

## REPUBLICANS TO CONSIDER

### La Follette's Candidacy Has G. O. P. Guessing and This Materially Affects Selection of Coolidge's Running Mate; May Choose Burton.

CLEVELAND, June 7.—Administration leaders here are taking very careful notice of the chance of President Coolidge's success at the polls in view of the independent candidacy of Senator La Follette.

Not that the insurgency of the Wisconsin politician will have any effect whatever on the convention program or La Follette's bid, but it already is having a substantial effect on the selection of President-Coolidge's running mate.

"Which probably is responsible for the sudden development of La Follette's candidacy is the fact that Mr. La Follette will nominate Coolidge's program to be very practical solution of the vice presidential problem."

Burton is a spell binder of note. The president should be nominated by an effective address to the convention—none that will leave a better impression upon the delegates than any other man here. It is more important, as president of the University of Michigan and former president of the American Bar Association, he would be expected to materially strengthen the polling work of the party in the several states.

La Follette is known as carrying Michigan and Minnesota.

## EUROPE SEES HOPE FOR STABLE MONEY

### Five Worst Currencies in Europe Reach Equilibrium Exploit of a Chicago Lawyer.

LONDON, June 7.—Strange as it may seem, Europe is fast approaching equilibrium. That is, for the moment.

For the first time in nearly ten years and for at least the past five years, the five worst currencies in the world—the five worst currencies in equilibrium—have reached a state of equilibrium.

It was speaking-making an appeal to the five currencies and languidly to say: Every currency printing press is being closed down. If it did not come actually to a standstill, it would be a mere matter of time before it would do so.

Whereupon the exchange in London, Paris, Amsterdam and Geneva extended to one another, guarded congratulations.

"The only question is: How long can it last?"

Certainly according to the reports in the city the "war" is not yet over.

This voluntary, heeding how down the slope is for Russia, Austria, Germany, Poland and Hungary a thing of the past. France might make a slight bid for being the best, but she is not being so. Also she has some excellent reasons for not going down. And so for the others, it is a matter of time before they are in the frame of mind best expressed in the idiomatic "never again."

But there still remain differences in the paths of all three currencies. And it is quite probable that some of the worst currencies may, like their predecessors, sag under the weight of debts outstanding.

## HUMAN RIGHTS PARTY SAYS ALL WRONG

### Carrie Chapman Catt Declares Federal Action to Secure Equal Rights for Women is Wrong in Address Before Federation.

LOS ANGELES, Calif., June 7.—The bluntest statement of the Women's party favoring federal action to secure equal rights for the feminine sex in all spheres, in the opinion of Carrie Chapman Catt, founder, superintendent and president of the International Women's Suffrage Alliance since 1904, Mrs. Catt has uttered here for the remainder of the day at the meeting of the Women's party convention and in a speech before the Federation of Women's Clubs.

A resolution dealing with the proposed equal rights bill is to be voted on by the Federation Tuesday. Adoption of the amendment by Congress would, in Mrs. Catt's opinion, endanger the protective privileges enjoyed by women in many states.

"This problem of equality for women is very complicated and we need not be hurried," she said in an exclusive United Press interview.

"Always with the elimination of certain discriminations enjoyed by women there would endanger the welfare of women and children workers. The blanket amendment of the women's party for federal action in this matter is wrong, for it should be fought by each state separately," Mrs. Catt declared.

"The greatest interest of the delegates attending by the national convention, in national and international problems attests to their political intelligence and the success of women's suffrage in general, Mrs. Catt believed."

"Women suffrage has been a proposed success," she said. "The best evidence indicated that all of the women officials, sixty per cent of them vote. This is a splendid record."

## May Be Coolidge's Running Mate; Will Nominate President

Dr. Martin for New Britain will make the speech placing Calvin Coolidge's name in nomination as president of the National convention. Dr. Martin is president of the University of Michigan. He has held other important posts in the federal educational system and has numerous degrees, among them one from Austria. President Coolidge's name is being put in nomination for the vice presidential nomination of G. O. P. losses.

## MEXICO JOINED HANDS WITH AMERICA TODAY

### President Obregon Crossed International Border to Deliver Message at Nogales; Mexican Marine Band and Orchestra Accompany.

PHOENIX, Ariz., June 7.—The republic of Mexico and the United States are joined hands across the border today.

Mexicans and Americans mingled in friendly intercourses, crossing and watching the line as it will, parading the border streets and joining in a general welcome to President Alvaro Obregon, of the soldiers' republic, who arrived here before noon today for a three days' visit. Most of the soldiers' republic held across the border in Nogales, Sonora. The parade, in which troops of the Twenty-fifth United States Infantry joined with Mexican soldiers, crossed the line and proceeded down the main street of this city on the American side.

Governor George W. P. Hunt of Arizona arrived this morning. Col. Woodson Wilcox is President Coolidge's special representative for the occasion.

The president's party is accompanied by the Mexican band of music and the famed "de la Terra" orchestra, of Guadalajara, reported to be the finest in all Mexico.

## Congress to Adjourn Tonight; Remembered for Its Investigations

WASHINGTON, June 7.—Congress adjourns tonight for the summer. The session, the first of the fifth congress, which began amid a stormy scene and ended through its months in going out in the mist of a bill at 7 p. m.

Members will scatter to the country and then to their homes to prepare for the campaign.

"There is some talk of an extension in September, but the extension will await developments of the campaign. The most regular meeting is scheduled for December."

The House for which the session will be remembered above all others will be its scandal investigations. It is a matter of time before the nation will see developments of the campaign. The most regular meeting is scheduled for December.

## High School Boys Will Court Jail on Statutory Charge

KALAMAZOO, Mich., June 7.—Hoaxing was the court jail today as a result of wholesale arrests of youths on statutory charges that authorities will not make further arrests in connection with charges by state high school girls until there is room for more prisoners.

Sixteen out of the forty boys arrested arrested are high school students.

Many a school of boys already have been sentenced to jail with two boys sent to the state reformatory at Joliet. The matter is dated Reformatory, high school students, and Charles Dornier, 20, their crime being from 10 to 15 years.

The state girls probably will be sent to the girls industrial school at Adrian.

Action against mothers of some of the girls may be taken according to the county juvenile agent J. O. Thayer, who believes they were at least partly responsible for lack of knowledge of their daughters' conduct.

## Street Car Strike Is Called for First Day G. O. P. Convention

CLEVELAND, O., June 7.—A street car strike will paralyze street traffic beginning at midnight Tuesday, the day the republican convention opens here.

Decision to strike follows refusal of the street car company to grant a 15-cent an hour increase for 1924. The company also refused to accept retroactive, which was awarded by a majority of an arbitrator's decision. The company's offer was increased from 60 to 75 cents.

Dr. crews voted to strike at a meeting held at the union headquarters, ratified the decision to strike at a meeting at 1:30 today. The vote was 1657 to 53.

## POSTAL SALARY BILL IS VETOED

### Governor Extraneous Just Stop, Says Coolidge in Veiled Reproof of Federal Bill.

WASHINGTON, June 7.—The veto of 30,000 postal clerks, carriers and other employees. President Coolidge today vetoed the 437,000,000 postal salaries bill.

In a message to congress, the president said he could not sign it because of the expenditures involved.

"This government extravagance must stop," he said. "The people of the nation are weary of it. It is impossible for them to pay it. I have taken this position in relation to government economy, which has been stated and restated until it is well known."

"I trust that positions ought to be consistent."

## Governor Lowden Will Not Accept Vice Presidency

PHOENIX, Ariz., June 7.—Frank O. Lowden, governor of Illinois, widely talked of as a possibility for the republican nomination for vice president, today refused to accept the nomination if offered to him, he declared in a letter received by United States senator on the Oregon side, today.

Lowden was selected by Oregon voters as the favored candidate of the primaries. He told Kingham his name was placed on the Oregon ballot without his consent.

## Reclamation Bill May Be Held Up

WASHINGTON, D. C., June 7.—Reclamation relief legislation received a serious setback today when the house committee on public lands conference report on the reclamation bill to which the senate has passed a bill, is approved.

The bill was sent back to conference with little prospect of a satisfactory session but it is expected that the bill will be passed in the reclamation bill.

## British Government Intervenes in Strike

LONDON, June 7.—The British labor government intervention in the "red" strike of power house workers which yesterday, had a way station out of commission.

A primary strike committee "to deal with the strike of the power house workers" was organized by the British government.

London's chief secretary of the unofficial strike committee announced this morning that the strike was being ended. It was expected to spread to other cities today.

## Daughter's Probable May Be Dropped in U. S. Senate

WASHINGTON, June 7.—The senate investigation of former Attorney General Daugherty's conduct of the department of justice—one of the most important and controversial investigations brought to a temporary halt today with further details of former investigation.

Whether it will be resumed during the summer depends upon the decision of Attorney General Clegg, regarding several witnesses the committee "desire to hear" those will appear with the committee later today.

One witness is wanted in connection with the Daugherty investigation. He is wanted in Atlanta, Georgia. He has indicated that his checks would be returned to him by the committee. He is wanted in Atlanta, Georgia.

That is, that he did not disclose the withdrawal of funds or any other information.

Samuel H. Hays, former chief of the treasury, is a witness in the Daugherty investigation.

## President of France Seeks New Premier

**PARIS, June 7**—Prepared to take drastic action to end the industrial crisis, President Millard today continued his consultations with leading French politicians trying to find among them someone to be premier. Proclaiming that the parties of the left had undertaken majority in the chamber of deputies, Millard is seeking a premier from that group. But the socialist and many other deputies of the left are on record as denouncing his reelection and none of their number can accept the presidency with Millard in office. It is impracticable for him to offer office to a member of the "right" group such as a government could be elected on the first vote in the chamber. Millard consulted this morning with M. Archambaud, vice president of the radical socialist committee and with M. Lantier, former vice president of the chamber.

## Polarine Uniforms and Uniformity

UNIFORMS symbolize established standards of performance, whether worn by men or automobile tires. Realizing this, it has always been our purpose to make the name Polarine symbolize satisfaction and economy by making sure that you use the right grade and satisfaction and economy in Polarine performance.

**The Oil On the Chart** Before the oil to be recommended on the Polarine Lubrication Chart for any particular car is decided, tests are made to determine the grade which will lubricate the car best and at the least cost—the exact formula, or manufacturing specifications, for each, having been previously written out after careful laboratory tests and comparisons. The Chart is a true guide to correct lubrication.

**The Oil In the Can** You will find in every container bearing the name Polarine and a grade number or symbol, an oil of exactly the same grade and character as the oil recommended on the Polarine Lubrication Chart because it is made in the same way and with the same characterizing specifications for each. It makes no difference where you buy Polarine, whether in bulk or in sealed cans, its quality is always guide to correct lubrication.

**Careless oil buying—accepting unknown oils of doubtful character and quality or even good oils of the wrong grade—is a dangerous and expensive habit. You can not improve upon the practice of consulting and being guided by the Polarine Lubrication Chart.**

WILLIAM WRIGLEY'S CUBS ARE RAPIDLY PUBLISHING THEIR WAY TO THE TOP UNDER ABLE DIRECTION OF FRANK FRANK; MCGRAW BOYS TRY TO LOOK MORE PROMISING THAN THE REDS OR THE PIRATES

NEW YORK, June 7.—Bill in his judgment and the support of his wealthy boss has enabled Bill Killefer to build the Chicago Cubs into one of the most promising clubs in the National League.

John McGraw said the Cubs have been offered the Cards a huge sum of money for Rogers, Hornsby, but it was refused as the offer had been made it was not without serious intention.

John McGraw said the Cubs were the best team he had seen this season and he said they looked more promising than the Reds or the Pirates.

Some New Yorkers are getting alarmed about the future prospects of the champion Yankees, and it must be admitted that there are good reasons for this.

The Yankees have only two good basemen, and Combs, an outfielder, Ward is a young ball player, "Pop" and "Doc" are good first base men, and Dupka is the youngster.

The impression that was worked in the Red Sox this year by Bobby Doerr, who was a star in the Red Sox, does not require a lot of money to make a good ball club.

NEW YORK, June 7.—A host of eastern track and field stars come today at Yankee stadium in the section of the track which was reserved for the Philadelphia Nationals.

WATCHING THE SCOREBOARD

Yesterday's hero: Walter Johnson, who pitched his 140th straight victory against Detroit.

Have faith in his fourteen-hour feat of the season and played brilliantly in the field and the Yankee crew took first place, beating the White Sox, 5 to 2.

The Browns pumiled Ferguson for five runs in the first and eventually by beat 11 to 4, clinching its fifth place, while the Red Sox pitched down to second.

A brilliant pitching duel between Walter Johnson and Earl Wilhelm resulted in a victory for the veteran Senator over Detroit, 2 to 0.

Connie Mack's Athletics pumiled the Indians down into the cellar, defeating the Reds, 11 to 2.

The Phils made it three out of four from "Old Time" winning 7 to 1 in a game that would not have been interesting save for a fist fight between Clarence Mitchell and Heinie Roth.

While Cincinnati was at bat in the ninth inning and had struck out three of the bats and had a fist fight, the Reds won 4 to 3.

IDAHO FALLS TO PLAY TWIN FALLS BLUES HERE SUNDAY

Manager Coverly expects that the weather will be good here on Sunday afternoon at 2:30, and the grounds will be in top shape for the game with "Nabe" Pals at that hour.

CHICAGO, June 7.—Both state and defense in the trial of Nathan Leopold and Richard Loeb, confessed slayers of 14-year-old Robert Frank, today were fighting trenches from which they are to wage the defense.

RETTIRAVANS TO OWSHER

(Continued from Page 1) The dominant Catholic majority will pull over the abolition and fiction in the case of what primary candidate that Mr. Cawley had 25,000 down here he appeared on Frank Loyd of Illinois as the running mate, a report which was rapidly popularly accepted at the White House yesterday has served to emphasize the cut between the anti and anti Catholic forces and certain elements within the republican national committee.

NAIPLIN TO LEAD HATHI

(Continued from Page 1) The coming state republican convention is expected that Senator Latham will be re-nominated, but it is expected that the program that was inaugurated some time ago has not been followed and all parties and persons it will go through which means that Senator Borah will be placed at the head of the ticket.

Ten thousand books and pamphlets from the botanical garden of the city of Geneva, Switzerland, have been received by the New York Botanic Garden and are being classified and shelved. These books on horticulture and botany were in duplicate at the Botany of the Geneva garden, and were offered for sale for 72,000 Swiss francs, about \$13,000. The number of bound volumes is about 5000.

Parent-teacher associations have, begun to test their own efficiency by fixed standards of excellence. Several states have made progress in acquisition by the use of a list of credits. This step justifies the belief that parents and teachers working together on the problems of childhood may reach a higher degree of accomplishment than ever before.

Not less than ten million dollars is required adequately to endow a medical school, and double or treble that sum is not too much if the school is to include in its scope all the specialties of medicine and surgery, according to Dr. E. D. Burton, president of Chicago university. The days have long gone by in which a group of physicians could supplement their income by conducting a medical school for pecuniary profit.

## DEMOCRATS SHOULD STAND FOR LEAGUE

The attitude of President Coolidge in standing up for the Hughes-Harding draft of affiliation with the world court, eliminates the possibility of any plank in the national republican platform which will weaken that position. As all who lead the debate at the high school here some time ago know, the world court is weak enough as it stands, and those who would still further reduce the definite force behind it, really want to destroy all semblance of an international tribunal for the adjustment of differences between nations.

While the democratic senators properly voted for the adoption of the so-called Hughes-Harding plan in committee and while the party should stand by their action, the fact that President Coolidge goes as far as he does in the direction of affiliation with the league of nations makes it imperative that the democrats from the viewpoint of good politics, no less than from the point of view of sound principles, should stand firmly in favor of affiliation with the league in all other matters wherein we have a common interest with all mankind, and that none in all matters with which the league of nations is concerned.

Four years ago the foes of the league pictured it as a horrible, devouring, ogre that would swallow in its enormous maw the nephews of Uncle Sam; as a great super-state imposing its decrees on us in a manner in no way intimated by the covenant of the organization.

Today the critics take the directly opposite stand and insist that it is a harmless, utterly harmless but quite harmless arrangement. Nevertheless it is true. The league was an efficient avenue for international adjustment as written, but when we repudiated our child, it lost much prestige and we lost much trust. It has not completely failed in any particular, and has done some great things, but our action, with the view of unattractive militarism which swept over Europe prevented it from bearing as much fruit as would otherwise have been possible.

Today the wave is turning in Europe toward the league and, as Frank H. Symonds says, "as an ideal to be accomplished but as a machine to be used." England and France both agree on this under new and progressive organization. The league of nations is here to stay. As it is to become an effective machine it is our duty to see that the parts are so adjusted that it will not be used to our detriment. We are still the arbiters of the financial world. If we do today, what Mr. Wilson advised four years ago, join the league with definite ideas of what changes we want made and at the same time notify the league in the manner provided that unless these changes are made we will leave in two years, as set forth in the covenant, that we legally may, we can get these changes. Or we can enter with the statement that unless within two years a general international conference on amendment shall be called we will withdraw and we will get the conference.

Something of the sort must be done if we shall unto the mischief which our non-participation has already wrought. Although most of our soldiers were back early in 1919, our exports to Europe of farm products alone increased \$650,000,000 in that year over the year before. The world was ready to trade with us and reciprocate. When we withdrew, suspicion had taken hold of the place of confidence. Every little new state built up tariff walls and the rural prosperity which we had been enjoying got a fearful slump.

It is by the spirit of reciprocity and cooperation that we must win back the prosperity that we lost. The Coolidge stand is all right as far as it goes, but unless the democratic party shall sound a clear note in favor of its position of four years ago, it will miss a great opportunity and Coolidge will get the prestige, without going far enough to do any real good.

## ECONOMY IN-HOME BUILDING MADE POSSIBLE BY WISE PLAN SELECTION

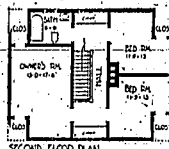

Design 1457.

ECONOMY in home building can come only through a multiplicity of savings. There is no short cut to the desired end. Reduction of cost by the use of inferior materials or poor workmanship is not an economy, it is simply loss, in this way, a lower price for which he pays a correspondingly inferior article. True economy is a matter of simplification. In using good materials to better advantage and adhering to simple taste, a great saving can be accomplished in home building.

It reduces the cost of building by improving the quality, the first step is the careful selection of building plans. Dependence for beauty of outline should be placed altogether upon application of the principle of good design, such as proportion, unity of detail and finish.

This home is the most attractive and yet one of the most economical types in building of the old colonial style. The entrance is into a central hall. The porch to the right opens out from the large living room. The kitchen entrance has a charming charm to the appearance of this distinctive home. With this house is shown to be built of siding, either shingles or stucco exterior would be equally appropriate. It is a real home which every one will like.

SECOND FLOOR PLAN

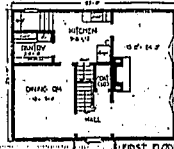

It is satisfactory and though of fair size being so simply designed and conveniently planned readily fits the needs and tastes of the average home builder. One of the interesting features to the interior arrangement is the simple light afforded every room. Large windows make this home most desirable where air and sunlight are essential to happy home life.

The American Home Plan Bureau has inaugurated a campaign to help the home builder. The home pictured here is but one of the many contained in the American Home Plan Book issued by the Bureau.

These plans for small homes are furnished at a low cost by the American Home Plan Bureau, an organization having at its disposal tested plans of leading architects of the country, which have been arranged for your requirements by M. L. Keith, Architectural Supervisor of the Bureau and a recognized authority on home building.

Mr. M. L. Keith will answer questions and give advice free of cost on all subjects pertaining to planning, building and construction of homes for the residents of this paper. By reason of his forty years experience as an Editor, Designer and Builder, Mr. Keith is ranked as the highest authority on home building and construction.

All inquiries should be addressed to the American Home Plan Bureau, 220 S. State St., Chicago, Ill.

## REPUBLICAN CONVENTION NOTES

Will M. Crosby, famous humorist, is "covering" the republican convention for The Times. He arrived early and here's his first preliminary story. It will be in Cleveland throughout. The whole show, furnishing a story each day.

BY WILL M. CROSBY  
 And now I am a comic's war correspondent.

I had always heard that a candidate's newspaper business was just one damned thing after another. But this is one thing in front of another. I never saw a political convention in my life. I don't know anything about politics in fact I have never voted but twice. And Ken Grover Cleveland was elected both times. And I quit. I was too inferior.

But there are a hundred million other folks in America who never saw a convention. Or to judge by the way they vote, know anything about politics.

This convention is to be held in Cleveland, Cleveland, Ohio, Ohio is to do it.

The hall is all decorated up in red, white and blue.

Red for the blood of our republicans, (of course when I am at the democratic convention I shall be a democrat)—which we are ready to shed for our country—so much per cent.

The white for the purity of our intentions.

And the blue for the candidates who will not be nominated.

Cleveland is a fine city to hold a convention. In fine buildings, fine hotels, fine business. The Union Trust Company building, just opened this week, is the second largest office

## ... AT THE THEATRES

LATEST HIT DANA PICTURE IS COMING  
 "An entertainment of rare quality is promised when Viola Dana's newest picture for Metro, 'The Heart Handicapped,' comes to the Idaho theatre for two days starting next Monday. 'The Heart Handicapped' is said to make full use of her opportunities for comedy; and paths in this story which tells what happens when an accident suddenly breaks into the home of a kindly old lady and is forced, through many circumstances, to stay there, the girl arrives into several scenes that seem impossible of solution until a new element—children—

Milton Sills, the popular leading man of a host of big productions, appears opposite Miss Dana. Others in the cast include Wallace MacBride, Gertrude Claire, Britton Grayson, and Dewitt Jennings. 'The Heart Handicapped' was directed by Oscar Apfel and photographed by John Arnold. Fred Kennedy played the story, which was adapted for the screen by Tom J. Hopkins.

"Sacred City of India" (Review is the "Sacred City" of the Hindus. In the tradition of these people it is believed to have been coeval with the Creation. It is the central seat of Hindulism and yearly attracts thousands of pilgrims.)

"Cable Weight" (Dancer of injury being greatest in shallow water, the protection necessary makes a fundamental cable with shore weight twenty tons a mile, but in midocean the weight is only two tons a mile.)
