

Shenandoah Establishes Record for Navigation of Air on Long Journey

GIANT DIRIGIBLE CRUISES ONWARD

AIRCRAFT IS SCHEDULED TO REACH LAKEHURST AIR-DROME TONIGHT.

ABOARD THE S. SHENANDOAH BY RADIO FROM UNITED PRESS CORRESPONDENT, Oct. 25.—Records in air navigation will have been made by the navy dirigible Shenandoah when it completes its spectacular 2,000 mile cruise, and lands into its hangar at Lakehurst, N. J. late today.

The cruise is the longest both in time and distance ever made by an airship of any type.

No other dirigible has ever traveled over mountain peaks and through passes as the Shenandoah did in its two crossings of the Rockies.

Officers aboard today as the dirigible neared its destination, pointed out that it is the first ship of its type to cross the entire width of the Rockies and the flat Bonville to half over the Pacific ocean.

It is expected that it will be repaired for its return, officers said, as no other ship could have withstood the storm and attack without breaking up.

The cruise, also has demonstrated the practicality of the mooring mast for breaking into voyages for refueling and making minor repairs.

GREENSBORO, Ind., Oct. 25.—The dirigible Shenandoah was sighted at this distance north of here at 8:40 a. m. today on her way to Dayton, Ohio.

CINCINNATI, Ohio, Oct. 25.—Local radio stations briefly before noon today picked up a message from the Shenandoah, indicating that the dirigible was nearing Cincinnati.

SAVED AND LOST

CONTRASTED IN GLOWING TALKS

The difference between the lost and the saved was graphically shown in the lectures by Paul C. Brown before the State Christian Endeavor conference today. A cross was made showing the lost side and the saved on the other. The ones on the unsaved side of the cross were both with and under the law, those on the other were both born and under grace.

The difference were pointed out and all urged to be sure of themselves and to seek to bring all on the unsaved side over to the saved side. Containing the bible study, Rev. Arthur Houser speaking on "Friendship with the Lord," declared that real friendship implied mutual revelation, mutual interest and real communion of interest. It involved the marriage to the Lord. The speaker said, "You and me, this answer depends his spiritual life. A great part of the day was taken up with reports. There will be a banquet and pep session beginning at 8 o'clock, followed by evening services.

Officers will be elected late this afternoon. There will be morning watch service at the Christian Endeavor Sunday school and church service at 10 o'clock in the morning. An interesting session from 3-4 till 4 tomorrow, and another Sunday evening session.

EDGERTON COMING TO TALK HERE

FINAL SHOWING AT IDAHO TONIGHT

Large Numbers Attend Club—A large number of the members of the Blue Jacket Boulevard club met Friday afternoon at the home of Mrs. L. H. Thowls. During the business session it was decided to carry on the work for Mr. Thowls's home on an indefinite basis. Other plans were discussed and light on the table for a future meeting. "Women in Public Life" was the subject for the afternoon and was ably handled by Mrs. Frank Jones. The hostess served delicious refreshments and the meeting adjourned at 8:30. A luncheon on the 29th at the home of Mrs. Jones on the Kinross road.

Optimism of Wall (Continued from page 1)
When production is usually on the increase. This year, production and employment reached their July and August peaks, but during the last year or more, but during these months, the stock market was strong and prices of stocks were high. The democratic campaign had not gotten under way. The Street was confident the November election would be a mere ratification meeting for Coolidge. But during September and October, when both production and

employment showed slight gains, and when the stock market was heavily to seasonal conditions, Mr. and Mrs. Carolyn Durlay had been expected to work to higher levels, there was a quite general slump in their prices. This could not have been due to anything but a growing conviction on the part of Wall street that there was a popular swing to Davis, and that the election of Mr. Coolidge, and a continuation of an administration devoted above all other things to the interests of big business, as typified by Wall street, was not longer certain.

THE OLD HOOT OWL
(A card-bearing this verse hangs in President Coolidge's office)
A wise owl owl put on an oak
The more he heard the less he spoke
The less he spoke the more he heard
Why can't we be like this old bird?
So Coolidge is said to want to be like an old hoot owl upon a tree
So much like a tree—then "old hoot" So say in deuce, no few in words
They blink their eyes on the high of it, day
And walk till night to sleep away

The little chicks from their mother's wings
for the workman's wage to help the "Gumps."
Now don't ask me for my consent
To vote for an "owl" for President.
I'll cast my vote for the "daylight
Why can't we be like this old bird?"
Wise characters are sound and clean.

The Minister recommends Conoco
FOUR of my parishioners use gasoline—each a different brand. I used to divide my gasoline business among them. It is my wonder that gasoline bills were high or that I had a troublesome motor? Finally, a friend explained that while my plan was excellent ministerial diplomacy, it was not very good business. I accepted his suggestion to try to find out the best gasoline and use it all the time. I made some tests myself, asked a lot of others about gasoline and determined to use Conoco. I have used it ever since with the greatest of satisfaction.

I would not be guilty of even implying that all other brands of gasoline are bad, but I am glad to recommend Conoco because it has reduced my gasoline bills and, better still, has stopped the trouble I used to have just about all the time when I was trying to use a mixture of two or three sorts of gasoline. I find it easy to buy the same high quality Conoco wherever I go. It is probably for sale in more places than any other gasoline and even though there were no other advantages to be gained by using it, I would recommend Conoco because it is so well distributed.

The only worth while test of gasoline is the one which determines its range of volatility—whether it has the right proportions of lead, medium and light fractions (boiling points), to satisfy the requirements of modern carburetors. Conoco more than meets the U. S. Government specifications based on such tests. It is properly called the balanced gasoline. The maximum of power is put into Conoco in a way that enables the average car to get all this power out and put it to work and that means economy and satisfaction.

Highest Type of Joy. There's no joy superior to that of being successful in the competitive race for you. Yet every man has it in him to be infinitely above what others think possible. Hidden deep in every man is the unseen opportunity waiting for the touch of occasion to call them forth. They respond as a matter of growth and then only to answer a recognized need. As the mind is urged to find discrimination it learns to weigh more subtle arguments. As the heart is taught to feel the cry of another, sorrow it develops larger capacity to enter into the feet feelings of the human soul. It is all a matter of human and divine laws. He who permits himself to develop his best becomes the man of the hour in hour of need. He rises on the strength of his trained personality. -Exchange. SAVED FROM AN OPERATION

Mrs. Shaw Calls Lydia E. Pinckham's Vegetable Compound a God-Send to Sick Women

Cambridge, Maine.—"I suffered terribly with pains and nervousness in my back and legs for two years. Each month I had to go to bed, and the doctor told me I simply had to go under an operation before I could get any relief. I saw your advertisement in the paper, and told my husband one day to get me a bottle of Lydia E. Pinckham's Vegetable Compound. Before I took the third dose I felt better. I took the fourth dose in two days, getting better all the time, and now for four years I don't have any pains. After taking the medicine for two years I had another child—a lovely baby girl now four years old—the life of our home. I do praise this medicine. It is a Godsend to women who suffer with female troubles and especially for pain at the periods. I surely was very bad once, and I know that Lydia E. Pinckham's Vegetable Compound saved me from an operation." Mrs. Josie M. Sitaw, Route No. 1, Cambridge, Maine.

A country-wide canvass of purchasers of Lydia E. Pinckham's Vegetable Compound reports 95 out of every 100 were benefited by it. For sale by druggists everywhere.

O. J. Helms and Charles Calvert were business visitors in the Magic City Saturday.

E. Smith has taken over the management of the stables, carriage and harness department at the home of Mr. and Mrs. C. D. Holt. He is renting the space to those wishing to store their products.

Justice Wheelan is confined to his home this week on account of sickness.

Mrs. Larson was taken suddenly ill Sunday with an attack of appendicitis.

Mr. and Mrs. Herbert Smith came down from Twin Falls and spent part of the afternoon at the home of Mrs. Clyde Hughes Sunday.

Mr. and Mrs. J. L. DeGroot of Blue and Mr. and Mrs. J. J. Gordon of Eden were calling on friends in town Sunday.

Several other young people, including school students and guests gathered at the community church on Saturday evening to enjoy a Highway party. The church parlors had been decorated with willows, lawn ornaments. The young people enjoyed a

time and each was met by a horrible which was given a cold and clammy handshakes. Then the axmen started off. One game was passing the apple. The bats went. Another was the ball of fat, some of which were most terrible. The poor cat had to play his part in the evening entertainment, so in the dark, the head, backbone, foreleg, hand and tail were passed around through all the hands. The poor cat went away from the circle amid shrieks of fear or gales of laughter. Each guest was given a walnut and on opening it found directions for some stunts. This afforded much amusement. There came the one letter opening contest, and the bats went again although the cat was given a hard battle. Refreshments were served and one of the hosts pulled the wonderful kluge. Without a doubt the young folks enjoyed their Halloween fun.

As candidate for election to Congress from the Second District on the Democratic ticket your vote is solicited on basis of Democratic principles.

I shall be for such legislation as will assist in causing agricultural and kindred interests to receive fair pay for labor performed and fair return on investment required.

Am for amendment of Federal Reserve Act so that profits may be used as guarantee of deposits in membership banks. Am for the farmer rather than Federal officials receiving loans from Federal Land Banks and Live Stock Loan Companies created under acts of Congress.

If elected shall give same attention to official duties as have given to public matters and to private business in past.

ROGERSON IS RADED BY POSSE

St. Regis Pool Hall in Terminus Town is Closed by Order of Judge Babcock and Proprietor and Waitress Brought to City Last Evening; Another Successful Raid Early Last Night; Commissioners on Detective Work Earlier.

Arrested at 8:30 last evening by the officers of the office of Sheriff M. E. Finch, with a view of abolishing in his possession in his home at Lakeview, Rogerson was the victim of a second raid by the sheriff's forces in the terminus town yesterday afternoon. The commission shortly after 3 o'clock and resulted in the arrest of W. C. McKee, proprietor of the St. Regis cafe, and a girl waitress. These were brought in at 5 o'clock last evening by Deputy Sheriff Charles E. Jones after a thorough search had been made and the three formally charged.

Some months ago a raid was made by the office of the sheriff on the St. Regis and Griffin pool hall. H. Brown arrested. On the preliminary Brown took all the time to get the right kind of knowledge of the house on his premises, so he was retained and Brown imprisoned. The raid was a success and the officers were successful and some others. The raid was a success and the officers were successful and some others.

They took the matter up with the officers in regard to the pool hall and yesterday afternoon motion to bring this result was brought in the district court. Sheriff Jones suggested the advisability of bringing out a search warrant. This was done. Officer J. W. Taylor went alone. Jones told Taylor that he had heard that Griffin had held a crowd, but he could not get out and suggested that Taylor approach from the north while he was in the building. Taylor went through the back door. He says that he rushed in with a bound and found the men in the pool hall with the alleged player, and Griffin with them. They were arrested as was the girl. Griffin was taken to the city and held for hearing later. The girl was held over night in jail.

BUICK MAKES NEW RECORD

What is perhaps the world's record for endurance was made last week by C. F. "Outrigger" Franklin in a new Standard Six Buick car.

The "Outrigger" automobile company, Pacific coast Buick distributor, reports Franklin drove sixteen hundred and six miles in less than fifty-five hours without leaving the driver's seat.

The record run was made from the Canadian border to the Mexican border and established a speed record between these points. Starting from Blaine, Canada, at 8 a. m. Monday, September 22, Franklin made the sixteen hundred miles to Tijuana, Mexico, without a relief driver and without leaving the seat, arriving at Tijuana Wednesday, September 24, at 2:40 p. m.

Sixteen hundred miles continuous driving is a feat that few would undertake, and in making this record, Franklin certainly makes a tire bid for the hall of fame. The Buick Standard Six proved its stability by the wonderful manner in which it stood this extraordinary test. Not once did the car wobble or lurch, in which it is due to the valve-in-head motor which is built for power, speed and economy. It is in perfect running order at the end of the long trial, and the gas consumption averaged better than eleven miles to the gallon.

The fact that only one gallon of water was used to fill the radiator at the end of the trip indicates the efficiency of the Buick motor. Official evidence was supplied by the Los Angeles newspapers which the trip from start to finish, and which had not once did the motor or car stop running. Franklin says that only the perfect performance of the car and tires and the easy steering of the Buick made this record possible. It is a new world's endurance record.

An advertisement with looking over is never overlooked—in this newspaper.

Salary Action of County Board Gets Approval of the Grange

The following is the official statement of the action taken by the Northwyo Grange No. 181, Patrons of Husbandry, relative to the action of the board of county commissioners in reducing salaries on the ground of reduced values:

R. D. J. Buhl, Idaho, Sept. 24, 1924. To the County Commissioners of Twin Falls County, Ida. Gentlemen:

The Northwyo Grange passed a resolution favoring the action of the County Commissioners of reducing the salaries of the different county officials to pre-war times.

As values have gone down, it is no more than right that salaries should come down.

PIONEER DIES SUDDENLY NEAR CITY OF BUHL

Body of George H. Brown Is Observed Friday Shortly After 2 P. M. Where He Fell With Fatal Stroke of Apoplexy; Body Brought Here Last Evening.

Funeral of the late George H. Brown, Idaho, formerly salesman at Buhl, Idaho, was held at 10 o'clock yesterday afternoon, near his home, eight miles north of Buhl, with the burial in the Graceland chapel. The body was brought here from the home of the late Mrs. Brown, who was the widow of the late George H. Brown, who was the late owner of the Buhl hotel. The body was brought here last evening, about 10 o'clock, by the body of Mr. Brown, who was the late owner of the Buhl hotel.

They called at our place Wednesday afternoon at 10 o'clock, and was unusually happy and content. He seemed to be unusually well. It was after 2 o'clock when Mr. Brown discovered the body, a short distance from his track. Mr. Brown was notified and brought the body here, arriving between 5 and 6 o'clock. The body was found in a position which would indicate that he had fallen from the track. The body was found in a position which would indicate that he had fallen from the track.

Mr. Brown was one of the earliest settlers of the tract, to which he came from Nebraska in 1880. He was well known on account of his connection with the sale of Buick automobiles. He traveled considerable territory and would frequently be gone several days; so he was not missed for some time. Mr. Brown was born in Nebraska 62 years ago. He is survived by a wife and three children, Mrs. C. A. Griswold lives in Buhl, Mrs. John Thompson in Burley and a son, John Brown, lives in Ontario, Idaho. When a report came to Mr. Griswold yesterday afternoon that his

"Tomorrow's Car Today"
The Star Car
LOW-COST TRANSPORTATION

Although its low price puts the Star car in the great less-than-\$1000 class, which includes about 85 per cent of all cars sold, it is entitled to recognition as the quality leader of the low-priced-field.

Note These Quality Features of the STAR

- Continental Red Seal Motor, designed by the engineers of Continental Motor Company in collaboration with Durant engineers. It is distinguished for power, quietness, economy, and low service costs due to simplicity and accessibility.
- Forced Lubrication. The Star is the only car in the low-priced field having positive forced-lubrication to all bearings, which greatly increases the durability of the motor.
- Durant Tubular Backbone. The Star is the only low-priced car employing this important structural improvement, the most efficient device known for resisting twisting strains and for insuring a strong car foundation and for keeping all moving parts in perfect alignment.
- Strong Spiral-bevel Rear Axle Gears. This is the same type axle as is used in high-priced cars.
- Disc Clutch—an unusual feature in a low-priced car, and one especially appreciated by those who have used cheaper types of clutches.
- Alerting Lubrication. The same as used on high-priced cars, making the greasing of the chassis quick and easy.
- Semi-Elliptic Springs. These not only greatly increase riding comfort, but give the Star car the long, low appearance that is an essential factor of the popular stream-line design. The spring base is 141 inches—longer than that of any other car near the Star price.
