One Bandit Killed and Other Wounded When Men Come to Rescues of Bankers

When the wave of crime against banks, which has reached unprecedented proportions, was under discussion at the recent meeting of the American Bankers' Association at Chicago, and defense measures were up for consideration, the bankers were told how one resolute woman defended herself against two armed desperados in her Twin Falls bank. The woman was Mrs. Mary Gillinghouse, cashier of the State Bank of Vera, Oklahoma, which she conducts alone-handed. THE TEN COMMANDMENTS

Few moving picture films carry such a remarkable lesson as is portrayed in the story as presented by The Ten Commandments, which has just completed a two day run at the Orpheum theatre to large crowds on each occasion. For a religious picture it is one of the most spectacular shows we have witnessed for many a day. In the first place Jeanie Macpherson produced a great scenario, which is essential for a great film or play. This, coupled with the masterly direction of Cecil De Mille and a group of the best moving picture artists made possible a remarkable production that will not be equaled for years to come. This picture has had an extensive run in many of the larger centers and will continue to be popular as long as the Bible is read. In fact we are inclined to believe that it will be the most lasting production in this line that has been presented for years.

Some very remarkable stars took part in the production of this film and among these was Theodore Roberts who took the role of Moses in a remarkable fashion. Critics generally attribute to him the most nearly perfect interpretation of this character of any of the moving picture actors in the field of this great industry.

Another unusual part of this production was the hazardous situations which were created in several of the scenes, which would indicate to the average observer that some lives must have been sacrificed in the production of this film, and yet this was not the case.

The work of Red Lay Rogovin and Richard Dix as brothers was splendid and deserves highest commendation. Nita Naldi as the Leper Girl also took a difficult part in an unusual way.

But the great lesson of the film is the striking feature and the part of it that will really be lasting and fruitful. Thousands and even millions of people will witness this picture and catch the great truths underlying, some who will not read their Bibles or go to church to hear the scriptures expounded. In other words the fundamental truths of the Ten Commandments are put across through this film in a way that no other agency could accomplish the same results at any expense. We are of the opinion that this film will do more for Christianity and for propagating religious thoughts than a thousand churches. Yet we are not inclined to minimize the church because we affiliate with one of these organizations and are proud to be classed with the millions of protestants who strive to enhance the influence of the church at large.

Few persons perhaps are aware of the far reaching influence and significance of the commandments when it comes to fundamental law. But it is an every day fact that no constitution or code of ethics gathered by us as the fundamental law of any nation does not find its foundation in the Ten Commandments. In other words this Old Mosaic Law is in reality the foundation elements of all law.

The presentation of such films as the Ten Commandments will do more to restore confidence in the moving picture business than any other element. This picture cannot but convince the severest critics that real high class productions can come out of Hollywood.

Restaurants Men Didn't Eat His Own
"It's pretty tough for a restaurant manager to have stomach trouble. My customers were always telling me I ought to eat my own. I can't eat a thing that isn't blown me up and no medicine or doctor helped me. I tried everything recommended and at last Mr. W. H. Heltzer's remedy, and I didn't have to look any further. Since taking it I have been a well man." FINNISH STAR SHOWS CLASS IN TWO RACES

Nurmi Breaks Records in Indoor Events Last Night at Madison Square Garden; Not Pressed in Either Race.

NEW YORK, Jan. 7.—Hunting on boards for the first time, Paavo Nurmi, Finland's super-star, raced America's speediest distance runner in exhibition in Madison square garden last night and broke two world records.

With a stroke of 46 minutes, the four event winner of the Olympic games in Paris last summer, made a new indoor mark of 4:35 for the mile and 14:40-2.6 for the 5,000 meters. His new record for the mile was second fastest in the world's former mark and his time for the 5,000 meters was about ten seconds faster than any previous record.

Nurmi had never competed on the boards before and was running just American training stars who know every inch of the Madison Square Garden course, his performance developed, was the most astonishing ever seen in an athlete in any kind of land. Nurmi was still in making his first start on the boards, the runners in the other races felt him would have needed a bicycle to catch up with him.

"The mile run was perhaps the greatest race ever the distance ever staged as for the first time on boards, the Finnish line came out and Nurmi was hardly pushed. With two laps to go over an eleven lap route, Nurmi sprinted into the lead and over the field and turning into the stretch for the tape he glanced over his shoulder and saw the other runners walk when he saw that he was in complete command.

The mile runners failed to test the Finnish star, so also did the longer distance run in the 5,000 meters race. Willie Ritola, the American trained Finn and arch rival of Nurmi, tried to outrun his fellow countryman and he held the lead for most of the distance. The flying Finn was such a terrific pace, that the other runners in the field of six were lapped. Nurmi, however, was in command every piece of the distance.

With two laps to go in the finish, Ritola and he went through the tape like a Padlock with plenty of spare.

Nurmi had hoped to make a new 1,600 meter record in the mile race, but there were no other runners to catch him and he failed to make a three mile record. The other two metre race by a scant two and a fifth seconds.

The American runners were beaten but they were not humiliated. They finished second behind Nurmi, and Lloyd Johns, who came in third, were both under the former record. It took a super-runner like Nurmi to beat them.

"He's just not human," a veteran American trainer said. "Nurmi, did you see him eat an apple before he went to the starting line for the 5,000 meters? That would kill any normal runner."

modified form of ministerial responsibility to the national legislature, such as prevail in Europe.

"There is little prospect of action on the measure at this session, however, Secretary Hubert leading champion of the innovation, said it might be possible for cabinet officers to take part in the debate of both houses and make a formal opening their departments to give exact information and defend themselves against unjust attacks.

"The proposal would extend the right of legislation as well as prove mutually helpful in emergency and the cabinet in the opinion of Secretary of Interior Work.

Golden Wedding of Twin Falls Couple Celebrated Tuesday

On a prairie farm in southwestern Iowa, January 6, 1875, Conrad Macel and Marjorie were united in marriage, and yesterday at their home on Eighth avenue east, surrounded by their children and all but two of their grandchildren they celebrated their golden anniversary with a wedding dinner. In keeping with the occasion were the beautiful decorations of white and gold, the table being covered with an elaborate arrangement of yellow roses and ferns, white at other ends were small dandelions, holding yellow candles. Five cards in yellow shades designated to the places where the following were seated: Mr. and Mrs. B. T. Macel and daughter, Anna Mary, Mr. and Mrs. Frank Macel and three children, Margaret, Betty and Bob; Glenn Macel, Miss Marie Newell, a niece of Mrs. Macel; Mrs. Mrs. Davidson, a niece of Mr. Macel; Gen. Davidson and little son.

Appropriate gifts were but feeble reminders of the love and esteem which their family hold for the parents who have been so devoted to them.

Four years before his marriage, Conrad Macel, with a brother, created the plans of his native state, and during the hardships of pioneer life, by his indefatigable will, sturdy character and business capacity, he became one of the successful farmers of the state. There he met Miss Mary Newell, a niece from Sydney, the county seat, and in that vicinity they spent years of their married life until 1912.

They reared their family, five in number, being bereaved by the death of a daughter, Maggie, twenty-one years ago.

As well might be imagined, that pioneer home was never too small to accommodate any traveler who chanced that way and as it grew until it became one of the prosperous homes in the neighborhood, it became kindly spirit prevailed and it became known for its hospitality.

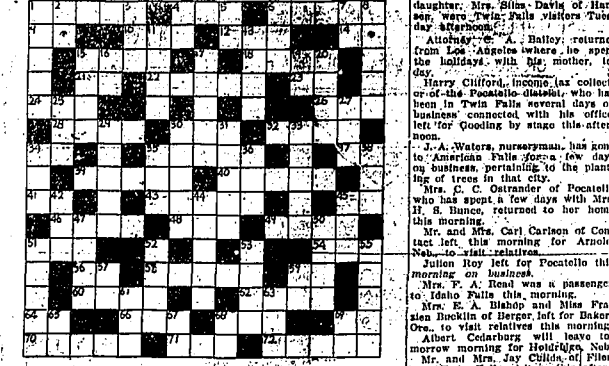

In November, 1912, learning of the wonderful possibilities of the Twin Falls tract, Mr. and Mrs. Macel came with their sons and Miss Marie Newell, a niece who has lived the place of a daughter, to make their home here, and during the years since Mr. Macel has invested much and has become one of the successful business men of the city.

In this case in Iowa, an Idaho, this worthy couple have made many friends, who yesterday gathered and delighted to felicitate them on the happy occasion. * * *

Hilldale Grange Favors May Child Labor Amendment

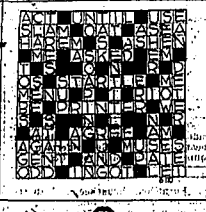

"Hilldale Grange, 2006 a careful investigator and study of the child labor amendment, based on record that favored the children, favor of it, want it, as it failed by the coming may legislature. The grange believes that the child labor amendment is a question with national importance, the same as the slavery had the same kind of a question, and other great national issues, they believe it will be a question of the highest importance, and a standard of preparation for all American children. The grange believes that Congress, composed of representatives who express the sentiments of their people, will advance its power. They do not believe that any industry is justified in thriving on the labor of children. They believe that this is only a matter of act and they are sure that Congress will pass new laws which will in any way interfere with, reasonable and beneficial work being done on the farms and in the homes.

EVERY LICENSE REVOCATION IS UP FOR RAIL

Defendant concludes that violation without hearing is invalid in the provisions of the license act. He is a party to the hearing and that conviction for illegal possession is a sufficient cause for the terms.

The case of the city auditor Mrs. Avery, charged with running the Keith rooms without a license, was called to the attention of the police court. Motion for the calling of a jury, made by Attorney Orr Chapman representing the defendant, was granted by Police Judge James L. Sile and by agreement between lawyers; City Attorney A. J. Myers, representing the prosecution; the case was set for 12 o'clock. Mr. Chapman objected to selection of the jury by the police, who are completing the evidence and by agreement it was arranged that Coroner P. J. Grossman should call eight citizens from which to choose six to try the case.

Mrs. Avery was convicted some time ago for alleged illegal possession of intoxicating liquor. The city claims the right of condemnation to cancel the license of any person convicted of a violation. The city council, on recommendation of Chief P. O. Herriman, passed a resolution cancelling the license and revoking the police to notify the police of the fact. This, it is claimed, the police did and they say that they discharged the notice and continued to run as if no action had been taken by the city. In the meantime, the appeal to the supreme court from the conviction on the liquor case, and has ruled Mr. Herriman's action, which also says that he own her.

The jurors selected were: E. H. Roberts, H. H. Henson, H. W. Stewart, Frank Thometz, John N. Clear and Albert Knefel.

Attorney Chapman argued that since the ordinance passed in January 1922 forbade national drinks, the license cancellation, but said nothing about illegal possession. Mrs. Avery did not come under the provision even if guilty personally of possession, if drinking were not shown, he said. He contended that the constitutionality cancellation without hearing, and that it was unconstitutional in other ways. City Attorney Myers held the ordinance constitutional, and the notice sufficient. The case was then set to the jury.

PITTSBURGH, Pa., Jan. 7.—Police today were still without clues concerning the two robbers who attempted to get \$20,000 from Lawrence E. Bank, president of the First National Bank, under penalty of kidnapping his wife. The two men entered Sand's home early yesterday, shot and slightly wounded the banker's son, John W. Sand, and they escaped.
