GENARO MAY BE VILLA'S SUCCESSION

By HENRY L. KAMMELL
NEW YORK, July 16.—Little Frankie Genaro, from that section of the east side known as the Little Italy, was chosen as the new world's flyweight champion at the next meeting of the New York boxing commission.

With his group, junior member and 1924 chairman of the commission, told today he had no doubt that the little fellow who won the Olympic flyweight championship of the United States in 1924 at Antwerp was entitled to succeed Pancho Villa, the former champion, whose career was ended by another dead yesterday.

There is no question that Genaro is entitled to appointment or recognition as the new champion. He has won his victory over the former champion.

There are not enough good little fellows among the flyweights to make a choice of a successor difficult. It is a free-for-all where few can make the weight for long.

Johnny McLaren on the coast, must be the littlest, he is said, but Villa has not lost his title, so said to be filling out rapidly that he may be in the featherweight class by the time the commission meets. So the best thing the commission could do would be to announce Garro as the successor of Villa and tell him to go out and defend it—and he would.

Water-Main Breaks at Early Hour This Morning; No Damage

Breaking of a six inch water main occurred at 3:30 this morning. The water main, located in the Goldsmith district, did not result in any damage, according to H. F. Ryburn, superintendent of streets.

The water issuing from the break flowed into a conveniently situated ditch nearby which prevented flooding of the street. Water was turned off at two points while repairs were being made this morning.

Repair of the wooden pipe was caused by the breaking of the wire binding due to alkali corrosion.

Joins Managerial Ranks

Meet the new manager of the Chicago Cubs. In other words, permit us to introduce Mr. "Rabbit" Maranville, long regarded as one of the best infielders in the game. Maranville came to the Cubs in a trade with Pittsburgh short of a week ago. He has been a source of many sensations. He succeeds Bill Kelleher, who piloted the Cubs since Aug. 4, 1924.

Watching the Scoreboard

Yesterday's hero, "Cy" Williams, lanky outfielder for the Phillips, hit three home runs, all of them with two on and beat the Cards, 9 to 6.

The Pirates knocked Dazzy Vance out of the box, ate seven runs with the help of a double and a triple, and beat the Senators 14 to 3. It made three out of four for the Browns in the series.

Welch lost a ball in the 'run and let in three runs that gave the Reds a 6 to 3 victory over the Braves. The Reds scored all their runs in the sixth inning.

Babe Ruth fell ill and grabbed his coat and hat to leave the game while Ted Markham was pitching the White Sox to a 3 to 0 victory over the Yankees.

Garnet Buckeye, Cleveland's main size pitcher, won his fourth straight game when he beat the Red Sox, 6 to 1.

The Athletics gained a full game on the Senators when they downed the Tigers 12 to 4.

STRIKE OUTLINE EMPHSES: NEW YORK, N. J., July 16.—The outlook for a settlement which would avert a general antitrust strike, this far was decided briefly, during a conference of the committee room when operators and minors are in executive session. A friendly spirit was said to exist.

12-MILE Hike.

On a 12-mile hike Saturday, the Billings Indians, from Rock Creek, and the Fort Peck Indians, from Poplar, found a dead bear, discovered a mountain meadow solidly covered with brilliant blue flowers, saw nine big horn sheep, heard a grizzly bear over twenty arched, several of them perfect, and found a spearhead as large as a man's hand.

They also found the remains of a family of delicate ferns and mosses to place in hanging baskets which are being sent out in camp.

Friday a big buck walked along one end of the afternoon trail.

On some of the tents for over an hour.

Several pictures of deer have been secured by the scouts during the trip, which has been within seven miles of the camp.

Within, within, seven miles, and Eagle Scout Fred Varney, the efficient camp cook, has used 17 deer during the trip.

Doctors delving into the death of the boy, who died last Friday, attributed it to a tooth infection.

Paseo said he advised Villa not to fight and believes Villa did not fight because of the tooth battle he had suffered from poison from the tooth infection through the boxer's system.

TWIN FALLS DAILY TIMES

Published Every Evening Except Sunday by the Times Publishing Company, Twin Falls, Idaho.

Entered at the Twin Falls Postoffice as Second Class Matter as a Daily Publication, April 11, 1918.

FIFTEEN MILLIONS LIVE WHERE RABBITS AND COYOTES ROAMED

The following editorial appeared in the Oregon Daily Journal concerning the Twin Falls tract and we reproduce same herewith because Southern Idaho should know what outsiders think of us. This party visited here for the first time just a few weeks ago and he is now one of the best boosters for Southern Idaho that we have met. Here is the editorial:

Where there was once nothing but rabbits, coyotes and sagebrush there are now more than 20,000 people who sold crops last year totaling \$9,483,256.

The spot is the Twin Falls irrigation district in Idaho. The story of it is told by Jefferson Myers, late state treasurer of Oregon, who, as financial director of the Oregon Life Insurance company, recently spent 10 days on the project.

Last year's crop included hay, barley, beans, sugar beets, potatoes, fruit, wool, onions, poultry, eggs and seeds. There was, for example, a fine bean crop from 40,000 acres. Many of the crops, like potatoes and beans, have made an especial reputation and are in strong demand in the markets.

The crop for this year is estimated at \$15,000,000. It includes 31,000 acres of alfalfa, 1,380 acres of alfalfa seed, 1,000 acres of clover, 5,000 acres of red clover seed, 500 acres of white clover seed, 18,000 acres of alfalfa cover seed, 42,000 acres of wheat that will average 50 bushels to the acre, 3,000 acres of oats, 9,000 acres of corn, 6,000 acres of barley, 4,000 acres of potatoes, 40,000 acres of beans, 3,000 acres of sugar beets, 500 acres of onions, and other products.

On the project, which comprises 203,000 acres, of which 170,000 acres are in crop and the balance in pasture, there are 9000 dairy cows, many of them purebred; 25,000 head of sheep, 18,000 hogs, 90,000 laying hens, 8000 work horses and 860 mules.

There is a large sugar factory on the project. There are no irrigation ditches against the farms. There is 30 miles of paved roads on the project. The buildings and improvements on the land are of the very best.

Twin Falls has a population of 10,000, with three substantial banks. During all the bank troubles in Idaho, in which there were 70 failures, no bank failed on the Twin Falls project.

Twin Falls is an example of irrigation as irrigation can, and should be. All these crops, and all these people on a district once covered with sagebrush and inhabited by coyotes and jackrabbits, are examples of irrigation and settlers not exploited.

W. A. Murray, of Oklahoma, is disgusted

He writes from South America to his wife, "The spirit of the

frontiersmen is dead in North

Some time ago, Bill Murray

half & dozen Texas counties

at least. His plan was to

colonize it with a lot of hardy,

adventurous men.

Now he has come to the

"wild west" of the type of

A "WILD WEST," in short, was

what Bill was trying to cre-

ate.

He created the "wild west" in this country while it stayed wild and plain for it as it began to grow, and now does not want to leave.

Having done so, he's ready to move on, and when he moved on, from Oklahoma to Bolivia, where the former got too civilized for him.

"NOWHERE else in the

world can you find

such things as back in the 'states'

member 'em in the old days!

It's just a cinch to get home.

Having done so, he's ready to

move on, and when he moved on,

from the "states" — of the type

days.

ACCORDINGLY, every Bill pur-

sued to South America and

planned for it as it began to

grow, and now does not want to

leave.

There, indeed, he found a frontiersmen, he found a frontiersmen, just the right material for the old "wild west" he remem-bered well. Little better, per-haps, could be found for a frontiersmen standpoint, for twelve months a year of crop-growing weather.

"TWIN FALLS," thought Bill, "to get

some wild westerners to

locate here."

For a "wild west" has to be

something besides more sagebrush,

more nature, conquerors are

necessary, and conquerors are

what "Alma Bill" Murray lives for.

He writes from South America to his wife, "The spirit of the

I have read the interview given

out by Mr. Clyde Basson regarding the interview with Mr. Thomas A. Sanderson — both are

friends of mine, and I will not take

any sides in this dispute.

But I do want to say that

the farmer who is selling his hay to the sheep man, is a way

to get out from under. It is simply

a case of "you buy my sheep and

Lynch, however, because he is a "plate" and myself have tried to get him to

instead of selling our hay to

Clyde Basson, we have bought

it from him, and we have sold

our hay and it took very little

time to get it.

Of course we were unusually

lucky for sheep have gone way up

in price, but still we have had
