

# TAXATION IS THE THEME

Same Subject Is Discussed by Captain Sweeley Who Deals with Local Matters and with Power Rates, Railroad Tariffs and Division of Burdens.

(Staff Correspondence)

"HICK, July 16.—The Twin Falls rancher, co-operating with the "Twin Falls Pioneer," has organized Idaho Bean Growers' association and the Pioneer Cattle Raisers' association, each of which is enjoying one of the greatest crops ever raised here, by its made by the Twin Falls Boy Scout band furnishing the music at the conclusion of Sunday school exercises.

For W. E. Burah, Captain Everett T. Smith, Captain Everett Crowley, State Master W. V. Deal and J. H. Hays, Jr., County Clerk of Bush are presiding over the gathering of bands at the fair grounds. There was a fine basket dinner on the grounds.

The speaker mainly on national taxation, county taxation, though

Senator Smith told about the advantages of the country and of the Twin Falls tract, for which he predicted prosperity.

**Borah Opposes High Taxes.**

Senator Borah commended Captain Sweetley's discussion of taxes, and charged too many bureaus with being responsible for much national taxation. He said he wanted to give an account of his stewardship and was willing to talk about what the people wanted. He declared that he was tired of having people come to the state to tell the farmers about

aid that, the south had nothing to do with Idaho legislation. Let the bill that the people wanted be passed and let the courts decide afterward. He spoke of the Dawes campaign against senate rules but said he never knew of a good bill.

to a filibuster.

Swedley Talks on Taxes.

The shifting and incidence of taxation were discussed by Capt. Everett M. Swedley at length. He said direct taxes, are "pretty much what they make them and land on the same principle of fairness, but when you come into the field of income taxes, those that are burdened even when the pretense of fairness and equality are absurd." • • • Taxation is a "very serious thing" as an expensive joke. A little of "the money we pay goes to inefficient government and to increase the cost of same capital. Most of it goes to political purposes and the power of the party that happens to be in power. Last fall, at election time, we had a "combination of political and economic" charges made against us were noted for their "political and economic" views after election in the fish and game commission were "miraculously in no further need of protection, and the extract stopped."

Turning to railroad, telegraph, telephone, and telegraph associations, Swedley declared that the railroad (Continued on Page Three).

## Labor Leader Kills Self in Hollywood

HOLLYWOOD, CALIF., Feb. 10.—The death of R. "Red" Gore, well known California labor organizer, who killed himself by shooting himself in the head while drinking at the El Comodoro in this city, was announced here today.

Gore was a prominent labor leader and was known to many in the city. He was a member of the International Brotherhood of Teamsters and was active in the labor movement.

## SOCIETY

Mrs. Walter Heller entertained at bridge yesterday at her country home at Eden. Mrs. Arnett and Miss Stevens of Los Angeles were guests of honor. There were two tables. Mrs. L. S. Balladay had high score. Refreshments were served. The guests received favors.

The Community Ladies Aid met July 15th at the church basement. Eight members and three guests were present. At the close of the meeting, delicious refreshments were served by Mrs. Esther Wiese. The Aid voted to hold an ice cream social next Tuesday night, July 23 on the lawn of Mr. and Mrs. Henry Wiese who live across the road from the Community Church building.

Highland View Club—Mrs. William Wouda entertained the Highland View Club Wednesday afternoon. The regular business of the club was transacted and two guests were present. A picnic was planned for the business and their families to be held in the Highland park next Sunday. The next regular meeting of the club will be held with Mrs. Garrett Osterloh in about three weeks.

Miss Grace Posa was the "leading lady" among the out of town guests at the 500 party at the home of Mr. M. C. Wadsworth yesterday. Miss Maude Costello stood highest in Twin Falls. There were five out of town guests, Messrs. Frank Smith, John Costello, and William Wadsworth, and Miss Grace Posa.

## ANNOUNCEMENTS

The directors of the Twin Falls Mutual Federation of Women will meet Saturday, July 18, in the city park at 2:30 p. m. There will be a representative of each of the federations present, and also a member of the woman's executive committee of the county. It is the purpose of the meeting to which all women interested in club work are invited.

The neighbors of Woodcraft will have a session at the business and Professional Women's Club, room Friday evening at 8 o'clock.

## COOKSON CASE

(Continued from page 1.)

McKee, a sister, exposed a premonition also fought for her sister force.

Walter Cookson, husband of the missing woman, a former Los Angeles postal inspector, conferred at length with county investigators.

His wife whereabouts is a great enigma to him as anyone else, he declared.

When newspapermen suggested to him that Mrs. Cookson might have been the victim of a kidnapping, he said:

"Oh, that would be the worst of the man that got her worried, let her look at a newspaper."

"Then you think it was where she is?" Cookson was asked.

"I have no idea of the kind," he replied, refusing to discuss the case further.

## INDUSTRIALISTS

(Continued from page 1.)

Industrial circles, economists are careful to point out that this gloomy outlook is also likely to create social problems. Their industry they maintain, is fundamentally sound and the present crisis may be only a sign of returning health, rather than an indication of an early decline. The total number of workers employed in the Ruhr is still above that of pre-war times, while the output per head has increased. While no doubt, the individual is hard hit by these stoppages of all remunerative enterprise, when these conditions are taken as a whole will be the easier through the "winding out" process of all industrial weaknesses.

Parker Gilbert's View. A similar opinion is held by the Operations Agent General S. Parker Gilbert, who, in his recent report, emphasized the soundness of the industry, simultaneously stressing the necessity for evolving new methods to combat the present requirements. And this seems to be, indeed, the crux of the problem—depression—industrialists are trying to solve new problems by old methods. Unless they learn from adversity and the new preparations Agent General put forth, really capable leaders, there is every fear that they will bring the whole country will have to go through a hard and dangerous ordeal.

## NORTHWEST MERCHANTS

(Continued from page 1.)

ing. The farmer and business man must understand each other's problems, the memorandum emphatically says.

The first day of the conference will be devoted to discussion of methods by which chambers of commerce are working to solve the problems of the farm in their trade areas, including organization and composition of as-

## Says Father Cheated He.

Mrs. Dana Collins, a full blooded Ojibwa Indian, seeks an accounting of her estate in the federal court at Oklahoma City. She claims her father, the late Joseph De Noya, defrauded her of title to the townsite of White, long, Okla., on his lawn. The town's name is now De Noya, and she says there.

gricultural bureaus and committees and their relationship to other institutions, such as agricultural colleges and farmers' organizations. Agricultural credit, marketing, legislation, accounting and boys' and girls' club work, also will be discussed.

The second day will be given to technical methods of surveying the agricultural field and translation of such results into remedial action. Crop and livestock improvement, farm labor supply, dairies, expositions and the dangers of hastily conceived diversification campaigns, also will be taken up.

Just 20 years ago, numerous investigators have reported the finding of various bacterial organisms, both those usually under the microscope and the so-called ultra-microscopic variety, in association with human cancer. Some of the organisms thus far found have been alleged to be the specific cause of the disease has been confirmed as the actual cause.

Indeed, the majority of investigators who are devoting themselves particularly to studies of the cause of cancer, believe that the disease is physical or related to some specific substance within the human cell, not yet determined.

At the present time, it seems reasonable to believe that bacterial organisms of various kinds may find cancer there a suitable place for their growth within the human body, and may thus modify in various ways the growth and development of cancer.

Some years ago, Peyton House of the Rockefeller Institution, directed an ultramicroscopic organism or filterable virus in relation with certain experimental tumors produced in mice. The term "filterable virus" is

used to designate a substance which is not caused primarily by a bacterial organism, but that it is the result of other factors, chemical or physical or related to some specific substance within the human cell, not yet determined.

## KIMBERLY NEWS

Among those from Kimberly taking in the American Falls celebration on Monday were Messrs. and Mrs. W. H. Spencer, A. J. Wilson, P. W. Scott, E. H. H. Hill and Mrs. Hill and Messrs. E. Overman, H. J. Rogers, L. S. Rogers, Stacy Sampson, and U. M. Scott, H. H. Hill and Mrs. Hill and daughter, Dorothy, Mr. and Mrs. W. G. Koch and Mr. and Mrs. Lee H. Hill.

Miss Ona Morgan was brought home by her mother.

Mrs. Chas. Upson is enjoying a visit from her mother.

Harry Mott of Burley was a business visitor in Kimberly Tuesday afternoon.

W. A. L. Stowe and Howard Johnson spent Monday and Tuesday in Pocatello on business.

Miss Paul Summiller and children, and Miss Alma Stoughton visited relatives in Twin Falls Tuesday.

Miss Whitney visited his grandparents in Twin Falls several days this week.

Mr. and Mrs. John W. Harsh spent the week end at Bailey Hill Springs near Elmore.

Miss Betty Fiedler and Miss Margaret Shepard spent the week in Pocatello visiting Mrs. Fiedler's mother.

Lyman Cuntiller and Chas. Stedman spent in Idaho Tuesday and Wednesday and report excellent luck.

Mr. and Mrs. Geo. Simmerly drove over from Jerome Sunday to visit at the Jones Shewmaker home. They returned home Monday accompanied by Miss Deana Shewmaker who will visit this week.

Mr. and Mrs. Rosa Rosenbaum have moved back to town from the Emerson ranch where they have been the past four months.

Mr. and Mrs. G. P. Steinhilber, Mr. and Mrs. Glenn Whitney and Mr. and Mrs. Roy Davis attended the picnic at Relyer Thursday.

Mr. H. W. Johnson and sons of Springfield, Mo., arrived Wednesday for a visit with Mr. and Mrs. F. E. Wilson and Mr. and Mrs. J. Henry Johnson in a matter of Mrs. Wilson and Mr. Henry.

Mr. Leo Zuck, minister for Mrs. Fred Dadds Thursday afternoon. About twenty ladies were present. The afternoon was spent socially, after which the hostess served delicious refreshments.

Gene Wilkerson and Geo. Halnes, who live four miles southeast of Kimberly, threatened barley Thursday. This is the first threshing reported this season.

Mr. and Mrs. Frank Swearingen and Mr. and Mrs. Floyd Lacey arrived home Wednesday from a ten days fishing trip in Stanley Basin.

CLASH WITH POLICE LONDON, July 16.—The first clash between police and miners in connection with the English coal strike occurred today.

Five thousand miners, engaged in a local strike, surrounded all ways the Welsh colliery in Glynnneath, Glamorganshire, where seven hundred miners persisted in remaining on duty.

When the strikers refused to disperse, 100 police were summoned and clashed with them.

Sixteen strikers were injured. Thereafter the working miners decided to lay down their tools so the colliery now is at a standstill.

There is not yet any national strike in the British Isles; and the Welsh colliery strike was declared to be a purely local disturbance.

## EVOLUTION JURY

(Continued from page 1.)

before the legislature. If they had half the affection for Tennessee that they pretend they now have, why didn't they appear before the legislature before the law was enacted?

A case is point.

"Suppose when New York law was considering repeal of its prohibition law, Tennessee lawyers had gone up there and said: 'What would the law be? What would the eastern papers have said about the people? They knew what they were doing. They knew the danger of the doctrine, they didn't want to teach to their children. It is not fair to permit experts there to come in here and say this law should never have been passed.'

"Suppose some one had made a contract to bring rain here and suppose that contract were broken by the man who was supposed to bring it. Would you not expect him to try to show that drought is good for the people?"

Bryan's appearance as a fundamentalist champion was marked by a charge that the state had made a contract to bring rain here and suppose that contract were broken by the man who was supposed to bring it. Would you not expect him to try to show that drought is good for the people?"

Bryan referred to the Leopold case as an example of what the "doctrine" was doing through the influence of scientific education. When Bryan concluded, Darrow decided not to speak further.

## High Collar

GILLIES' simplicity is expressed in a tailored suit made to one of the new fall fashions. The collar is closely about the throat and is buttoned to the very top edge. The higher collar is one of fashion's most insistent demands.

attorneys interpreted their objection to this line of evidence. Arguments today were on the state's objection.

Upon Judge Raulston's ruling, defense attorneys asked the state to produce the testimony of noted scientists and educators who were present to the Scopes jury.

Clarence Darrow made a brief statement to the judge outlining what he wanted to prove by his testimony.

"We expect to show," said Darrow, "that evolution is not a theory, but a fact, and that it is in conflict with the bible."

Darrow arose and said coolly, "here isn't a word of truth in it and I object."

Clarence Darrow made a brief statement to the judge outlining what he wanted to prove by his testimony.

## SIOUX FALLS, S. D., July 15.

Winifred Meek, a tall gangling youth of 25, sobbed in the jail here today while preparations were made in Garden City to bury the charred remains of little Beryl Healy, 17, victim of the "bay" attack murder.

Throughout the night Winifred went his grief apparently realizing for the first time the meaning of his punishment—life in prison for the confessed murder of his "puppy" who was sweetest, who asked for death to avoid living in disgrace.

A night warden, pacing the corridors, found Winifred hunched in his cell, weeping and there tried to persuade him to go to sleep.

Early today the six-foot strapping of a boy was "dressed in." He was fitted with a two-piece khaki suit given a number by which he will be known for the remainder of his natural life. He was to "dressed in" and his picture with the usual identification will be broadcast for identification files throughout the country.

FOR SALE—Men's dress shoes and over shoes, up to \$5.00, clearance for \$3.50. Dardar Shoe Co.

## NEWS OF THE SPORT WORLD

DEMPSEY WILL  
BATTLE WILLS  
YEAR HENCE

BY HENRY J. PARRELL.  
NEW YORK, July 16.—Jack Dempsey, the world's heavyweight champion, is going to fight this year but not against Harry Wills.  
"Not until next summer, for Wills," Dempsey said late yesterday, when he returned from a trip to Europe with his bride, Estelle Taylor.  
"Wills is a big fellow and a good fighter," Dempsey said. "I've not met a couple of fights under my belt before I met him. I haven't been in a fight since I fought Tippo, and I know that I have to get some target practice."  
Dempsey didn't look well when he returned. He said he was weighing about 200 pounds but he didn't lose it. There were folds in his coat across the shoulder and plenty of room inside his collar. He said he was suffering from a heavy cold and that he wasn't a good sailor.  
The champion said he was not concerned about the attitude of the New York boxing commission. "It is likely that Dempsey will fight Gene Tunney or Bartley Madden in the fall," Jimmy Fitzsimmons says Dempsey to fight for him at Michigan City, and Jimmy DeForest would like to put him in his polo grounds. If the boxing commission will allow Dempsey to engage in a preliminary fight as it did in the case of Fitzsimmons, the fight will be staged in New York with Tunney as the opponent.

LOS ANGELES, Calif., July 16.—"Doc" Kearns, manager of Jack Dempsey, was elated today when informed by the United Press that the champion had agreed to don his fighting gloves again.  
"I guess the big fellow's finally not back into the fighting mood," he said. "That's fine business."  
"Well, draw a big house in New Jersey with either Tunney or Godfrey as the opponent. The first fight next year ought to be a box office beller."

Watching the  
Scoreboard

Yesterday's hero, Dave Bancroft, manager of the Braves, tripped in the third inning and drove in two runs, beating the Pirates, 4 to 3.

The Giants pulled up within five points of the Pirates by beating the Cardinals 7 to 3.

The Athletics regained first place in the American league when they won a double header from the White Sox 5 to 7 and 11 to 5.

With two doublers and a single in three innings, Ty Cobb led the attack and gave the Tigers a 5 to 2 victory over the Senators.

Kon Williams hit his twenty-second homer but it didn't count as the Braves romped away from the Red Sox, 11 to 5.

Buster Givins returned to good form and pitched the Robins to a 5 to 2 victory over the Reds.

Alexander doubled in the second inning with the bases full. The Braves returned in three runs. That helped the Cubs beat the Phillies, 8 to 2.

The Yankees missed a good chance to lose a double header when they won 12 to 4, after winning the first 5 to 4.

**Girl Swimmer Fails to Cross Channel**

DOVER, England, July 16.—After buffeting her way across the channel in three days, Miss Maudie Harrison, a 16-year-old swimmer, abandoned her attempt to swim the great stretch of water this afternoon.

She had made her way to within sight of the English coast in fair weather.

**TAXATION IS THEME**  
(Continued from page 1)

road taxes were passed on to the shippers, the Shovel Lane "abuse" jumping from \$1,342,000 in 1918 to \$1,544,000 in 1924. "We opened the shipping doors and provided a way to take it from the shippers. That means that we took it away from ourselves, for we were the shippers. We paid the freight; that is, the farmers did that the burden is unequally distributed and that the companies of Gooding, Elmpre, Power and Lincoln, with less than half the number of unloaded cars, get back four and a half times as much in proportion as Twin Falls county. He asked what the representatives of this county had done about it.

"Your senator and your representatives knew about this. A bill was introduced at the last session to help it, but it was nearly and pain-

lessly squelched. Did you hear any word of battle in behalf of the Twin Falls county farmers? None. Neither did I." In fact, I'd like to ask you what, if anything, was done in the last session that helped this county, as a county, in any way in any one of her problems. Think it over, if you can think of any one thing you beat me."

Turning to the \$30,000 improvement on Upper Salmon Falls power site, which the Idaho Power company claims, it should not pay taxes on it, said:

"You can bet that a farmer who spent \$30,000 on a couple of hundred acres which he cleared and to farm for a while wouldn't get by on the waste land valuation." He said that the court would decide whether Assessor S. Claudio Stewart had adopted the proper legal manner to collect the tax or not, but he approved the principle of the effort to collect.

**Headline** "Oro Fight."

J. E. Neely, field editor of the Idaho Farmer, which paper led the fight to secure legislative action to protect the dairy industry of Idaho from competition by oleomargarine told how the law was defeated in the senate at the last legislative session. He declared oleomargarine, which he classed as "confined butter," was replacing butter to the extent of 11 per cent. This, he said, was an appeal for bread now consumed in the United States is oleomargarine, that the production and consumption of oleomargarine is increasing steadily and rapidly and it is becoming a serious menace to the dairy industry.

**Fake Tariff Protection.**

Stop the manufacture and sale of this counterfeit of butter and you will increase the demand and consumption of butter 11 per cent. With the speaker or suppose the demand for dairy products was to be increased 11 per cent throughout the United States. Can you realize what that would mean to the dairy industry? Politicians are taking great credit for protecting the dairy industry with a tariff of eight cents a pound. In 1923 the importation of butter into the United States was 23,000,000 pounds. Yet, during the same year they were manufactured and sold in the United States 22,911,300 pounds of oleomargarine and every pound displaced a pound of butter. And oleomargarine is made largely of coconut oil imported, free of duty, from the Philippine Islands.

The speaker declared that the brand of oleomargarine used extensively for the west was composed of 74 per cent coconut oil, 5 per cent peanut oil, 24 per cent of dairy products, 24 per cent salt and 14 per cent water. The dairy product is for the purpose of giving the coconut the flavor of butter. "This coconut is in fact, so much a counterfeit of butter as a dollar containing but 24 cents worth of silver is a counterfeit of a silver dollar," said the speaker.

There is a place of 10,000 cows. Mr. Neely declared that here in Idaho, where we have to make the greatest dairy state in the nation, oleomargarine is not displacing the product of 10,000 dairy cows. The expert of surprise that in Idaho, a great dairy state, enough senators could be induced to vote against the bill to tax oleomargarine and protect the farmers and dairy interest to kill the bill and deny them the protection they asked. He told how the bill had passed the house by a vote of 55 to 6 and had passed the senate by a vote of 23 to 13 and had later been recalled and reconsidered and killed by a vote of 23 to 20. Three senators had "changed their minds" after voting for the bill in the afternoon and had yielded to the "influence" brought to
