and will be completed by April 1, 1924. There are 400 buildings to be erected, mostly residences. Practically the entire business section of the new town it is believed, will be new construction.

"Work on the dam will be commenced about July 1, next. The first material for this structure will come from the big railroad cut made necessary by change of the O. S. L. grade and track.

"In the neighborhood of \$500,000 will be expended at American Falls in construction work, aside from the dam, in the next nine to 12 months.

The Help to Farmers. "The cost of the dam and reservoir will be paid by farmers of the Snake River valley and that cost has been materially reduced through successful negotiations. Negotiations have had holdings at American Falls that must be moved.

"The arrangement with all property holders contemplated a replacement value. In other words, through payment or exchange of property, the property owner would be reasonably whole by virtue of the enforced change in value.

"The cost of replacement as to these corporations was very heavy, amounting into hundreds of thousands of dollars and if the procedure as to other classes of property and owners had been followed the cost to the farmers would be extremely heavy on account of these necessary changes.

Just Four Will Do. "These heavy help comprises 22 different factors. But great success has been combined them in four proportions. And all are sold at modest prices which every girl and woman can afford.

My White Youth Clay. A clean, refined clay, vastly more effective than ordinary clays. A clay perfected by French experts through 20 years of scientific study.

My White Youth Clay brings a new complexion, fast, clean and clean. It combats all lines and wrinkles. No woman who once tries it will ever go without it. It costs 50 cents and \$1.

My Youth Cream is a cold cream like nothing else you know. It contains both lemon and strawberry. French experts have embedded in it the best skin helps that the development much more than the amount paid for its rights, there.

Eastern Publicity. "The American Falls reservoir project has received more publicity in eastern newspapers and magazines than any irrigation undertaking in the history of the west. Recently more than fifty eastern newspapers carried in their columns pictorial sections pictures of American Falls and stories of the project, together with recognition, editorially and otherwise, of the work of this nation on the project.

"The Father and other music enterprises have taken up with the association a plan to 'shorten the moving of the town, which will be shown in every county house in the country.

"While this publicity is centered on American Falls the benefits will be general in southern Idaho and will stimulate interest in reclamation in the east and middle west."

LARGE QUANTITIES OF WIGGAMILLS AND FIFTY-FOUR DRUMS.

Over 500 quarts of canned fruits with peaches and a large number of boxes of apples and fresh fruits, with several sacks of vegetables were shipped last evening by the construction of St. Edward's Catholic church to St. Vincent's orphan home at Coeur d'Alene.

My Secrets

Of beauty are yours now, if you wish

By Edna Wallace Hopper

I made myself a famous beauty, and that beauty brought me glory. I have kept that beauty to 2 grand old age. After 40 years in the limelight, I will look a girl of 19.

These facts are due to helps I found through years of world-wide searching. They are, I believe, the best beauty helps in existence. No one I know has, in other ways, attained any like results.

So I have had these helps prepared and placed where all may get them. And I hope to see them bring to millions the benefits I got.

My Hair You Envy. My glorious hair is due to my Hair Youth. It is heavy, silky, lustrous, and grows faster every year. Putting hair band and gray hats are unknown to me.

My Hair Youth is applied with an eye dropper, directly to the scalp. It does not muss any hair. It keeps the scalp like a well-kept garden. My hair grows one fourth—costs 50 cents and \$1 with eye dropper.

All druggists and toilet counters supply these preparations, exactly as I use them. My Beauty Book comes with each. They will bring you rich rewards. If you want more beauty, longer youth, these are the best ways science knows to get them. Edna Wallace Hopper, business address, Washburn, Wis.

Note: Miss Hopper is now appearing twice daily in the Pantheon theatre of the Pacific coast and western states.

LITVIN JURY STILL HANGS—NO VERDICT

Second Trial Fails First in Regard to Stubborn Division of the Twelve Men; Federal Cases Against Auto Man in February.

The Litvin jury seems to follow the footsteps of its illustrious predecessor and hanging. The case was given to the twelve good men and true at 1 o'clock last night and nothing happened during the night except a continuation of the lack of "cohesiveness" which seemed to afflict the first jury.

The attorneys on both sides seemed doubtful of a verdict as the day wore on but Judge W. A. Inabuck refused to give up hope. Prosecution Attorney J. W. Taylor was silent regarding the probable action of the jury in case the jury should fall in arrears, but it is rather expected that he may follow the general rule and let the defendant out on his own recognizance, postponing the case indefinitely. There is another case against Litvin on a similar charge pending here in regard to the V. P. Graves case and it is not known whether a dismissal would mean a trial on this charge.

The charges in the federal court at Boise come on for trial in February. They involve the same case as the charges in this court. It is expected that the last jury trial at this time of the Twin Falls court district court. The new term will be held at 10 o'clock on Monday. A long line of sensational criminal cases, involving two murders, a forgery charge and two Litvin cases have taken up all the time. Court will not adjourn, however, and court cases will occupy the rest of the October term.

LABOR SUPPLY IS ABOUT UP TO DEMAND

Fair weather and a light frost were predicted today by the weather bureau for the 24 hours beginning this afternoon, so the farmers and their helpers are digging in more earnestly than ever to save the crops. The chamber of commerce sent out five bean and six apple crates this morning. Demand and supply are about even now. Secretary Newell S. White reported this morning that he had a good crop on hand.

YOUTH RESTORED

PARIS, Oct. 25—A new method of making old women young was announced today by Dr. Javanski, who has been collaborating with Dr. Voronoff, the gland specialist. Dr. Javanski declared that he had successfully rejuvenated women by injecting into their veins a few drops of his "elixir" from young and lusty human beings.
