

JAPANESE PROTESTED AGAINST LAWS

This Protest Follows Supreme Court Decisions Which Bar Japanese From Holding Land in California and Other Western States.

WASHINGTON, Dec. 25.—Japan has made formal representations to the United States authorities to a protest against the anti-foreign land laws of California and other western states. It was learned on reliable authority today.

The protest is understood to have been made in a communication delivered to the state department by the Ambassador Hanbara, the Japanese envoy in Washington.

This step by Japan follows closely upon recent decisions of the United States supreme court confirming the constitutionality of the western law barring Japanese from holding land in any way in those states for agricultural purposes.

The Japanese communication is not understood to have been made to protest against the decision in the supreme court, but merely to object to the situation which results from the court's decision.

The protest from Japan, according to the news in various quarters here, is the result of the long history of the western anti-foreign land legislation, and a diplomatic correspondence that previously has passed between the United States and Japan. The protest has been forwarded such a step as the present note from Tokio.

The American government has not replied to the Japanese note but is expected to do so in the near future.

WATER SEEKS LAST SHIPUP LITTLE HOPE

Diligent Search Will Be Made in Northern Africa by French Military Authorities; Dixmude's Gasoline Exhausted Several Days Ago.

PARIS, Dec. 25.—By court convened by and by the air force in France, military and naval authorities tonight agreed to find a missing water-droppable Dixmude, lost today in northern Africa.

"We expect nothing now but bad news," Commander Duroc, attaché of the military of marine told the United Press in Paris.

Lacking definite word from the Dixmude's ship on Friday, the French government does not know whether the Dixmude will survive.

"These of the Dixmude's crew that landed in the desert and found water might sustain for three weeks, by stretching their emergency ration. However, the water will be exhausted in three days at the most."

The Dixmude which sailed from Paris on Tuesday night for a search in northern Africa, carried ordinary ration for ten days.

"It is almost impossible to land a ship without the aid of 250 men," Commander Duroc said.

Formal Rival of President Is Getting Ready to Climb Into Band Wagon and Would Accept Vice Presidential Nomination if Offered Him.

(Copyright, 1924, by F. W. Watson.)

WASHINGTON, D. C., Dec. 25.—Senator J. W. Watson of Indiana is getting ready to climb aboard the Coolidge presidential band wagon according to information, Coolidge headquarters here claim to have received.

Watson, a few weeks ago, a potential rival of Mr. Coolidge for the 1924 nomination has given up the idea of running for the presidency but would accept the nomination for vice president, some of his friends say.

Mr. Coolidge's message to congress attempted to Watson's presidential aspirations. It made the president the endorsed leader of the conservative wing of his party.

When Watson came to Washington after the announcement, he talked of politics to his friends.

Watson has since then become convinced that he should not run for the conservative line himself to succeed to save the party from liberal charges.

"There is every indication that Senator Hiram Johnson will be the president's only rival for the republican nomination," Watson has come to believe.

Amold in His Poetry. Splendid music, passion, breadth of movement and rhythm, we find in him is no great abundance what we do find is high distinction of feeling (to use his own words), a temperance, a kind of modesty of expression, which is at the same time an artistic resource—the completion of his work; and a remarkable faculty for touching the chords which connect our feelings with the things that others have done and spoken.—Henry James.

DODGE BROTHERS MOTOR CAR

Value so pronounced that you are justified in looking upon the purchase of a Dodge Brothers Motor Car as the soundest possible investment in transportation.

Not a dollar is added to the purchase price to support a free service policy; nor to cover the costliness of numerous body or chassis types; nor to pay interest on borrowed money; nor to maintain a multiple organization of middlemen.

Dodge Brothers finance themselves. They sell directly through a single organization of dealers to you. They do not believe in charging in advance for service you may never need. They have developed remarkable economies, and a time-seasoned product, by concentrating on standard types.

These facts are reflected, not only in the price of the Car, but in the quality of workmanship and materials that enter into its construction.

Christmas is over but the spirit should permeate every act of our lives during the coming months. The spirit of giving is the right spirit but it is practiced too little by all of us.

Yesterday was a very mild Christmas day in Southern Idaho and those who have been accustomed to other states where the mercury drops down on this date were surprised at the mild weather which has characterized this section of the west for years.

Very few people of the less fortunate class were neglected in Twin Falls county on Christmas day. The people of this section are careful to see that every one has something special at the holiday season of the year and this is as it should be.

The two men taken by the sheriff's office last week for burglary certainly appear to be the men who perhaps broke into those places of business in Filer and Hazelton and took what did not belong to them.

The Amalgamated Sugar company has ceased its campaign for this season and we believe that it has made a great deal for this city and community. Thousands of dollars have been paid out here to farmers and labor for this campaign and much money has been placed in circulation than would otherwise have been started to rolling.

It does not help our city to have some of our citizens go to neighboring villages and tell what a criminal lot we are here in Twin Falls. If the truth only is made public it would not sound so bad but it is hardly human to paint this picture just as it is.

At the bottom of most persecution and intolerance are ignorance and fear engendered as a result of ignorance. Many whose ancestors lived in forests and believed they saw demons in shadows and heard them in the rustling of the leaves is ever ready to believe in imaginary enemies hidden forces to destroy him.

NOT CREDS BUT DEEDS

Religious are to be evaluated on the basis of the spiritual results they produce. I do not hold the size of the churches or the average weekly attendance as the basis of measurement. Synagogues and churches are not factories and cannot measure their results in a statistical way.

The end in themselves and when they become confused with the means, then we have the beginning of the end of real religion.

VIOLA GWYN By GEORGE BARR McCUTCHEON

New Romance by the Author of 'Graustark,' 'Quill's Window,' etc.

The many ardent admirers of Mr. McCutcheon will discover great delight in its pages. It deals with romantic Indiana, especially Lafayette and the Wea plains, in the early Nineteenth Century. The beauty, the thrill, the rigors and the courage of pioneer experience are fascinatingly set forth.
