

# SEVEN MEN KILLED IN TRAIN WRECK

## SLAYER INDICTED BY GRAND JURY

Dentist of Los Angeles Declared Sane By Experts: "Millionaire Kid" Was Marked for Same "Scientific Death" As His Mother Received Is Claim.

LOS ANGELES, Calif., June 16.—Dr. Thomas W. Young, "scientific slayer," was formally indicted here this afternoon on a charge of first degree murder.

Dr. Young is the confessed slayer of his only child, Grace, a young woman, indicted for the sensational execution of the county grand jury featured by the testimony of Charles "Fat" Grogan, the slain woman's son and heir, and Dr. Young's former office assistant.

District Attorney Alex Keyes announced he would file the indictment in superior court next Friday.

LOS ANGELES, Calif., June 16.—Charles "Fat" Grogan, 18, the "millionaire kid" was the principal news today before the grand jury investigating the "scientific slaying" of his mother, Grace Young, by Dr. Thomas W. Young.

Young Grogan is the curly haired Irish lad whose million dollar fortune, according to state officials, prompted his stepfather to murder his mother—with liquid—this morning.

Three noted mental experts who examined the "scientific slayer" declared unscientifically this morning that he was sane.

LOS ANGELES, June 16.—Dr. Thomas W. Young, "scientific slayer" who was indicted today by the grand jury, was the subject of a preliminary report to the state officials.

Three noted mental experts who examined the "scientific slayer" declared unscientifically this morning that he was sane.

No Traces of Insanity.

"While no official report has been rendered yet, I have been advised no traces of insanity were found in Dr. Young," District Attorney Alex Keyes told the United Press.

The attorneys who examined the doctor were Dr. J. H. Barker, Paul Bowers and Louis Webster.

The mental test of Dr. Young was ordered by District Attorney Keyes to block the insanity defense of the slayer, who claims to be obsessed with "murder complex."

The prosecutor appeared personally before the grand jury and demanded for a quick indictment and trial.

"The state will not allow the prisoner to plead insanity and submit to a life sentence in prison," he said, "but will insist on the death penalty."

Dr. Young's confession to the strange "murder of science" and the coroner's verdict which confirmed the doctor's version of the slaying, were presented to the grand jury.

They told him Dr. Young arranged his wife to death with dental gas in their lonely cabin in Beverly Glen, and that he had been in the room in a cement chair in the back yard.

Keyes told the jury the slayer had been deliberately planned and executed, and declared the motive was to gain control of the million dollar fortune of his wife's son, "Fat" Grogan.

## ELECTRIC LIGHT ASSOCIATION TO HEAR JARDINE

\$12,000 Prize Will Be Awarded to Portland Man for Best Home Lighting Plans Submitted.

SAN FRANCISCO, June 15.—Electricity, at a national committee and sectional business meetings was the program today for the National Electric Light Association's convention in session here for four days.

Commercial, technical and public policy sections are meeting separately with attention to the various sections during the mornings.

Thursday's session will be marked by an address by William M. Jardine, secretary of agriculture, and by presentation by J. H. Kelly, Portland, Ore., of the \$12,000 national prize in the home lighting contest.

Atlantic City and Philadelphia delegations already are pulling wires for the 1926 convention.

## Quits Guard

Major General George C. Rickards will give up his post in Washington as chief of the militia bureau and return to his home in Oil City, Pa., for a rest prior to being re-elected for election to Congress. He has been identified with the national guard since 1877.

## STATE BOARD OF EDUCATION STIRS UP ROW

Idaho Tech President asked to resign and Dr. Frazier Refused to Fight Behind Slides Line Up for Legal Action.

BY H. A. LAWSON.

BOLSHAI, Idaho, June 16.—The action of the Idaho state board of education in calling for the resignation of Dr. C. R. Frazier, president of the Idaho Technical Institute at Pocatello, will apparently, if it has not already done so, have created a row that developed somewhat unexpectedly during the last session of the legislature, between those in charge of educational affairs in this state and those who are interested in the expansion of the educational sphere of the Idaho Technical Institute.

Dr. Frazier has declined to accept the board's invitation to resign. This is accepted as a challenge to the board which may now be summarized as follows: Dr. Frazier is being forced by legal action, which may be instrumental in holding the board to the contract it made with him on his reelection this spring.

The entire situation is one that promises some real educational and political fireworks before it returns to normalcy. It has a background which also shows some of the bitterness that is behind and above the direct connection that it has with the management of the state educational institutions.

After those interested in the betterment of education and educational institutions in this state brought about a codification of the educational laws, the legislature was induced to pass legislation creating what is known as the "Idaho system." This radically changed the manner in which educational institutions were managed. The constitution of the state created the board of regents of the University of Idaho.

Scheme Is Changed.

This board is given the management of the university's affairs, including the federal land grants and federal money it receives. Prior to the passage of the "Idaho system" the various state institutions were managed separately by boards, with the result that there was considerable duplication in the purchase of supplies, etc., to say nothing of considerable political activity in connection with the board appointments.

The board was changed with the adoption of the "Idaho system." There was created the state board of education, which in turn became the board of regents of the University of Idaho. In addition to having the power of managing the affairs of the university, this board took over the direct management of the Lawton, a normal, at Lewiston, the Albion State Normal at Albion, the school for the blind at Boise, and the Idaho Technical Institute at Pocatello and the industrial training school at St. Anthony.

The board was given power to engage the services of a commissioner of education. This commissioner was the executive head of the board and with the board's action now gave general jurisdiction over the state institutions. From the time the board came into existence and took over the joint management of the institutions they began to show steady growth and progress.

## POLICEMAN STICKS IN HUT ASPHALT WHILE ON DUTY

WILMINGTON, Del., June 16.—John Traynor, traffic policeman, literally "stuck to his post" in the bolling sun. Traynor's feet became mired in the softened asphalt. He reported at police station minus his shoes, having cut the faces and left them sticking in the asphalt.

## GRAND DRAGON WINS OPENING SKIRMISH

NODDLESVILLE, Ind., June 16.—The defense was a sweeping victory today at the opening of the hearing on the bill to repeal the anti-lynching law. The bill, known as the "Grand Dragon" bill, was introduced by Representative John C. Starnes, of Indiana.

While the king first entered the arena, the defense was a sweeping victory today at the opening of the hearing on the bill to repeal the anti-lynching law. The bill, known as the "Grand Dragon" bill, was introduced by Representative John C. Starnes, of Indiana.

With a membership of nearly four hundred, thousands of Klansmen, behind him, Starnes' bill was introduced in the house of representatives today.

Although the law was introduced, the bill was not taken up for consideration today. The bill, known as the "Grand Dragon" bill, was introduced by Representative John C. Starnes, of Indiana.

The bill, known as the "Grand Dragon" bill, was introduced by Representative John C. Starnes, of Indiana. It was a sweeping victory today at the opening of the hearing on the bill to repeal the anti-lynching law.

## FLOODS AND STORMS KILL SIX AND DO MUCH DAMAGE

CHICAGO, June 16.—Six persons were killed and property damage estimated at \$2,500,000 was done by floods and storms in Iowa and Illinois today.

At Manchester, Iowa, Alfred Wells, a Civil War veteran, succumbed to injuries received escaping flood waters. Mrs. Frank Cole was drowned after saving her two sons from river water that had inundated their home.

Edward Bell, 60, and Mrs. John Cowan and her mother, Mrs. Anna Russell, perished in the swirling currents of the swollen Missouri river at Cascade, Iowa. Bell drowned when a row boat he was in was overturned.

One woman was killed by lightning in Indiana. A violent thunder storm caused considerable property damage.

## ENGINE PLUNGES INTO DEBRIS CHOCKED SWITCH; FIFTY INJURED

HACKETTSTOWN, N. J., June 16.—Seventeen persons had died up to 2:30 p. m. today as a result of the worst accident on an American railway in recent months.

The wreck occurred near Hackettstown when an excursion train from Chicago, carrying a party of Germans from the middle-west to New York, where they were to embark today for Germany, plunged into a switch which had been clogged with debris during last night's rain and electrical storm.

Three cars and the engine rolled over while steam pipes burst and sprayed with live steam dozens of passengers.

HACKETTSTOWN, N. J., June 16.—Plunging into a debris choked switch during last night's lightning storm, a special train on the Lehigh Valley railroad was wrecked near here with a loss of 16 lives.

Five persons were injured severely and probably a score more received first aid treatment.

The body of the fifteenth known victim was brought to Hackettstown in a private automobile later, the driver explaining he had been delayed by tire trouble. The man was believed to have died on route.

Six dead were taken from the wreckage; six others died in a hospital at Easton, Pa.; one died en route to a hospital; and four died in a hospital at Dover, N. J.; all from injuries and most of them from burns.

Approximately fifty persons were injured while a score of others received first aid treatment on the scene.

Six bodies had been taken from the wreckage of the train at noon, seven of the injured who were taken to a hospital in Easton, Pa., died from the injuries during the morning and one died in a hospital at Dover, N. J.

Those who died in the hospital, in most instances were victims of burns from steam which poured into the cars when the train slipped into the debris.

Many of the injured were still in the hospital today. They were taken to various hospitals in towns near the scene of the wreck.

The train was carrying passengers from the west to New York where they were to embark this afternoon on the liner Republic for Germany. The party was traveling under the direction of a tourist agency.

Government Suit to Recover on War Contract Thrown Out.

KANSAS CITY, Kan., June 16.—The government's suit to recover part of an alleged \$1,000,000 loss from the George Puller company, builders of Camp Funston, war time cantonment, was thrown out of court today as being barred by the statute of limitations.

The suit was one of several the government has filed against war time contractors, charged with waste of federal funds.

## Explosion Kills Three in Colorado

FLORENCE, Colo., June 16.—Three men were killed and one injured when a Chicago newspaper reporter, state's attorney this afternoon announced that the explosion which killed three men and injured one in a coal mine near Florence, Colo., was the result of a gas explosion.

## WORLD COURT ATTACKED BY SENATOR REED

KANSAS CITY, Mo., June 16.—In a characteristic speech, replete with sarcasm, Senator James A. Reed launched the opening attack on the world court plan before the county women's temperance club here yesterday. Reed is expected to lead the fight in the senate against the world court proposal as he did against the league of nations plan.

Reed said the world court was a "league of nations" and would set up an international judicial machinery composed of 12 allies and one American. No patriotic American would submit his country's fate to such a body, Reed asserted.

The senator was applauded when he said he would not give the lives of a company of American soldiers to save all Europe from its own folly.

President Coolidge received a note from the speaker who referred to the chief executive as "little Cal" and with that degree of politeness intellectual amenity.

## Aged American Is Beaten by Ruffians in Philippines

MANILA, P. I., June 16.—Martin Hunt, aged American, long a resident of Manila, today was attacked and severely injured by a band of ruffians led by Miguel Cornejo.

Cornejo is a member of the lower house of the Philippine legislature. Hunt, a well known American, long a resident of Manila, today was attacked and severely injured by a band of ruffians led by Miguel Cornejo.

That holds the congressional seat of honor, won during the boxer rebellion while he was serving in the marines.

KELLOGG'S LAW PARTNER WILL BE NAMED ASSISTANT SECRETARY OF STATE.

WASHINGTON, June 16.—Robert L. Olds, St. Paul, Minn., former law partner of Secretary of State Kellogg, will be appointed assistant secretary of state by President Coolidge.

The White House spokesman announced today that Kellogg's law partner, W. A. MacMaster, appointed minister to China.

## SHEPHERDS NEVER LOVED FOSTER SON

Lady Reporter Testifies That Shepherd Plotted for Sixteen Years to Get Billy McClinton's Fortune; Sweetheart Says They Did Not Love Billy.

CHICAGO, June 16.—Through the testimony of Miss Louise Allen, a Chicago newspaper reporter, state's attorney this afternoon announced that the Shepherd family's death claimed a 16 year plot by William J. Shepherd to obtain the McClinton fortune.

Miss Allen, interviewed Shepherd's son, who testified that the Shepherd family never loved Billy's mother.

At the interview, Miss Allen testified that the Shepherd family never loved Billy's mother.

CHICAGO, June 16.—Smiling and blushing, beautiful Isabelle Boyd went through the "happy ending" she saw her affair with Billy McClinton, the "millionaire orphan," paraded in public in a crowd of admirers.

Isabelle was a witness for the prosecution, seeking to prove that William J. Shepherd, a wealthy Chicagoan, had plotted for sixteen years to obtain Billy's fortune.

But it was under cross examination by William Scott Stewart, chief counsel for the defense, that the "happy ending" was revealed. Stewart asked Isabelle to tell the truth.

Stewart then read excerpts from the letters she had written to him when he was away at Dartmouth college. She turned them over, looked at her own handwriting, read the seductive phrases and said:

"Yes, I wrote those letters to Billy," Stewart then read excerpts from the letters she had written to him when he was away at Dartmouth college.

(Continued on page 3)

## MEXICO COMPLAINS ABOUT TREATMENT

WASHINGTON, June 16.—The administration's purpose in stirring the smouldering fire of Mexican-American situation into flames was today revealed in authoritative quarters.

"Yes, I wrote those letters to Billy," Stewart then read excerpts from the letters she had written to him when he was away at Dartmouth college.

According to an account of the discussion which took place at the instance of Secretary of State Kellogg, the United States government has certain conditions in Mexico menaced American lives and property that provoked it.

"These conditions the government had been fully aware of for a long time. What precipitated the situation was the return here of United States Ambassador Sherman with complaints of discourteous treatment by the Mexican government officials and his conviction that only a sharp blow to the public opinion of both countries could remedy the situation. That having been done, the incident may be considered closed."

## INTOLERANCE HAS GRIP ON WORLD TODAY

CLEVELAND, Ohio, June 16.—Only the promise of common understanding of each other among peoples of the various nations will free the world of strife.

Making this the theme of his address, Secretary of State Kellogg, at the Rotary International convention here today, declared that the world is today gripped by intolerance.

"The spirit of intolerance," he said, "is the greatest enemy of peace and good will that the world has today."

Secretary Kellogg's address was the first of a series of addresses by the secretary of state at the Rotary International convention here today.

Secretary Kellogg's address was the first of a series of addresses by the secretary of state at the Rotary International convention here today.

GRAIN FUTURES  
DROPPED AGAIN

CHICAGO, June 16.—Grain futures  
gave up new lows on the pres-  
ent downward movement in the  
prevailing weather brought widespread  
liquidation on the Chicago Board of  
Trade today.

The wheat market was character-  
ized by rapid price changes.

Liquidation in corn was not per-  
sistent. Development of strength in  
the cash market and lighter receipts  
served to offset favorable crop ad-  
vice.

Oats dropped with other grains.  
News from over the belt, contradi-  
ctory of leading experts, and  
lighter receipts came too late to be  
of much benefit.

Provisions fell off with grains.
