## NEW POSTAL RATES ARE EFFECTIVE

Slight Increases Made by New Rates on Classes of Mail; Registered Letters and Private Mailing Cards Advance; Publication Rate Raised.

WASHINGTON, April 15.—New postal rates voted by congress went into effect today.

From the smallest postcard to the biggest parcel post bundle, new charges were imposed. In general, rates were advanced from one cent to two cents. Government postcards remain at one cent.

First class mail was affected only. In the case of private mailing cards, individual rates were increased, while the rate was advanced from one cent to two cents. Government postcards remain at one cent.

REGULAR rates on all letters and packages weighing less than two pounds, but from two to ten pounds the charge henceforth will be fifteen cents and matter over 10 pounds 20 cents.

Newspapers, magazines and other periodicals comprising second class mail sustain increases, too, as far as the known rates go, from one cent to two cents from one cent for four numbers to two cents for each successive issue up to eleven copies.

Postage Increases and Increases. Publishers and news agents come under a revised zone schedule, containing both increases and decreases.

The new rates apply to all matter weighing less than eight ounces except first and second class mail is boosted from 1¢ cent to 2¢ cents and from 10¢ to 12¢ in the case of books, seeds and plants where the rate is one cent.

For example, a 10-cent postage stamp, which was originally acceptable, now carries an additional charge of two cents handling charge per package which in effect raises all rates, including those for registered mail, handling charge of 25 cents previously provided for fast handling equal to first class mail is doubled.

Mail sent in the same envelope in the lower brackets and reduced in the higher brackets. For example, a \$2.00 money order which until now has cost three cents, henceforth will cost five cents.

Insurance rates are boosted on matter weighing less than 25¢ but remain the same for all other classes of mail.

To sum up, the new rates, up to 15¢, the charge is five cents compared with three cents heretofore; from 2¢ to 25¢ the rate is eight cents instead of five cents.

C. O. D. rates jump up to 5 cents on amounts under \$50, but are maintained at present levels above that sum.

X-RAY NEGATIVE SENT BY WIRE

CHICAGO, April 15.—An X-ray negative of a person's hand was sent here today by wire from the New York City office of the American Telephone and Telegraph company, showing that the day before the hand was X-rayed, there was an injury or ailment by specialists at great distances from the patient can be made.

The picture of a left hand, shown in detail in the bone structure and a ring on the third finger, was sent from the New York office and received at the office of the Victor X-Ray Corporation here just seven minutes later.

According to the doctor, the negative was as clear and distinct as the original plate could readily be used for diagnostic purposes.

## Japan Gets Important Concessions in New Russo-Japanese Treaty

PEKIN, April 15.—Formal papers of ratification of the new Russo-Japanese treaty were exchanged here today by the Soviet embassy and the Japanese legation.

Under the Soviet-Japanese treaty both sides enter into normal diplomatic and consular relations. The treaty of Portmout remains in force. All other agreements are subject to ratification at a Japanese-Soviet conference.

Pending conclusion of a definite trade agreement, the two nations agree to establish freedom of trade and commercial activity.

Japanese citizens and companies are given the right to exploit the national resources of Soviet Russia on a concession basis. This includes a preferential right to exploit 50 per cent of the oil area in Siberia.

The Japanese receive a concesionary right to mine coal in the district of Dusik and on the west coast of northern Siberia. From 5 to 15 per cent of oil and from 5 to 8 per cent of coal obtained under these grants, must be given to Soviet Russia.

**Heavy Hitting and Spotty Pitching Marked Opening of American and National Baseball Leagues Yesterday; Big Attendance.**

BY HENRY L. PARRELL.

NEW YORK, April 16.—Heavy hitting and spotty pitching marked the opening of the major and minor leagues yesterday.

Their were 15 home runs hit.

Two were hit by the Indians.

Two were hit by the Yankees.

Two were hit by the Red Sox.

Two were hit by the White Sox.

Pete Donohue, Urban Shocker, George Alexander, Dazzy Vance and Jess Dugan, all veteran pitchers, were the midseason favorites. But old-timers beat the day's record.

The best mark of the day for the Cincinnati Reds when he shut out the St. Louis Cardinals was 10, when he reached second. Hornsby, champion hitter of the National League, failed to get a single safety.

Urban Shocker, who returned home to New York after a winter from St. Louis, pitched a superb game in heating Washington and allowed only one run.

Bill Bush, who went to St. Louis for Shocker, who motored out of the box.

Emil Yeo, the young southpaw of the Philadelphia Phillies, who was one of the most popular players in the city, did not start and retired under fire.

Attendance at the opening games

was better than last year's mark by far.

In Chicago, 35,000 saw the Cubs

beat the Pirates.

The attendance in the American

League cities was New York 20,000;

Boston 15,000; Philadelphia 15,000;

St. Louis 21,000. In the National

League, Chicago, 38,000; Cincinnati, 32,000; Brooklyn, 20,000; Boston, 16,000.

## BUHL WINS IN BASEBALL WITH TWIN FALLS

### Watching the Scoreboard

Yesterday's hero, Pete Donohue, and his Cleveland pitcher, slugged 10 hits against Cardinals, 10-4. They sat down with six hits. Only two runners got as far as second base.

Twin Falls' team went down to defeat hero yesterday in the opening baseball game of the season by the score of 10-4. Paul Fink had the game largely on account of poor support rather than because of poor pitching. Billie Joe, fortunate in getting the break, was better than the other two hitters to get the advantage of the visitors. From the point of view of hits Twin Falls was given air to 4 by 4 because the more hits the pitcher won about equal.

Twin Falls was somewhat handicapped by both regular catchers being out and while Petrelli was still a good job in this new position, yet the team would have been stronger and the regulars been more workable.

Anderson, who had been the first to break his arm, was back in the Indiana Park, Peoria, playing his first big league game. Miller, and Welch registered for the Athletics.

Two were hit by the American Legion, Myatt, Speaker and McNeil, and two by the Indians.

Two were hit by the White Sox.

Bulb Pitcher Gets Support.

Mullins opened the fireworks for the Indians, who had to scatter their forces.

He was touched up for seven bounces during the seven, helping his workmen and was then thrown out.

Anderson, who had struck out three men, is quick on the uptake.

The visitors came back strong in the seventh inning and it looked as though the Indians, captained by W. E. Petrelli, would be able to reach second. Hornsby, champion hitter of the National League, failed to get a single safety.

Urban Shocker, who returned home to New York after a winter from St. Louis, pitched a superb game in heating Washington and allowed only one run.

Bill Bush, who went to St. Louis for Shocker, who motored out of the box.

Emil Yeo, the young southpaw of the Philadelphia Phillies, who was one of the most popular players in the city, did not start and retired under fire.

### Danger in Inactivity

"Don man, dat doas nutta, but all around wulta' fol, good times," said Uncle Tom, "dat's what I fust nasep and inas 'em."—Washington Star.

Kalilo, a ruckus, gave the Athletics the run that beat the Red Sox, 9-8.

Alexander the Great was in mid-season form and the Cubs beat the Sox, 8-2, before 38,000, a record crowd.

Three hits in the tenth inning off Kalilo, a ruckus, gave the Athletics the run that beat the Red Sox, 9-8.

Alexander the Great was in mid-season form and the Cubs beat the Sox, 8-2, before 38,000, a record crowd.

The Twin Falls' lineup in hitting order: Ovitt, cf; Martin, rt; Thinn, ab; Patten, and Day, lb; Petrelli, ss; Anderson, and Yeo, 3rd; Sears, st; Anderson and Nye, 2nd; The score: R. II, E. Twin Falls 6, 8 7.

Both will play a return game here Thursday afternoon and the Magic City glories, stay they will, for the Twin Indians a real come-back.

A Des Moines paper thinks it has solved the problem of how to please everybody. Viewing with alarm the hue and cry against the publication of criminal news and sensational court stories, the paper announces that it will hereafter print all the criminal news on one page so that those who don't like to read such stuff can skip that page. Betcha cookie-hine out of every ten subscribers will turn to that page first.

"Southern Idaho is coming back," is the expression of a business man who visited Twin Falls today and who has been here a number of times previously and who is interested in this city in a business way. This seems to be the consensus of opinion of those who visit our city beautiful from time to time. Everything would indicate that business should take on "old time" airs this fall and really show a great increase over the past several months.

Nearly everybody and his dog are on the road to Boise today, but some of us must hold the fort, and see that business goes on at home as usual. We hope that Boise and her guests have a great time, and that this new main line will mean much to the capital of our state. Railroad connections are vital factors in the development of a state or tract and when Twin Falls gets her line south completed and gets an extension from Buell to Glenis Ferry west, then we will be in a much better shape to gain ascendency which should belong to the metropolis of southern Idaho. But today let's rejoice with Boise that her dream has come true and that her future growth and development should be an outstanding feature in the development of this great empire of the west.

## KEEP THE GOOD DAIRY COW

The effect of good prices for grain and hay received by farmers in Minidoka county the past season, is forcibly reflected in a recent livestock census compiled by John Montgomery, government livestock specialist, says the Minidoka County News.

As a result today we find in Minidoka county there are over 500 less dairy-cows than this time last year, a condition that is bound to prove detrimental to the farmer himself.

Idaho is fast becoming noted for its activity in the dairy industry, big concerns realizing the great possibilities with such excellent conditions, are putting in plants whereby the farmer is assured a greater profit from his cows.

We have had hopes of obtaining a condensary for Rupert but before we can get one we must be able to show a gain in dairy cows. The cow is a steady income. Why sell her for a temporary benefit?

The above statement applies with equal force in Canyon county. When feed is high, reducing the margin of profit our dairy farmers are tempted to sell their cows. The dairy cow is our best asset and should not be sold on account of temporary conditions. This county should have double the number of cows now owned here.

## CHAPTER XIII—Continued

Summers was sitting up and smoking some tobacco, just to his old brain.

"We've got to send them safe," said he. "You've pulled us all out of some trouble, and I want to do something to help you."

"Admirable!" cried Challenger. "Admirable! Not only we as individuals, but Europeans science collectively, own you a deep debt of gratitude. You are a truly handsome and intelligent personality. Did it not strike you?"

"A most remarkable creature," said Summers.

And the Professor, much agitated in his mind, settled down to his slumber once more.

## CHAPTER XIV

## "These Were the Real Conquerors"

We had imagined that our pursuers, the apesmen, knew nothing of our brushwood retreat, but we were wrong. They had our camp, their lair, the hope of the future, with his tangled, unkempt hair, his bare chest, and his tattered clothes, he had one of the most commanding figures in the savanna. He was a satyr, with a large pile of cold Australasian mutton between his fingers. His Indian looked up at him, and then, with a little yell, crept into the ground and crawled to Lord John's feet.

"Don't you be scared, my bonnie boy," said Lord John, putting the matted head in front of him. "He is a wild animal, but he is a leonine beast, and, by George! I don't wonder. All right, little chap, he's only a human, just the same as the rest of us."

"Really, sir!" cried the Professor.

"Well, it's lucky for you, Challenger, that we are a little out of the ordinary. If you hadn't been so good, I'd have been captured."

"Up to my word, Lord John, you allow yourself great latitude."

"Well, it's a fact."

"I beg, sir, that you will change the subject, for we are in a position of extreme and undesirable risk."

"Up to my word, Lord John, you allow yourself great latitude."

FINE FEATHERS FIND FAME  
FOR WOMAN CHICKEN EXPERT  
WHO WINS INDIAN WIFE

WASHINGTON, D. C., April 15.—  
Fine feathers always make an Indian  
woman look good, but the wife of  
the Blackfeet of the Glacier National  
Park reservation recently adopted  
the Indian style of coiffure, poultry  
style, and the Indian name of Little  
Cloud.

A rush to sell when the market  
turned weak caused sharp  
disappointment over failure of ex-  
port business and generally horrid  
news were responsible for the  
turnaround.

A rush to sell when the market  
turned weak caused sharp  
disappointment over failure of ex-  
port business and generally horrid  
news were responsible for the  
turnaround.

The adoption ceremony took place at  
the Indian Embassy in Washington.

It is hard to dislodge the red man's  
idealism of a woman's worth.

But this woman came into White  
City, Mont., Saturday, dressed in Indian  
costume, telling them how to raise the best  
breeds of chickens on their farms.

They named her "Po-to-poo-year,"

Superintendent Campbell's report to  
the department of Indian Affairs. The  
name is a deeper translation accepted  
by the Indians.

The Indians believe, he told her, that  
she had brought a poor, practical mes-  
sage to the Indian farmers.

She has been married and he got the  
exact translation of the Indian  
name given her. "The one who  
brings us best word," (language).

GRAIN PRICES WERE NERVOUS
