Yesterdy's hero—"Gabby" Hartnett, young Cub catcher, who cracked out a brace of homers, the second day he had done so this week, is now leading the league.

The Senators' heroes even with the White Sox in a double bill, losing the first 4 to 0 and winning the second 4 to 1.

After losing nine straight games the Red Sox turned on the Indians and won an 11-inning game four to three.

The Cubs and Braves divided a double bill, the Senators shooting off easy in the first and winning 3 to 1 only to have the home team turn upon the visitors and take the second 8 to 7.

The Browns drove Hasty from the mound and beat the Athletics 5 to 3.

Representative Victor Berger of the Socialist convention's committee that reported in favor of endorsing La Follette predicts "a bigger victory than we have ever achieved." If the Socialists would vote for the Democratic or Republican candidates their "victory" would probably be still bigger.

Over one-half of the 1,108 persons under 18 years of age recently studied by the United States Children's Bureau said they were arrested for having violated postal laws were under 16 years. Nearly one-fourth were less than 14. There are more young men in our prisons and correctional institutions than in our colleges and vocational schools.

The fame that is being attained by the Twin Falls county fair is something of which everybody should be proud. The program this year is better than ever. Since the annual celebration has already attracted outside magazines, it is likely to draw a considerable number of tourists this year and it is a source of pleasure to learn from Secretary J. M. Markel that the program and the exhibits will be better than ever.

The fact that the Twin Falls water is chemically pure and entirely wholesome is one of the best arguments for people to settle in this city. It is quite inconvenient to be sick, it upsets all one's mundane plans to die, and doctor bills, medicines and caskets are expensive. Twin Falls is a good place in which to live in physical comfort and to defer funeral expenses indefinitely.

The meeting tonight for the purpose of organizing the local society of the American Playground and Recreation society should attract enough interest to fill the high school auditorium. The object of the meeting is to arrange amusements so that the surplus energies of the young people shall be directed to proper recreational lines. "Taking up the slack" will prevent many from getting into mischief. "The devil always finds work for idle hands to do" is an old and true saying, and it is well to relieve him of the job.

UTAH PARDONS DIRE CRIMINAL

The pardon board has failed again in the performance of its duty to the people of Utah. Over the opposition of Governor Mabey and in spite of the vigorous objections of hundreds of citizens, the board has again decided that George Parry, attacker of little girls, shall go free.

Sentimentalism has governed, sentimentalism for a man who had "one more chance" before and used it to repeat his previous offense against decency, against the purity of childhood, against all tenets of humanity. The attorney general, Harvey H. Cliff, and four justices of the state supreme court, Valentine Gideon, J. E. Frick, S. R. Thurman and J. W. Cherry, have taken upon themselves the responsibility for loosing a man incarcerated for the protection of the public against his fiendishness.

These public servants, whose duty it is to protect, have voted to loose a man already proved a menace. George Parry, they say, has had punishment enough for his mistreatment of two little girls. As if there could be punishment sufficient in a man's long lifetime to atone for the wanton and vicious harming of two innocent little ones! Two small victims are far, far too many. Yet these members of the pardon board who voted to free Parry yesterday cannot know how many more there might be through this act of theirs.

Messrs. Cluff, Gideon, Frick, Thurman and Cherry would allow possible harm to come to other children that society may embrace again a viper that has stung before and whose fangs may still harbor the bitter poison of the years gone by.

It is a foolish act that they have done here, an act of weakness, an act that reveals the members of the pardon board as insensitive to the protests of reason as against the pleadings of the sentimentalists. They have heeded the tear shed for Parry's plight while the woe he brought to his victims is forgotten. Four elective officers of the state have thrown in the faces of the voters this new affront. One elective officer, the governor, opposed them fruitlessly.

When before the board voted to free Parry, Governor Mabey was absent from the state. By executive order he has kept the prisoner in jail until yesterday's repetition of the earlier act of folly. Whether it will be found possible to override the action of the board or not, theirs is the stigma that will linger upon each one of the four named who again have insulted the decent citizens of Utah by voting to free George Parry.—The Tribune.
