**Democratic Nomination for Senator Only Major Contest in West After Oregon Voters Visit the Polls in Friday's Primary.**

**PONTIAC, Okla.** May 19.—With the totals of Oregon's primary election favoring Coolidge by 457,225 votes over W. H. Stratton, his nearest opponent with 10,250 votes.

The Democratic nomination,

Calvin Coolidge by a large majority stood at \$3,112 as compared with 27,327 for Stratton. Coolidge's choice for vice-president, Charles E. Hughes, had 39,346 votes.

Representatives W. C. Hawley and N. R. Smith were the two most popular candidates for nomination, while Representative Walker was really representative of the entire district on the democratic ticket.

Senator Charles A. McNary was re-nominated on the unanimous ticket for Oregon's only senatorial seat.

Mr. George Baker of Portland,

**Japanese Denounce American Congress for Bill's Passage.**

**TOKIO.** May 19.—Resolutions denouncing the American congressional action to admit Japanese immigrants were passed by the Diet members Sunday. The resolutions also appealed to the American people to pray for a change in the American legislation which denies entrance to Japan to Japanese citizens desirous to enter the United States.

A resolution after condemning Japanese exclusion legislation demanded prudent, firm determination, the maintenance and avoidance of such action on the part of Congress.

A second was in similar vein, denouncing the Japanese for their realization that the present high fee (one hundred yen) itself was sufficient to restrain immigration, while it alone raised rates, emphasizing the action of Congress as it was a representation of the American people as a whole.

**Idaho Stars Defeat Seventh Infantry Team in Great Match.**

**VCNCFVILLE, Wash.** May 19.—The Idaho polo team, in its first ever national championship, won the 18th annual polo championship as a result of the defeat administered to the seventh year team of Vancouver Barracks Guards.

The infantry men were on the defensive most of the time and found themselves at the short end of a trifling score when the match was concluded.

Boise's excellent army team in every department except horsemanship was the clear winner, the cavalry team and the naval cadet team having to make do with third place.

The Boise polo team were far superior to the Van Guard's and frequent visitors to the tournament and had little chance to win.

**NEW YORK CITY.** May 19.—The National Editorial Association has voted to award its prize to the National Education Association.

Three hundred editors from all parts of the country were here for a week, and before going to Mexico City.

Old Oklahoma frontier days were recalled when the delegates, men and women, who gathered at the Miller Brothers' 101 ranch near here; while modern Oklahoma was demonstrated by the Ranchers' Institute, which "showed an oil well on its holdings."

Hundreds of Oklahoma Indians and Negroes, too, were here, and many state tribes participated in an Indian pageant as a feature of the closing session of the round robin.

The visitors were scheduled to leave here tonight for Tulsa, where they will spend Tuesday night, June 1, with the oil workers, and then to the oil fields, and other attractions in the "oil capital" of the world.

## POCATELLO WINS FROM BUHL NINE

Indians Show Up Well, Defeating Westlanders by the Score of 8 to 6; Allred and Phillips Show Much Stuff on Pitching Mound.

Buhl, May 19.—The largest crowd that has witnessed a game of baseball here since the days of the Indian summer carried off the state pennant, saw the Bull Grays go down to defeat in their first game of the class here on Sunday afternoon. The score was 8 to 6.

Allred and Phillips, veterans of the Indians, showed well in the manner held the Bullites at their mercy, allowing but two hits during the nine innings. The Bull Grays, however, were pipped for 11 runs, one of them being for three bases.

The game was remarkable for brilliant and heroic defense by both detachments. Cur, the regular baseman, was the shining light of the local defense, and he was joined by Chaffee, left fielder, for his teammates.

Pocatello had the offensive attack on the side, however, as they put out of the game the plate. Phillips drove out a three baser in the fourth, with all of his force.

Allred had six strikes sent in 11 men, while Paul retired six of the same pace.

Sunday was the first day of the season for the Bull Grays, and it is quiet as a criterion. Bull will have a strong club this season. The Bull Grays are a team of players with the willow, and Manager Cal Griswold will give them plenty that is beyond the norm advanced.

The Indians are to be congratulated, as they were very fine.

WORLD'S HIGHEST HANGER

At Orly, France, in the Seine district, the largest airship hanger in the world is being constructed. It is built of concrete, steel and brick, and will contain the Nasas, but which are still being arranged, from which as many as 180 number during the year. The hangers will be about 350 feet long and over 100 feet high. The building of the arches of reinforced concrete called for elaborate scaffolding, which was driven and then tightened into place by a network of steel cables stretched below and attached to windlasses.

Hollie—Hollie and Paul, 16, triplets, a double and a single scored six runs in the seventh inning and gave the Phils an 8 to 5 victory over the Cubs.

The Indians' hero—Max Flack, the Cardinal outfielder, doubled in the fifth inning and drew three runs more with his single.

Nashville's best—the Indians with two solid starts in the ninth and the Senators lost 6 to 5.

Hob Shakley scattered seven hits over nine innings and the Yanks had the Indians' 5 to 4.

Brocklyn knocked Dromgoole out of the game in the eighth and made three runs but the Indians' win and went into a tie for first place.

**BURLEY NEWS**

**BURLEY, Idaho, May 19**—Polo Lavinto, a Mexican, employed here for 18 months, was shot to death in the river east of the bridge where he lived, in which he had four other Mexican friends. The captured Lavinto's foot companion, however, was not seriously hurt but he was drowned before help reached him. Those who saw the accident say Lavinto was unable to swim and the current carried him away. Those who saw the fight to swim to shore after he was thrown into the water, however, said the water was so swift that Lavinto could not get to the bank in time to escape the flood. The rough officials are now looking for the man responsible.

The average of beats that will be taken in the Burley-er factory may be about 3500 per day. This figure can be put in 50 areas which will contribute to the "Burley factor." The company will do much better if more men would do much better.

The Bradford officials are

More than 2000 of the 3100 girl graduates of accredited high schools in Virginia in 1923 registered in the four teacher-training institutions of the state, according to President S. P. Duke, of the Harrisonburg State Normal school. Only about 200 of the girls who graduate attend other higher institutions. School Life.

Twelve athletic fields are now available for 75,000 school girls of New York who participate in some form of athletics, according to a report made at the eighteenth annual meeting of the girls' branch, Public School Athletic League. As many as 1500 girls report each week for athletic instruction, whereas a few years ago hardly a handful could be called for the work.

The state of New York has advanced one step beyond Massachusetts in its regulation of automobile drivers. Under its new law no person under 18 years of age is permitted to operate a car, while here 16 years is the limit. No doubt there are many boys and girls here 16 who are better drivers than many of their older sisters, yet as part of the general effort to reduce highway peril the New York regulation is undoubtedly wise. There are a lot of youngsters who take all manner of chances quite too indulgently for average nerves.

The splendid condition of the sugar beet crop on the Twin Falls tract is one of the most promising features of present condition of affairs, which notwithstanding the long dry spell gives reason for optimism and confidence. There are 7650 acres of beets on the tract, all in fine condition. The pulp and tops make good feed. And this question of feed is the most serious one raised by the dry weather, which has left the range outside the irrigated belt very scant. The advice of Chairman W. T. Leslie, of the railroad bureau of the chamber of commerce, that short fodder crops like barley grass and drilled oats as far as possible is a good one to note and heed. Feed crops will be in greatest need this fall.

## NEW IDEA IN EDUCATION?

The difference between the old and the new idea of educational discipline is large and marked, but many, not as familiar with the modern public school system as they should be, still visualize a school as a place where silence and quietude, iron discipline, and punishment are predominant.

The old idea of school was a place of confinement of youth, where study was engendered by the threat of a switch. It has long since given way to the idea of a place where the young are taught because with them they taught is more interesting than idle play. There are always the wayward and the undisciplined, but the modern idea is to let the school take care of them in accordance with their than-by-making of the teacher in charge.

As an instance of how the modern system works, consider the code adopted by the pupils of Washington Irving high school in New York as their "Standards of Right." This code was written and is lived up to, by the pupils, of their own motion, not compelled by teachers. They consider that their best interests are served when all obey the code:

To faithfully serve our God, our country, and our school;  
To obey the law;  
To be honest in thought; word and deed;  
To keep clean in body and mind;  
To do our work earnestly as a part of our loyalty to parents, to teachers and to student officers;  
To practice charity by rating for the property of others and by making the best use of our own time and possessions;

To be courteous by doing unto others as we would have others do unto us;

To live up to our school motto: Diligence, Industry, Integrity.

This school has done this—these standards, pupils have learned, and an institution can formulate and live up to such rules, it is visible evidence of the long distance forward which education has come since the days of the red, the fuscous and the public whipping as "muds" (?) to education.

## MRS. ISABELLE HARDING GAINS 35 POUNDS ON TANLAC TREATMENT

Well Known New England Lady Gives Medicine Full Credit.

"My case had been given up as hopeless, so I do hesitate to give further credit for saving my life," said Isabelle Harding, esteemed resident of 22 Lynwood St., Brookline, Mass.

"Furthermore," she continued, "Tangle did not stop at saving my life, but he has added 35 pounds to my weight, even though he has not fed me. I am not even a hundred and fifteen now and I feel well."

"Five years ago, while living in Seattle, Washington, I was taken sick so that no one thought I could live, but Dr. Tangle, who had been to Europe, brought me down to his bed and I could eat again, so I got well."

"One day, after I had been in bed for two months, Dr. Tangle said, 'If you want to get well again, just take a bottle of Tangle.' I finished this bottle feeling some better, so I got up and took another, and another. Then I had six bottles and then I was a well and happy woman."

"My recovery was complete," said Mrs. Harding, "and I am now enjoying the best of health and while I am skinny, I really don't feel any hurt."

Asked if she had any advice for other invalids, Mrs. Harding said, "Just follow the doctor's directions, and if you have any trouble, see him again, but don't stop taking your medicine."

"After all," she continued, "it's making the picture, aren't we?"

She died to have anyone, who is looking for something to bring back their health, call her or write to her. Tangle is the grandest thing in the world," she said.

be glad to have anyone, who is looking for something to bring back their health, call her or write to her. Tangle is the grandest thing in the world."

Tangle is fair to all road druggists, accept no substitutes. Over 100 leading druggists will supply.
