

PUBLIC BARRED FROM COURT IN NEGRO TRIAL

Two Negroes Sentenced to Death in Electric Chair in Recent Time by Texas Court; Charge Was Criminal Assault on Woman; Lynching Attempted.

DALLAS, Tex., May 28.—Frank and Lorenzo Reed, negroes, were sentenced to die in the electric chair June 28 for confessed criminal assault upon Mrs. Mary Steer by a jury here.

Sentence was passed by Judge C. A. Appell, after trial had been held for two days. The trial was a hearing lasting approximately 20 minutes immediately after Frank Reed had been indicted guilty.

Mrs. Mary Steer, principal in the attack, was the only witness in the hearing of the two men. The entire hearing upon the two separate trials lasted one hour and a half.

DALLAS, Texas, May 28.—A crowd of armed negroes was thrown around the criminal court buildings here at dawn today when Frank and Lorenzo Reed, two negro slayers, will go to trial on a series of indictments charging murder, criminal assault and kidnapping.

ROGERSON-WELLS ROAD GETS MORE TIME TO FINISH

Interstate Commerce Commission Grants Oregon Short Line Railway an Extension of Time to Complete Construction of a New Line from Rogerson, Idaho, to Nevada, a Distance of 36 Miles.

WASHINGTON, May 28.—The Oregon Short Line railroad was granted an extension of time today by the Interstate Commerce commission in which it may complete construction of a new line from Rogerson, Idaho, to Nevada, a distance of 36 miles.

The road reconstruction from Rogerson proceeded rapidly until within a few days when the building stopped until ballasting had been finished. At that time W. H. Armstrong, chief engineer of the Oregon Short Line limited the report that there was a rail shortage, but some weeks later the report was confirmed by General Manager H. V. Platt on the occasion of the visit here of President Carl H. Gray.

FORD WOULD HAUL FRUITS NORTH IN U.S. WAR VESSELS

DETROIT, May 28.—Henry Ford has solved one of the problems confronting his projected plan to operate a fleet of war vessels, by using Ford automobiles and parts by transporting southern lumber, now wasted, to northern markets.

With this purpose in view, it was estimated at Dearborn that half a dozen United States shipping boat refrigerators, now lying idle at the Detroit plant, may be bought by direct bill.

WILLIAM B. MARR, chief engineer for Ford, will make a trip to inspect the vessels, it was said.

LOS ANGELES, May 28.—The U.S. Coast Guard today announced that it had killed Mrs. Alma Mapstead, 24, at his home here today and then sent a bullet through the eye of her husband, who was sitting in a chair.

EVOLUTION IS NOT ON TRIAL IN TENNESSEE

Noted Zoologist States You Can Be An Evolutionist Without Having Money in Your Family Tree; Scopes Case Is Not Test for Evolution.

NEW YORK, 1925 by United Press.—(Copyright, 1925.) May 28.—One can be an evolutionist without having money in one's family tree, according to Robert Cushman Murphy, noted zoologist and assistant director of the American Museum of Natural History.

"Evolution is not on trial in Tennessee," said Dr. Murphy, referring to the case of T. J. Scopes who had been indicted by grand jury at Dayton, Tenn., charged with violating a new state law that prohibits the teaching of evolution.

"It is believed the body was in the water for more than a month, and washed ashore," the woman appeared to be middle-aged, about 5 feet tall and stout. Police were unable to find any marks of violence on the body that would identify a woman had met with foul play.

NO HOPE FOR TO ENTOMBED MINERS HELD

Twelve Bodies Have Been Recovered and Officials Express the Opinion That 30 More Are Still in the Mine; Bodies Found 2000 Feet Deep in Tunnel.

SANFORD, N. C., May 28.—Four more bodies were brought to the surface today from the Constance mine of the Carolina Coal company, wrecked yesterday by three gas explosions.

Twelve bodies have been recovered so far, company officials announced at 3 P. M., expressing the belief that at least 30 bodies are still in the workings.

The four bodies located early this afternoon by the crew of the mine rescue car rushed here from Thomas, W. Va., were found at the 2000-foot level which precludes the possibility, officials said, of finding any miners alive.

SANFORD, N. C., May 28.—Between 50 and 75 miners are believed to have died in the gas explosion at the Carolina Coal company mine near here today.

Hope for rescue alive of any of the miners entombed following the explosion yesterday was abandoned by mine officials early today. If the explosion did not kill them, the after-damp snuffed out their lives.

MOM'N POP

another important thing to know about Lubrication

THE warm days are here—days when your motor quickly gets hot. But that's nothing to worry about so long as you keep the crankcase filled with the proper grade of Vico Motor Oil. For this oil, refined from high-grade paraffin base crude, has unusually high flash and fire points—which means that the lubricating film will not break down under great heat.

Not every oil has this quality. Nearly all oils will lubricate all right under ordinary conditions—but Vico does the work when danger of damage to bearings and cylinder-walls is greatest.

There is no better oil than Vico. You can get it in a grade to suit your car.

SCHOOL DAYS By DWIG

THE SLUGGARDS

Notwithstanding post-war conditions, school health activities have been kept at relatively high efficiency in England. In 1922 out of 5,180,589 children in average attendance at the elementary schools, no less than 2,886,750, or 46 per cent, were medically inspected.

Good work of any kind can be done only with good tools. Although the eyes are the most important tools used by the school child and though 10 per cent of school children have such poor vision as to need the help of glasses, it is estimated that only 50 per cent have ever had their vision tested.

Tomorrow the War Mothers of Twin Falls city, without making a formal drive, will accept voluntary contributions for the rehabilitation of the disabled veterans who are not sufficiently provided for and for the care of orphans who might otherwise be confined to public asylums for juveniles.

AMERICAN LEGION DRIVE IS WORTHY CAUSE

Days of exposure in snow, rain, mud and mire, hours of suffocation by poison gas, the weeks of the influenza epidemic, all contributed to the ghastly heritage of tuberculosis which has struck down service men of the World War by thousands.

As neighbors to every such home there are the homes of Legionnaires. As the friend of every sufferer there is the Legion post of his home town. Unfettered by red tape, equipped with a comradeship of understanding, the Legion holds out its hand to help over those spots which even the best organized governmental relief machinery cannot touch.

Back of this army of service stand the national rehabilitation service and the national child welfare service. They stand ready with hospital service, with the children's billets, with medical direction, with co-ordinating contacts with government and private agencies.

This central dynamo of service in binding up the wounds of a nation's battle cannot be allowed to stop, nor to slow down. Its operation must not be left to chance.

The great life work of The American Legion for the disabled and the children, for which it requires an endowment backing of five million dollars, would be necessary, right and just if it were to cost five hundred million.

Finding it practical to sustain this nation-wide program on the income of a relatively small endowment, it asks for the prompt provision of that endowment during the coming few months. It feels confident that it need not beg for this need, but that it can ask it knowing that all who will do so gladly and proudly, thankful for the privilege of sharing this responsibility to those whose sacrifice to their country was beyond money and beyond price.

Bible Thought for Today. THE TEMPLE OF GOD—Ye are the temple of the living God; as God hath said, I will dwell in them; and I will be their God, and they shall be my people.—1 Cor. 3:16.

A Permanent Fixture. Corinne Rich says in another generation automatic machines will displace stenographers in all offices. We don't believe it. As a piece of office furniture the sten is beyond the possibility of substitution.—Houston Post-Dispatch.

Skinny Men. Gain 5 Pounds in 30 Days or Get Your Money Back.

Doctors and good pharmacists know that God Inters His Will in all circumstances that make flesh, create appetite, build up the power to resist disease and give food which feeds the skinny men and women.

Gives You Adierka for Stomach Trouble. A merchant whose wife had stomach trouble finally gave her Adierka. It helped her at once. The pleasant and QUICK action of Adierka is surprising. It helps any case that on the stomach unless due to deep-seated causes. It is excellent as an intestinal evacuant and a wonderful remedy for constipation. It often works in one hour and never repeats. Fisher Drug Co.

Only Diamond Exceeds The Sapphire in Value

There is no such stone as a saph-
diamond. There is a distinct stone, a
sapphire, a pure sapphire, excellent
in value by no precious stone except
the diamond. The sapphire is regarded
as a variety of corundum, highly
transparent and brilliant. It is some-
times colorless, or nearly so. It more
frequently, however, exhibits color,
generally a bright red, or the ruby, or
a beautiful blue—the latter being that
commonly called sapphire. Purple,
or greenish color indicates a
milk opal, flakes or stripes. A saph-
ire largely used among jewelers is
called a "reconstructed sapphire," arti-
ficially made of hard glass (crystal)
in France and Germany, and is not
generally fit for the work of a jeweler.
The usual defects are clouds,
cutting and mottling in jewelry. The
true sapphire is found crystallized, usu-
ally in six-sided prisms, terminated by
stepped pyramids. It is sometimes
found imbedded in garnet, but most
frequently occurs in alluvial soil. It
occurs in Bohemia and Saxony, but the
finest are found in Ceylon. Kashmir
and Burma also produce the specimen,
supplies are found in Australia
and parts of the United States. The
value depends on quality more than
on size and does not decrease with the
age of the gem.

DAILY MARKET REPORTS

GRAIN MARKET IS STRONG AND HIGHER TODAY

CHICAGO, May 28.—Grain futures
closed generally strong and higher.
Wheat futures led. September went
into new high ground for the ses-
sion.
Wheat dropped one cent.
Corn was pressed downward from
the high point by increased com-
missioner house selling. Because of
the more optimistic character of
crop news the general tendency was
to sell out.
The report in one way strengthened
by reported substantial increases
in sales and poor crop news.
Spirited buying sent the provisions
list upward.
