

Eastern Seaboard Held in Grip of Jack Frost; Anticipate Early Relief

Northfield, Vermont, Has Temperature of 40 Degrees; All Points Detect a Fall in the Mercury and Search for Extra Clothing Follows; Weather Changes Sunday.

WARM WAVE AND SHOWERS EXPECTED

New England Has Lowest Temperature in Weeks During Month of August; Rain, the First Since Late Winter, Falls in San Francisco; Cold at Midwest Metropolis.

A warm wave with showers is coming out of the west to rescue the Atlantic seaboard from the cool spell, the weather bureau at Washington announced today. Unusual August weather has been reported all along the Atlantic coast from Northfield, Vt., where the mercury crashed to 40 degrees last night, down to Richmond, Va., where a low mark of 64 was registered.

In Washington last night's low mark was 53 degrees and the day mark around 72. The cool spell descended upon the east Sunday night and little change has been noticed since that time.

GOVERNOR BRYAN PROMISES TO HELP AGRICULTURAL GROUP; DEFENSE DAY IS LOOKED UPON BY CANDIDATE WITH DISFAVOR.

LANSING, Mich., Aug. 19.—Charles W. Bryan, Democratic vice-presidential nominee, today promised to help agricultural groups in their campaign against the proposed defense day.

While he did not mention specifically his objection to observance of defense day, he said: "War propaganda, mobilization, demonstrations of the civil and industrial resources of the country, which we are at peace with the world, unnecessarily inflames the mind of the American youth, are a great source of waste and cost to the people of other lands, as to the peaceful and friendly intentions of the United States government."

THE ONLY hope of the world is found in the maintenance of the machinery for peace. Our party will endeavor to secure world disarmament by international agreement, which is a condition precedent to peace. It will also strive for international agreement providing for a permanent system of disarmament.

THE DERIVATION policy of the republican administration advocated in the national platform of 1920 and endorsed in the speech of acceptance of the candidate for the presidency, reduction of five billion dollars, and discounts of five billion dollars, converted our currency by a billion and a half dollars, and spread industrial depression and unemployment through the country.

THE FUTURE needs a democratic administration and a congress that will (Continued on page 3)

## AT THE THEATRES

### CLAIM "MANHATTAN" BETTER THAN EVER "HUMMING BIRD"

In her latest Paramount picture, "Manhattan" coming to the theatre this Saturday, Friday night and Saturday, which Allan Dwan has made the star Arthur Heston's Thursday Evening Post story, Gloria Swanson will again prove a surprise to the public. In "Manhattan" and "A Society Scandal" she has seen a new Swanson, one who could do more than just wear diamonds and "blow" the blowers out as a comediante of the first rank.

The comedy scenes in "Manhattan" are well done, by the all-inclusive star that her friends, who have seen the picture, are already counting her. One of the especially clever bits of comedy is that she does in the picture is the impersonation of a Russian countess. She puts a Chaplin touch into this scene that is very interesting.

In each succeeding picture Allan Dwan who is directing Miss Swanson, seems to find new historical ability in her and in "Manhattan" she combines mimicry, broad comedy, tears and pathos for one of the best character delineations she has yet brought to the screen.

BERNARD

The dawn of a new day is breaking for babyhood. The public is being slowly convinced that it is better to form than reform. It is being impressed with the relation of sin and crime to physical ignorance and ignorance, and is realizing that we can never hope to clear our jails and reformatories till the reformer directs his efforts toward strengthening the child physically as well as morally.

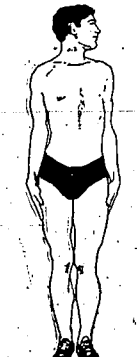

Let all of us help to speed the day when the importance of childhood shall be recognized—when the child is given the opportunity for unimpeded growth as is enjoyed by the young of the lower animals.

The influence of environment upon baby's normal physical being is of very great importance. The little one is a sort of mirror which, more or less faithfully, reflects its surroundings. In the case of the normal child, the environment is only for a passing nature, while with the baby, the things outside of him that it sees or hears or feels become permanent impressions. "The distinction between the bright, jolly, healthy, infant and the apathetic, feeble, sickly one, will, on inquiry, often be found to be that of cheerful parents and a smile home on the one hand, and a sorry father, a cross mother and airless dim apartments on the other.

Patience or a good many of them! At least, overlook the fact that babyhood is the one period when the most important material can be laid down—set into shape—of beauty or ugliness. They too often fail to realize that for this reason, everything with which the baby comes in contact tends to further its advancement or retard its retrogression.

Its senses serve for one of two things—either convey to its awakening brain impressions that please and soothe, or impressions that annoy and irritate. Remember that a baby's senses are the things being active as its reason and conscience, does it not follow that to annoy, irritate, or to identify those senses by permitting them to come in contact only with things wholesome and beautiful

## IDAHO STUDENTS INVITED TO SWIM AT BANBURY'S

Twin Falls and Gooding County Students Will Entertain High School Graduates Wednesday Night.

Prospective students of the University of Idaho will be entertained at a swimming and dancing party at Banbury's on Wednesday evening, by former and present students, according to arrangements just completed by Mary Dickinson and Dudley Swin, chairman of Gooding and Twin Falls counties, respectively.

"Idaho" sectionholders have planned for their good times and this promise to be one of the best entertained here ever given for prospective students of their high school friends in the county is invited to attend and be the guest of present students of Idaho students, the affair will be informal and is for the purpose of renewing friendships and getting prospective students acquainted with those who already know the many advantages offered at their own university. Former students and alumni of the university, too, are invited and will take part in the entertainment. The net has been reserved exclusively for this occasion and accommodations for about 250 are being provided for. Present students are urged to attend bringing with them high school graduates who might be interested in the university. Speeches by prominent alumni and the singing of Idaho songs will be features of the occasion. Those who contemplate going should get in communication with Dudley Swin or Emil Storch so that proper arrangements can be completed to handle the crowd. At least 125 are expected to attend from Gooding county and it is hoped that that many will be there from Twin Falls county.

## From Los Angeles to Bangor

Swift's Premium Brand, with its reputation for uniform goodness, is long standing. It has behind it more than thirty years of leadership in scientific curing and smoking.

As early as 1889, Swift & Company's products had received highest awards at international exhibitions. One of the four medals awarded at the Paris Exposition of 1889 was for Premium "smoked meats, and another was for "Silverleaf" Brand Pure Lard.

Premium Hams and Bacon were acknowledged the best then. They are better today. Laboratory control, constant, steady experiments, more careful selection; and painstaking care assure you of better meat with unflinching regularity.

Premium Hams are uniformly mild and delicious whether purchased in Los Angeles, in Bangor, or in Miami.

The pre-eminent position of Swift's Premium Hams and Bacon is indicative of the development of the packing industry—to which Swift & Company has contributed no small part in carrying to the table of the millions "More Meat and Better Meat."

This service is performed at a profit from all sources averaging only a fraction of a cent per pound.

WATCHING THE SCOREBOARD

Yesterday's hero: George Burns, Cincinnati outslug, doubled in the seventh inning and drove in the run that defeated the Giants, 3 to 2.

Great pitching by Grimes stopped hitting streak of the Pittsburgh Pirates, and gave the Indians a 2 to 1 victory. Grimes also got four hits in four times up.

Timely hitting by Steiner and Hipp drove in two runs and enabled the Boston Braves to defeat the Pirates, 5 to 0. It was Joe Bush's first shut-out of the season.

Making his first start since his return to organized baseball, Dutch Leonard got socked out of the box in the eighth inning and the Senators beat the Tigers, 5 to 3.

Three runs pushed over in the ninth inning and the Braves edged the Red Sox 3 to 2 in victory over the Browns.

One run on a sacrifice fly in the first inning was the best the Braves could do with Albridge and the Cubs won, 6 to 1.

Cy Williams hit a homer with two on and gave the Phils a 5 to 4 victory over the Cards.

The Indians gave a thumping to four Atlantic pitchers and won, 13 to 1.

WASHINGTON, Aug. 10.—A seven weeks' whirlwind campaign to start the middle of September is now planned by Robert M. La Follette.

POLO TRYOUT IS SCHEDULED

By Henry L. Parnell. NEW YORK, Aug. 10.—America's polo team, which is to defend the International Challenge Cup against the British team at Meadowbrook next month probably will be picked after its final test today.

It appears to be a foregone conclusion that the Americans will line up in the first match with Watson Webb, the 11, Tommy Hitchcock at No. 3, Malcolm Sibleston at No. 2 and Devereaux Milburn, greatest of them all, in the back position.

Eric Reddy, the young Californian, is making a gallant fight and would have a good chance to displace Webb if he had a little more experience.

The British team, which arrived yesterday, was getting settled on Long Island today and was preparing to see what they called some much needed practice.

The Yorkers, who are all army officers with one exception, are any thing but boastful. In fact they say they have a very slight chance to win because Lacey and Kirkwood are two of their best players, and are not in good physical condition. Both were injured recently in London.

GAS STRIKE IS ANNOUNCED AT THE ARBON WELL

Messages were received Monday from H. C. Harris, geologist, at several Twin Falls oilfields to the effect that all gas had been struck in the Arbon Valley well near Two Mile at a depth of 2410 feet with considerable gas.

The oil sand is said to be 12 feet thick, followed by 25 feet of shale which suddenly went into dark brown sand which was very hard, with the most showing of oil so far encountered.

The past two weeks they have been drilling throughout the area with the object of keeping the hole as large as possible, but since oil sand is struck some time will be spent in casing the well which is expected by placing casing in the bottom and drilling through it after it becomes hard and driving in new pipe.

J. O. Nogels, veteran oilman of Fifty Avenue north will leave for Arbon Valley Wednesday morning. Following is one of the messages from Mr. Harris.

Arbon Valley well gas at 1410 feet, 12 feet thick, then 25 feet shale (all of colors, suddenly went into dark brown sand, very hard with no showing of oil, no gas, no driller refused) to go further until we run 8 1/2 casing for fear of danger from water, which is expected by placing casing in the bottom and drilling through it after it becomes hard and driving in new pipe.

commission, besides well-merited reproach upon the administration of the postoffice department.

The conclusion certainly seems justified by the exhibit and there is no question that Messrs. Foulke and Marsh are eminently credible witnesses.

THE SPOILSMEN AT IT AGAIN

The disquieting suggestion that the spoils system is in full cry in the postoffice department is conveyed by the letter of William Dudley Foulke, president of the National Civil Service Reform League, and Harry W. Marsh, its secretary, to President Coolidge.

This paragraph gives the gist of the complaint: We find that the postoffice department still makes political selections in the appointments made out of presidential postmasters but also of fourth-class postmasters, and rural free delivery carriers, which places are now in the classified civil service.

The letter goes on to explain how lists of eligible candidates are revised and new examinations held in order to make possible a choice of the politically desirable person, though he be the lowest of the three remaining eligibles, in violation of the just claim of those who stand above him.

The postmaster general, it is added, defends the practice of selecting eligible lists to members of congress for recommendation and he is asked why he does not then consult democratic congressmen why he consults local republican politicians instead; why he looks upon the findings of the civil service commission.

# WOMEN TO HAVE GOOD FAIR SHOW

### Special Exhibits for the County in Various Lines Will Be Arranged; Details Are Given in regard to the Method Labeling and Exhibiting.

The work of women's clubs in the Twin Falls county fair this year will be more prominent than ever before in the history of the exhibition and will be better coordinated.

The 18 clubs of the county are this year making more interest in the fair, partly because the special premiums which are offered for the first time this year, and partly because of the interest which was created last year in the social entertainment furnished by the various clubs of the county.

#### Will Make Entries

Each women's club this year, to make a complete entry, should enter collections of fruit, jelly, vegetable, meat and bread. It is possible not only for the clubs to win the cash premiums but also the sugar given by the Amalgamated Sugar company, the flour given by the Twin Falls Grain & Milling company, and the pressure cooker offered by Reynolds Brothers company.

#### Attend to Neatness

Attention should be paid to neatness and attractiveness in the exhibits, that is that uniform kind of cans and glasses and uniform placing of labels be observed, but judging will not be on your exhibits for quality and flavor will count as much as appearance. Place the labels an equal distance from the center of the exhibit.

Club members individually as well as every woman in the county are invited to enter and every individual has an equal opportunity to win the cash premiums, the sugar, flour and pressure cooker on display at this time. It seems probable that the food department of the Twin Falls county fair will be the biggest and best ever shown in the county.

#### Governed by Usual Rules

Club entries will be governed by the same rules and regulations as individual entries. Each club will be allowed one entry in each class open for clubs, and that may be entered by one of the products of the members of that club.

# Bonds of American Falls Dam on Sale on September 23

### Board of Directors Today Set Date for Disposal of About \$2,500,000 Issue; Work is Expected to Start This Autumn; Engineers' Report is Approved Here and Sent for Endorsement to Washington; Bids for Construction to Be Asked Soon.

Announcing that \$2,498,000 of bonds would be offered for sale for competitive bids on September 23; that complete plans for the American Falls reservoir had been forwarded for an expected approval of the secretary of the interior; and that it was anticipated that work would begin on the big dam this fall following the awarding of competitive bids, the American Falls district board of directors today started work on the working out of the necessary details involved in the carrying out of the gigantic plans, in contemplation.

#### Type of Dam

The dam will be what is known as the gravity masonry, and will be of weight sufficient to stand any pressure that may be brought against it from the water above. It is what is known as the internal counter type and similar to the Arrowrock, except in regard to height, the details have all been agreed on by the engineers. It was stated by President H. E. Shepherd, who said that there seemed to be no likelihood that the interior department would give approval.

#### Facilities for the Construction

Shepherd, who said that there seemed to be no likelihood that the interior department would give approval.

#### Rate of Interest

The rate of interest is not known at this time, but President Shepherd said that in view of the complete manner in which the legality and constitutionality had been sustained, and the high recommendation of the board of directors, he would be surprised if it would be as high as 6 per cent.
