Announcement that another bank will open in Buhl, October 1, is one of the encouraging signs of the times for this part of the state.

The determination of Judge E. F. Engvig not to hold up water by temporary injunction pending decision on the merits of the case, is of interest to the people of the Minidoka tract, and to some of the tracts in eastern Idaho. It does not affect the Twin Falls tract in any way.

The beautiful park in Buhl is becoming a center for annual gatherings of state associations. The Kansas club held one a few days ago. The Iowa people hold one Monday while the "Shower" folks will gather on September 7. The Tennessee people will hold their picnic Monday at the Filer fair grounds, which is also a center for various kinds of gatherings.

The fact that there are 3000 dairy cow owners in Twin Falls county indicates the great growth of this form of industry. The dairy business is growing. Diversification will prove a great boon to southern Idaho and will go on rapidly when the markets to the south are opened by the establishment of the new road from Rogerson to Wells.

The report of the Idaho Wool Growers' association in favor of establishment of textile factories in Twin Falls is just as logical as the statement that this is a logical center for such establishments. One of the great arguments for the building of a woolen mill here is the proximity of cheap power. It is of vital importance that the recommendations contained in the democratic state convention regarding Idaho electrical power be put into effect in order that we may utilize our advantages.

The report of a Japanese committee of officers in favor of reducing the army from 21 divisions to 16 is not altogether surprising, since as things stand Japan has an army far in excess of its needs. Such a change would be more gratifying if the reason assigned were not the proposed diversion of energy to the air force. For a country in Japan's position a strong fleet and a powerful aerial navy may be strategically the thing, but such a change does not materially add to the confidence of neighbors.

Ex-Governor Walton's success in capturing the democratic nomination for United States senator in Oklahoma comes as a shock unless one bears in mind the fact that he was largely rehabilitated by the anti-klan denunciation in the democratic national convention. It was pre-eminently "Jack" Walton's issue that tore the national convention's harmony to shreds. He had fought the klan in Oklahoma to the point of being impeached and thrown out of office. It then seemed as if he could never stage a comeback, yet here he is again running for Mr. Owen's place in the senate. Mr. Walton as Senator Owen's successor would seem like a travesty on popular government. Conceding to him the best of motives in the warfare he waged against the klan he demonstrated by his excesses his personal unfitness for high office and high responsibility.

PLAYGROUNDS ASSOCIATION

The Twin Falls branch of the Playground and Recreation Association of America is carrying on a good work of education in this community. More playgrounds are needed practically everywhere and we should foster this movement to the best of our ability. As a matter of fact it is the same as an investment in insurance it becomes a protection to the life of our American children.

Just recently a very young child was killed in Bingham Canyon, Utah, because there is no playground in a park of that mining camp and the child was running across the street when struck by an auto. Twin Falls may not need more playgrounds nearly so bad as many other cities, but we should not be too selfish in this great movement. Let's help our neighbor in this cause as well as ourselves.

A business man a few weeks ago laid aside a letter appealing for the Playground and Recreation Association of America. A few days later an automobile skidded, ran on the sidewalk and injured a neighbor's child at play.

Within the week, this same business man was driving his automobile 15 miles an hour. A little child playing among some parked cars darted out and was killed.

The next morning the business man drew his check and sent it to the Playground and Recreation Association of America. The need of his own children and his neighbor's children and all children in America had been brought home to him.

LEAGUE WILL FIGHT OPIUM

Dispatches from Geneva today that the fifth annual assembly of the League of Nations which has been summoned for September 1, is scheduled to whip into shape two new international conven-

tions that are expected to render effective what is known as the American program on opium and harmful drugs.

This program, as first emanated in the Hoover house resolution adopted by the United States congress, and later, through the efforts of Congressman Porter, accepted by the League of Nations as the basis and ultimate object of its fight against opium, demands the limitation of production of all harmful drugs to the world's actual medical and scientific needs. As long as the program declares, as the world is allowed to produce more of these drugs than is needed for the above object, just that long will it be impossible to prevent the unlawful traffic in them and their eventual arrival into the hands of dope fiends.

As the first step towards rendering possible the carrying out of this American program a convention will be launched rendering illegal the growth, exportation and importation of opium in the Pacific countries for smoking purposes.

Under the present Hague convention for the regulation of the opium traffic, opium smoking in the Pacific countries was not declared illegal. Leagues, however, as well as American experts, are convinced that as long as the opium growing countries are allowed to produce the immense quantity of opium necessary for opium smoking in the oriental countries, it will never be possible to keep much of this from being smuggled into other countries for illegal uses.

The league recognizes that no country can be prohibited from growing opium for its own domestic purposes, such as India, for example, where opium drinking is as common as tea and coffee drinking in northern countries. All countries, however, that grow opium will be placed under the most rigid restrictions and surveillance to see that no exportations are allowed except for medical and scientific purposes, and the same measures will be taken to regulate importation by importing countries.

EDEN

The annual school meeting of the Eden high school No. 2 will be held here next Tuesday afternoon at the high school building. Four trustees are to be elected to the board, of which two are to be elected for the three year term and two will be elected to serve out the unexpired terms of Fred Lutz and Tom Patton, who resigned some time ago. J. C. Knott and W. B. Sumner are present members of the board whose term expires. Mr. Knott is also clerk of the board. Several nominations have been made and a close interesting election is anticipated.

The date for the opening of the high school has been arranged for Monday, Sept. 8. The high school building, which is being remodelled, will be placed in readiness by that time. The trustees have announced the faculty for the coming year to be as follows: Mr. H. G. Hayes will enter upon his duties as superintendent for Monday, Sept. 8. He will teach public speaking, commercial law and perhaps one other subject. Mr. Hayes has also been elected to supervise the trade schools for the coming year. Ralph Movoid, of Bogkato, Wash., has been secured to take charge of the athletics. Mr. Movoid is a new man here, but comes highly recommended as a teacher and he is rated as one of the best basketball and football coaches in the west. Besides the directing of athletics, Mr. Movoid will teach arithmetic and history.

Mrs. L. A. Williams will teach domestic science, English and music. Mrs. Williams, formerly Mrs. Marie Roberts of Twin Falls, is quite well known here. Her qualifications as a teacher and musician are said to be of the very best. She has successfully taught several terms in various schools of southern Idaho and comes well recommended. Mrs. Lavella Thornton has been re-elected for the third successive year. She will again assume the responsibility of teaching mathematics, Latin and general science.

The Eden high school was placed on the accredited list early this spring. The work being completed by the students is equal to that of any high school in the county.

Appropriately city students will enroll for the coming year's work. With the above mentioned faculty the patrons are assured that the coming year will be one of the most successful in the history of the school.

H. A. Painter transacted business in Twin Falls on Tuesday.

D. L. Black left Thursday morning for Salt Lake on business.

P. A. Johnson was a business visitor at Twin Falls Tuesday.

Mrs. Veda Freeman departed Sunday for Los Angeles where she will spend a few weeks visiting with friends. She will go to San Diego and enter a training school for nurses.

W. O. Brown and H. O. Barnes were delegates from Eden to the democratic convention at Twin Falls Tuesday.

H. O. Lee attended the ball game at Twin Tuesday.

Very Straitened

Chicago power lines have been damaged. I've brought back the keys of the automobile you recommended. There isn't room in it for the tires you have made. London 21-1114.

Exercise for Tired Eyes

Lie on your back and roll the eyes now to the left and then to the right, look up and then down. Look straight at the ceiling and then down. This exercises all the muscles and rests the eyes. Use a diluted horse radish eye wash; rest the eyes as much as possible.

Desirable Place of Residence

The Land of Corntene was an imaginary land of interest and plenty, in which the houses were roofed with zinc, the rivers ran with wine and created food offered themselves to be eaten. The house was applied in detail to both London and Paris, following the writing of a satirical poem entitled "The Land of Corntene" about 1800.

Master Improvement in a Matchless Car-

Conquers Vibration

The Lanchester Balancer, a British invention that eliminates engine vibration by absorbing it at its source, is the added refinement that gives Willys-Knight a still higher degree of supremacy among motor cars of quality.

Developed the invention to perfect one of the most famous foreign cars. In bringing it to America, by special arrangement with the inventor, Willys-Knight cures the inherent vibration that long has been an universal annoyance to car owners.

Dr. F. W. Lanchester, R. S., a British engineer of outstanding genius de-

There is No Point of Vibration!

The new Balancer gives the final magic touch to Willys-Knight operation. Drive it all speeds; you never reach the "point of vibration", for there is no such point.

Perfect smoothness—perfect riding ease! And a sleeve-valve engine that improves with use! Willys-Knight advances still another step ahead of its field.

FILER SCHOOL ELECTION WAXES WARM AT FINISH

Report Comes From Neighboring City That Considerable Money May Change Hands Over School Election Next Tuesday.

The rivalry for places on the Board of Education in Filer is waxing according to reports from Filer which came to the Times office today. Each side is lining up their forces and the battle promises to be a final match. The election suddenly grew warm and each party is working to a finish to win its friends for their respective tickets.

The following story from the Filer Record will be read with interest by our readers here and in the city to the west.

Seven school directors are to be elected here next Tuesday, September 2. It is expected that many officials on the Rural high- and grade school boards.

The election will be held during the afternoon and each will be preceded by the annual school picnic. The high school election will be held in the high school building and the election in independent district No. 4 will be held in Central school. None of these elections appear in another section of this paper.

In the Rural high school district the terms of H. H. Shearer, present treasurer, Tom Amn and E. A. Beem, clerk, J. J. Good, clerk, and others are to be elected for three years, and as Mr. Beem is filling by appointment the term of Dr. J. Good, who in 1921 was elected for three years, Mr. Beem's successor will serve for one year.

All three of these districts have been nominated for re-election.

Lady's Name Filled The terms of four trustees expire in independent district No. 4, commonly known as the grade schools. They are: John M. Penny, chairman of the board, Dr. J. J. Good, clerk, A. O. Madland, treasurer and L. D. Allen. The two latter have been filling out terms by appointment.

Seven persons have been placed in nomination for these offices. They are: Mrs. H. E. Hammerquist, John Elias, Ernest Dexter, Jesse Halmlie, A. O. Madland, R. T. Graves, and John M. Penny.

Mr. Allen has been serving out the unexpired term of W. J. Fenwick, who removed from the district and whose term would have expired in one year. Candidates for this office are: Mr. Hammerquist and Mr. Penny. Mr. Madland has been filling out the unexpired term of A. A. Shearer, who resigned when he became a legislator. His term would have extended two years. Jesse Halmlie is the lone candidate for this place. The terms of John M. Penny and Dr. M. J. Goode expire this year, hence their successors are to be elected for three years.

Candidates for their places include John H. Elias, Ernest Dexter, A. O. Madland and R. T. Graves. In the case of Dr. M. J. Goode and L. D. Allen, these gentlemen asked that their names not be considered as candidates for re-election.

Nominations of candidates for the office of trustee were accepted by the clerks of the two boards up to six days previous to the day of election, excluding the day of election. This period closed yesterday.

Each board is made up of six directors, the term of two expiring each year, these places being filled by trustees elected for three years each. The terms of directors expire by appointment. They are filling out terms of trustees removed from the district or otherwise disqualified, expiring the first day following their appointment.

Class of 1924 Lays Claim to Dome Numerical Honors Claiming precedence over the class of 22 members of the Twin Falls high school, graduating class of 1918 have made entry for the distinction of being first to occupy the dome of the high school dome with their class numerals.

The statement comes following the publication of the painting over of the marks of the war, warlike inscribed on the high school dome—so swathed in traditional garb.

Members of the class of '18, so the story goes, were darkened on the night of Nov. 1918, painted the place of warlike on the high school roof and placed their numerals on the dome of the dome.

Funeral Services for Mrs. Smith at Hanson Monday Mrs. J. M. Smith, who died at the county hospital Tuesday morning, will be buried at Hanson Monday afternoon at 4 o'clock. The funeral services will be held at the home of the widow.

The board will be in state at the home of the widow. The funeral will be held at the home of the widow.

Gov. Smith, the eldest son, arrived Friday and is expected to arrive this evening.

ENTERTAINMENT AT FAIR BEST IN ITS HISTORY

Professional Vaudeville and Circus Performers to Put on Program During the Time That the Big Show is in Progress at Filer.

Visitors to the Twin Falls County fair at Filer, September 9 to 12, are going to see the finest entertainment program ever arranged by the fair management. A vaudeville troupe recruited from the leading theatrical circuits and circuses of the country has been engaged. Secretary J. M. Markel announced today.

Performers well known in the professional world, some of whom have played before the royal houses of Europe and others who have enjoyed long runs on Broadway, will appear at the local fair. No expense has been spared by the management in booking this year's attractions, and the program is easily the best one ever engaged here. Among the feature attractions are the Sunset Four, featuring four singing foals; Young Wong brothers, quintet of Chinese; a sensational knife-throwing, water juggling and fire-eating show.

The entertainment committee investigated every possibility before closing its contracts. A number of high class acts were offered by reputable booking agents but the committee declined them since they were determined to book acts that were different from those of other years. Every act engaged is a top-notch act. Some new and novel departures in costume will be introduced.

A musical program is being worked out which will furnish the performers with the scores needed for the staging of their acts, and especially visitors during intermission. A popular band has been engaged to play afternoon and evening concerts every day of the fair.

Revering in the old ways, variety is the spice of life. The management has arranged an entertainment program that calls for a heavy daily program of horse racing, the entertainment already listed and a "forty-wheat" and merry-go-round to give constant pleasure.

Closing Story is Pleasing to Kiddies

A small but appreciative audience witnessed the play "Show White and the Seven Dwarfs" at the city park Friday morning at the regular story hour which was the culmination of the library story hour for the summer.

The play was given under the direction of Miss Edith Dyer, whose untiring devotion in the children's behalf has made the Friday story hour an splendid success and the play was a very pleasing one.

Each of the characters were well presented by the children and showed excellent training. The story hour and playground supervision closes today.

FIRST BEANS OF SEASON IN TODAY

The first beans of the season to be delivered to the Southern Idaho Bean Growers' Association are arriving this afternoon from the farm of F. H. Black, west of the city. Mr. Black is threshing today. The yield is not yet known, but is good. The quality is also excellent. Secretary C. P. Howies of the Southern Idaho Wholesale Grocery company, which handles the beans sold, said they could not yet name the price which would be good, however. There will be a directors meeting tonight to fix the situation.

Patrick, Madam-Alr, and Mrs. W. A. Patrick and family returned last evening from a three weeks' trip to the northwest. They visited Portland, Seattle and Vancouver. They also visited Rev. Moran who was here for a number of years as pastor of the Christian church and is now located in Yakima, Washington.

WOOLEN MILL FOR OUR CITY HELD LOGICAL

Report of Secretary of the Wool Growers' Association Points Out Feasibility of Power, Cheap Labor and Transportation Facilities as Reasons for Its Establishment.

That the proximity of unlimited power resources; with railroad facilities soon to be among the best in the country for reaching live-water and the markets of the world; with labor plentiful and cheap, with construction cost low, and with climate and general conditions excellent, the report of the Idaho Wool Growers' association, filed by Secretary Donald McLean and released today, goes to show that Twin Falls is an unrivaled location for the establishment of a woolen manufacturing concern.

The report goes into great detail and points out the advantages of this city, from a scientific point of view.

Man's Duty to Profession Every man owes some of his time to the upholding of the profession to which he belongs.—Theodore Roosevelt.

NORTHSIDE TO GET THREE DAY RUN OF WATER

Request for a loan of 1500 second feet of water for three days by the northside farmers to the farmers under the second and third regulations on the northside was granted late this afternoon by the Twin Falls canal board, to avert the crisis impending on the northside.

The diversion from the northside flow which has been standing at 2200 second feet will start Thursday morning at 6 o'clock and will run for three days, until Sunday morning.

During this time, northside farmers will have a supply sufficient for domestic and stock needs.

No irrigating will be done on the northside until late fall. The three-day run will be devoted entirely to accumulating a supply sufficient for stock and domestic uses for 20 days.

School Election Will Be Held from 1 to 6, Tuesday

Polls for city schools Tuesday will be at the Bickel school for No. 1 and the Lincoln school for No. 2, and will be open from 1 until 6 o'clock. The boundaries are Shoshone street with Blue Lake as an extension north and the highway south from this southwest end of Shoshone. All property owners or parents or guardians of children between 6 and 21 years can vote.

TIMERS WILL NOT BE PENALIZED NEXT MONDAY, LABOR DAY

On account of all the stores being closed next Monday and because our forces desire to enjoy the holiday we will not publish a newspaper on Labor day. This is one of the regular holidays of the Twin Falls Typographical Union, and under our contract these printers are allowed this day each year as a holiday.

City Briefs

To Wisconsin—For a six weeks vacation trip, Mr. and Mrs. Marshall F. Browne and daughter, Dorothy, left today for Madison, Wisconsin, traveling by auto.

Leaves for Tournament—James L. Stucke accompanied by his son, Leonard, left today for Boise where he will attend the tennis tournament. He is a double with Henry H. Grinnell, for state and northwest championships.

Asks Divorce—Maybelle Norville, through her attorney, J. W. Taylor, filed papers late Friday afternoon in a suit for divorce from Henry Norville, having her complaint on alleged desertion dating from December 1922. Residence of the defendant is said to be in Delta, Colorado.

Leaves for College—Miss Mayme Swan left this morning for Lincoln, Nebraska, where she will resume her studies in the state university. She was accompanied by Mark Swan, who is coming to Nebraska, to act as a bank position with his brother, John.

National Defense Day—Arrangements for the program for National Defense day were completed last evening. There will be a short drill of Company G, national guard, and speeches by Congressman Assistant T. Smith and Mayor Shad L. Higgins. A committee consisting of Dr. W. P. Pinner, S. H. Graves and C. P. Dwight is compiling statistics of foodstuffs and supplies. Ballotists for Company G to bring it to full strength are invited.

Camping Party—The Pythian Sisters and their families enjoyed a camping party at the home of Mr. and Mrs. W. H. Griffin Friday evening. As the motor arrived they were asked to register and payed a many pennies as their were letters in their mail. In the treasury fund, Mrs. W. C. Griffin was the prize and in the "camp activities" contest the prize went to Mr. Floyd Clark. Each man was required to fish and on his hook was a paper with the name of a fish on it. He was then awarded for fishing without a hook and he either had to represent the kind of fish he caught or pay a fine. A large camp fire was made in the back yard and a water roast enjoyed and many interesting camp fire stories told. There were fifty in attendance.

VETERAN WALKER IS DISTANCED BY LOCKED CAR

George Stokes Falls to Break Record of Older Man but Makes Fast Time in Walk Auto Passes Him on Way.

CHICAGO, Aug. 26.—George Stokes, veteran pedestrian, failed to break the walking record of 23 hours and 56 minutes from Milwaukee to Chicago, a distance of approximately 100 miles, now held by Henry Schmitt.

Stokes made the attempt to break the record on Friday, August 8, expecting to complete the walk on August 9, which was his sixty-sixth birthday.

The start was made at 2 p. m. on the 8th and exactly 24 hours later Stokes had covered 80.3 miles at an average speed of 3.3 miles per hour being forced to give up at this distance on account of an acute attack of indigestion. He finished the trip to Chicago in an automobile.

Stokes, attempt to walk from Milwaukee to Chicago was really a contest between him as a long distance walker, and an automobile backed in high gear which was to keep up with, but not pass the walker. The car which was a new 1923 Buick standard six performed the difficult task of running in high gear all the way at the average speed of 2.2 per hour. Mr. Stokes dropped out, the car continued on its way, arriving at Logan Square, Chicago, with an average speed of four miles per hour for the entire distance.

Harry Dale, automobile editor of the Wisconsin News, locked the car in high gear and nailed the hub to Rockwell Stephens, automobile editor of the Chicago News, who met and unlocked the car at the end of the trip.

George Stokes when camped out on having performed a wonderful feat in walking 80 miles in 24 hours at the age of 69 years, stated today that the car performed his monthly penmanship test in covering 100 miles at an average of four miles an hour and at times as low as two miles an hour.

May Overdo Even That

"Exceed the safe way," says an old saying there is no safe way to overdo your indomitable rights.—Duluth Herald.

SECTIONAL PLAN FOR BIG DIST. DAM APPROVED

System of Construction Outlined at Meeting of August 19, 24. (Cont.)

Approval of the sectional gravity type of dam was created by the meeting of the advisory board of the American Falls district held at the American Falls hotel, according to the statement of today of P. E. Sager, member of the board, director of the big district, on his return from the conference. Data for reception of construction bids will probably be fixed Tuesday, when completion of cost will be received.

The sectional gravity type of dam, as recorded by engineers as the best in dam construction, and was accepted by the board on August 19 on a recommendation of the United States civil reclamation engineer from San Francisco, who was present at the meeting of the advisory board, which comprises in members all directors of districts to receive water from the American Falls reservoir. It has been confirmed by the interior department.

While the initial cost of the sectional gravity type is in excess of other designs of construction, the maintenance cost is said to be a minimum.

In view of the tremendous volume of water to be impounded in the reservoir, as the water will be backed up for thirty miles by the dam.

conclusion of the advisory board meeting, he has been making an inspection of records of county agents in connection with right-of-way matters.

Some right of way remains to be obtained along the river above the dam, and negotiations have not yet been closed "for all right-of-way within the town. These matters will be cleaned up at the Tuesday board meeting."

The Car You Buy Must Live in the Same Community with You

WHEN a man buys an automobile he must consider the community he lives in as well as the car he buys. The measure of strictly local responsibility back of the car, the local facilities for service, the interest of the local dealer in the welfare of the owner—these are some reasons why we are selling satisfaction with every Buick we deliver.
