Immense Vote Expected Throughout Nation Due to Weather Conditions

Good Weather Prevails in Most Sections of the Country; Steps Taken to Prevent Trouble at Polling Places; Rain Curls Early Vote on Pacific Coast.

Fair weather, with few exceptions, prevailed throughout the nation today as a huge vote, expected to reach thirty million, poured in ballot boxes today for presidential, members national and state legislatures, governors and thousands of other state, county and local offices.

Rain during the night held down the early vote in some sections of the Pacific coast. Extraordinary precautions were taken to prevent disorders in many sections but despite the presence of 4,000 policemen and thousands of private guards scattered throughout Chicago election districts, one man was shot, seven gunmen arrested and a precinct election booth and its ballot boxes burned.

At important polling places in Marion and Herrin, Ill., some of the riotous and martial law was in effect at Las Vegas, N. M., to insure voting "without intimidation."

In New York state the voting was early and exceptionally heavy as a result of the vigorous campaign for governor which has been carried on between Theodore Roosevelt and Alfred E. Smith.

First returns—complete from New Ashford, Mass., and Somerset, Vt.—gave Coolidge the lead. In New York, Mr. Davis getting four votes at New Ashford and none at Somerset.

Betting reported by New York commission houses was 11 to 1 in Coolidge and 10 to 1 in Davis. In New York, Mr. Davis getting four votes at New Ashford and none at Somerset.

Forests of Idaho Contribute Much to School Funds

ODDEN, Utah, Nov. 4.—The state of Idaho will receive \$131,625.24 from the annual distribution of twenty-five per cent of the proceeds of the sale of national forests which has been made to District Forester H. B. Rutledge of the Intermountain district. The amount due in each state is sent in a lump sum to the governor and is then subdivided among the counties according to the amount of national forest land in each. This distribution of funds has been devised to pay the counties in which national forest lands are situated for the possible loss in taxable values resulting from the fact that national forest lands are forever withdrawn from the tax rolls. When first started in 1908 the amount the counties received annually was small but as the national forests are being developed it has increased and is a number of counties now brings in a very substantial revenue to the road and school funds. Under this distribution Twin Falls county will receive \$13,162.52, this being 25 per cent of the proceeds of the sale of the national forests in this county.

ERIVAN, Armenia.—The oldest village in the world, built on the slopes of Mount Ararat here by Gregory in the year 350, is to be reproduced in Los Angeles by the Armenian community of that city. Detailed plans and photographs of the church have been obtained by Near East Relief to assist the American architects. Paris of the old church have been used during the past three years by the architects of the Armenian relief fund.

AMERICA FIRST AGAIN
ATLANTA, Ga.—The United States government is the first world power to meet squarely the problem of 50,000 Armenian refugees in Europe. The American state department will therefore have no passport to grant to travel. The American state department will therefore have no passport to grant to travel. BEARS LISTED AMONG CHIEF GRID ELEVEN

Illinois and Notre Dame Believed by Experts to Be Greatest Teams in America Due to Their Remarkable Records.

(By HENRY L. FAIRBANKS)
NEW YORK, Nov. 4.—Surviving the most critical tests of the football season, Illinois, Notre Dame, Pennsylvania, Alabama, and California now hold the lead in intercollegiate football circles.

Illinois remained in first place in the western conference by an overwhelming defeat of Iowa. Notre Dame held first rank by beating Georgia Tech with a second team. Pennsylvania remained the only undefeated team in the east, defeating Lafayette. Alabama kept the lead in the south by defeating Mississippi and California by a score of 20 to 0.

Illinois and Notre Dame, by their records, are believed by experts to be the greatest teams in the country. It is quite certain that no team in the east or south can best them at this time.

It is doubtful that California would be more successful.

Illinois seems to have a better offense than Notre Dame, but a game between these two reigning champions would be worth watching. The walk will not be necessary, as there is no chance for a draw.

Illinois has a hard road ahead of it against Chicago, Minnesota and Ohio State, while Notre Dame will have to contend with Wisconsin, Nebraska, Northwestern and Carnegie Tech.

GRID GOSSIP

MIAMI, Fla.—Injuries to Wall, McIlwain and Harry Hall were the only losses in Illinois' victory over the Chicago team. A few whites in the lineup are expected before Saturday.

EVANSTON—Motoring in its first conference victory in two years, Northwestern retained its situation to intensive drill today for the Michigan game.

CHICAGO—The "Grange" was the battle cry on the midway today as Coach Stange sent his Maroon gridmen through preliminary workouts for the Illinois battle.

ANN ARBOR—Back home with "little brown jug" retained Saturday by victory over the Gobblers, Michigan settled to the kind of drill today that is intended to stop the scoring habit of Northwestern.

COLUMBUS—The Indiana game Saturday will mark the starting point of Ohio's season after the conference derby. Coach Wiles faced the task of replacing Tommie John, who was injured last Saturday.

SOUTH BEND—The "Flaming Irish" expect little trouble in their game with Wisconsin Saturday, but will not be allowed to get too much confidence. They will give hard work every day. Jackstone announced.

CAMDEN—The Harvard varsity team will keep up all week long in their training. The Harvard team will play the Princeton game Saturday.

GRIDIRON RACE IN THIS STATE NARROWS TO 3

Three teams stand out at this stage of the state championship gridiron struggle. Pocatello, Twin Falls and Idaho are the three main contenders. Pocatello swamped Idaho Falls last year's champs, 14 to 0 while Sampa gave an unimpaired indication of its power in beating the strong Boise State eleven, 14 to 0.

Idaho met defeat this year and has hardly been given a chance, the only close game being that with Coaling which ended in the routine favor by a score of 12 to 7. Pocatello was a run-out field and a rout, amounted to little as bad weather invariably handicaps the superior team more than the rival.

Twin Falls annihilated the Sampa gridlers here last year in a game which left no room for doubt. This Sampa team boasts almost the same lineup plus of course, additional experience. But has Twin Falls the advantage? It is a matter of fact, while it is minus (Garrett, Jenkins and Leber) as main line players, it has the advantage of the acquisition of Hatcher, the favorable showing of Brice, and the fact that it has all the pieces of the last year's star players.

Garley was in a class by himself. No one disputes that he is the greatest player in the state. At South High, Toledo, O., this year proves his class for he is the most powerful in America.

But is not this year's backfield richer in the number of capable stars than that of last season? At least, it is. The backfield of the first two are speed artists as is Owens with the other men hit the line for clear game and do their share toward winning a game.

The line is what might be called "impenetrable." But was unable to stop on three down when only several feet from the blue and white goal line. True, this is not as strong as Pocatello or Sampa, perhaps, but it is heavy and fit to toe the great mass of most defenses in the limit.

Twin Falls will win the state championship this year. This is not an assumption of a broad statement. It is a prediction. It is not an unusual prediction.

Sampa is stronger than last year. We will grant this to be true. Pocatello is the possession of an improved team. But from expert information laid at our editorial door and from the possession of an improved team, we can predict that the Sampa team will not be the factor in the state championship game.

Idaho is a team of the future. It is a team of the future. It is a team of the future.

'RED' GRANGE CALLED BEST OF HALFBACKS

NEW YORK, Nov. 4.—Selection of an All-American football team has been made simpler for the experts by one position with the showing made by Red Grange, the star Illinois halfback, in the Illinois-Michigan game.

Grange not only elected a place on every selection by scoring five touchdowns in a major game, but he performed an unheard of feat in scoring four touchdowns in the first period of a most important game.

Grange, beyond all doubt, is one of the greatest players ever developed. Alvin Karpis, coach of the University of Chicago, elected said of Grange, "He is the greatest player I have ever seen. He is the greatest player I have ever seen. He is the greatest player I have ever seen."

He went into that game a marked man and that Michigan had a whole year to develop some way of stopping him, his performance was amazing.

It was pointed out that Grange did as much under heavy pressure as half back could do by hitting four home runs in a world's series game. That never did it. In fact the game, his performance was amazing.

Dismissal of the injunction suit to attempt to prevent the delivery of bonds for the American Falls district levee, the way clear for the construction of the big dam and reservoir.

THE HIGH SCHOOL AND SOCIAL PROBLEMS

Is your high school giving your child the key to understanding and intelligent participation in social relations?

Social understanding and such participation is vital to national, group, or individual well-being. If we could send the strong men of the nation who have perfect understanding of social needs and if these men happened to be wholly bent upon the well-being of the whole group, we could commission them to direct our affairs, governmental and turn our whole attention to other matters of personal importance. Happily, or unhappily, however, perfectly unselfish or otherwise men are not found. Happily or unhappily our intelligence determines whom we select to direct our national life. Our intelligence judges as between this man's point of view. The collective intelligence of the masses of the people in a democracy determines the course of the national life. We cannot avoid it. The people do, in time, solve the problems of the people. What is your high school doing to train the intelligence of your child in the problems of the nation?

TUNING THE SCHOOL IN ON LIFE

The funny comedy of a daily paper tells of a teacher who asked Willie to locate several cities and he answered, "I can't locate 'em, but I know how to tune in on every blatted one of 'em." That story carries a first rate lesson for teachers. The schools will open soon and millions of children will come from the free, playful, natural social child life to the different atmosphere and life of the school.

Teachers will try mistakenly to change most of the child's physical and mental habits in a day. The shift from hours of activity to hours of sitting still will cause much illness among them if the teacher is not careful. From learning what is interesting and what appeals to them they will be forced to change to set lessons about things that they do not use daily and that they probably feel never will be any help. Fortunately more and more schools are fitting themselves to make the child life in them more free, easy, and natural. The rows of stiff desks are being replaced with study tables and chairs; the text book is giving way to the library; the deadly silence, to the hum of business; and restraint and repression, to encouragement and expression. The schools are "tuning in" on life.

THE IDAHO MEMORIAL

The Idaho War Memorial is designed to perpetuate the memory of over 600 Idaho soldiers and sailors who gave up their lives in the Spanish-American and World wars. It is further designed to build this memorial in the form of a combined armory and gymnasium upon the campus of the University of Idaho, the state's most representative institution. The project has been undertaken by the American Legion in co-operation with the university and every citizen of Idaho. The memorial will cost approximately \$250,000, and it is proposed to raise this sum through subscription by communities, civic and fraternal organizations and individuals.

Since the signing of the Armistice the purpose of building a permanent and appropriate war memorial has remained fixed in the minds of the people of the state of Idaho. The plan is finally evolved as received the unanimous approval of the American Legion, the Veterans of Foreign Wars, the University alumni, the university student body, the board of regents and administration of the university, and representative Idaho citizens.

The Idaho War Memorial is designed to be built in the form of a combined armory and gymnasium at the University of Idaho in the belief that it will not only serve as an enduring inspiration to on-coming generations of Idaho youth in their most irresponsible years, but will also provide them with physical training and instruction in the fundamentals of national defense. The University of Idaho, with a splendid war record of its own, is the gathering place each year for increasing numbers of young men and women from every corner of the state. There, during four college years, they learn most easily lessons in loyalty, state pride and love of country. From there they go out to take their places as leaders in the commonwealth. The presence of the war memorial, with its constant reminder of the necessity of the willing performance of public duty, cannot fail to inspire them with a new resolution to take up the obligations imposed upon citizens of a free nation.

The Idaho War Memorial will also serve as repository for the complete service records of every Idaho man and woman who took part in either of the two wars. The task of collecting these records is in the hands of the American Legion and will be finished to the last man. The memory of the dead will be enshrined in a "Hall of Memories" which will be kept perpetually sacred to its purpose.

The direction of the Idaho War Memorial project has been
