Workers Are Carried Away and Hidden and Women and Children Are Taken British Governor of Shanghai Threatens Large Deportation.

SHANGHAI, July 10.—Intimidation, abduction and starvation are the newest weapons used here to force workers into joining the general strike.

PRESIDENT IS STIRRED OVER CHINA

Coolidge Hastily Summons Secretary of State to Conference Because of Dangerous Situation in the Far East; Government Seeks to Secure Carrying Out of Conference Terms.

WASHINGTON, D. C., July 10.—President Coolidge has hurriedly summoned Secretary of State Kellogg, of St. Paul, Minn., and Undersecretary of State Sumner Welles, of St. Paul, Minn., to a conference at Swampscott, to confer on the serious Chinese situation which has suddenly become a turn for the worse.

In a week end conference beginning tomorrow, the president and the state department chiefs will make the critical decision on whether the United States is to stand on its demands for an immediate Chinese conference or submit to the pressure of Great Britain and other powers for delay.

With anti-foreign sentiment rising rapidly in China, threatening further violent outbreaks, any longer delay by the foreign powers in replying to China's unanswered note demanding treaty ratification and apology for the Shanghai affair, is considered dangerous.

The government is now insisting, through its representatives in Peking, London, Paris, and Tokio, that those powers signatory to the league number five of the Washington arms conference provided for a Chinese conference to consider China's extra territoriality make good their promise now by calling such a conference.

Dubler Crisis.

SWAMPSCOTT, Mass., July 10.—Secretary of State Kellogg will visit the summer white house tomorrow to confer with the president upon state department affairs. It was announced here today.

Kellogg is the first cabinet member to call upon President Coolidge during his vacation. The president's office here fully refused to discuss the reasons for the secretary's visit or even to say whether he had been summoned. It was stated, however, there was no important crisis in foreign affairs to require his sudden trip to St. Paul.

NEWS OF THE SPORT WORLD

RICKARD SEEKS PUBLICITY FOR BIG RING FIGHT

NEW YORK, July 10.—Revival of the reports that Joe Rickard is negotiating for a heavyweight championship fight between Jack Dempsey and Harry Wills, to be held late this summer, were looked upon today in boxing circles as "somebody looking for publicity."

Rickard and Eddie Sullivan, the agent manager of the negro challenge, had been reported previously after which Sullivan said, "I guess it will be all right." Rickard said, "I've agreed to fight but he did not mention whether I've agreed on the price of a contract of six figures."

Sullivan from the radio Sullivan said, "Some thought that Rickard made more money than I did, but I know that he was first in line for the fight if the New York boxing commission would succeed in getting Dempsey to fight."

According to the agreement, to accept the challenge, Dempsey must first pay \$100,000 to Sullivan. Sullivan said that he was willing to pay that sum if he was going to fight, and it is understood that he has heard the boxing privilege for the Brooklyn baseball park which was the scene of several losing ventures.

"Rickard" is the only man big enough to promote a Dempsey-Wills fight. William Madison, senior promoter from Boston, said last week, "But James A. Farley, senior chairman of the commission, disputes this."

"That bout is such a card that a child could promote it," Farley said yesterday after the meeting of the commission.

GOODING SCORES FREIGHT RATES OF INTERIOR

SPOKANE, Wash., July 10.—The railroad rate after spending the winter and spring at Washington, D. C., are sent to the west in a square freight car without discrimination. There is no reason why we should not have freight rates in the west if the government will give us the same opportunities as those of Chicago, where some of the greatest industrial sections ever known have built up.

"Can't you get any more out of the interior climate and our mighty resources, we can build up a mighty industrial empire in the west if we can be assured of freight rates that do not discriminate."

VICO MOTOR OIL

Stands up under Heat

EXCESSIVE heat is the mortal enemy of most lubricating oils. They haven't the "body" to withstand the combined pressure and heat of long drives—hence burned-out bearings and scored cylinder walls.

But Vico, refined from high-grade paraffin base crude oil, possesses the necessary "body" to retain its lubricating qualities long after most oils break down.

Drain your crankcase—refill with Vico and notice the increased smoothness and power of your motor.

Vico does no more than other oil.

MODERNISTS' BATTLES EXAGGERATED

Factor of Baptist Church Says Seattle Convention Was Enthusiastic and Scrup Not as Bad as Reported but Pretty Lively at That; Warning Is Given Ultra Liberals.

Rev. E. O. Butler, pastor of the Baptist church here, returned from the recent meeting of the Northern Baptist convention which was held in the American people of Seattle, Wash., reports a most enthusiastic gathering. He says the newer reports of the fight on orthodox were greatly exaggerated but admits that there was quite a scrap. The fight was precipitated by the action of the Park Avenue church of New York city, recently broadcasted to the entire country. An attempt was made to disband the delegates and exclude the church from the fellowship of the convention. Through a technicality the delegates were not excluded and the convention proceeded. The chair of the delegates were seated but later action of the convention excluded the church from the fellowship of the convention. The chair of the delegates were seated but later action of the convention excluded the church from the fellowship of the convention.

Rev. Butler reports the roads in splendid condition, the weather pleasant and the convention a grand success of the way first class. Grandstands of tents are on the road and the parks are well kept. He says the Glensons had not yet started on their return trip but were still enjoying the wonderful city of Seattle. Idaho was represented by about an delegate from the various sections of the state.

Modernist Invites Bryan to Start St. Simian at Dayton

DENVER, Colo., July 10.—(Specialist) William Jennings Bryan has done more to popularize the cause of evolution than any other man in America. Dr. Frank H. Rice, bishop of the Denver diocese, has today requested his offer to make Bryan an honorary member of his church. Rice declared the bishop has proclaimed the principles for which the liberal church stands, and because of this fact Rice cordially invited Bryan to establish a branch church to be known as the United States diocese wherever he desires, but preferably at Dayton, Tenn. Bishop Rice said he had received no answer from Bryan regarding his first offer of honorary membership. The liberal church meets weekly in a downtown hall. For a long time the constitution of the United States diocese has been based on the fact and science of the day.

PORTERFIELD OUTLINED HIS FUNERAL PLAN

Well Known Engineer Expresses Desires Relative to Arrangements in Detail at Session of Society Home Time Before Death.

With the forethought which distinguished him throughout his life, James C. Porterfield, who passed away yesterday, has now planned in detail the details of his funeral some weeks ago and wrote them out in poetry. His wishes as expressed in this unique request in the Times: "I am glad to hear from our people that you have taken out from our funeral home."

Where we were planned and dreamed of the years to come, I wish to be scattered, might I be so? Where the years, though many, passed so quickly, they were toward our home on high—Are these things regretted—passed they all too soon? No, for we added those years to our living hour.

The following men were chosen by Mr. Porterfield from among his old friends his colleagues and C. L. Barber, E. H. Darlington, G. M. Hall, C. L. Theahaw, John W. White, "Let these be the names whom I long have known. That they bear my body to its earthly home. Are these friendships ended now? No, I simply pass to the great unknown."

Following are the hymns selected by him to be sung led by the Methodist choir and to be used as a choir and solo in his funeral service in the hymns: "My Faith Looks Up to Thee," by Haydn; "I'll Sing of Thee, O Holy Saviour," by Charles Elliott; "Aid with Me, Heavily Laid," by W. M. Marbury; "The Hymns that my friends shall sing, When my flesh is cold and my soul is fled, O God through Christ, His son, We will not say, 'Thy will be done.' The body may be viewed at the parlors from 10 a. m. to 2 p. m. tomorrow.
