# SISTER SENDS FOR BODY OF J. MC ILWAIN

Relative of J. Mc Ilwain in Ohio Arrives and Asks for Return of Body for Burial in Twin Falls

Request that the body of the late John McIlwain, who died at the Twin Falls County General hospital Wednesday after an illness should be shipped to care of Weller, undertaker, at Cayuga Falls, Ohio, for interment, was received Thursday by George J. Huffman from Dr. A. H. Hill of 609 Osborne bldg., Cleveland, a nephew of Mr. McIlwain. A letter found in the effects of McIlwain from his sister, and signed "Mary" led to the sending of the telegram by Mr. Huffman to her care at 2116 Paxton House, Cleveland. The name of the sister is Mary Hill.

McIlwain has lived here for about 12 years. At first he was a laborer and later became an agent for books, periodicals and papers in which business he continued until his final illness. He had a number of friends in this city.

Mrs. Hill and her son, Dr. Bill, both appear to be wealthy and sent Huffman to A. W. Davis, undertaker, to supply a casket and transportation to Ohio. It appears from the letter signed "Mary" and a provision in her will to McIlwain in 1913 that Mrs. Hill was anxious to have her brother reburied and that he was unwilling to do so. The body will be shipped tomorrow morning.

**STRAY NOTICE**  
Two sorrel horses, one bay, one gray, three black, two iron gray, belonging to A. W. Davis, undertaker, were lost on 11th street north 1000 each. Owner calls one mile north Holladay. N. L. Howard.

# NEW LAMP BURNS 94% AIR

**Beats Electric or Gas**

A new oil lamp that gives an amazingly brilliant soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 25 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no jumpy wick; is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (Vocal oil).

The inventor, W. K. Johnson, 101 North Union Ave., Portland, Ore., is offering to send a lamp on 10 days FREE to the first user in each locality who will help him introduce "write him" today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$2000 per month.

## LEWIS LOSES MAT TITLE TO EX-NEBRASKAN

Wayne B. Munn, former football star, pins champion's shoulders to mat. Bout proves to be sensational.

KANSAS CITY, Mo., Jan. 8.—While Wayne B. (Big) Munn, former Nebraska football star, was proclaimed the new wrestling champion of the world here today, Ed "Kid" Lewis, who lost the title to Munn here last night, lay in a hospital suffering from a badly injured back.

Weakened by the terrific punishment, Lewis offered no opposition in the final fall and the referee ruled the bout a draw. Lewis took terrific punishment from the new champion. After dumping Lewis in the first fall, Munn knocked out the stranger for 20 minutes when in the second fall he picked Lewis up and hurled him to the mat. The referee awarded this fall to Lewis on a foul.

The Pomona Grange at their meeting held in Buhl yesterday went on record in favor of an open hospital instead of a standardized hospital. This organization consists of about six hundred members and their decision to fight standardization to the limit perhaps may effect the actual working or even the introduction of standardization into the Twin Falls County Hospital. If this organization goes out to fight this thing with committees, etc., we are inclined to believe that it will act as a stern check on the progress which standardization has made thus far.

If every resident of Twin Falls county will spend just a small part of their savings in the early part of 1925 this will tend to start business on the upward climb which will generate momentum that will go on and will go much toward spelling prosperity for the new year. We would not urge extravagant spending because we all need to economize this year—but some are able to spend just a little more than they are and yet remain on the proper side of the ledger. In other words there is just a slight tendency on the part of some to hoard and cry hard times, whereas if those same persons would loosen up just a little bit and talk good times it would help conditions immeasurably. In other words our financial condition is more or less what we make it and what we say about conditions. We can create a wholesome effect on the local market by helping in this particular if we will, and actually stimulate business to a degree that will prove to be surprising. Let's try it for January anyway.

The Blackfoot High School annual staff have just let the contract for the printing of their annual to an outside firm. This is rather an unusual procedure for this high school as they have been sticking pretty close to their local printing establishments, which are high grade, well equipped printing plants and deserve the patronage of the high school and the community. High school students should be taught the lesson of patronizing home industry early in life and if the instructors of the Blackfoot high school are at fault in this particular they should be taken to task by the board of education. It is the duty of school principals and advisers to so direct these young minds that they will learn this lesson early in life. Printing establishments pay the taxes in each of the respective counties to support the schools and when job printing is to be given out, local firms should be given first consideration unless there is an extreme difference in the price and the workmanship. Clever salesmen from outside firms are likely to outsell the local printer but this is no guarantee that his work will be any better. He is perhaps working for a commission which he gets on all work turned into the shop by whom he is employed.

### THE IDAHO POWER DISCOUNT

The method of discounting on bills of the Idaho Power company, came suddenly under fire here with the receipt of the December bills, when somebody began to figure out whether what was popularly supposed to be a 10 per cent discount for prompt payment figured out to be such. No new method of billing had been established and it is not known why the checking up started. The results did not bear out the popular theory, and various theories were advanced and numerous speculations indulged in. It was argued that if the thing were the other way around, and the plan should prove to be one of levying a penalty, the penalty was too high. It was further argued that strictly speaking the figures on the bills did not accurately agree with any rate of discount.

In order to get the method prescribed by the utilities commission, the Times wrote to that body and received the reply that the net rate is the regular rate and that the company is permitted to add 10 per cent, making a gross rate, to cover expense of handling the accounts of those not paying promptly. The following is the reply in full of the public utilities commission by its secretary, A. H. McConnell:

Replying to your letter of January 2nd relative to the method of billing in practice by the Idaho Power Company, will say that the net rate is the rate charged when the bill is paid within ten days from date, the gross rate is this amount increased by ten per cent. In this connection permit me to say that the rate charged by the Idaho Power Company is fixed on the basis of a net rate. This is done for the reason that the records show that ninety per cent of the customers of this company pay their bills within ten days from date. If the company wished to give a discount of ten per cent to everyone who makes payment within ten days, it would be necessary for them to have their rates ten per cent higher in order to provide for this discount, as the rates of any utility are established on the basis of a certain rate per cent of return on the value of the property used and useful in its service to the public. A rate which provided for a ten per cent discount would not correctly state the rate received, or the

return allowed. The ten per cent which is added to the net rate to form the gross is expected to cover the expense of handling the accounts of those who do not make prompt payment.

This method of billing has been in operation for some time and is not a recent ruling of the Commission. This is also the method which is in vogue by a majority of the light and power utilities operating throughout the United States.

### YOUR OPPORTUNITY

"They do me wrong who say I come no more  
When once I knock and fail to find you in;  
For every day I stand outside your door,  
And bid you wake, and rise to fight and win.

"Wait not for precious chances passed away  
Weep not for golden ages on the wane;  
Each night I burn the records of the day;  
At sunrise every soul is born again.

"Laugh like a boy at splendors that have sped,  
To vanished joys be blind and deaf and dumb;  
My judgments seal the dead past with its dead,  
But never bind a moment yet to come.

"Though deep in mire wring not your hands and weep;  
I lend my arm to all who say 'I can!'  
No shameful outcast ever sank so deep  
But yet might rise and be again a man!

"Dost thou behold thy lost youth all aghast?  
Dost reel from righteous retribution's blow?  
Then turn from blotched archives of the past  
And find the future's pages white as snow.

"Art thou a mourner? Rouse thee from thy spell!  
Art thou a sinner? Sins may be forgiven;  
Each morning gives thee wings to flee from hell,  
Each night a star to guide thy feet to heaven!"  
—Walter Malone.

The story of a farm, the story of a city and eventually the story of a farm within a city. Even in its most sophisticated dealings with city life, Miss Ferber's story—the most successful American novel of 1924—is redolent of the soil, and alive with the beauty of green fields and the charm of fair landscapes.

The most vivid story of the Middle West during the last quarter of the Nineteenth and the first quarter of the Twentieth centuries that can be found in American literature.

## CHURCH NEWS

**CHRISTIAN CHURCH, KIMBERLY**  
All 70 men, where are you? We need you. The women are absent by a large majority last Sunday in the Sunday school. This was the first Sunday in a long time when the men and women. Remember all boys countenances and girls countenances so let's rally men in a strenuous effort next Sunday. Be on hand at 10 o'clock on Sunday morning. Let's show right in the beginning of the Sunday school hour. We have never more than 100 men in the school or the men on the women will attend. So come on men in large numbers.

Our revival meeting will begin the first Sunday in February and we will hold midweek services to help you prepare for that meeting. We would like to have as many as possible at these meetings. On Wednesday evening of each week, if you want to have a good night put yourself back of it and we will have one.

The pastor will be with the church Sunday and preach on the subject that will prepare the way for our revival meeting. He will have splendid audiences both morning and evening.

J. Elliott, Slim, Pastor.

ALL THE WORLD THINKS IT CAN WRITE

SOMEONE has asked me like other days how many persons in the United States thought they could be writers. He wanted to know whether it was 97 or 98 per cent. I answered that it was fully 100 per cent.

They want to show their aptitude over their fellows. Or they practice writing because it gives them a means for privately expressing emotions and opinions that they simply cannot keep to themselves.

my connecting with the Institute I enroll thousands of students who are anxious to learn how to write, how to express the experience of life that has been theirs. Certain tests determine the degree of creative ability these students have.

manently deeper satisfactions that such students receive, and which testify to its letters. Writers who are learning slowly to express their minds and to articulate the fancies of their imagination are broadening and deepening their nature.

ing a true picture of this great modern preoccupation with typewriters and fountain pens, and eventually with printing presses, it is still not point out that the percentage who are writing with commercial success is becoming greater, every year.

Through most writers are content to be able to write well enough to obtain a personal satisfaction from their hobby, none of them probably would regard a program in this craft that enabled him to sell his stuff and to have it appear in print for his friends to recognize.

# SPORTSMEN TO FACE ISSUES OF INTEREST

### Question of Restocking Streams to Get Consideration; Condition of Elk is Serious; Whether Snake River Should Be Closed Will Get Consideration.

When the sportsmen meet next Tuesday in annual session to elect officers and transact other business, many interesting subjects will be brought up for discussion. The work of the Southern Idaho Fish & Game association is well recognized and the problems it confronts the sportsmen are more numerous than ever. They consist of depleted streams following the drought of last year, which will require restocking; more careful nursing and greater effort to put more fish in the streams; giving greater protection to the spawning.

It is expected that the association will ask for the closing of Snake River from January 1 to June 1; thereby making application.

Other sportsmen are aiding W. S. King, who is declared to be making every possible effort to materially increase production. His work has been in Idaho only a year, during which time he has worked hard. King is a possession of all the facts.

**Favorite Streams.**

The Snake river sportsmen will not suffer as much as some streams after a year. Rock creek will be made up within the high line water after June 1.

The Snake river sportsmen dread the time when the water in the canal system having a lot of trout and bass and other fish. It is believed, as these waters are made up to fishing all the year around.

The question of closing the Snake River to the basin of a warm stream is still in the air. Sportsmen on the Upper Snake river favor a closed season. The local sportsmen seem to be that the waters from American Falls down could be kept open all the year with some cutting down production. Others contend that the spawning are "run" and that the water should be closed from January to June, 1925.

The question of probable production of the Snake river sportsmen has been said to have been "run" and that the water should be closed from January to June, 1925.

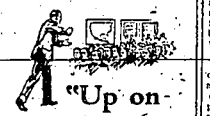

Chas. W. Smith, Burley and Oakley are co-operating with the organization here to get more young elk for the Minidoka forest reserve, which is acknowledged to be a fine location.

**Roses.**

These roses under my window make no reference to former roses or to better ones; they are for what they are; they exist with God today. There is no time to them. There is evenness in their race; it is perfect in every detail; they are for what they are; they exist with God today. There is no time to them. There is evenness in their race; it is perfect in every detail; they are for what they are; they exist with God today. There is no time to them. There is evenness in their race; it is perfect in every detail; they are for what they are; they exist with God today.
