AT THE THEATRES

AT THE ORPHEUM

In the matter of historical accuracy, gaudy costumes, magnificent sets and general grandeur of the production of Marion Davies picture, "Valencia," which is to be presented at the Orpheum, theater today, it is the greatest production ever put on in the city. There is no manner of doubt that it will go down in

the history of films as one of its most brilliant productions. It is in its making, artistic in its scenes and acting, and acted magnificently by great stars. Joseph Urban has never designed more beautiful sets than those for "Valencia." Massive sets have been shown in the past, but none of them exceed this production.

The picture was adapted from Charles Major's novel by Luther Reed and was directed by Robert Vignola, with the stage settings by Joseph Urban. It is the story of a pirate which handled the destinies of Miss Davies first big hit, "When Knighthood Was in Flower," and in which she has surpassed that previous effort.

The cast is a remarkable one in that it includes in support of the star such noted players as Martinelli, Brookfield, Julian, Ralph Graves, Gustav von Seyffertitz, Maclyn Arbuckle, Ian Maclaren, Thomas Meighan, Theresa Howell, John Barrymore, Ruth Applegate, Leon Errol, Johnny Deoer, and many others.

SICK WOMEN ATTENTION!

Read this Remarkable Testimony Regarding Results from Taking Lydia E. Pinkham's Vegetable Compound

Norfolk, Virginia—If you only know how many women and girls have been helped by Lydia E. Pinkham's Vegetable Compound by hearing my testimony, it would seem like a small number. Every day and every chance I have I advise some one to try Lydia E. Pinkham's Vegetable Compound. It is in June, 1904, when I first started with Lydia E. Pinkham's Vegetable Compound to be gone. The doctor I had said he would give me the best local treatments unless I went to New York to see Dr. C. C. Cope. That was when I gave the doctors up. Now I am a healthy robust woman. I can still eat all kinds of food. I am still strong and am enjoying wonderful health. When I first started with Lydia E. Pinkham's Vegetable Compound I will be only too glad to answer letters from any one who wants to know about it. Take it—Mrs. J. A. JONES, 317 College Avenue, Norfolk, Virginia.

X-Bible Thought of Today

"Verily, ABUDU DOING GOOD AND FEASTING about all Galilee, teaching in their synagogues, and preaching the gospel of the kingdom, and healing every disease among the people." Matt. 4:23.

Answer That

"This is a diplopoles—one of those primordial monsters which existed on the earth millions of years before the appearance of man. It had the upper part of its body like a professor," repeated the perplexed student. "Well, if it existed so long before the appearance of man, do you know that is its right name?"

MOSCOW DOCTOR PRAISES TWIN FALLS COUNTRY

Walter Smith, a doctor from Moscow than in years past and the people are feeling optimistic according to Dr. Smith's news for the south. "I think the people here are more satisfied and have more hope than ever before," said Dr. Smith when he was asked if he had been called to the bedside of his mother, says the Moscow Star.

"The doctor said that people of Twin Falls are more satisfied for one properly maintained university and are glad to be able to send their children to a school within their own state, instead of to the best schools in the west."

Twin Falls is one of the most rapidly growing cities in the west, and the State says that this season's crop is being contracted at six cents a pound, which is certain to be higher in the near future.

The doctor was in Boise on his way home, the day before the big celebration, and when he was asked if it would be one of the biggest celebrations ever held in Idaho, "The railroad company has built a new station and the people expect much from the main line service." Speaking of depots,

the doctor said that practically all of the Union Pacific system in south Idaho have fine depot buildings and most attractive grounds, in strong contrast to those in Moscow which are owned by the railroad companies.

Old man Kunkel, the Korean, explains the reason why sparrows hop on both feet instead of putting one before the other, and the reason why they alight in the following manner. "The sparrows have a quarrel and decide to see the governor of the Korean provinces to arbitrate the matter. He found them both wrong and gave orders to have them both whipped, and when the sparrows were whipped, and down they came, and the birds put their hands together and prayed to be forgiven. The governor forgave them both, but as a sign he decreed that sparrows should always hop and that flocks should rub their feet together when they alighted."

Sensitive Soul.

Timothy Carlson was a very sensitive man. More than once at a harsh word he had forsaken profitable work and gone home for sympathy to his wife.

One morning Tim started out to help Harry Boggs, who had bought a new house and was in the process of preparing to clear a field. Toward noon Tim came back. Mrs. Carlson sighed and waited sympathetically for the explanation. "I just couldn't stand it," she said. "Timmy, run him off. When I saw that young fellow twist them roots out it reminded me so of the times I went to the dentist to get teeth extracted. The first thing I knew I was limp as a rag, and I just stood all over and had to quit."

Twin Falls will grow in proportion to your co-operation.

The woman who entertains well—

There's something indescribably fine about the woman who entertains well. From the cheery appearance of her home to the service she so deftly affords—everything is so natural—yet so charmingly different.

Such splendid hostesses, once very rare and belonging only to the idle classes, are now to be found everywhere. They grace homes in every walk of life—making them happier through the many friends they attract.

Advertisements keep these women ahead of the commonplace. Advertisements tell of the newest and most delightful things. Advertisements announce new customs and practices. They tell what the world approves as correct.

The woman who entertains well must read the advertisements. Not only to keep pace with progress—but to learn how to do so on a limited purse. For advertisements are more than harbingers of style—they are announcements of economies that may be practiced safely.

Read the advertisements—to know what is new, what is correct—and what is economical.

You have started reading "Bringing Up Father" by George McManus in the Daily Times—a clean, clear-cut and dignified strip comic.

Truth and Lightning.

Lighting plays curious pranks, but one that is particularly interesting is the impact of trees or other objects upon the skin of the victims, says Nature Magazine. Much pseudo-scientific nonsense has been written about the rain-tree plant marks often found on the bodies of persons who have struck by lightning.

(Prepared by the United States Department of Agriculture.)

One man has charge of entomology of the United States Department of Agriculture keeps in his many field workers informed as to insect pest conditions all over the country by keeping a monthly survey based on detailed reports from the State and from the Dominion of Canada which has a similar service. The operation of the entomologists in the various states in supplying data on the various insect pest conditions in each region is now as well known as that the survey is in a position to report at any time on the entomological situation prevailing in any part of the United States and Canada. This cooperative agreement with Canada is especially important, since there may be just over the border against which preventive steps may be taken.

In recognizing the survey's position it is best possible to participate in the meetings of the appropriate board, to serve that board in an advisory capacity on the status of insect pests affecting the crops upon which these particular insects are found.

The survey has been in existence nearly four years. One of its functions has been the preparation of an index of common names applied to insects in this country.

Saving Frosted Combs

Breeding males whose combs have been slightly frosted should be treated so that they will recover in a short time. Place the birds in a fair, cool room and treat them individually with a mixture made as follows: Heat five tablespoonsfuls of grease until it becomes liquid. Add to this one level spoonful of turpentine. Apply once or twice a day. If the injury has been severe it will be best to cut off the entire comb, being careful to sever the cut with a sharp, thin wire to prevent great loss of blood.

Cow for Producing Milk

Four bred animals possess 100 per cent of the blood of their respective breed. Grade animals have a predominance of the blood of a given breed but are not pure bred and they are usually 10 per cent mixed and out of native or grade cows. The better a cow is bred, the greater insurance you have against disappointment when you buy or keep a cow for milk production. A good cow, furthermore, tends to insure excellence of type.

Must Watch His Step

It takes a shrewd political orator to avoid saying something that would give the other side a good argument. —Boston Transcript.
