MIDDLEWEST GRID TEAMS SHOW CLASS

BY HENRY L. PARBILL. CHICAGO, Oct. 22.—With the season half gone and with most of the big intercollegiate games out of the way, the middle-west practically has checked the season's intercollegiate championship.

Marquette has defeated the Navy, Notre Dame has defeated the Army, Chicago has beaten Michigan and Nebraska has beaten Catholic.

Notre Dame has three more intercollegiate games ahead, defeating Georgia Tech and Carnegie Tech, and it is quite possible that three victories will be chalked up for the middle-west.

The western conference teams have made the best showing of any organized group in the country. In twenty games this season between conference teams and non-members they have won 17, lost ten and tied one.

Missouri, one of the big ones of the Missouri valley conference, beat Chicago 3 to 0; Louisiana came up from the south and beat Indiana and Little Rock beat Wisconsin to a tie.

Notre Dame has two more games with conference members in the north and west, and the chances aren't very bright for the conference teams. The Wisconsin-Notre Dame will be one of the biggest games of the year as the Big Ten will be up to a man behind Wisconsin to uphold the prestige of the "Big Ten".

Notre Dame is going into the Princeton game Saturday with a team that Charlie Rocker is worried over. The writer says that the team that played at South Bend and Rockne said it was uncalculated and the contest on the local grounds promises to be historic.

This evening there will be such a commotion at the fact that if Lincoln field has been located near an Indian cemetery, the excavators will be unexcused and many of them are feeling an odd time scolding many.

The reason that the "Big Ten" game at Lincoln field will "blow" is that there after school to practice yell and sing play.

GENEVA, Oct. 22.—With all arrangements completed, the meeting of the council of the League of Nations at Brussels to determine the final boundary question between Great Britain and Turkey, will open on October 27 at Istanbul. It is expected a formal session will be held in London to fix temporary boundary pending the final settlement.

MERCHANTS LOSE TO UMBAGH '5'

The Umbagh bowling team triumphed over the Golden Gate team in all three games of last night's match at the local bowling alley. Some of the matches were close while the others were enjoyed a margin of 200 pins in the second game.

Several members of the merchant's team played badly last night. They were only a time 275 on today in the entire evening, while the Golden Gate four points of having lost and some suffered a total loss.

Charlie Bruggeman had high scores for the three games, 225, Individual same honors went to Charlie too in the second game of 209 in the first and same.

Table with 2 columns: Name and Score. Includes Golden Gate and Umbagh team members and totals.

Princeton-Notre Dame play expected by an all star team of former Princeton players and coaches. The scrimmage yesterday had the variety completely fulfilled and demonstrated they need a lot of improvement if they hope to stop the Catholic shift.

Twin Falls-Gooding Game to Attract Large Throng

The best game of the season will be played at the home grounds Friday afternoon when the Twin Falls invincible team runs into the Gooding football team in the declaration of a football fan of the high school while waiting for the attendance at Lincoln field Friday afternoon.

There were plenty of reasons given for the Twin Falls invincible team is invincible and say the Gooding team is uncalculated and the contest on the local grounds promises to be historic.

This evening there will be such a commotion at the fact that if Lincoln field has been located near an Indian cemetery, the excavators will be unexcused and many of them are feeling an odd time scolding many.

The reason that the "Big Ten" game at Lincoln field will "blow" is that there after school to practice yell and sing play.

DODGE BROTHERS TYPE-B SEDAN

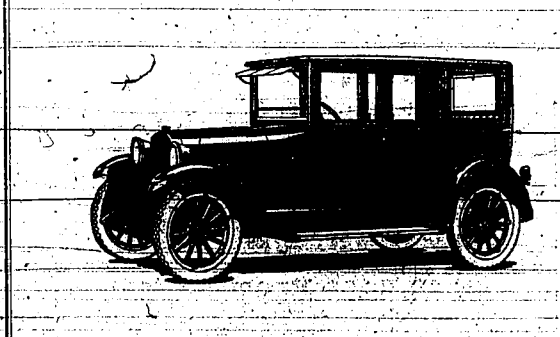

This car is now driven by a great many people who never before owned, and never intended to own a closed car.

It is driven daily over roads that heretofore were considered too rough and too heavy for anything except the sturdiest open cars.

As a matter of fact, the Type-B Sedan is as sturdy as an open car, and was built by Dodge Brothers for the same identical kind of service.

The price is \$1250 f. o. b. Detroit—\$1100 delivered.

Magel Automobile Company, Twin Falls, Idaho.

Don't forget that the Liberty Bond campaign wide poll in 1912, passed out would have over 100 electoral votes. It received the electoral vote of two small states. The Digest poll will be just a taste of the mark this year. Idaho Free Press.

The out to top the transfer of American Falls district bonds more than a week after delivery and after the money had been paid over to the government, would certainly be one of extreme procrastination. The dam will be built and will prove of the greatest benefit to the people.

THE BUTTER PROFIT OF THE FARMER

(By JAMES D. WHELAN)

"Think of the farmers of the dairy industry in Idaho. The republican tariff has given the Idaho farmer an advantage of 8 cents per pound over the butter made in other countries for the United States market, on 20,522,434 pounds manufactured in Idaho in the past 18 months amounting in protection to \$1,615,722.11." Republican Advertisement.

Determination to treat the republican advertising with a degree of decorum which will satisfy the fastidious in that organization alone prevents the writer from denouncing the above statement with a fitting epithet; so this article will be confined to showing that it is absolutely and unqualifiedly false.

The Times has just received the weekly report of the Bureau of Agricultural Economics of the United States department of agriculture, for September 21, 1924, containing data up to September 16. After saying that butter prices are at present higher in London and in Copenhagen than in New York, the report proceeds, "Quotations converted to their equivalent in cents per pound are: the prevailing rate of exchange were as follows: Denmark, 44 cents; Dutch, 45 cents; Irish, 42 cents; New Zealand, 42 cents; Australia, 41 cents; Canadian, 40 cents; and Siberian grain, 35 cents. Butter in New York, 32 cents, was quoted on September 15 at 37 1/2 cents per pound."

With the exception of the small production of inferior quality in Siberia, which was just a shade lower than New York, every country had a higher butter rate than ours, and yet we are told that our butter would be 8 cents a pound lower if it were not for the tariff which prevents producers in Denmark, Ireland and Australia, from shipping butter from their higher markets to sell in our lower. Whether the man who with the best trust campaign check find due to put forth such misrepresentations are honest to persuade the reader can judge.

The republican members of the agricultural committee of the House of representatives on May 2, 1924, unanimously agreed to the majority report on the McCarry-Hangen bill, a measure for which, Congressman French and Smith voted, but which is now subjected to be at least defective in detail. This report on page 20, says: "Our farmer's price is the ruling price in the world market minus the cost of getting the product to these markets." No wonder Congressman French complained in his speech of May 20, 1924, quoted yesterday, that the farmer was suffering while the manufacturer was prosperous and that the consumer was required to pay more than he should.

Special privileges to trusts helped bring on the poisons under republican laws in 1874, 1881, 1890, 1893 and 1907. In all these cases except the last world conditions contrived somewhat. The 1907 law, which Morgan said that the worst financial panic in history ever known, was a republican product.

Nor did the able chairman of the committee, Congressman Hangen, fail to point to the article bearing in his summary of conditions in his address to the bill. He said: "The American farmer sells his eggs and BUTTER in competition with the surplus products of the world."

The writer expects to show that the same condition exists with reference to practically all the articles mentioned in the republican advertisement. Since they have served butter that was taken from their claims are equally false with reference to the others.

No wonder, after making statements like those quoted, they seek to divert attention from them by claiming that the supreme court is in charge. They know it is not. They know it is not. They will not be elected. They know that if he were he could no more submit a constitutional amendment or patch the supreme court than *Shad Hodge* can. Frank Martin pointed out, it takes two thirds of both houses to submit such amendment and the south and east will never do it. It would take three fourths of the states to ratify it and the south and east would prevent that. *LaBette's* plan is a piece of pernicious bunk, just as *Borah's* save-two decision bill was, but it is not a live issue. The republican leaders know that as well as *LaFollette* does.

Commissioners' Proceedings

The Board at this time proceeded to the examination of claims against the Agricultural Fair fund, and having completed such examination, warrants were ordered drawn in the following amounts:

Hospital Fund.
Alvoni & Mott, groceries 23.30
Hake, Joseph, vegetables 3.00

You know if some one starts out before you do it's hard to catch up. You have to walk fast and when you do catch up you've burned out a lot of energy while the other fellow is still fresh.

— And that's the reason some people lose out—they fail to start saving in time. They put it off and put it off till it's too late.

Now is the time to save and the Twin Falls National Bank is the place as just a few weeks or months association will prove.

CANAL COMPANY POWER PLANT IS MANAGER IDEAL

Engineer Smith Says Diversion of Point of Water Withdrawal from Main Canal to Lowline Will Give Fall of 140 Feet; Municipal Lighting Could Be Established and Power Generated for Factories.

Power aggregating 4,000 minimum and 15,000 maximum can be generated by the Twin Falls Canal company by diverting the water from the main canal into the low line at a new point and causing a fall of 140 feet, according to Engineer Burton Smith, manager of the company, in a statement made before the Rotary club at its dinner today. The other two options in the system where power can be generated, he stated. This power could be used to promote factories and to furnish municipal lighting on the Twin Falls tract.

Captain Everett Sweely, who was scheduled to speak on the low line and short haul, deferred his main talk to discuss the issue raised by Manager Smith. It appears that under the state law, the company could not sell power in competition with the other plant already established by the Idaho Power company, but could furnish power and light to its own stockholders. This attendance, however, is not a laborer on the tract, including the city of Twin Falls and other towns. Hence, the foundation for municipal lighting would be laid.

The talks made a deep impression and were backed to with great interest. The constitutional amendment was discussed. It was thought that good had come from the union, in which it might be used to prevent Government interference. The Rotarians will take up questions regarding light, power and transportation in order in the near future.

Will Elect New Member on Board

An election by the remaining members of the school board to fill the vacancy caused by E. S. Flory being held at the next regular meeting of the board.

Try Turkish baths for rheumatism. 616 Male St. Phone 558-2-2.

I. H. MASTERS IS HONORED

We believe that our Baptist constituency in Idaho will feel proud of the fact that Mr. I. H. Masters, editor of the Twin Falls Times, has been selected as democratic candidate for lieutenant-governor. Mr. Masters is a member of the First Baptist church of Twin Falls. He has served the church as Sunday school superintendent, teacher of the Baraca class, and in several other capacities. He is also a member of the Board of Managers of our Convention.—Baptist Messenger.

ADMISSION FREE—EVERYBODY INVITED

FORECLOSURE CASE RULING ON SALMON

Judge T. A. Borchert, of the district U. S. court last evening handed down an opinion in the foreclosure water case on the Salmon, according to the information received by Attorney G. E. Hull, representing the court. He holds that the principal sum now due the plaintiff upon each contract is \$2101, as against the original contract price of \$10 an acre. Interest at the rate of 2 per cent from April 1, 1912, is at the rate of \$1000.

The court said: "I further assume that all outstanding contracts for water on the Salmon, according to the information received by Attorney G. E. Hull, and as a provision against such contracts plaintiff will bring into court for delivery to defendants certain amount of stock—\$2101 per acre and five-sevenths share for each acre of irrigable land."

Attorney William Jensen, Rex Road St. Weaver is also in attendance.

Stop Tractor Sale

A stop of a tractor has started against the Reynolds Ranch company, which is an impediment against further proceedings in the sale until further order of the court. The plaintiff, who is represented by J. H. Sherford of Hull, claims that the defendant company is in breach of its contract.

Russell Lane P. T. A. To Hold Meeting on Friday Evening

A very interesting fraternal program will be held at the Russell Lane school house Friday evening, October 24, at which time the Parent-Teachers association will put on a program. This will be followed by a discussion of county political issues by the young candidates of Jerome county. Coffee and sandwiches will be served.

Spends and Meets

If there were no penalties, the spender would be nothing to speak of. The spender has his place in life's scheme, whether he think so or not. Those who save their money, however, are, as a rule, the most inclined to usefulness, which is only natural. What is a spender's duty? It is to live in the pockets of the spender. Yet, if the spender would take a little of the miser's example, and save, then he would be far wiser and better than his neighbor.—Exchange

GLORIA SWANSON WEARS HAT LARGE AS UMBRELLA

Gloria Swanson wears the world's biggest hat, which is a hand-made imitation of straw, fully colored in the Algoria manner and introduced in the African art not only of the head and neck and face, but the shoulders as well. It took the place of an umbrella if they had had one on the edge of the Sahara Desert.

ART DEPARTMENT OF CLUB HOLDS FIRST MEETING

Mr. M. J. Sweely, Entertainer, Tuesday evening Art Department, held its first meeting in the "Futuristic" many interesting works of art exhibited.

It would have been had in had found a more beautiful place for the first meeting of the art department of the Twentieth Century club than at the home of Mrs. M. J. Sweely, when a large and enthusiastic number gathered yesterday afternoon.

The Sweely home is indeed a hive of art, every where is to be found beautiful paintings and art objects. The decorations from the original Mrs. Sweely, Mrs. Meloy, and Mrs. Douglas, were a great help to the meeting, with a brief talk on the need of the department as given by the general club. Mrs. D. Alexander sang a vocal number entitled, "The Little Bird Home in the West."

Mr. A. R. Weaver quoted how the department was really the club members and Mrs. Sweely gave a talk on "Western Painters."

Mrs. Sweely had another excellent rate collection of studies by western painters, the most prominent of these being Thomas Moran, Frederick Remond and G. Eugene Schroeder, a former Malheur. Several of these beautiful pictures were loaned for the occasion by Mrs. John Maxwell, Mrs. Mary Norton and Mrs. John Harwin and Mrs. D. B. Moore.

England's Tobacco

England always takes the lead in the tobacco industry and now the rest of the world is getting along with the leaves as an English importer of Havana who has been in the trade for 20 years says there are three cigar makers in England, and that these plants cost about 250,000,000 Havanna plants in a year, say \$100,000,000 worth. This importer said the number of cigars made in England is 1,000,000,000.

Through the Needle's Eye

It is a fact that there is in the wall of Jerusalem a small opening built for the use of pebbles and known by a name which is translated as "The Needle's Eye." Although the opening is quite possible for a small unenriched man, divided of all its equipment, harness, etc., by kneeling to see it, it is very difficult to pass through. The gate is built in limestone.
