## Crude Wording of New Immigration Bill Sure to React Unfavorably

**Issue Not a Dispute Over Exclusion, but as to Method Used in Barring Nipponese from This Country; U. S. Cannot Benefit by Action of Congress.**

### DELICACY OF STATESMANSHP VITAL

**Senate's Tactics Likened to Those of a Schoolboy; Europe Watching Situation Closely; United States Seems Destined to Play Big Part in Far East.**

**LONDON, April 18.—Panama of the immigration bill would in my view affect Japan negatively as certain to react unfavorably to America's national interests in the Far East.**

**No possible benefit can accrue to the United States by the action of congress, which is on the same level as the pin brick diplomacy of Europe, which has caused so many trans-Atlantic wars.**

**The issue is not a dispute over exclusion. That will happen anyway. The question is whether exclusion shall be affected in a manner courteous to Japan by means of a diplomatic agreement which saves Japan a natural pride, or whether it shall be unkindly applied in the abrupt and paroxysmal of congressional enactments.**

Ambassador Hashiraga's use of the expression "grave consequences" in describing the effect of careless congressional verbiage should not offend Americans, who are quite consistently critical of European states, mistakenly for this very impetuosity.

Americans, judging Europe impartially, make known, destroy the spirit of petty vengeance, seek redress, and then, when they have been ruffled, still analyze it now needed to let go the picture home.

All nations live in the same world. Neighborly conduct is the only way to permanent peace. If nations do not do it, governments, enlightened or otherwise, must be called to account. It is always better to save the feelings of neighbors, especially when it costs nothing except a few lost words.

The United States is destined to play a great part in the affairs of the world. The almost deliberate conduct of the Senate in the matter of statesmanship is needed. If American legislators behave as though they were indifferent to the needs of international concord, when they have the opportunity to do so, then the kind of misunderstanding that has made Europe what it is. School boys in the United States seem to have no more process, when they have the opportunity to do so, than the school boys in the Philippines. The American public has caught Europe's disease.

The Pacific should pacify. Unless it does, another world war will be engendered thereby, and that is not unusual in history.

## SPORT NEWS

### YANKEE VETERANS WILL FIND COMBS, DANGEROUS RIVAL

**NEW YORK, April 18.—** Dick Fagan, manager of the New York Yankees, and Eddie, who was a veteran in the American Association, insist that the New Yorkers aren't a great outfit. Eddie is Earl Bomar of Louisville, a former All-American football player, fielder in his day, but a great hitter. His mark w/2 home runs was a big league record until "Boston Babe" came along.

"I'm not afraid of that," said Eddie, "who pick Combs merely as a Yankee substitute this year are going to be surprised," says Fagan.

"He's a great ball player, a whole lot better than any pitcher I've known, job to keep him from breaking into the Yankee outfit as a regular."

"True, he hasn't a strong arm, but strong arms don't make good pitchers. Many few less runners are given out by the outfielders with the live ball now in use."

"My opinion is the veteran Yankees outfit will not be very popular on Combs will dispose one of them. If he ever gets a chance they will never get him out of the New York lineup."

### COAST LEAGUE

Seattle at Salt Lake postponed; wet grounds.

At Venetia: B. H. L. 11; Los Angeles 2 7 0; San Francisco 2 7 0; Oakland 2 10 1; Seattle 11; Astoria and Bryant, Clinton, Crate, Gilder, Penney and Murphy.

At Oakland: B. H. L. 12; San Francisco 2 7 0; Oakland 2 10 1; Astoria; Mitchell and Teitelman and Head.

At Sacramento: B. H. L. 12; Portland 2 17 1; Sacramento 4 14 0; Batteries: Winters and Daly; Querry, French, Hughes, Thompson and Schmitz.

### WENDELL WINS TRACK CONTEST

**BURL, April 18.—** The Burl High school track team met defeat Friday night, but the score of 31 points to 28, Vicmar, star, sprited in racing on the 60-yard dash, Leslie Pitts, the star sprinter for Burl, was the man that always called upon. In perhaps 9 of the 27 victories scored by Burl, was returned the victory to pitiful, which he had to give up to the victor.

If the Athletes tied the score in the eighth or ninth, Burl would be the choice for relay work, and on many occasions the Athletes would tie the score.

For Burl in the very next meeting, which of course, would give Burl credit for the victory.

The coach, however, a pitcher takes up the cause, and a pitcher takes up the cause.

Another "close-up" finale is being attacked. The South Sea Islands are often the scene of romantic stories, and a few years ago, when there has remained to the fact that there are no grottos there which include kiting among the savages,

### WATCHING THE SCOREBOARD

Yesterday's hero, George Kelly, The Giant, was beaten—was taken down and the bases filled in the 10th inning, shifted and drove in the run that beat the Hobins 2 to 2. Grahams and Fountain hit homers.

Poor fielding in the pinch and a slump in hitting caused the Yankees to fall again, before the Boston Red Sox. The score was 2 to 1. The Red Sox got a single.

Dell Jacobson not a single, double, triple and a home run in five times up. He had three hits, but hit .333 and they total to the White Sox 2 to 2.

Lee O'Bryan, Charlie Grantham, Eddie, and the rest of the Cards and a home run the Cub pifled on the Cards and beat them 7 to 4.

Gambini's home play in throwing to second base, and a double, and a double, and a home run the Athletics to beat the Indians 4 to 3.

Stone, Mattie Law, certain Mexican states have an interesting idea regarding borders. The subject is castles of paper money. It is a good idea, and it is good for him to carry many, if not most, according to the nature of the theft.

### PITCHERS MUST GET BREAKS TO SUCCEED

#### Winner of 25 Games in One Year Is Very Lucky.

The showing of Eli Haunert in winning 27 games for a club that finished seventh in the American league is one of the greatest pitching feats ever recorded.

And, also, a major league pitcher with 25 games or more, he must not only pitch good ball but he must also be favored by the break. It seems that good pitchers usually get the breaks.

Good pitchers are often called up by their manager—in a pinch. When there is a chance of winning a game, the manager usually sends the star pitcher in.

That was the case with Haunert last year. With the score tied and the pitcher wavering, or having been tired, the manager calls for the star. That was the man Haunert called upon.

In perhaps 9 of the 27 victories secured by Haunert, was returned the victory to gutters, which he had to give up to the victor.

If the Athletes tied the score in the eighth or ninth, Haunert would be the choice for relief work, and on many occasions the Athletes would tie the score.

For Eli in the very next meeting, which of course, would give Haunert credit for the victory.

The coach, however, a pitcher takes up the cause, and a pitcher takes up the cause.

Another "close-up" finale is being attacked. The South Sea Islands are often the scene of romantic stories,

and a few years ago, when there has remained to the fact that there are no grottos there which include kiting among the savages,

### LUCK IS OFTEN A CHEAT

There is an old saying, "Gold is where you find it." That's Luck.

But if you put a little at a time in the right place, you'll be sure to find it when you want it—with more added. And that's Forethought.

You can't depend on Luck for the good things of life. But Forethought—depositing a little money every pay day in an interest-earning account at this bank—will enable you to buy many things you wan't that cannot afford today.

## UNION PACIFIC NOT ENTITLED TO PLEAD POVERTY

There are American railroads with insufficient earnings that can make a consistent appeal for better earnings. But the Union Pacific is not one of them. That great and prosperous system, which actually earned in 1922 better than 15 per cent profit on its common stock, is putting up a poverty plea for the railroads in general. "Last year," asserts that statement, "the railroads handled a record volume of business, but could not earn the fair return of 5-3-4 per cent to which the interstate commerce commission, under the transportation act, has found they are entitled. If the roads cannot earn 5-3-4 per cent in a big year, what will they do in a small year?"

But the Union Pacific's system, earning, as it did, better than 15 per cent on its common stock last year, is a long way from the poverty class. Moreover, its officials are shouting on this issue when they remind the public, as they do in this statement, that if a road in any year earns more than 6 per cent it shall pay one-half of the excess to the government. That is indeed the provision of the law, and the purpose as the Union Pacific's statement says, is "a limitation rather than a guarantee." But so far the limitation exists only in theory and not in practice, a fact that is leaving absolute citizens to wonder why the interstate commerce commission is so slow in instituting proceedings for the recovery of excessive earnings of railroads like the Union Pacific.

The company's public statement, signed by C. R. Gray, president, has this concluding sentence: "Constructive suggestions are always welcome."

One constructive suggestion is that the transcontinental railroads quit harassing the interior with their incessant attempt to apply discriminatory freight rates; that they accept in good faith the law and the decisions made under that law by the interstate commerce commission, and permit the interior to retain certain rates.

Who would seek justice must justice give, and it comes with poor grace from the transcontinental railroads—this plan that "the road be let alone," that "the transportation should not be given a fair test," that "what the railroad situation demands just now is not more law, but more confidence"—when they will not themselves give up the transportation act's fair test, but persistently try to deprive their competitor in the industries and commerce of the interior by their incessant agitation for rates that will discriminate against the interior and in favor of the coast terminals.—Speaksman Review.

## THE JAPANESE PROBLEM

There used to be a "delicate situation" growing out of the deliberations of congress on the bill which will limit Oriental immigration. It was to be expected that the Japanese ambassies would protest such legislation. That such a protest was made is nothing to get excited about. The house has already passed the bill. The senate will probably do so today. The Japanese protest therefore has not influenced the measure. Why then give way to offensive and useless "expressions of resentment."

The Union Record has always felt that the question of Japanese immigration is neither as serious nor as complicated as people point it out. Let us be decent to those Japanese who are already here. They are human beings. They will not constitute a problem if either immigration is stopped and proper migratory legislation is enacted.—Seattle Union Record.

There is a world of common sense in this statement of the case by a paper which is in favor of restricted immigration and of exclusion of Asiatics.

A great deal of the ill-feeling in this as in other misnomer standpoints between America and Orientals and European nations is due to the fact that subversive politicians in legislative bodies on both sides, cannot go ahead and transact business which belongs exclusively to themselves, without stirring up prejudices against somebody else. It has been forcibly pointed out that with some changes in wording, the same results could be attained without offending the sensibilities of the Japanese people. The year-long and unanimous makers of Japan take advantage of this to rifle piecemeal and say offensive things which are repeated here and the endless chain is on.

The Japanese ambassies was indirect and his offense in attempting to stop legislation was wholly improper and deserved rebuke. The expression of immigration is purely a domestic concern, as recognized in international law and by the League of Nations. We have a right to do as we please about it. But in doing it, it is part of common sense and ordinary courtesy to do it without assuming an offensive attitude. Had the new law been in effect last year it would have kept out just 176 Japanese. Surely Congress could fix things so that many would be eliminated without setting up an absurd international fuss, which may result in trade reprisals and other misunderstandings that will be injurious to all concerned.

### Coffee and Cookies Draws Big Crowd

What buildings are still standing, the spindly way in which their coffee and cookie demonstrations terminated Saturday evening. A steady rush began shortly after noon and by three o'clock the crowd exceeded their expectation that their supply would last, as they were often asked to stop serving.

E. M. Guest, representative of the National Biscuit company, was on hand to serve the nice fresh cookies. Several ladies were kept busy dematerializing the bulk coffee which was served free to visitors.

### SUPT. JOHNSTON TENDERS HIS RESIGNATION

Superintendent J. F. Johnston, for two years head of the Kimberly schools, last week tendered his resignation "to take effect at the end of the present term." It has been necessary, as he said, to leave the school system for a time to attend to personal affairs, particularly those of a wife not school-attending to members of the board.

When asked as to what he had in view for the future, Mr. Johnston stated that he intended to go to California for the summer at least and would perhaps remain there and enter the educational field a little later on.

Mr. H. F. Powers, principal of the grade schools of Moreno and for two years before that of the Kimberly schools, accepted the position of superintendent of the schools of the new city of Idaho Falls.

## "Make-It-Right"

Make-It-Right—one of the principles and ideals inseparably associated with the name of the C. C. Anderson Company Golden Rule Stores—is the principle of a **SQUARE DEAL**.

Make-It-Right means that **"YOU above all else must be satisfied!"**—that you must be satisfied before we are—it's an assurance in advance that every purchase made from the Golden Rule will be exactly as represented and that it must meet with your satisfaction. If it does not—we will see to it that you are **SATISFIED**.

The Golden Rule rejected that cold, hard, fast old rule of law of "caveat emptor"—"let the buyer beware," and it did this at the time of its foundation in Boise 28 years ago. Yes, 28 years ago the Golden Rule pioneered on the Make-It-Right principle and the CASH WAY.

"No refunds!"—"No exchanges!"—"Every Sale Final!"—are terms unknown in Golden Rule merchandising. It refuses to regard any sale as final until the stamp of finality is placed upon it by the customer who is satisfied.
