FOOD PLANNED FOR ALL OF U. S.

Stout Airplane Concern Is Purchased By Ford in Order to Construct Airplane Routes to Every Section of U. S.; Vast Airplane Express Service Planned.

DETROIT, Mich., Aug. 8.—A fleet of commercial airplanes running on a regular scheduled time and connecting practically all parts of the United States in the general idea behind Henry Ford's plan to build the most metal airplane in the world, the United Press learned today.

Scale of plans for expansion of the plant and increased production necessary to do this will require more time and are still in shape at present. The future will determine this, it was said.

The regular delivery of freight, express and possibly mail from New York, Chicago, Buffalo, Minneapolis, Cleveland, St. Louis, Cleveland, Indianapolis and other cities is the program, with details to be worked.

SOLDIERS GUARD OKLAHOMA MINES

Miners Face Starvation and Loss of Jobs in Oklahoma Coal Fields; Martial Law is Threatened on Every Hand.

HENRYEVILLE, Okla., Aug. 8.—Faced with the threat of starvation in the one side and continued unemployment on the other, striking union miners were virtually left to their own devices.

Although there has been no semblance of violence, state and county authorities after a conference Thursday decided to increase the guard at the mine striking miners from six to ten.

The military is understood to have complete charge of the situation with authority to bring more troops here or remove them as they see fit.

Meanwhile mine owners, clergymen and other prominent citizens cannot afford to grant the union miners' demand—a 1917 wage scale.

BOISE PROJECT SETTLERS LOSE WATER AGAIN

Failure to Comply with Federal Court Order Brings Penalty to Nine Settlers.

BOISE, Aug. 8.—Seven settlers in the Deer flat and Taylor valley who were ordered to comply with a federal court order to bring water to the project, today were fined \$100 each for failure to do so.

Judge Dietrich's order is temporary, pending hearing on a motion for a writ of habeas corpus. The government attorneys also are asking for the removal of the project, which the injunction was issued in the state court, following removal of the case to federal jurisdiction in the United States district court.

NEW MOTOR FUEL REVOLUTIONIZE TRANSPORTATION

American Chemical Society Reveals New Discovery in Motor Fuel Which Will Propel Motor Vehicles 50 Miles to the Gallon; This New Fuel Has a Benzol Base and May Be Manufactured by One of Great Motor Companies of U. S.

LOS ANGELES, Aug. 8.—Further details of the great revolution in the automobile and petroleum industry which was expected to result in the marketing of a sensational new type of motor fuel, were revealed today at the convention of the American Chemical Society.

Chemical experts who have made an exhaustive study of the production of synthetic gasoline, will not be many years before the present day automobile will be obsolete. Synthetic gasoline has already evolved the process of a new fuel which will give 50 miles to the gallon and will develop greater speed and power and do away with the gear shift and clutch.

It has been developed that a very high octane fuel can be manufactured from petroleum oil or lignite.

Scott Must Be Held For Murder If He Becomes Sane Again

CHICAGO, Aug. 8.—Another attempt to hold Scott against his will in the state hospital, failed today.

The man who escaped the gallows in the execution of the hanging of the man who was shot in the back of the head, today was held in the state hospital.

Although there has been no semblance of violence, state and county authorities after a conference Thursday decided to increase the guard at the mine striking miners from six to ten.

SWIMMING GALVALS MUST STOP

Manager of Twin Falls Canal Company Permits Bathing in Any of Company's Canals; Water Is Used for Domestic Purposes and Must Not Be Polluted.

Following the preceding Friday afternoon of Edward W. Hill in the high canal near Hanson, Manager Harry S. Smith today issued a statement to the effect that the law against swimming in the canals would hereafter be strictly enforced.

Although in the first place, a swimming in the canals was a violation of the law, the cause was a break in an dam, which threw the water into the canal.

The fact that water was used for domestic purposes, coupled with the fact that the water was used for irrigation, was a violation of the law.

NOW DOES ALL HER WORK Has No Backache, No Bad Feelings Because Lydia E. Pinkham's Vegetable Compound Drove Her Illness Away

Milwaukee, Wisconsin.—I was in a badly run-down condition and I would have been a nervous wreck with terrible headaches. I felt so badly last week that I could hardly do any housecleaning. I felt so tired that I would fall asleep in the middle of the day. I had been told that Lydia E. Pinkham's Vegetable Compound was the right thing for me. I took four bottles and in the fall of the year I took the Compound and I had been treated by a doctor but he gave me an iron tonic and that did not help me. It seemed that the tonic did not have in it what the Vegetable Compound did. That gave me the strength and energy I needed and I have gained in weight. This year before I started to clean house I got four bottles of the Vegetable Compound and am taking it right along. I tell all my friends about it and how much good it does me. Because I have gained in weight, I weigh 115 now and do all my own housework again.—Mrs. Emil O. Braunberger, 661 27th Street, Milwaukee, Wisconsin.

## CHRISTIANS WIN GAME WITH KNULL

Knull ..... 0  
Christians ..... 11

In a one-sided game here last night the first Christian team won from Knull, by the score of 11 to 0. At no time during the game was there any danger of the visitors defeating the hard hitting "Cancellers". In fact, in the first three innings they just three Knull batters walked up and went down without one reaching first base. On the other hand the Christians made four runs in the first and four more in the third and three in the fifth innings.

H. Rife worked on the mound for Knull and while he was not hit so hard yet the hits coupled with numerous errors gave the Christians a big lead early in the game. The Christians got five hits off of Rife and the Knull batters failed to draw a single off of Davis. Rife struck out four and Davis fanned seven. Paulson hit a home run in the third, Paulson hit a three-bagger in the fourth and a two-inner in the fifth.

## Watching the Scoreboard

Yesterday's hero: Roy Spencer, young Pittsburgh catcher, singled in the ninth after two runs had been scored and drove in a run and caught the Robins 10 to 9 and increased the Pirates' lead to 3½ games.

A stolen base by Eddie Honah, Walker's triple and Holke's infield out gave the Reds two runs in the sixth inning and a 2 to 1 victory over the Giants. The Giants have lost five games in a row and are now only 2½ games ahead of the Reds.

Errors by Ernie Johnson gave the Pirates two runs and they downed the Yankees 3 to 1.

Ted Lyons won his sixteenth game for the White Sox when he let the Red Sox down with three hits and beat them 2 to 0.

Glad, Brown youngster, "stipped" the Senators with four hits and with fine support beat the Senators 10 to 9. It was the third defeat in a row for Cleveland.

Ed Rommel beat the Indians to two hits and won the second game for the Athletics, 2 to 0, after they had lost the first game 10 to 4. Poor support caused Jack Quinn to lose the first game.

Charley Grimm accounted for four runs with a homer and a double and the Cubs beat the Phillies 5 to 1.

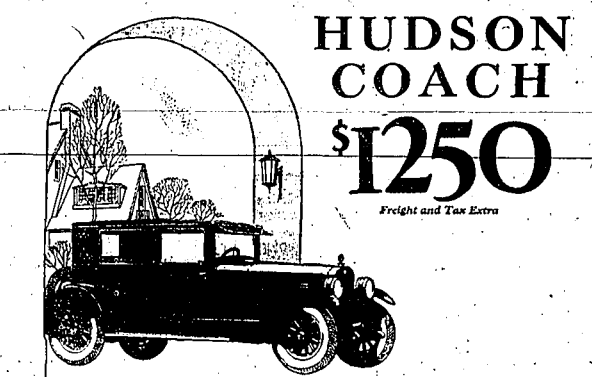

EAST CHICAGO, Ind.—Hahn, which last night drewed the ring here for two hours before the Mick's Walker, Billy Wells veterinarian, after being was recruited to come out raised the pointers to hold the ball over until Monday night.

## UNCLE SAM IS PORTRAYED AT CHAUTAUQUA

Chautauqua started out last evening with a tent filled to the uttermost with delighted audience who listened at the witty sallies and applauded the sentiments of the cartoonist, Alton Packard, whose lecture on "Uncle Sam and His People" carried the audience with him all the way. Manager C. V. Stout was introduced by Mrs. Hurton E. Morse, chairman of the Twin Falls Chautauqua association, and after brief announcements introduced the entertainer for the evening. The chances were announced for today, the substitution of Billy Sunday for S. J. Gudmundson for tonight, which places Captain Gudmundson on for the afternoon, and the change of time for organizing the Junior Chautauqua from morning until afternoon.

HAILEY, Aug. 8.—O. W. Worth-wait of Hailey was elected commander of the American Legion here today. The next meeting will be in Lewiston.

# VICO MOTOR OIL

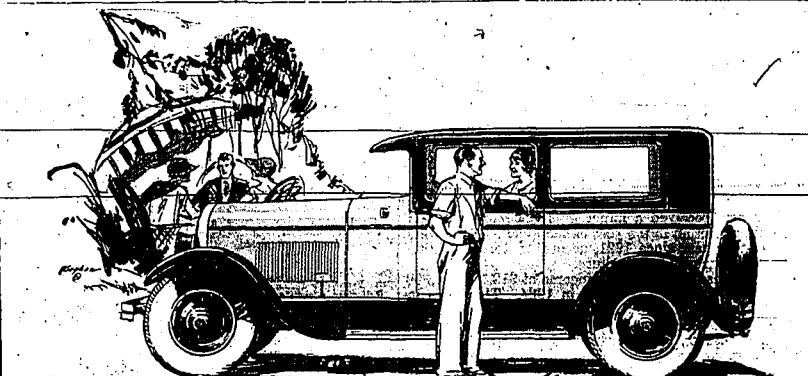

## fortifies your motor against dangerous Heat

As long as you keep water in your radiator, and Vico in your crankcase, heat will not harm your motor.

Vico motor oil is made from high grade paraffin base crude, and refined to a formula that insures a protecting "film" of oil at much higher temperatures than it will ever be subjected to in practical use.

Since the cause of most burned out bearings is the breaking down of the lubricant, it will pay you to use the oil that stands up—VICO!

# TWIN FALLS DAILY TIMES

Published Every Evening Except Sunday by the Times Publishing Company, Twin Falls, Idaho.

Entered at the Twin Falls Postoffice as Second Class Matter as a Daily Publication, April 11, 1916.

The announcement that a refinery is to be pushed to completion is good news. Idaho is on the verge of finding oil. It has to be here. Some of the wells now drilling ought to give the desired results. The geological conditions are right, the effort is being made in so many places and so thoroughly that it is reasonable to suppose that oil will be found in paying quantities before the refinery can be completed.

The cool nights have in them the tang of fall. The summer is about over. In some respects it has been uncomfortable for a few days but only a few. Idaho has a wonderful climate. The advantages have so far outweighed the disadvantages that we ought to appreciate our summers. They are not long, they are generally only hot during a few hours in the middle of the day. In the mornings, evenings and nights they are delightful. It is a safe proposition that no state in this union has a better climate than Idaho. Our summers are our glories. It is then that life is with us in abundance. It is then that nature is at her prettiest, covered with crops and fringed with flowers. We should enjoy these more because they cannot last. Every night gets cooler, every day lessens the summer one day. It is a glorious privilege to live in this world but it is best of all to live in delightful Idaho.

This year Idaho produced 16,000,000 pounds of wool. It also marketed many thousands sheep. The latter were shipped to market in the usual way and were handled profitably, but the former it seems to us did not do so well. All it should do is to get a scouring plant or a woolen mill. The scouring mill would fill a great need as it means otherwise that freight is paid on dirt. Woolen mills are profitable in the west, Pocatello ought to have one. The wool shipped away could be woven into cloth and sold at a profit. In addition to this it would make a labor market, something Idaho lacks. At least we ought to have a scouring plant to insure our shipping off the real wool. Sheep are so woolly that they attract dirt. The clean white color of spring is hardly recognized by the dirty color of fall. This dirt is shipped away and cleaned out before using. It ought to be cleaned out before shipping.

### FARMERS' RETURNS ARE LARGER

Farmers received a larger gross income from agricultural production in the year ended June 30, 1925, than in any other year since 1921, according to the United States department of agriculture.

Estimates place the gross income at \$12,136,000,000, compared with \$11,288,000,000 in 1924. This gross income, the value of production less feed, seed and waste, increased about 7 1/2 per cent, and was due almost wholly to higher returns, particularly from wheat and hogs.

The gross cash income from sales, exclusive of livestock and feed sold to other farmers, was \$9,777,000,000, compared with \$8,928,000,000 the preceding year. Road and fuel produced and consumed on farms was valued at \$2,369,000,000. The expenses of production last year were put at \$6,486,000,000, or nearly 2 per cent greater than the \$6,368,000,000 estimated for 1923-24.

Net cash income from sales was \$3,291,000,000, compared with \$2,565,000,000 the year previous, while net income from production, including with the net cash sales the value of food and fuel produced and consumed on the farms, was \$5,650,000,000, compared with \$4,925,000,000, or an increase of 14.75 per cent.

Grains returned \$1,934,000,000 in 1924-25, compared with \$1,898,000,000 the preceding year; meat animals, \$2,621,000,000, compared with \$2,167,000,000; fruits and vegetables, \$1,370,000,000, compared with \$1,526,000,000; cotton and cotton seed, \$1,690,000,000, compared with \$1,698,000,000, and dairy and poultry products, \$3,284,000,000, compared with \$3,315,000,000.

Never but once before was there so long a delay, and that was during the Reconstruction period, when neither a reorganization nor a reorganization was possible.

THE nation's congressional representation now is on the basis of the 1910 census. The... have grown... there, but not evenly everywhere. The cities have grown most, which means that population has increased much faster in states than in those which are predominantly rural. Consequently, on a redistribution of congressional seats, the industrial states would gain a disproportionate number of representatives, while the farm states would lose correspondingly.

## MR. RENTER—

Why not be your own land lord. Why not make your home a savings account. Start paying on something of your own and stop worrying about having to rent another house and that disagreeable job of moving and how long it will be before you have to move again.

A small payment down and \$15.00 to \$25.00 per month (which includes the interest) will buy any of the following properties, and each of them is priced below the actual cost of construction.

|  |         |
|--|---------|
| 2-room plastered house with built-in features on 7th East, price | \$ 500  |
| 3-room house in Golden Rule, price                               | \$ 350  |
| 4-room house on 4th West, price                                  | \$1,000 |
| 4-room house on 7th East, price                                  | \$1,100 |
| 5-room house on 3rd East, price                                  | \$1,300 |

We also have a 5-room home, modern in every detail, furnace heat, hard wood floor, built-in features, expensive light fixtures, with garage. The lot company has priced this house at \$5000 and advanced as a loan \$2000, and we offer it to you at \$2500.00.

IT IS A REAL SNAP

If you want an acreage, we offer 5 acres within 2-4 mile of Twin Falls, beautiful land, good location, with \$2500 worth of buildings; \$1500 paid in this; terms: \$650 cash, then \$30 per month (which includes the interest) until paid in full.

If you wish a farm, we offer beautiful 80, on gravel road, good 4-room home, family orchard. Price \$12,500; \$1250 down and the balance at \$1000 per year (interest included in the \$1000 yearly payment).

With these opportunities, shouldn't you start something for the future, instead of going on and on as a tenant.

# GUDMUNDSEN SCORES RUSS RECOGNITION

Chautauquin Lecturer Sharp Opposes Stand of Senator Borah After Thrilling Experience in the Land of the Bolshevik; Wants Open Season on Communists.

Sharp here was taken with Senator W. E. Borah's position in his recognition of the Chautauquin this afternoon by Captain Sigurd K. Gudmundson, a well known and now American citizen, at the close of his notable lecture "Back from Russia" which he delivered with great intensity. Captain Gudmundson said that he did not doubt the sincerity of the senator's recognition for a moment, but said that Americans visiting in Russia were shown through the front door into the parlor and did not have a chance to investigate conditions as they are. They saw only what their bolshevik hosts wanted to show them. He would deport all foreign communists in the country, he said.

Captain Gudmundson delivered a lecture on the northern coast of Siberia in 1920, and when ready to return the soviet government seized his ship, the "Polar Bear" and cargo. Instead of yielding he made a mid-winter trip of 2000 miles through a wilderness with the thermometer going to 40 below, and defied the bolshevik council at Yakutsk. He finally got away from the country in another ship, with \$100,000 worth of furs and other goods, and returned to the soviet government to release the cargo.

Wants Open Season. The speaker said he wanted an open season on communists in Russia there is neither free press, free speech nor free voting. There is no marriage in Russia. Men get married and divorced 50 times in a day. There is no home life and a man may be killed without trial at any time. The government held up for a time by confiscation, but following that it proved a shabby failure.

The League orchestra gave a fine musical program. Mrs. E. J. F. and Rev. "Billy" Sunday, accompanied by his wife arrived at noon and will speak tonight.

### PERSONALS

A. H. Vincent returned today from a business trip to Portland. Mrs. West returned today from a visit to Salt Lake City. Mrs. Linda Stalker came in today from Allenton to visit her parents, Mr. and Mrs. Kennedy Fordard. Mrs. M. B. Day is here visiting the Bellows family and Mrs. John Kinney. Mrs. John Fletcher returned today from a visit. Mrs. R. E. Hall and son Newell, left this morning for Portland, Ore., where they will join Mr. Hall, make their home. Newell expects to enter the agricultural college there this fall. Mrs. Touts and daughters, Florence and Doris of Burley are here visiting relatives and friends and attending Chautauquin. Mr. and Mrs. Joseph Seaver and family have returned from a week-end trip through Yellowstone National Park. Mr. and Mrs. S. E. ## WORKMAN DIES OF FAILURE OF HEART FRIDAY

Telegrams have been sent to a sister, a nephew and a niece in Connecticut of Eugene O'Brien, who died suddenly at 10:30 p.m. at noon yesterday at the age of about 55 years, a few hours after he had started on construction work for the Oregon Short Line railroad. O'Brien, who came here from Provo, Utah, obtained a job from the road and went to work there last noon. He took a sudden illness with heart trouble. The company doctor was sent for but before he arrived the man had died.

He had no relatives here.

### IMPORTANT NOTICE

There will be an important meeting of the Board of the Society at the Parish hall Monday night to discuss the marketing of all pecked apples with Mr. Nathan of the state association.

## GAYS YIELDS 70 BUSHELS TO ACRE

One of the largest we have heard of for crops on this tract, was reported yesterday by J. W. Walker of Burleigh who was in Twin Falls on business. He states that he had 75 acres of oats and that the yield was 75 bushels to the acre, machine measured.

We shall be pleased to report any big yields of any crops which are reported to The Times among the farmers to south Idaho.

### LOCAL BRIEFS

Crops Look Fine—Manager Burton south returned last evening from a trip up the river. Crops look fine everywhere.

Speemen to West End—The seed speemen will devote Monday to the west end, where John O. Eastman has arranged the itinerary. It was announced today. They go to the Salmon tract tomorrow.

Happily Are Home—Rev. E. O. Butler and son, Gordon, returned last evening from Blackfoot, where Rev. Butler was visiting his daughter and family. He will preach tomorrow at 7:30 p.m. on the subject, "Some Divine Tests of Human Life." He speaks for the Baptist church and extends invitation to all to attend services not connected elsewhere.

## BIG SALMON DAMAGE SUIT IS ON FILE

Action for \$22,784 for damage to crops by reason of alleged failure of dam to deliver water in excess of what this morning against the Salmon River Canal and Wolfe & Wilkins in behalf of A. E. Caldwell.

The petition alleges that the quarter section of land owned by Caldwell was entitled to a continuous inches of water per second, per share, per acre, that the plaintiff supplied with all legal obligations and offered to pay maintenance which the company declined to accept for the years 1921, 1922, 1923, and (in part) 1924 and that the loss sustained amounted to the above sum.

## PRESIDENT OF L. D. S. CHURCH TO SPEAK HERE

Hobert J. Grant Will Speak at Orthodox Meeting Sunday morning and Saturday Afternoon.

President Grant of the Twin Falls Stake announced this morning that President Hobert J. Grant would speak here tomorrow morning at 10 a.m. and again at 2 p.m. in the Orphium theatre. This is President Grant's first official visit to Twin Falls since he was elected president of this stake. He will undoubtedly have a large hearing. The public is invited, according to President Grant, and no admission or collection will be taken.

President Grant is attending the L. D. S. conference at Burley today and then he is able to come to Twin Falls tomorrow and speak for the saints of this stake.

Special music will be furnished by the choirs from the two wards and Mr. and Mrs. Payne of Burley will be present and render special music.

## FUNERAL OF DROWNED BOY IN NOT SET

Funeral of Edward Miller, the 15 year old son of Mr. and Mrs. H. M. Miller of Hansen, who was drowned in the high line canal six miles south of town yesterday afternoon will not be announced until word has been received from relatives in Washington. Miller, who could not swim and who was employed by H. J. Larsen went in to swim with his brother and Edward Thompson. Larsen went across the canal. Miller got beyond his depth and sank. Larsen turned back and came to him, raising him above the water. The drowning boy grabbed Larsen around the neck and held on with such a grip that the latter was almost drowned. Getting loose, Larsen again sought to save him but could not. Larsen and Thompson then drove home, as soon as it was evident that they could not save the young man and not help. Search for the body continued until after 10 o'clock last night. The canal company was notified and turned off the water. The body was brought to Twin Falls at 11 o'clock last night and it had been found half a mile down the canal.

## PATE IS HELD BY HODGIN ON PERJURY CHARGE

Stephen Pate Was Bonded Over \$2000 bond at 1:30 this afternoon to answer the charge of alleged perjury in an affidavit.

The first witness put on by the state this morning in an effort to get Stephen Pate bound over for alleged perjury in connection with the affidavit for a new trial in the case of his son, Paul Pate, was Sydney Graves, foreman of the jury which found Paul guilty of burglary in the first degree for alleged robbery of the Golden State. Graves emphatically denied the statement of his older Pate that Deputy Sheriff Jones had talked with Joseph Pink on the day of the trial, while on their way up to Tom's cafe to get the evening meal.

Jones "Over-zealous" Graves said that they walked in pairs from the court house up town. On the way they saw Jones coming across the street. The witness said "Hello Charlie," Jones did not answer and Pink said, "There is an over-zealous officer; he is playing safe and would not open his trap to speak. Jones did not walk with them or talk with any of the jurors at any time during the walk to the cafe.

Rigid Cross-Examination. Attorney Turner K. Hackman submitted Craig to a long cross-examination in behalf of the defense. Hackman asked Craig in regard to what effort had been made to arrive at a verdict before the evening meal. Craig said they took a halloo and then discussed the case until they went out to supper. He could not recall how many halloos they took. Mr. Hackman sought to get a statement regarding whether they wanted to get the verdict before supper. Mr. Craig said he was ready to sign before supper, but did not know what was on the minds of the others. To some, it seemed as if the men were the important thing.

It was as getting into the hay was hungry. Prosecutor J. W. Taylor objected to this line of examination, though admitting that from one angle it might have a remote bearing on the case. He contended that it had no direct bearing on whether Pate should be bound over or not. Mr. Hackman said that his object was not to cast any insinuation on any member of the jury, but it had a bearing on the case to know whether the verdict was arrived at before or after the alleged conversation had taken place mentioned in the Pate affidavit. Probate Judge J. L. Hodgkin let it stand. Ralph Pink followed, giving the same general line of evidence as Craig.

Paul Pate, who was found guilty of alleged burglary of the Golden

Rule here was an interested spectator. His case has been appealed to the supreme court and he is out on bond.

The Other Side. After Deputy U. E. Jones had testified along the same line as the other two, so far as denial went, Mr. Hackman stated for the defense that they stood pat on the affidavit declaring that Jones and the jury walked together on the occasion named. The affidavit does not say good faith on what he believed to be

sound information to the statements in the affidavit which the state contends to be false.

## It is "Heavy-Duty"—and We Don't Mean Maybe

We asked the Goodyear factory to build us a tire that couldn't be licked—  
One that is tougher than sin and safe as a church—  
A tire that grins at punishment and takes no "sass" from any road.  
We got it. The Goodyear Heavy-Duty Cord.  
Built as no other tire—not even any other Goodyear—ever has been. More plies of that wonderful new cord fabric—SUPER-TWIST—extra elastic and extra strong. Special circumferential ribs to laugh at the ruts and curbs. The famous All-Weather Tread to carry the engine kick and hold onto the greasy places.  
You may think you're a quiet, house-broken man, but we wouldn't trust you to see this tire and go without it.  
Not when you know the price. Let's whisper it over the phone to you.
