AT THE THEATRES

ORPHEUM THEATRE

An excellent vaudeville program, with novel ideas, good comedy, by capable comedians, singing, dancing and musical numbers will be seen at the Orpheum theatre tomorrow.

The featured personality, Haaselt & Bailey, in "Unsuspected" is a woman who can handle a husband. Queen Bailey is a remarkable type of woman who truly lives up to her billing as the most beautifully formed strong woman before the public. A team of artists and exponents of equilibrium.

Jack Stern, the added feature known as "The Popular Companion of Popular Songs," needs but little introduction as there is no question but that everyone has heard the inimitable song successes this popular companion has written, especially "Mama, Go Where Papa Goes" and "I Wonder What's Become of Betty."

Moore, Edythe & Schultz, "The American Stars" in a line of American and Spanish songs and dances staged by just well known Chicago producers, Geo. H. Pitts—a real international treat. Special artists and flashy wardrobe add much to the act.

Low & Low, a comedy couple in a rube comedy skit called "Hot Shots," full of funny situations and antics that always receive a big welcome all along the line.

Gold & Goldie in "Jazz That's Jazz," a genuine jazzy entertainment of exceptional ability, consisting of comedy with music, lively songs and fast and snappy dancing.

The picture feature is very fine. Adapted from Mary Robert Elmhurst novel, "The Alibi on the Hill." An eight reel First National production with a splendid cast. Latest News Weekly contains many interesting subjects. It's a show that's a sure treat for everybody.

CARD OF THANKS—We wish to express our sincere gratitude for all the letters and sympathy shown to me during the painful floral offerings sent us during the loss of our little one, and our husband and father.

A Columbia university teacher to whom was attributed recently in newspaper reports a remark to the effect that "boys are born gentlemen from the cradle," hastens to disclaim the sentiment.

Dean Pound thinks it a serious oversight that no chair in criminal law has ever been established in the Harvard law school. He points out that "administration of criminal justice is admittedly the weakest point in American policy."

Gov. Ferguson has issued 300 pardons since she entered office, not including the pardon of former Governor "Jim," in which the legislature assisted.

In place of the present system of traps for motorists it is proposed in England to station a policeman at some dangerous point to hold up any approaching car which seems to be going too fast.

Pocatello just does hate herself, Frank Brown, of the Idaho State Journal, publishing a wonderful diary in the southeast corner of the state, says editorially.

Vice-President Dawes will invade New England for the 150th anniversary of Paul Revere's ride, to be celebrated by exercises in the old North church on April 18.

FAIRCHILD WANTS RESERVOIR SITE AT THE WESTEND

Fighting with his back to the wall, Seymour Fairchild, mayor of Twin Falls, is determined to win one of the founders of the tract, some in from the west end today to endeavor to secure a reservoir site for himself and posterity. He appeared to lay his claim before the Twin Falls municipal council in his session. "I happen to own this town," he told the old mill which I cleaned up the same brick. I have caused thousands of acres of desert land to blossom like the rose. In appreciation of this when I lost my first home, the old Laramie valley, and my company had laid out a section for me to build a reservoir on, I transferred a claim on five acres and that would supply my reservoir, and the assistance of the canal company."

The commissioner who is a "druggist by trade," told the petitioners in substance that the city tractor has been suffering from pneumatics for some time, but as soon as a liberal application of S. S. All's Oil could be made to the joints, a permit application be put on his back and it could be given a shot of oil. Mr. S. S. for a time said that there was no need to send it to a hospital, as the house doctor of mechanics in the service of the city could apply the remedy.
